Polled Herefords

2021 Private Treaty Bull Sale

Videos and More Info at
BehmPolledHerefords.com

and your name be also.

Matthew 6:21

Welcome to our private treaty offering

This is our first year sending out a full catalog but we've been raising Herefords for 25+ years. This past summer offered better than expected grass with the less than average rainfall. The forage crops were ample with the rains being timely. The calves weaned off heavier in 2020 than in years prior. The bulls were weaned in early October and haven't been pushed for maximum gain as we want them to stay sound and be able to go out and work without falling apart.

The bulls are derived from years of focus on balanced breeding. They have the performance to leave you with a set of heavy steers but they will also leave you a set of very maternal females. All bulls will pass a breeding soundness exam before we let them leave our ranch. We will keep them free of charge until we deliver. This is usually around the middle of April.

You are welcome to come look at the bulls anytime. The bulls are for sale privately on a first come first serve basis. Videos will be on our website behmpolledherefords.com and thelivestocklink.com. We are here to get you all the info you need to make your bull selection easier.

If you have any questions please reach out to one of us. We appreciate all the previous buyers of our bulls and look forward to continuing working with you, as well as getting to know new cattlemen and their interest in our breeding program.

*Thank you,
Larry and Logan Behm*

Guarantee

All bulls will be guaranteed fertile and sound breeders before we deliver them. Should an injury or fertility problem arise in the first 90 days after turnout we will get you a bull to replace him until his long term soundness can be determined. If the bull is deemed unsuitable to return to breeding service by a veterinarian, we will offer credit towards purchase of a new bull. The calculation for credit is as follows (purchase price - salvage value = credit). This is only available on bulls selling for \$3,000 or more. Death will not be covered as that is insurable.

A bull we raised that is now leased to Select Sires. He does everything well. The cattle are phenotypically correct and stand on excellent feet. The females have plenty of milk and have good udders. He works well on heifers but still sires enough performance where he can be used in any situation.

Bred Heifers For Sale

Fall of 2021

20-25 Angus Heifers AI'd to Cuda and cleaned up with a son of his. Most of these were purchased from Bruce and Candice Kuhn as pairs and have a heavy influence from Spickler Angus bulls. The remainder will be home raised with influence from Spickler, Sitz and Duppong.

A select group of commercial Hereford Heifers AI'd Angus and cleaned up with Angus bulls. All of these heifers derive from our registered program but sell without papers.

10-15 F1 BWF Coming three year old cows bred to Angus bulls and a small group of F1 BWF bred heifers. All home raised from our commercial herd.

All of the heifers will be ultra sounded to determine calving dates and will be for sale around November 1st.

Call Logan for more info:
