

# Bieber Fever XI!

## 600+ Females Sell!

### 75+ Registered Bred Heifers!

We bred 420 heifers this past spring. This is your opportunity to buy bred heifers from the heart of the Bieber program. Bred to calve in January/February and May/June.

### 130+ Registered Red Angus Cows!

100 February/March/April calving and 50 May/June calving. A complete dispersal of all our 2009 cows, including donors like never before. The dams of Rollin Deep Y118 and Spartacus A193. Also Basin a Mission Statement daughter from the Laura cowline that we feel is equal to or greater than Hard Drive's dam who sold last year in Denver for \$30K!

### 400+ Commercial Red Angus Heifers!

These heifers are AI'd and come from some of our best customers. If you are looking for heifers, this will be an offering you have to see!

## 110 Coming Two-year-old Red Angus Bulls!

More Herd bull opportunities like last year's high seller Bieber Deep End B597, who sold to Genex. Our commitment to making sure you get the best opportunity for profit is second to none. These bulls are stout, good looking with great EPDs and a history of prepotency behind them. Sons of Hard Drive, Spartacus, Samurai, Roosevelt, Rollin Deep and Real McCoy. They include more ETs than we've ever offered in our fall offering.

# WELCOME TO THE SALE!

Welcome to Bieber Fever XI.

Every year comes with it's challenges. It is likely that 2016/2017 will be no different. We have been dealing with falling cattle market most of 2016. On the bright side we are seeing that well thought out genetic programs that produce more pounds pay. If we have been a part of your genetic progress, we are grateful for your business. Our leading goal has always been to provide our customers with genetics that excel in pounds, in addition to the economically important traits of efficient beef production. We have always relied on performance, EPD's, and visual appraisal to guide our program. We study the cattle, and the data and constantly strive for a balance that we think makes sense. In case anyone was wondering, we are not going to let up on bringing you cattle that are more consistent any time soon. We put in around 500 embryos this year and are expecting to wean 240 embryo transplant calves in 2017. We weaned right at 240 embryo transplant calves this year. Our goal in all of this was to build a cowherd that was second to none. We have bred over 400 heifers every year and with about 1/3 of them being ET's that raises the bar on the quality. We have been trying to identify the great cows early to make better females sooner. One of the side benefits is a great opportunity to buy bulls that are unequalled in quantity and quality. Our lead off bull is a great example of how successful our ET program had been. Very few programs give you the opportunity to have cutting edge genetics as two year old bulls.

Our program has had focus that is second to none. It starts with the sires we use and how we use them with a common thread through the years. We use that focus in every part of our program to give you the consistency in your cowherd. This offering again includes more full and maternal brothers. We have always felt good seedstock in volume brings prices to a level every cattle producer can afford. I personally hope you take the time to do one of a couple of things. Come to the sale and look at the cattle, or get on our website and take a look at our offering videos and bid on line. If you can't do that, call me, or any one of our buyer representatives. We will give you our best advice and make sure you get what you are looking for.

I truly believe if you looking for Red Angus cattle that will fit your program we have them. We appreciate the opportunity for the time you have taken to look at this offering.

Craig J. Bieber

### **DELIVERY POLICY:**

Free delivery to surrounding state on all purchases over \$3500 per head, to central points. Volume purchases by one buyer of 5 head over \$3500 delivered free to central point in the US. All lots under \$3500 will be delivered at cost. Central point for delivery will include auction barns, vet clinics and ranches that offer to serve as a delivery point. We simply ask for your cooperation in arranging the delivery of your cattle. This will keep the cattle from being on the truck longer than necessary and help to get the cattle to you with the least possible stress and in the best possible condition. All commercial heifer lots delivered at cost. We will help you with arrangements on commercial lots.

### **HEALTH:**

Ashley Vet Clinic, 701-288-3234, will be available on sale day. All cattle are on a complete vaccination program supervised by Ashley Vet Clinic. In the past bulls have been tested for persistent BVD carriers and all tests were negative for a number of years. We have chosen not to test the bulls this year since no positives have been found in over 10 years. We do test our replacement heifers for BVD in since 2014 as a part of our surveillance program and found no positives BVD carriers. Bieber Red Angus participates in the Beef Quality Assurance (BQA) program. Heifer calves have been Bangs vaccinated. We participated in a Johnes testing program for 10 years with no confirmed positive. We no longer test for Johnes disease but continue to diligently watch for any suspicious cases and test as necessary.

### **GENETIC DEFECTS:**

Every animal in the Bieber Red Angus production sale is guaranteed negative for the recessive gene associated with Osteopetrosis(OS), Arthrogryposis Multiplex(AM) (Curly Calf Syndrome), and Neuropathic Hydrocephalus (NH) and any other known genetic defects. With this guarantee, we provide our customers the opportunity to purchase their choice of cattle with very little risk. DNA samples have been collected on every animal in the sale with any known carrier in the first three generations and tested negative unless otherwise noted.

### **RETAINED INTEREST:**

We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value on these bulls. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 50% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch interest then becomes in herd use only, but Bieber Red Angus Ranch retains all rights to use the bull within their herd.

### **BIRTH WEIGHTS/CALVING EASE:**

We scored for calving ease with our three star (\*) scoring system. Three stars (\*\*\*) indicates that a particular bull can be used on heifers under standard conditions with little or no calving difficulty. Two stars (\*\*) indicates that a particular bull should be used on growthy heifers or cows under standard conditions with little or no difficulty. One star (\*) indicates that a particular bull be used on cows. These bulls will produce

little difficulty when used on cows. This recommendation is a system we use to help our customer with calving ease selections.

Birth weights are highly affected by environmental factors. Research indicated that the inclusion of corn in cow diets will increase BW. Also contributing to higher BW were cold temperatures in the winter of 2002/2003. The University of Nebraska conducted a three-year-study to research and evaluate effects of high and low temperatures during winter months on calves out of 384 two-year-old heifers. Average BW increased by 11 lbs. when temperatures were colder. The results agree with other studies that show calves born in the southern U.S. compared with calves born in the northern U.S. Weather plays an important role in BW and calving difficulty. We have adjusted the calving ease scores accordingly, taking into consideration what the calf ratioed on BW, pedigree and CE EPD, BW EPD and Genomic data.

### **FEEDING:**

Feeding arrangements are available on all yearling lots will be fed at a charge of \$3.50 per day. We will feed your purchases from sale day until you are ready to pick them up, or we will deliver them.

### **BREEDING SOUNDNESS EVALUATION:**

Breeding Soundness screenings will be performed in February before the sale. We fully guarantee that these bulls will pass the Breeding Soundness Evaluation before the breeding season in 2016 if the bulls are managed properly. Part of being maintained properly means being on a plain of nutrition were bulls maintain or gain weight. The bulls will be weighed the week prior to the sale when breeding soundness evaluation is done. We recommend that all bulls tested in this sale be tested 4 to 6 weeks prior to your breeding season. Our guarantee will require that the bull weigh the same or more than when we did the breeding soundness evaluation in November 2016. We ask for your understanding if a bull does not pass. Sometimes bulls that have passed do not pass later for various reason. We will do our best to make sure you are satisfied. Keep in mind that the development of any bull is inhibited by an inadequate nutrition. If you have any questions regarding Breeding Soundness Evaluation, feel free to call Craig or Dr. Dean Christensen at the Ashley Vet Clinic.

### **WEIGHTS:**

Birth weights, weaning weights, yearling weights, and all other measurements are taken at appropriate times to produce sound and accurate comparisons within contemporary groups. We contemporary group our Red Angus calves based on the age of our cows. Calves out of two-year-old dams, three-year-old dams, and the main cowherd are all separate management groups and therefore are separate contemporary groups. Embryos transplant calves are contemporaried in the groups they are weaned with.

