# WELCOME TO THE SALE!

At the core of our business we have always believed that if the segment we sell to is profitable, then our chances of being profitable are pretty high. On the same note, if we create enough value for our customer, they will be more successful and reward our business with their business. There are a lot of different factors that contribute to this idea. At Bieber Red Angus, we feel that we are a leader in the use of technology to increase opportunity for profit. We firmly believe that the disciplined selection of cattle using technology works, and that in turn will make the younger generation of cattle better. We use DNA testing to prove parentage and enhance EPDs so that our selection decisions are more robust. We know EPDs work, and our breeding success is the perfect example of that. All of these factors lead to more profit for you and your calves, not only because the cattle are genetically better, but because our reputation for better genetics follows your calves through your program.

In our business, we don't cut corners that will affect the quality or development of the genetics. We have been a strong player in the cattle industry for over 50 years. Through those years, we have seen many different seedstock breeders come and go - some much quicker than others. We use our experience and knowledge of development to produce seedstock cattle that will offer more longevity and productivity. That means you get a product that is far above the average of the industry.

We find ourselves constantly monitoring the information in the industry to make sure we have the knowledge base that will benefit you when you need advice. When new technology becomes available, we are prepared to analyze it and make robust decisions on how best to use it to our advantage.

Our program has a focus on profit that is second to none. You can see this in everything from the detailed matings we put together to the meticulous feed schedule we follow. We use that focus in every part of our program and daily work to give you the consistency you want in your cowherd. We have always felt good seedstock in volume pushes prices to a level every cattle producer can afford. After reading this, I personally hope you take the time to do one of the following things:

- Come to the sale and look at the cattle.
- Get on our website and take a look at our offering videos so you can bid online.
- Call me or any one of our buyer representatives.

We will give you our best insight and advice to ensure that you get what you are looking for. You won't be disappointed! Thank you again and we look forward to seeing you on November 9.

Craig Bieber

## Sale order is catalog order!

The sale is at the Ranch, nine miles west of Leola, SD on Highway 10 and 1/2 mile north. Look for the sign!

### **DELIVERY POLICY:**

We offer free delivery on all purchases over \$3500 per head to central points in the surrounding states. Volume purchases by one buyer of five head over \$3500 will be delivered free to central points in the US. All lots under \$3500 will be delivered at cost. Central points for delivery include auction barns, vet clinics and ranches that offer to serve as a delivery point. We simply ask for your cooperation in arranging the delivery of your cattle. This will keep the cattle from being on the truck longer than necessary and help to get the cattle to you with the least possible stress and in the best possible condition. All commercial heifer lots will be delivered at cost. We will help you with arrangements on commercial lots.

### **HEALTH:**

Ashley Vet Clinic, (701)288-3234, will be available on sale day. All cattle are on a complete vaccination program supervised by Ashley Vet Clinic. In the past bulls have been tested for persistent BVD carriers and all tests were negative for a number of years. We have chosen not to test the bulls this year since no positives have been found in over 10 years. We have tested our replacement heifers for BVD since 2014 as part of our surveillance program and found no positive BVD carriers. Bieber Red Angus participates in the Beef Quality Assurance (BQA) program. Heifer calves have been Bangs vaccinated. We participated in a Johnes testing program for 10 years with no confirmed positive. We no longer test for Johnes disease but continue to diligently watch for any suspicious cases and test as necessary.

### **GENETIC DEFECTS:**

Every animal in the Bieber Red Angus production sale is guaranteed negative for the recessive gene associated with Osteopetrosis(OS), Arthrogryposis Multiplex(AM) (Curly Calf Syndrome), Neuropathic Hydrocephalus (NH) and any other known genetic defects. With this guarantee, we provide our customers the opportunity to purchase their choice of cattle with very little risk. DNA samples have been collected on every animal in the sale with any known carrier in the first three generations and tested negative unless otherwise noted.

### **RETAINED INTEREST:**

We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value on these bulls. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 50% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch's interest then becomes in herd use only, but Bieber Red Angus Ranch retains all rights to use the bull within their herd.

### **BIRTH WEIGHTS/CALVING EASE:**

We scored for calving ease with our three star (\*) scoring system. Three stars (\*\*\*) indicates that a particular bull can be used on heifers under standard conditions with little or no calving difficulty. Two stars (\*\*) indicates that a particular bull should be used on growthy heifers or cows under standard conditions with little or no difficulty. One star (\*) indicates that a particular bull should be used on cows under standard

conditions with little or no difficulty. This recommendation is a system we use to help our customers with calving ease selections. Birth weights are highly affected by environmental factors. Research has indicated that the inclusion of corn in cow diets will increase BW. Also contributing to higher BW were cold temperatures. The University of Nebraska conducted a three-year study to research and evaluate effects of high and low temperatures during winter months on calves out of 384 two-year-old heifers. Average BW increased by 11 lbs. when temperatures were colder. The results agree with other studies comparing calves born in the southern US to calves born in the northern US. Weather plays an important role in BW and calving difficulty. We have adjusted the calving ease scores accordingly, taking into consideration what the calf ratioed on BW, pedigree and CE EPD, BW EPD and Genomic data.

### **FEEDING:**

Feeding arrangements are available on all yearling lots and will be fed at a charge of \$3.50 per day. We will feed your purchases from sale day until you are ready to pick them up, or we will deliver them.

### **BREEDING SOUNDNESS EVALUATION:**

Breeding soundness screenings will be performed in November before the sale. We fully guarantee that these bulls will pass the breeding soundness evaluation before the breeding season in 2018 if the bulls are managed properly. Part of being maintained properly means being on a plan of nutrition where bulls maintain or gain weight. The bulls will be weighed the week prior to the sale when the breeding soundness evaluation is done. We recommend that all bulls tested in this sale be tested 4 to 6 weeks prior to your breeding season. Our guarantee will require that the bull weigh the same or more than when we did the breeding soundness evaluation in November 2017. We ask for your understanding if a bull does not pass. Sometimes bulls that have passed do not pass later for various reasons. We will do our best to make sure you are satisfied. Keep in mind that the development of any bull is inhibited by inadequate nutrition. If you have any questions regarding breeding soundness evaluation, feel free to call Craig or Dr. Dean Christensen at the Ashley Vet Clinic.

### **WEIGHTS:**

Birth weights, weaning weights, yearling weights, and all other measurements are taken at appropriate times to produce sound and accurate comparisons within contemporary groups. We group our Red Angus calves based on the age of our cows. Calves out of two-year-old dams, three-year-old dams, and the main cowherd are all separate management groups and therefore are separate contemporary groups. Embryo transplant calves are contemporaried in the groups they are weaned with.

### **WEANING WEIGHTS:**

All naturally born calves at Bieber Red Angus Ranch are raised without creep. We feel that this helps us select and breed for dams that have milking ability and sound udders. ET calves are on creep feed to express their full genetic potential.

### **INSURANCE:**

Livestock insurance will be available on sale day. Please see information in catalog.

# SALE INFORMATION

## **AIR TRANSPORTATION:**

Aberdeen is serviced by Delta Airlines. Watertown and Pierre are serviced by Great Lakes Airlines which is affiliated with United and Frontier airlines.

## **INTERNET & ABSENTEE BIDDING:**

We would prefer for each of you to be in attendance on sale day. Realistically, we know that there will be some scheduling conflicts and distance limitations. In these cases we have arranged for you to be able to participate in the sale on an absentee basis with a conference call dedicated to bidding. We will have one phone line available and can accommodate 20 to 30 bidders. Please call prior to the sale and register as a prospective buyer. We have limited capabilities to bid by phone during the sale. Your best option is to be in attendance at the sale, but if you cannot attend or feel more comfortable bidding yourself, we need to warn you of complications in the past with phone service such as the volume and the rapid pace at which our sale moves. If we handle the bids for you, they will be done in the strictest of confidence. However, if you want to attempt bidding by phone, please make arrangements prior to sale day by calling Craig or Peggy. For internet bidding information, see DVAuction below.

If you are unable to attend and you feel comfortable doing so, you can leave those bids with the Bieber family, Auctioneer, or publication representatives. We handle many sight unseen bids and have very satisfied customers who feel confident in using that service. We prefer to have plenty of time to discuss your needs over the phone prior to sale day so that we may select the cattle that best fit your specs. We buy those animals just like you were sitting ringside with us. We also guarantee the cattle so that if they don't meet your ideals, you just return them to us. If possible, come by and evaluate the offering prior to sale day. We will post video of each lot on our website prior to the sale but may run into time limitations.

## **COLOR:**

All animals are red unless otherwise indicated in the footnotes.

## **FOLLOWING SALE:**

Everyone is invited to dinner at Ron and Lois's after the sale. We will be serving Strip Loin cooked by our friend and partner Stu Campbell.

## **BREEDING DATA ON BRED FEMALES:**

Breeding data on bred females is verified by ultrasound. The sex of the pregnancy and the date of calving is verified by ultrasound and is an estimate. Many years of ultrasound data has proven it is 99% accurate. This data is verified to the best of the veterinarian's ability depending on the embryo age. Some bred females have two sires too close to call by ultrasound and when that happens we have indicated that DNA will be necessary to determine the sire of the calf. Sometimes the birthdate clarifies the sire, but DNA is always recommended.

## **UPDATED INFORMATION:**

Scrotals and weights on all bulls will be available the week before the sale on our website or upon request. All other data not provided will be available upon request.

## **GAIN TESTING:**

The summer born bulls were weaned October 2016 and yearling weights were taken on May 2017. All of the summer born bulls were placed on feed in preparation for the sale September 6, 2017.

**SALE ORDER:** The sale order will be Registered Females, in lot order, Commercial Females and then Bulls in lot order.

**SIGHT UNSEEN:** If you are unable to attend we encourage you to contact us or one of the buyer representatives. We have handled many sight unseen bids and guarantee your satisfaction as long as you visit with us to make sure the cattle you select meet your standards. We would prefer to have plenty of time to discuss your needs over the phone prior to sale day. If the cattle don't meet with your approval the cattle will need to be returned to us.

**DVAuction**  
Broadcasting Real-Time Auctions

We are pleased to offer the Bieber Red Angus Sale broadcast "live" over the internet through DVAuction Services. To bid from your computer at home during the sale, complete this simple two step process.

- Visit the DVAuction web site at [www.dvauction.com](http://www.dvauction.com) or call (402)474-5557. Register by entering a User Name and Password. Then enter your personal information on the next screen.
- Click on "Apply for Bidding." Select the Bieber Red Angus Sale from the list of sales and click "Apply." Complete the process by filling out the Banking and Lending information requested.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home. We will also provide you with a buyer number for the sale.

After the sale Bieber Red Angus will contact you to make arrangements for payment and delivery of your online purchases.

Please Note: You must have high speed internet access (DSL, T-1, or Broadband) to be able to bid during the sale. Any questions, please contact DVAuction at (402)-474-5557 or e-mail [support@dvauction.com](mailto:support@dvauction.com). We recommend that you register by November 8, 2017 for online bidding. Every attempt will be made to complete your application even if it is on sale day.

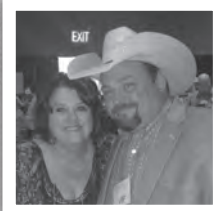

# MEET THE PEOPLE OF

## Bieber Red Angus

**Ron Bieber:** Founder of BRAR. Range, pasture and alfalfa specialist, and cattle breeding.

**Lois Bieber:** Co-Founder of BRAR. Responsible for the sale meals and hospitality. Oversees all ranch activities.

**Craig Bieber:** CEO of Bieber Red Angus Ranch, handles all ranch activities

**Peggy Bieber:** Craig's partner and now full time office staff, handles all bookkeeping, cattle records, and clerks the sale.

**Craig Howard:** Cowboss, Handles day to day operations at BRAR. AI technician, welder and equipment repairman.

**Lindley Harrington Howard:** Social media manager at BRAR. Past summer intern and day help hand. Helps clerk the sale. Craig Howard's wife and mother of Cayson.

**Cayson Howard:** Son of Craig and Lindley Howard. Future ranch hand.

**Tom Churchwell:** General ranch duties, light mechanics, handles all cattle feeding.

**Frankie Churchwell:** Wife of Tom Churchwell. Keeps the guys happy with her caramel rolls. Helps at sale.

**Dillon Spurr:** Herdsman, calving, feeding, general ranch duties.

**Rod Klarenbeek.** General ranch duties, light mechanics, helps with the feeding.

**Jared Schaefer:** Night calver and day help.

**Eric Payne:** Day help hand. Eric and Megan are now living in Aberdeen and he sells insurance. Check the ad in the catalog for more information!

**Megan Payne:** Day help hand. Helps clerk the sale. Eric's wife.

**Presley Lynn Payne:** Loves to check cows with Grandpa and bake anything with Grandma. Daughter of Eric and Megan Payne.

**Kylie Jo Payne:** Daughter of Eric and Megan Payne. Works hard at keeping up with her big sister!

**Kristin Harms:** Office/all-around assistant. Helps clerk the sale. Recently moved back to the ranch and will give us our newest grandchild in February!

**Jake Harms:** Recently joined our staff in April. Ranch hand and all around help. Soon to be father!

**Bieber Red Angus Interns:** We have always believed that experience is the best teacher and in our internship program we look for individuals that help us through some of the more intensive times like calving and breeding. We look for a "can do" attitude and a commitment to the beef business. We are always looking for opportunities to share our operation with young people interested in the seedstock business. You may have seen some of these interns in the past year.

