BlackTop Farms

FRIDAY, FEBRUARY 20
5:00 p.m. • at the farm • Mitchell, SD

Supper: 4:00 P.M

Cattlemen,

Welcome to our 2015 Production Sale at Blacktop Farms. This makes the 22nd year that we have been marketing seed stock genetics. I truly enjoy working with my family in the cattle business. It is our mission to select and produce high quality genetics that will improve our herd as well as yours.

Our program goals are to produce a cow herd that is moderate in frame, functional in foot and udder, efficient and having the potential to produce a favorable end product. It is important to have EPDs that are acceptable in all areas and do not concentrate on one or two areas. The end result will be a well- balanced animal that will perform in the feedlot and maternally.

Please come early to view the bulls. The bulls do not run through the sale ring. We have videoed each animal and will display this video during the auction. This is easier on the animals and saves you time at the auction. The sale moves swiftly since we do not have to wait on any animal movement.

We want to help your operation and be a partner in your success. I will be glad to help answer questions and guide your selection

Steve, Lori, Kelsey, Abby Repenning | Blacktop Farms

Never before have we not castrated an April calf. But we think this one is good! Red necked and red to the ground with google eyes, this one has all the pigment. Paternal sisters to this bull averaged \$4500 on our Online heifer sale this last fall. Outcross is producing cow power. Youngest bull in sale, but we think he's a great one.