### **WEANING WEIGHTS:**

All naturally born calves born at Bieber Red Angus Ranch are raised without creep. We feel that this helps us select and breed for dams that have milking ability and sound udders. ET calves are on creep feed to express their full genetic potential.

### **INSURANCE:**

Livestock insurance will be available on sale day. Please see information in catalog.

# SALE INFORMATION

## **AIR TRANSPORTATION:**

Aberdeen is serviced by Delta Airlines. Huron and Pierre are serviced by Great Lakes Airlines which is affiliated with United and Frontier airlines.

## **INTERNET & ABSENTEE BIDDING:**

We would prefer for each of you to be in attendance on sale day. Realistically, we know that there will be some scheduling conflicts and distance limitations. In these cases we have arranged for you to be able to participate in the sale on an absentee basis with a conference call dedicated to bidding. We will have available one phone line and can accommodate 20 to 30 bidders. Please call prior to the sale and register as a prospective buyer. We have limited capabilities to bid by phone during the sale. Your best option is to be in attendance at the sale, but if you cannot attend or feel more comfortable bidding yourself, we need to warn you of complications in the past with phone service such as the volume and the rapid pace at which our sale moves. If we handle the bids for you, they will be done in the strictest of confidence. However, if you want to attempt bidding by phone, please make arrangements prior to sale day by calling Craig or Peggy. For internet bidding information, see DVAuction below.

If unable to attend and you feel comfortable doing so, you can leave those bids with the Bieber family, Auctioneer, or publication representatives. We handle many sight unseen bids and have very satisfied customers who feel confident in using that service. We prefer to have plenty of time to discuss your needs over the phone prior to sale day so that we may select the cattle that best fit your specs. We buy those animals just like you were sitting ringside with us. We also guarantee the cattle so that if they don't meet your ideals, you just return them to us. If possible, come by and evaluate the offering prior to sale day. We will post video of each lot on our website prior to the sale but may run into time limitations.

## **COLOR:**

All animals are red unless otherwise indicated in the footnotes.

## **FOLLOWING SALE:**

Everyone is invited to Dinner at Ron & Lois's after the sale. We will be serving Strip Loin cooked by our friend and partner Stu Campbell.

## **BREEDING DATA ON BRED FEMALES:**

Breeding data on bred Females is verified by ultrasound. The sex of the pregnancy and the date of calving is verified by ultrasound and is an estimate. Many years of ultrasound had proven it is 99% accurate. These are called to the best of veterinarian's ability depending on the embryo age. Some bred females have two sires to close to call by ultrasound and when that happens we have indicated that DNA will be necessary to determine that sire of the calf. Sometimes that birthdate clarify that sire but DNA is always recommended to determine the sire.

## **UPDATED INFORMATION:**

Scrotals and weights on all the bulls the week before the sale on our website or upon request. All other data not provided will be available upon request.

## **GAIN TESTING:**

The summer born bulls were weaned October 2015 and yearling weights were taken on May 2016. All of the summer born bulls were placed on feed in preparation for the sale September 13, 2016.

**SALE ORDER:** The sale order will be Registered Females, in lot order, Commercial Females and then Bulls Lot in lot order.

**SIGHT UNSEEN:** If you are unable to attend we encourage you to contact us or one of the buyer representatives. We have handled many sight unseen bids and guarantee your satisfaction as long as you visit with us to make sure the cattle you select meet your standards. We would prefer to have plenty of time to discuss your needs over the phone prior to sale day. If the cattle don't meet with your approval the cattle will need to be returned to us.

***DVAuction***  
***Broadcasting Real-Time Auctions***

We are pleased to offer the Bieber Red Angus Sale broadcast "live" over the internet through DVAuction Services. To bid from your computer at home during the sale, complete this simple two step process.

- Visit the DVAuction web site at [www.dvauction.com](http://www.dvauction.com) or call 402/474-5557. Register by entering a User Name and Password. Then enter your personal information on the next screen.
- Click on "Apply for Bidding." Select the Bieber Red Angus Sale from the list of sales and click "Apply." Complete the process by filling out the Banking and Lending information requested.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home. We will also provide you with a buyer number for the sale.

After the sale Bieber Red Angus will contact you to make arrangements for payment and delivery of your on-line purchases.

Please Note: You must have high speed internet access (DSL, T-1, or Broadband) to be able to bid during the sale. Any questions, please contact DVAuction at (402)-474-5557 or e-mail [support@dvauction.com](mailto:support@dvauction.com). We recommend that you register by December 8th, 2011 for on-line bidding. Every attempt will be made to complete your application even if it is on sale day.

# MEET THE PEOPLE OF

## Bieber Red Angus

**Ron Bieber:** Founder of BRAR, range, pasture & alfalfa specialist, and cattle breeding.

**Lois Bieber:** Co-Founder of BRAR. Responsible for the sale meals and hospitality. Oversees all ranch activities.

**Craig Bieber:** CEO of Bieber Red Angus Ranch, handles all ranch activities

**Peggy Bieber:** Craig's partner and now full time office staff, handles all bookkeeping, cattle records, and clerks the sale.

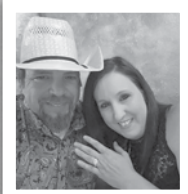

**Craig Howard:** Cowboss, Handles day to day operations at BRAR. AI technician, welder and equipment repairman.

**Lindley Harrington Howard:** Social media manager at BRAR. Past summer intern and day help hand. Helps clerk the sale. Craig Howard's wife.

**Cayson Howard:** Son of Craig and Lindley Howard. One of our newest ranch hands. Born 1 week after Kylie Jo Payne.

**Tom Churchwell:** General ranch duties, light mechanics, handles all cattle feeding.

**Frankie Coker:** Engaged to Tom Churchwell. Keeps the guys happy with her caramel rolls. Helps at sale.

**Dillon Spurr:** Herdsman, calving, feeding, general ranch duties.

**Rod Klarenbeek.** General ranch duties, light mechanics, helps with the feeding.

**Jared Schaefer:** Night calver and day help.

**Eric Payne:** Day help hand. Eric and Megan are now living in Aberdeen and sells insurance. Check the ad in the catalog for more information!

**Megan Payne:** Day help hand. Helps clerk the sale. Eric's wife.

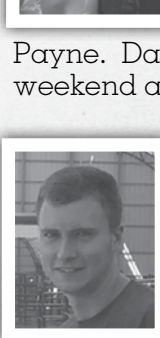

**Presley Lynn Payne:** Loves to check cows with Grandpa and Grandma and daughter of Eric and Megan Payne.

**Kylie Jo Payne:** One of the newest addition to the Ranch staff. Born in June. We are sure she will love cows as well! Daughter of Eric and Megan Payne.

**Kristin Harms:** Office/all-around assistant. Has a full time job at Raven Industries in Sioux Falls, SD. Helps clerk the sale.

**Jake Harms:** Husband of Kristin Payne. Day help when they come home for weekend and sales.

**Bieber Red Angus Interns:** We have always believed that experience is the best teacher and in our internship program we look for individuals that help us through some of the more intensive times like calving and breeding. We look for a "can do" attitude and a commitment to the beef business. We are always looking for opportunities to share our operation with young people interested in the seedstock business. You may have seen some of these interns in the past year.

Heifer calf due 2/25/2017 sired by Bieber Driven C540

Lot 3 has been a favorite for a long time. We plugged her into our ET program and produce a top Rollin Deep son that is now in the Cooksley's program. Lot 3's dam was flushed extensively in the Basin program but we thought this daughter was pretty good so moved forward with her. She has several ET calves coming and 8 daughters currently in the herd. The son in the Cooksley's herd whom they have nicknamed "Ferdinand" is currently at NBS, being collected and we are considering using him in our program.