# RED ANGUS SPRING BRED COWS

## About the Spring Bred Cows.

We sell bred cows every year and always get the same question - why? There are several reasons for this decision and the first is cash flow. We run a comprehensive business and have to convert some females to cash. We breed 450 to 500 heifers every year. With 130 bred heifers in the sale, that means we still have roughly 300 that we will calve next year and we aren't able to add acres at will, so some cows have to go. We also sell the 7-year-old cows and those cows that are due toward the end of our calving period to shorten up the calving season. This year that means we are selling all the cows bred after April 1, but that can change based on our herd inventory number. Additionally, we have some cows that our children and staff choose to sell because they are limited in the number of cattle they can run.

Herdbuilder	135	Gridmaster		56								
% Rank	10%	% Rank		1%								

Bull calf due 1/20/2018 sired by PIE STOCKMAN 4051.

Lot 1 has been in our ET program the last couple of years. She is bred to Stockman 4051 and comes from the same cowline that produced Hard Drive, Deep End and Gladiator. The Laura cowline has produced some great progeny and this cow is right at the top of the list. Let us know if you can find another cow that is in the top 20% of the breed on so many traits. Her leading son is ForFront, who we co-own with Pieper Red Angus. The calf she is carrying is likely going to be a useful breeding animal. This lot has a bit of a hitch in her rear hip and she sells as is. Anyone wanting a good donor should take a look at her, as she is one of the top to be sold in the breed this year.

## 3 BIEBER ADELLE 297Y

Heifer calf due 5/10/2018 sired by BIEBER GLADIATOR C386.

Lot 3 comes from Craig and Lindley Howard. She is a maternal sib to Makin Hay 9913 and Rough Rider 10712, two sires who moved our program ahead quickly in the late 2000s. Her future impact is just coming of age, with several ET sons and daughters in the sale and in production. Lot 3 has three sons selling as lots 352, 357, and 364. The Adelle cowline has been a great one, so don't miss her if you are looking for a proven donor.

Unsexed calf due 4/17/2018 sired by BIEBER GLADIATOR C386.

We flushed this cow with our son Eric and his family, and we have been weaning some impressive progeny this fall. The Belga cowline originally came from BootJack, but we had a daughter that was purchased by Oates Land and Cattle. In their dispersal, Eric bought this cow's dam. Lot 2 will have many progeny in the coming years and the new owner will not be disappointed.

Bull calf due 5/11/2018 sired by BIEBER MITIGATOR C314.

It's not every day that you have the opportunity to purchase a donor who has a bull already in a bull stud. This matron is the dam of Bieber CL Atomic C218, who is poised to be next year's premier heifer bull at Select Sires since they have acquired Accelerated Genetics. Just like lot 3, we have a nice group of progeny coming from lot 4 in the next couple of years and we expect her future impact to be extremely positive for us and her new owner.

# RED ANGUS SPRING BRED COWS

## 5 BIEBER LAURA 214X

Born: 03-28-2010 Reg: 1374671 100% AR

BASIN TREND SETTER 6074

The Ole 903 daughters are great cows and lot 6 has been proving why. Her first three calves are working at the Harrison Ranch in SD, Scott Cure in KS, and Price Ranch in CO. These are all very selective customers, and that is one of the reasons we decided she should be in our flush program. You are going to have a hard time finding a donor with this kind of data and a production record to back it up.

This cow may offer the most Bieber bred pedigree in the sale. She goes back seven generations on both maternal sides with Bieber or RAB in the prefix. One of Ron's favorite cows was in the Kanna line, and just like her they are high capacity forage converters. This cowline has been around longer than Eric and Kristin, but even they got in on the Kanna legacy as Kristin's first show heifer was this cow's granddam.

Unsexed calf due 3/6/2018 sired by EEC ROCK A063C.

Lot 9 will start the bred heifer offering and whew - what a way to start! The Enchantress cow line has always done a great job, and lot 9's dam has been a part of our ET program. Lot 358 is a full brother. Next spring, she will have an easy calving Rock A063C calf that will likely impress any offering. We hate to sell a heifer like this, but we can only keep so many. Lot 9 presents an opportunity for her new owner to get off to a great start.

Unsexed calf due 2/6/2018 sired by BIEBER LB MITIGATOR C314.

Craig and Lindley Howard have decided to sell lot 10. Heifers like this one are what make this offering top-notch. Lot 10 is in the top 9% for HB and top 15% for GM, which is not something you can buy every day. The Howard's have a limit on the number of females they can run, so they have made the difficult decision to sell this lot and miss out on her future progeny. Her dam, Dateline 109A, was flushed in our ET program and then sold to the Henke Family in our Red Stock sale in MO last spring.