Unsexed calf due 4/10/2017 sired By Brown BLW Statistician B5240

The Galle cowline have been the highest performance cows we have owned. This younger donor falls into the sale with a calving date after 4/1. We have 19 calves out of her via our ET program and most are females so it's very likely that she will get replaced a couple of times by an even greater daughter.

Calf due June 6/10/2016 sired by Loosli Righ On 423

Tilly 233U comes from the same great cowline that originates from BJR TILLY 862-62. Ron bought a group of cows from Cliff Haugen in the fall of 1991 that were all 10 years old and really good cows. 2101 was her tag and she was the main foundation for our Tilly cowline of today. 233U is 9 and was one of those cow that was open last year because we had her in our ET program. She is the dam of Bieber Spartacus A193 and has 35 calves to her credit via our ET program. We used Spartacus heavily in 2015 and 2016 and already have a couple of sons to sample including this year's lead off bull. It is not easy to let cows like this go, but we have been committed to moving forward with our younger genetics.

Bull calf due 3/18/2017 sired by Brown BLW Statistician B5240

We liked the Mission Statement daughters so well we have considered reverse sorting some semen using it to produce only females in our IVF program. This Primrose derivative has a son in the Pieper herd and several other top sons in commercial herds. If you are looking to move REA in a positive direction this is a donor you need to consider.

Twin Bull Calves due 2/27/2017 sired by Bieber Hard Drive Y120

Here is one that we should have flushed and didn't. Lot 6 is black and is the granddam of Mitigator C314. After having a look at 319W, Jesse and Charity decided that Mitigator was one of the next bulls they wanted in their program. She comes bred to Hard Drive Y120, making her twin bull calves as brother to Mitigator's dam. Lot 6 has great type and great calving ease and Marbling.

**Bull calf due 2/25/2017 sired by Bieber LB Mitigator C314**

We sample LCC Field Day from Select sires and that decision left us some great cows. This one had a son that one our favorite "SECOND HAND LIONS", Steve Ham bought to use in his registered program. Steve told us that sire Bieber Houston Y101 progeny sold first every year. Lot 7 has a lot of performance and will raise her next owner some good ones.

**Unsexed Calf due 2/8/2017 sired by either Bieber Federalist B543 or MLK CRK Unified 4207. DNA testing will be necessary to determine sire.**

Lot 15 is going to get some attention. This is Craig, Lindley and Cayson Howard's heifer. I (Craig Bieber) convinced Craig Howard to keep this heifer's dam and she has done a good job for him. 193W died suddenly late summer 2015 but this heifer kept on coming. She has a bit larger flight zone and we suspect being an orphan is why. Lot 15's dam was a peach. She is bred to one of two Fusion sons that we really liked and since it is too close to call we recommend DNA testing to see whether it's Federalist or Unified.

**Bull Calf due 2/8/2017 sired by either Bieber Spartacus A193 or BOW CRK Heavily Armed 310A. DNA testing will be necessary to determine sire.**

One of the things we are most impressed with from the Durham purchase is the Norseman King 2291 daughters. They have been outstanding producers. A large group of these daughters sell this year as a lot of them were 2009 models. This bred heifer stacks in Rollin Deep for a great 1, 2 combination.

**Bull Calf due 1/18/2017 sired by Bieber Federalist B543.**

The Tilly line has been a perennial favorite and here is one that needs a look. Her dam produced a son in 2013 that sold in our 2014 fall sale to Tom Porter, KS for 10K. Tilly 307X has two daughters in the herd so here is your chance to collect a Hard Drive daughter. Lot 16 is a good one for someone to build a great herd on.

**Unsexed Calf due 2/14/2017 sired by LSF TBJ Proud 5875C.**

Sam Twedt, Twedt Red Angus has been putting together quite a few of our top genetics, including a full brother to this heifer that sold as lot 1. We sampled Bieber Driven in our own herd and he was used natural service in Sam's. 309Y is out of a very solid cowline and the High Noon daughters have been some of our best on growth, carcass, and disposition.

Bull Calf due 1/19/2017 sired by Loosli Right On 423.

This Samurai daughter is Lynette Durheim's favorite because when you come to the pasture she will come out to meet you. Lot 48 is a peach and you will love her disposition. She is Category 3 because of some unknown parents on the dam side of the pedigree but likely much higher Red Angus than represented above with the balance being Simmental.

**"A pessimist sees difficulty in every opportunity; an optimist sees the opportunity in every difficulty."  
 Winston Churchill (1874-1965)**

# RED ANGUS BRED HEIFERS

Unsexed calf due 5/25/2017 sired by Bieber LB Mitigator C314  
 Lot 170 is one of those cows that should have been flushed. The first son she produced sold to Dan Beyerlin, KS who has been finishing his calf crop the last few years with tremendous results. Her second son went to Shaggy Bottom Red Angus, TN and has a MPPA of 104 and WW ratio average of 105. We haven't even mention that she is out of Basin Hobo 0545 a sire who's daughter have been outstanding.

# BIEBER RED ANGUS COMMERCIAL BRED HEIFERS

This year again, Bieber Red Angus Ranch is offering several groups of commercial bred heifers from our customers. The details on the first four groups are below. These will be groups will be sorted into uniform calving groups and sold in groups of 5 or more. They will sell in tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first 5 and as many as they want within that lot in increments of 5. There are other group that will sell as one lot and the winning bidder will be able to choose the predetermined number from the total number of heifers. Video will be available thru our website 10 days prior to the sale. They will be tagged with individual IDs and will sell in order of tag number. This information along with ultrasound confirmed calving dates will be available on sale day. We will announce sale order on sale day of these heifers. All these females have been on a good vaccination and nutrition program. Please feel free to contact the producer any time before the sale.

## **Lot 350, 351, 352, 353, 354, 355, 356, 357, 358,**

### **45 head of Red Angus heifers**

**Mark Gross, Bridgewater, SD cell 605-366-3068.** These are home raised heifers. The heifers due March 10th, AI bred 1 day to Accelerated Genetics GMRA Peacemaker 1216. These heifers are ultrasound measured for pregnancy and are solid red heifers. The Gross heifers have been managed this summer by Bieber Red Angus. Mark has used Craig Bieber's expertise in selecting bulls and females since 2003. Mark has been using our recommendation to AI heifers and cows in addition to bull selection. These heifers will sell in groups of 5 or more. They will sell in tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first 5 and as many as they want within that lot in increments of 5. Feel free to contact Mark before the sale.

## **Lot 359, 360, 361, 362, 363, 364, 365, 366,**

### **40 head of Red Angus Heifers**

**Pearl Creek Cattle Company, Cavour, SD, Ben Miner 605-354-1026** and Donnie Miner 605-354-7070. These heifer are home raised heifers bull bred to 3 Fusion sons. The heifers will begin calving Feb 21 thru March 15th. The Miners have been using our bulls since 1999 and decided to offer bred heifers last year. This is the second year the Miners will offer a group of bred heifers thru our fall female sale. These heifers will sell in groups of 5 or more. They will sell in tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first 5 and as many as they want within that lot in increments of 5. Feel free to contact Ben or Donnie before the sale.

## **Lot 367, 368, 369, 370, 371, 372, 373, 374, 375,**

### **45 head Red Angus heifers.**

#### **Jenner Ranch, Jordan Jenner, Ashley ND, cell 701-210-0393**

These are home raised heifers. The heifers start calving February 10th, 2017 thru April 10th, 2017. These heifers are ultrasound measured for pregnancy and are solid red heifers. They are AI bred to Bieber Federalist B543 and cleanup with sons of Bieber Hughes W109. These heifers will sell in groups of 5 or more. They will sell in tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first 5 and as many as they want within that lot in increments of 5. Jordan will sort these heifers by calving date so the earlier calving lots will be earlier in the expected calving season and the later calving will be toward the end of the calving season.

## **Lot 376, 377**

### **10 head of Red Angus heifers**

**Mark Gross, Bridgewater, SD cell 605-366-3068.** These are home raised heifers. The heifers due April 23 thru May 23 bull bred to Bieber Rollin Deep calving ease sires. These heifers are ultrasound measured for pregnancy and are solid red heifers. The Gross heifers have been managed this summer by Bieber Red Angus. Mark has used Craig Bieber's expertise in selecting bulls and females since 2003. Mark has been using our recommendation to AI heifers and cows in addition to bull selection. These heifers will sell in groups of 5. They will sell in tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first 5 and as many as they want within that lot in increments of 5. Feel free to contact Mark or Craig before the sale.

# BIEBER RED ANGUS COMMERCIAL BRED HEIFERS

Bieber Red Angus Ranch these groups of commercial bred heifers from customers as load lots. The winning bidder will be able to choose the predetermined number from the total number of heifers. Video will be available thru our website 10 days prior to the sale. All these females have been on a good vaccination and nutrition program. Please feel free to contact the producer any time before the sale.

## Lot 378

**45 head of Red Angus Heifer selected by the buyer out of 80 total head**

**Peterson Farms, Salem, SD, Drew Peterson 605-530-6248,**

**Steve Peterson 605-530-6246, Kent Peterson 605-530-6245**

**THESE HEIFERS WILL NOT BE AT THE SALE AND SELL ON VIDEO. The buyer will come Peterson Farms, Salem, SD and select these heifer out of 80 head within 10 days of the sale.**

Video will be available on our website. The heifers are bull bred to Bieber calving ease bulls to calve March 5th, 2017 to March 3rd, 2017. The heifer are solid red and the buyer will have the choice to select 1 potload of heifers from the balance of 80 head. Feel free to contact any of the Peterson's to view the heifers before the sale.

## Lot 379

**50 Red Angus heifers**

**Wade Moser 701-226-4269**

**THESE HEIFERS WILL NOT BE AT THE SALE AND SELL ON VIDEO. The buyer will come Wade Moser, north of Bismarck, ND and select these heifers out of 100 head within 10 days of the sale.** Video of the heifers will be available on our website. These heifers are sourced from ND by Wade Moser from leading producers and may have a touch of Simmental. The heifers are AI bred to LJC Merlin 937Z and due to calve March 4th, 2017. The buyer would have the opportunity to select all heifer with calves of 1 sex. Ultrasound information will be made available to purchaser. Feel free to contact Wade to view the heifers before the sale.

## Lot 380

**50 Red Angus heifers**

**Wade Moser 701-226-4269**

**THESE HEIFERS WILL NOT BE AT THE SALE AND SELL ON VIDEO. The buyer will come to Wade Moser's, north of Bismarck, ND and select these heifers out of 70 head within 10 days of the sale.** Video of the heifer will be available on our website. These heifers are sourced from ND by Wade Moser from leading producers. The heifers are pasture bred to Bieber calving ease bull selected by Wade and due to calve March 15th, 2017 thru April 20th, 2017. Ultrasound information will be made available to purchaser and the buyer will be able to bunch up the calving dates if it is desired. Feel free to contact Wade to view the heifers before the sale.

## Lot 381

**45 head Red Angus bred heifers**

**Vander Linden Farms, Webster, SD, Todd 605-880-3036.**

**THESE HEIFERS WILL NOT BE AT THE SALE AND SELL ON VIDEO. The buyer will come to Vander Linden Farms, Webster SD select these heifers out of 100 head within 10 days of the sale.** Video of the heifer will be available on our website. These heifers are AI bred to Select Sire's LSF RAB Exclusive 2793 to calve April 1st, 2017. The heifers have been ultrasound confirmed for pregnancy and are solid red in color and have a Simmental base.

# Red Angus Guide to EPDs

**HB** ..... HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

**GM** ..... GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

**CED** ..... Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

**BW**..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

**WW** ..... Weaning Weight and **YW** .... Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

**Milk** .... Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

**ME** ..... Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

**HPG**..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

**CEM** .... Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

**STAY**.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

**MARB** .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

**YG** ..... Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

**CW**..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

**REA** ..... Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

**FAT** ..... Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

**Ranch Tested. Rancher Trusted.**

# THE POWER OF 50K

Bull selection is one of the most significant decisions ranchers make in terms of influencing the overall profitability of their operations; therefore, Red Angus strives to deliver reliable genetic predictions to stakeholders to ensure producers are making the most informed decisions possible in pursuit of production goals.

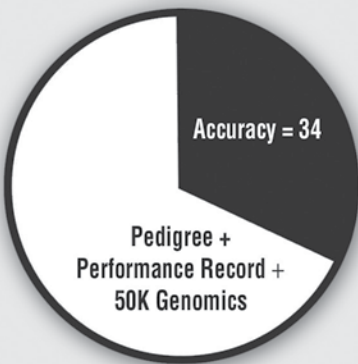

For years, ranchers utilizing Red Angus EPDs (Expected Progeny Differences) in their selection decisions have enjoyed the built-in reliability and risk reduction provided through the breed's early adoption of Total Herd Reporting (THR) data. To further advance EPD accuracy and reliability, Red Angus can now incorporate 50K genomic data.

For generations, animal breeders have relied on phenotypic measurements to determine what the animal possesses at the gene level. Now, with the inclusion of 50K genomic data, we can actually measure the impact of identified gene effects before the weight or measurement is ever recorded.

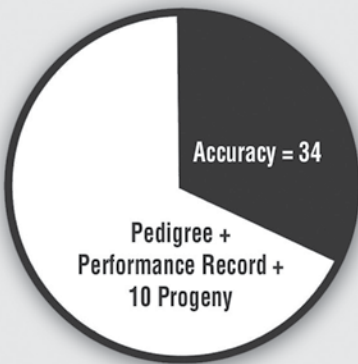

## Accuracy

EPDs predict an animal's true genetic merit which can be passed on to offspring. As the amount of data included in an animal's EPD calculation increases, ranchers can have more confidence that the EPD correctly identifies the animal's true genetic merit. This is communicated to stakeholders in the form of "Accuracy," which is printed in conjunction with each EPD and ranges from 0 to 99.

## Increased Data = Increased Accuracy = Increased Reliability

The power of 50K is the ability to collect additional genetic prediction data before an animal is selected to enter or exit the herd. Thus allowing producers to achieve their genetic goals at a faster rate as the genetic predictions used in selection decisions are of higher accuracy.

## Red Angus' 50K test proves to be a game changer

- Ensure your yearling heifer bulls are "calving-ease specialists."
- Confirm your cowherd-building bulls have optimal genes for maternal traits.
- Make certain your carcass bulls are superior grid producers.

Information gained from 50K genomic data and Total Herd Reporting data provides Red Angus stakeholders with EPDs of unsurpassed reliability.

**Ranch Tested. Rancher Trusted.**

# BIEBER RED ANGUS BULL DEVELOPMENT

At Bieber Red Angus, we have learned a lot in 47 years of producing the type of bulls customers come back for year after year. Stacking the right genetics to produce efficient and profitable cattle has always been the Bieber way, but the truth is that there is a lot more to it than mating the right cows to the right bulls.

Developing bulls is 1/3 skill, 1/3 science and 1/3 art. Feed too much and cattle get fat and will not hold up for our customers. Feed wrong and you lose out on a bull expressing his full genetic potential. Every year we have customers tell us how our bulls stand up better compared to bulls from other breeders. We are very proud of the longevity these bulls have under reasonable conditions.

Our development program is designed to accomplish three goals: 1) feed at a moderate rate of growth to the point of full genetic expression, 2) develop bulls in a management program we believe is similar to how our customers will manage their calves and 3) use feed-stuffs raised on our ranch that are similar to what we feel our customers will have access to.

The program starts them on a high roughage diet (44 Mcal) for the first 45 days to allow calves a low-stress introduction to bunk feeding and diet change and to establishing a pecking order. The performance targets for this receiving phase are expected to be 1.5 to 2 lbs. of average daily gain (ADG). We feel that the receiving phase is the most important part of our development program because it prepares the rumen flora to handle diets with increasing amounts of energy.

After the initial receiving phase, the goal of the program is to slowly increase diet energy to properly develop muscle density and marbling deposition while maintaining sound structural and physiological development. At this point, bulls are stepped up to a 48-Mcal diet for three weeks and then a 52-Mcal diet for three weeks with a performance target of 2.25 to 2.7 lbs ADG.

The final stage of the program is to bring bulls to full genetic expression and reach a working level of body condition on a 57-Mcal diet with performance target of 3.2 to 3.5 lbs. ADG—to bring the customer that high-performance, stylish bull that the Bieber brand is known for.

After the collection of carcass scan data, the bulls are moved back down to the 48-Mcal diet and kept in a "holding pattern" through the sale until delivery. When you look through the catalog you will see many bulls gaining between 3 and 4 pounds per day. These bulls are not underfed; yet when you walk through the pens on sale day these bulls are not fat either. With 47 years of experience, we have found that elusive balance that so many others seek to find. We can talk about genetics all day, but if the bulls are overfed they just won't stand up in the long run.

The truth is it just makes sense to buy 47 years of experience. If you have questions concerning our bull development program, contact Craig or our consulting nutritionist Eric Mousel of High Plains Ranch Management Services 605/690-4974.

We chose lot 240 as the lead-off bull because there was really no other option. We have felt strongly that Spartacus is going to be one of our leading sires and he has solidified that position with two sons that we are going to sample in 2017. Lot 240 and last spring's standout Bieber Gladiator B386 are leading the pack. Lot 240's dam is a maternal sister to Makin Hay (Accelerated), Rough Rider, and Outrider (Select). There are maternal brothers working at Green Mountain Red Angus and Bowden Red Angus as well. Lot 240 dam is in our ET program and will have other progeny coming down the road. Craig Howard decided to expose 297Y naturally to Spartacus and got a bit of a jump early with the first set of ET sired by Spartacus. Lot 240 is a stud and stand out phenotypically as well as data that put him in pretty exclusive company. We will wean over 180 calves sired by lot 240's sire and expect that the data from those calves will have everybody looking at Spartacus next spring. Lot 240 is a full brother to lot 264 and 289.

Lot 241 comes with a very interesting pedigree. His dam is a maternal sister to Basin Trendsetter 6074 and sired by EXAR 263C, who's sons dominated the Express Ranch, Angus program and daughters have dominated the production of top bulls at Express. We used lot 241 on limited basis this past year and will have him on our list of Hard Drive Y120 sons to sample in 2017. Lot 241 is a full brother to lot 252 and 260.

This is a lot that is going to surprise everyone. His dam is lot 1 and yes he is a full brother to Rollin Deep Y118. He has that same look that Rollin Deep did. We had to price Rollin Deep semen high last spring as he is not producing semen at this time, so this may be the opportunity to make your herd deeper.

Lot 247 had maternal brothers sell this spring. Lundgren Angus Ranch Reds, Blake & Kirsten Angell, KS bought lot 247 dam last fall. We have an outstanding group of full sisters making the impact of this mating go on a long time. 246U is a Romero daughter and they are really noted for their extremely easy fleshing ability which keeps them in the herd a long time. Rose 246U, her dam, and granddam all spent time in our donor pen. Make sure you check out this Samurai son. His data will move your herd in the right direction.

Lot 251 is a 3/4 brother to Hard Drive. Laura 158W had done an amazing job and every time we turn around we find another son we should sample. We have used 3 of her sons to this point and this one is no slouch. He had been a standout since weaning and if we were not overloaded with Laura sons this one would be one we would think about. Lot 251 has a full brother that sells as lot 313.

**We are honored that our matriarch won the Red Angus Advocate of the Year at the annual Red Angus Associations annual meeting. Mom has been a staunch advocate for the Red Angus breed and Bieber Red Angus. Mom has always been there to encourage and give a helping hand. Congratulations Mom!!!**

**Advocate of the Year Award was presented to Lois Bieber, Leola, South Dakota, by outgoing RAAA President Kim Ford of Cozad, Nebraska. The award, given annually, recognizes a special Red Angus member or commercial producer who passionately expresses support of the Red Angus breed to seedstock producers, commercial producers, industry partners or consumers. Ford illustrated**

**Bieber's dedication to the breed, as well as her sense of humor, by showing a video of a prank pulled by her children and grandchildren which resulted in a Red Angus calf being placed in her and husband Ron's bedroom while they slept. Ford went on to pay tribute to the matriarch of Bieber Red Angus, explaining that Lois' faith and prayerful dedication was a steadfast blessing to many in the breed.**

# RED RIGHT. NOW.

*Red Angus are the industry favorite for high-quality feeder cattle and ranch-ready replacements. The highly identifiable "Yellow Tag" adds even greater value through marketing options.*

**Ranch Tested. Rancher Trusted.**

# Red Angus Feeder Calf Certification Program

For nearly two decades the FCCP has been delivering results for bull customers using ONLY Red Angus

**Genetic, Source & Age**

Released in 2012, Allied Access provides an added-value option for Red Angus customers using multiple breeds in a rotation, hybrids and/or composite bulls to capture heterosis in their crossbreeding programs.

**Source & Age**

**RedAngus.org • (940) 387-3502**

# Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

“What impact will each potential sire have on my operation's profitability?”

## HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

## GRIDMASTER

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

**While the process of calculating an index is very complex, the resulting selection tool is very simple to implement.**

HerdBuilder and GridMaster are expressed as differences in profitability per exposure.

**HerdBuilder Example:**

30 cows x 5 years breeding = 150 exposures

Bull A has a HerdBuilder Index of 175:  $175 \times 150 = \$26,250$

Bull B has a HerdBuilder Index of 100:  $100 \times 150 = \$15,000$

**\$11,250 Difference in Profitability**

**Ranch Tested. Rancher Trusted.**

Hard Drive Y120 has seen very heavy use the past two years in our program. The replacement heifers we bred this past spring had a large representation of daughters sired by Hard Drive. Visitors to our ranch that look at the heifers this spring and summer have all noticed Hard Drive daughters. Comment have been outstanding and we are looking forward to calving the first very large group. The daughters we have calved to this point are spot on with great udders, adequate milk, and came out in great shape. Hard Drive's dam sold in January to Twedt Red Angus, ND and will definitely give Sam some of the same outstanding genetics. Hard Drive is no long producing freezable semen so we are going to be looking for a son or grandson to use moving us forward. We have not weaned everything as of the writing of this footnote but we are going to wean over 220 calves from Hard Drive and expect that finding a son, won't be a problem but having too many good ones to sample will be a challenge. We would be amiss if we didn't mention that the disposition on these Hard Drive progeny is excellent. Semen is rare at this point. If you locate some you need to put it in your tank. His service and progeny sell.

Rollin Deep Y118 is a powerful sire that does the cowman things right. His pedigree is well known for producing power cattle with exceptional feet, udders, and fleshing ability. Rollin Deep's dam, Bieber Tilly 399W is Lot 1 and has become a centerpiece in our ET program. His sire, Bieber Roosevelt has become of cornerstone to our commercial customers producing thick cattle with great dispositions. Rollin Deep Y118 is the kind of bull that can leave positive impact on the breed for years to come. We are weaning a little over 120 progeny this fall, and have over 50 daughters in the herd. Rollin Deep is a sire that produces great phenotype, power and makes balanced cattle with the ability to flesh, breed back, stay sound and productive for the long haul. We have always believed that through focused selection you can breed cattle that have it all. Every year we feel we get a bit closer. Limited semen available thru Bieber Red Angus. His service and progeny sell.

Bieber Deep End B597 reads just about as good across the board as one can make one. Deep End's dam is the dam of Hard Drive Y120. Genex had brisk sales on Deep End's semen last spring and our program used him extensively as well. Deep End brings together two top sire lines not to mention, two of what are some of the very top cowlines at Bieber Red Angus Ranch. Semen available through Genex. Deep End's service sells.

Spartacus was a crowd favorite in our 2014 spring production sale selling to Accelerated Genetics and Jefferies Land and Cattle. He is a great disposition bull stacked for profit. Powerfully made and very stout boned, Spartacus was heavily used in our program in 2015 and we have weaned over 180 calves. Although we just had a handful of progeny last spring his son Bieber Gladiator B386 sold to VF Red Angus, OR for \$65K. We used him on a limited basis as semen was limited but Everett reported recently that Gladiator is producing well after completing the breeding season. Spartacus is going to get on everyone's radar next spring because the calves we just weaned are outstanding! Spartacus is a very complete bull that leaves a breeding program in a very good position going forward. Semen is available thru Accelerated Genetics. His service sells.

Mitigator sold to Crump Red Angus and St Genetics this past spring and we have to admit for a bit this spring we missed him and he got lot numbered as lot 52. We had put him on our short list to sample in our program prior to the sale. Jesse and Charity came the day before the sale and as always they find the good ones. His granddam sells as lot 6 and seeing her convinced the Crump's that this was a bull they wanted to own. Mitigator carries the LB designation as his dam was sold to our uncle Leroy. Leroy sold his cows to his grandson, Skylar Schumacher and former intern Caleb Acciaccia. We have used 6 Rollin Deep sons to this point and we are really excited to see Mitigator calves next spring. Semen available thru ST genetics. His service sells.

Federalist was purchased in the spring of 2015 by Genex and Twedt Red Angus. Federalist's dam, Basin Primrose 0T43 is one of the leading Primrose daughters and sold as one of the leading lots to Rhodes Red Angus in our 2014 fall's sale. We sampled Federalist heavily on heifers this spring and had a group of May born calves that will be weaned by sale day. With consistency in this cowline we are confident Federalist will find a place in our herd. Semen available through Genex. His service sells.

No other sire in the history of Bieber Red Angus has had the impact that Roosevelt has had. Roosevelt has been an exceptional sire and has produced some of our finest progeny in recent years. Cattlemen appreciate the power and type in Roosevelt's progeny. He has truly impacted our herd as much as any sire in recent history. Both his sons and daughters are extremely good fleshing with added depth and exceptional disposition. Roosevelt has produced many sons that have gone on and left an impact in both registered and commercial herds. He is a very well balanced bull and is always among the favorite sires when people come to the ranch to view the cattle. Semen Available thru Bieber Red Angus.

We sampled Fusion heavily in 2013, and 2014. He produced several great sons who sold in our 2015 and 2016 production sale. We sampled both Federation who sold to Bachman Red Angus and Federalist who sold to Twedt Red Angus and Genex. We liked Fusion for his outcross pedigree, his data and his phenotype. Fusion's calving ease is sure shot. We weaned calves from 28 daughters this past year and like what we see. We have sons in the bull offering this year. It will be the last direct sons because as a very proficient sire he produced 4 sons we are using AI and natural service. Semen available thru ABS.

We found Proud at Ludvigson's this past spring and used him cleanup on heifers and cows. He came thru the season in great shape. Proud offers a changeup in pedigree for us and with data like his pretty easy to like what he will do.

# Are you a REPUTATION rancher?

- ★ Do you search sale catalogs to find bulls that improve your herd's genetic merit?
- ★ Do you buy registered bulls that improve your calves' feedlot and carcass performance?
- ★ Do you use preventative vaccination and management procedures that improve your calves' health?
- ★ Do you monitor your herd's mineral needs to improve your calves' receptiveness to nutrition?

Do you believe that your operation produces FEEDER CATTLE that are better than average?

Isn't it time to have your REPUTATION do all the talking on your PAYDAY?

Verified Beef's Reputation Feeder Cattle® program makes that happen!

Value-added efforts deserve to be recognized. To identify their effect, our certification steps are:

- ★ Evaluate each herd's accumulated genetic merit potential.<sup>1</sup>
- ★ Predict the calves' inherent performance and carcass trait strengths.<sup>2</sup>
- ★ Compare the calves' performance potential on a common scale (Relative Value/cwt).<sup>3</sup>
- ★ Verify the calves' management history, including health and nutrition.
- ★ Promote these calves to feedlot buyers that prefer buying documented, performance cattle.

Our professional team will work with your marketing rep no matter where you sell your cattle:

- ★ National market recognition and unsurpassed access to value-added buyers.
- ★ Notification of where and when your cattle will sell to over 500 feedlots.
- ★ Buyers have pre-sale access to predicted performance and carcass indicators.
- ★ Priority enrollment available through your Superior rep.

*Reputation Feeder Cattle® is the best "payday confidence" that you can buy, for about a penny per pound.*

## Your REPUTATION can define the difference on PAYDAY!

Have us ride for your brand. Call Now!

Ralph Peterson (785) 577-0332 • Dar Giess (406) 850-4105 • Duane Gangwish (402) 750-8150

The Reputation Feeder Cattle® and Genetic Merit Scorecard® trademarks are wholly owned by Verified Beef, LLC. Copyright © 2015 Verified Beef, LLC. All Rights Reserved. U.S. Patent: 8,660,888

1: Verified Beef's Reputation Feeder Cattle® (RFC) program predicts feedlot performance based on EPD data supplied by breed associations. 2: RFC's star rankings predict sale group performance and carcass traits based solely on inherent genetic merit and do not account for factors such as weigh conditions, bloom, or other managerial or environmental effects. 3: RFC predicted profitability (Relative Value/cwt) is in comparison to cattle with industry average genetics, and is representative of total dollars of difference from purchase to slaughter. Actual realization of these values is dependent on market conditions, management strategies, and environmental effects, including plane of nutrition, days on feed, weather, etc. Verified Beef and Superior Livestock Auction do not guarantee or warranty the actual performance of the cattle. Together Everyone Achieves More.

# RED RIGHT. NOW.

*An independent university study compared six years of Superior Livestock Auction data, revealing Red Angus-sired heifers commanded from \$5 to \$9/cwt. more than females of all other breed types.*

*Learn more about the value of Red Angus-sired replacement females at [redangus.org](http://redangus.org).*

*The Red Angus female is the rancher favorite for replacements that deliver real profitability.*

**Ranch Tested. Rancher Trusted.**

Lot 1 has been a standout since he was born. His dam is one of Gene House's, very best cows, posting average progeny ratios of WW 110 and IMF 137. Lot 1 is in the top 1% for both of the new indexes and posts some data that is really hard to match. His sire has been making us take notice and we like what we see in his calves. Overload is going to turn some heads on sale day.

**1. Lot Number** - This is the lot number of the animal. Cattle will have a white tag that will correspond to that number. Generally cattle will sell in Lot number order.

**2. Name** - This is the registered name of the animal. Generally we name bulls after the sire and females after the dam name.

**3. Born** - This is the birth date of the animal.

**4. Reg** - This is the Registration number of the animal. All Red Angus animals can be looked up on the Red Angus website at [www.redangus.org](http://www.redangus.org) and going to the animal search page and using this registration number.

**5. Breed** - This area has the breed composition and category as determined by the Red Angus Association of America. Breed Codes are AR-Red Angus SM-Simmental XX-Unknown. The Unknown cattle are largely cattle that we couldn't prove percentages of parents on the Durham herd. That unknown breed is either Simmental or Red Angus in the Durham foundation cattle.

- AR = RED ANGUS
- SM = SIMMENTAL
- UKN = UNKNOWN

**6. Category**

- 1A=100% Red Angus with no disqualifying features
- 1B=87% to 99.9% Red Angus with no disqualifying features
- II Equal to or greater than 87% up to and including 100% Angus blood content having one or more disqualifying characteristics. Disqualifying Features include scurs or horns, ineligible white, black pigment, progeny of multiple sire groups, and missing birth date, or weaning weight and date
- III=Less than 87% Angus blood content

**7. Sire** - Sire of the animal

**8. Paternal Grand Sire** - Sire of the Sire

**9. Paternal Grand Dam** - Dam of the Sire

**10. Dam** - Dam of the animal

**11. Maternal Grand Sire** - Sire of the Dam

**12. Maternal Grand Dam** - Dam of the Dam

**13. MPPA** - Most Probable Producing Ability -- An estimate of a cow's future productivity for a trait (such as progeny weaning weight ratio) based on her past productivity. For example, a cow's MPPA for weaning ratio is calculated from the cow's average progeny weaning ratio, the number of her progeny with weaning record, and the repeatability of weaning weight.

**14. Aod** - Age of Dam at the time of weaning the progeny identified.

**15. ADG** - Average Daily Gain -- Measurement of daily body weight change over a specified period of time of an animal on a feed test.

**16. ADG Ratio** - Average Daily Gain Ratio -The ratio of the animal within its contemporary group. ET and Twins will be marked with a TW and ET. These animals have no contemporary group.

**17. WDA** - Weight Per Day of Age -- Weight of an individual divided by days of age

**18. WDA Ratio** - Weight Per Day of Age Ratio -- Weight of an individual divided by days of age. ET and Twins will be marked with a TW and ET. These animals have no contemporary group.

**19. AScr.** - Adjusted Scrotal Circumference--A measure of testes size obtained by measuring the distance around the testicles in the scrotum with a circular tape. Related to semen-producing capacity and is adjusted to Yearling age. Actual Scrotal Measurement are provided on a supplement sheet 1 week prior to the sale and at the sale.

**20. CE** - Calving Ease Score - This is our recommendation for CE based upon the data and the pedigree. \*\* = Use on heifers. Expect less calving difficulty. \* = Use on growing heifers and cows. Expect moderate calving difficulty on heifers and very little difficulty on cows. \* = Use on cows. Expect difficulty on heifers and some to very little calving difficulty on cows.

**21. Grw. Sc.** - Growth Score - This is our recommendation for growth based upon the data and the pedigree. G 6 = maximum growth rating, G 5 = high growth rating, G 4 = moderately high growth rating, G 3 = average growth rating, G 2 = below average growth rating, G 1 = low growth rating.

**22. DNA** test ran on this animal.

**23. EPD** - Expected Progeny Difference -- The difference in expected performance of future progeny of an individual, compared with expected performance of future progeny of an individual of average genetic merit in the base time frame for the genetic evaluation. EPDs are estimated from phenotypic merit of an individual and all of its relatives and are estimates of one-half the breeding values. EPDs are generally reported in units of measurement for the trait (e.g., lb., in., etc.).

**24. acc** - Accuracy -- A measure of the reliability of an EPD. Accuracy values are reported as decimal numbers between zero and one. Values closer to one indicate larger amounts of available information and greater certainty that a bull's EPD will not change significantly as more progeny information becomes available. Bieber Red Angus reports the accuracy values for sires since they have high accuracies. EPD are a more reliable estimate of performance than weight ratios or other measurements. Understanding ACCURACY. Red Angus EPDs are often presented with a corresponding accuracy value, which measures the strength of the relationship between the genetic prediction (EPD) and true genetic value. Accuracies are reported as a decimal number from zero to one. As accuracy value approaches 1.0, the EPD is "accurately" or closely estimating the true genetic merit of an animal for a given trait. Although low-accuracy EPDs are less reliable when compared to those of proven sires, independent research demonstrates EPDs to be the most meaningful indicator of animals' true genetic merit. While "perfect" accuracies of 1.0, are never achieved, many heavily used Red Angus sires have accuracies greater than 0.9 (some as high as .99).

**25. %Rank** - This is the percentage rank of the EPD within the type of animal. Rank groups are Proven and Opportunity Sires, Active Dams and Non Parent under Two Years of Age.

**26. Wts** - Weight--The weight for that trait in that column adjusted to a constant days of age by Red Angus Association and Beef Improvement standards.

**27. Ratio** - Ratio--The ratio for that trait in that column within its contemporary group. ET and Twins will be marked with a TW and ET have no contemporary group.

**28. CED** - Calving Ease Direct - predicts the probability of calves being born unassisted out of 2-year-old heifers. Producers want live calves - born unassisted. Selecting on actual birth weight is flawed; it is influenced by non-genetic factors such as nutrition and weather (ambient temperature). While BW EPD removes these non-genetic factors, Red Angus CED EPD is the best predictor of calving ease. The CED EPD includes variation in BW plus other influential genetic factors such as gestation length, calf shape, etc.

**29. Birth Weight EPD** - predicts the difference, in pounds, for birth weight, and is also used in the calculation of Red Angus' Calving Ease Direct (CED) EPD.

**BW** - Birth Weight (BW) -- The actual weight in pounds at birth.

**30. Weaning Weight EPD** - predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age). This is an indicator of growth from birth to weaning.

**WW** - Weaning Weight-- The 205 adjusted weight. This is an indicator of growth up to weaning.

**31. Yearling Weight EPD** - predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This is an indicator of growth from birth to yearling.

**YW** - Yearling Weight --The 365 adjusted weight. This is a measure of growth from birth to yearling.

**32. Milk EPD** - (MILK) predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.

**33. TM** - Total Maternal EPD -- predicts the rancher's actual observation of weaning weights of calves raised by an animal's daughters. TM includes the daughter's milk EPD plus half of her genetic contribution to her calf's weaning weight EPD. The formula for TM EPD is: TM EPD = Milk EPD + 1/2 (WW EPD)

**34. ME** - Maintenance Energy - predicts differences in daughters' maintenance energy requirements and is expressed in Moal/Month. Recognizing that 70% of cow herd feed costs are burned up in maintaining weight and condition, Red Angus' ME EPD allows for the selection of bulls whose daughters will require less feed; thus, reducing cowherd expenses. Include selection pressure for ME EPD to ensure feed costs don't get out of line when selection is made for greater performance and production. At Bieber Red Angus we collect cow weight at weaning time to insure greater accuracy of this EPD.

**35. HPG** - Heifer Pregnancy - predicts the probability of heifers conceiving to calve at two years of age. Many breeds offer genetic predictions of yearling bull scrotal circumference as an indicator of age of puberty. While puberty is a prerequisite, many factors influence pregnancy rate. Red Angus HPG EPD offers a tool which selects for what is economically relevant to ranchers - pregnant heifers. At Bieber Red Angus we submit all heifer breeding data to insure the accuracy of this EPD.

**36. CEM** - Calving Ease Maternal (CEM) - predicts the probability of a given animal's daughters calving unassisted at two years of age. Replacement heifers should be able to calve on their own. Red Angus CEM EPD offers the industry's most reliable prediction to address that concern. It includes not only the predisposition for a female to calve unassisted, but also her contribution to her calf's traits (birth weight, calf shape, etc.) that make it more likely to be born unassisted.

**37. STAY** - Stayability (STAY) -- predicts the probability of a bull's daughters remaining productive until at least six years of age. Why six? That's how long it takes a female to break-even given all the expenses of development.

**38. MARB** - Marbling Score- predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

**39. REA** - Rib Eye Area - predicts differences of carcass Rib Eye Area between the 12th and 13th rib. Increased Rib Eye Area has a beneficial effect on Yield Grade which also includes Carcass Weight and Fat Thickness.

**40. FAT** - 12th Rib Fat Thickness - predicts differences for carcass fat depth over the 12th rib, as expressed in inches. Increases in fat thickness has a detrimental effect on Yield Grade. Fat thickness measured in young seedstock, maybe an indicator of fleshing ability.

**41. HerdBuilder Index**  
 As the name indicates, implementation of the HerdBuilder Index will assist producers in building profitable herds. The HerdBuilder Index is built using the following production scenario:

- Red Angus bulls mated to cows and heifers (resulting progeny ¾ Red Angus, ¼ Simmental)
- Replacement heifers retained from within the herd
- All progeny sold on a quality-based carcass grid.

**42. GridMaster Index**  
 While Red Angus has traditionally been known as a superior maternal breed, those who have retained ownership in Red Angus calves know of their potential to excel in the feedyard and ultimately hang a premium carcass. The GridMaster Index is built using the following production scenario:

- Red Angus bulls mated to cows (resulting progeny ¾ Red Angus, ¼ Simmental)
- All progeny sold on a quality-based carcass grid.

**43. Footnote** - This is information we would like to point out about the lot. It may contain breeding information on bred cattle.

# TERMS AND CONDITIONS

*The Red Angus Assn. Terms and Conditions will apply if the terms and conditions printed here are not applicable.*

**BIDDING DISPUTES:** The auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

**TERMS:** The terms of the sale are cash; the right of property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the ranch.

**RETAINED INTEREST:** We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value on these bulls. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 100% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch interest then becomes in herd use only, but Bieber Red Angus Ranch retains all rights to use the bull within their herd.

**SEMEN RIGHTS:** Buyers receive semen rights proportional to the interest purchased. If you purchase a 1/2 interest, then you are entitled to 1/2 of the semen collections at cost provided that you indicate you want semen prior to collection. We intend to collect some of the bulls in the sale and sample them in our herd. We will cooperate with the buyer in collection of the bull. We prefer to collect most bulls after the first season of use and we will contact the buyer when we intend to collect the bull at a time convenient for the buyer.

**PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be fed, watered and cared for at the purchaser's risk for a reasonable time.

**CERTIFICATE OF REGISTRY:** A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.

**HEALTH:** All cattle will have official health certificates and will sell guaranteed exported to Canada. Canadian health certificates will be charged at cost on animals selling under \$4000.

**ANNOUNCEMENTS:** Changes of information contained in this catalog relating to the animals offered for the sale will be announced from the auction box and such announcements shall take precedence. Errors discovered in the catalog will be corrected by announcements at sale time, and such corrections will take precedence over the printed matter in this catalog.

**BREEDER'S GUARANTEE:** 1. All animals are guaranteed breeders, with the exception of: a) calves under twelve months of age; b) animals shown by Purchaser after sale (in cases of animals shown after purchase, the breeding guarantee, if any, shall be such as agreed upon between Seller and Buyer) c) Any open heifer that has been flushed for embryo transfer; or d) gross negligence or willful misconduct on the part of the Purchaser. 2. Bulls are guaranteed breeders if not allowed to run with the herd until at least 14 months of age. Any bull which either: a) settles 1/3 or more of the healthy cows he serves; b) is the sire of 20 or more animals; or c) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month period of trial (provided for in paragraph 2 of the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder.

Any guarantee with respect to the ability to freeze semen shall be by separate agreement between Buyer and Seller.

Open females have not been served and are so guaranteed.

**If you can't attend** the sale & would like to buy cattle, call Craig (605-439-3628 / 605-216-8169 / 605-439-3545) before the sale. Tell us what you are looking for and we will assist in arrangement to help you participate in the offering.

We will call you after the sale and inform you of your purchases.

**We guarantee your purchase will be satisfactory.**

## TELEPHONE BIDDING

We will have available telephone bidding by conference call. **If you wish to bid over the phone, please register before sale day.**

## INTERNET BIDDING

See page 3 for information.

**IDENTIFICATION:** Each animal carries a readable tattoo. Tag numbers on the cattle correspond with lot and tattoo numbers in this catalog. Purchaser agrees to use full name of animal in advertising and on stall cards at shows.

### OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

1. All claims for adjustment or refund must be made in writing either within six months of the sale date or no later than six months after the animal reaches 18 months of age, with the exception of claims involving defects or parentage.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the Seller if in good condition and complying with the health requirements of the Seller's state. The Seller shall be entitled to six months' trial following the return of the animal in which to prove the animal is a breeder, the Seller shall, at the option of the Buyer, replace the animal with another of equal value or grant the Buyer a credit for use on any products marketed by the Seller. Such credit of the full purchase price shall in any case be deemed full satisfaction and settlement. Any expense incurred for transporting an animal claimed to be a non-breeder shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess of the distance between the Purchaser's farm and the location where the sale took place. If the Seller proves the animal is a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expense incurred for transportation.
3. If a female sold as "safe in calf" proves not to be in calf, the Purchaser may receive service from the bull previously used, if available, or if the bull is not available, the Seller shall be obligated to make a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe in calf" at time of sale to a certain bull proves to have been bred to a different bull, the Seller shall be obligated to take a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller (adjustments shall not be considered to a breeding fee or an allocation of the purchase price to any unborn calf). Any expenses incurred for transportation shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess to the distance between the Purchaser's farm and the location where the sale took place.
4. If a female sold as "served" proves not to be in calf, or if a female sold as "pasture-bred" proves not to be in calf, the Seller only guarantees such female to the breeder.
5. If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the farm of the Seller prior to calving for a credit of the full purchase price or for another animal of equal value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

**LIABILITY:** Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damages of any kind.

**CONTRACT:** The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

**IMPLIED WARRANTY:** Except for those stated in the terms and conditions, there are no warranties, either expressed or implied, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies proved therein shall be the sole and exclusive remedy of the buyer, or any part claiming through buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

**We guarantee your purchase will be satisfactory.**

# Top Dollar Angus®

## WHAT IS TOP DOLLAR ANGUS

Top Dollar Angus is a genetic certification and marketing company focused exclusively on the top 25% of the industry in carcass & growth, Angus or Red Angus influenced feeder cattle. Top Dollar Angus is a program similar to popular branded beef programs, except that Top Dollar Angus does its "branding" in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo and will be promoted aggressively to a large

number of feedyards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30-\$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feedyards are tired of unpredictable performance and wide ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but

are very different genetically. That's why the genetic certification of high-end Angus/Red Angus feeder cattle is here! The industry must differentiate the best Angus/Red Angus genetics from average cattle, that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus/Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle our goal is to create more demand and higher prices for your calves.