We are starting the Spring bred cows with a cow that could start any sale in the country. Lot 134 is in the top 1% for both HerdBuilder and GridMaster. Her average WW ratio on three calves thus far is 107. She bred a little late for us this year, but she would be an asset to any donor program.

Unsexed calf due 4/12/2018 sired by GMRA TRINITY 5222.

Lot 135 is a calf raising machine - she has seven calves to her record. She has had two sets of twins, with one of those sets being two heifers that were put back into the herd. She has recorded a 105 WW ratio average. It is easy to like her because of her volume and thickness.

# BIEBER RED ANGUS COMMERCIAL BRED HEIFERS

Once again, Bieber Red Angus Ranch is offering several groups of commercial bred heifers from our customers' operations. These heifers will be sorted into uniform calving groups and sold in sets of five or ten. Each lot description identifies how that lot will be sold. While some lots will be on display at the ranch, video will be available for all commercial lots on our website at least ten days prior to the sale. Please feel free to contact the producer at any time with questions.

**Lots 339A, 339B, 339C, 339D, 339E, 339F, 339G, 339H, 339I, 339J, 339K, 339L, 339M, 339N, 339O, 339P, 339Q, 339R, 339S, 339T**  
**100 Head of Red Angus Heifers**

**Mark Gross in Bridgewater, SD – (605) 366-3068**

This is a solid group of home raised heifers that have been managed by Bieber Red Angus this summer. They are due March 10, and have been AI bred to Bieber Driven C540, a leading Hard Drive son. Mark has used Bieber Red Angus's expertise in selecting bulls, females, and AI recommendations since 2003.

These heifers will be sorted into uniform calving groups and sold in sets of five or more. Five heifers will be tagged with the first lot and consecutively with every five after that. They will sell in lot tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first five and as many as they want within that lot in increments of five at that price. Video will be available through our website ten days prior to the sale.

**Lot 340, 341, 342, 343, 344, 345, 346, 347**

**40 Head of Red Angus Heifers**

**Pearl Creek Cattle Company in Cavour, SD – Ben Miner (605) 354-1026 and Donnie Miner (605) 354-7070**

These are home raised heifers that have been AI bred to Bieber Spartcaus A193 and cleaned up with two Hard Drive sons. The heifers will calve February 21 through March 15. The Miners have been using Bieber Red Angus bulls since 1999.

These heifers will be sorted into uniform calving groups and sold in sets of five or more. Five heifers will be tagged with the first lot and consecutively with every five after that. They will sell in lot tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first five and as many as they want within that lot in increments of five at that price. Video will be available through our website ten days prior to the sale.

**Lot 348**

**50 Head of Red Angus Heifers**

**Wade Moser in Bismarck, ND – (701) 226-4269**

These heifers are sourced from North Dakota by Wade Moser from leading producers and may have a small percentage of Simmental. They are AI bred to LJC Merlin 937Z and will calve March 2. Ultrasound information including calf sex will be made available to the buyer to help in their selection.

This group of heifers will not be at the ranch and will sell on video. The buyer will need to go to Wade Moser's ranch near Bismarck, ND within ten days of the sale and select these heifers out of 60 head. Video will be available on our website.

These heifers will sell in increments of ten. The winning bidder will have their choice of the heifers and be able to select 10, 20, 30, 40 or 50 head. If the first winning bidder takes any increment under 50, we will then proceed to auction off the remaining heifers in increments of ten until all 50 are sold.

**Lot 349**

**45 Head of Red Angus Heifers**

**Peterson Farms in Salem, SD – Drew Peterson (605) 530-6248, Steve Peterson (605) 530-6246, or Kent Peterson (605) 530-6245**

These heifers are bull bred to Bieber calving ease sires and will calve March 12 through March 30. The heifers are solid red, home-raised and Red Angus certified and the buyer will have the choice to select 45 heifers from a group of 80 head.

This group of heifers will not be at the ranch and will sell on video. The buyer will need to go to Peterson Farms in Salem, SD within ten days of the sale and select these heifers out of 80 head. Video will be available on our website.

# Red Angus Guide to EPDs

**HB** ..... HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

**GM** ..... GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

**CED** ..... Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

**BW**..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

**WW** ..... Weaning Weight and **YW** .... Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

**Milk** .... Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

**ME** ..... Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

**HPG**..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

**CEM** .... Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

**STAY**.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

**MARB** .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

**YG** ..... Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

**CW**..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

**REA** ..... Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

**FAT** ..... Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

**Ranch Tested. Rancher Trusted.**

# Red Angus

# SUMMER BRED COWS

## May/June Bred Cows

We sell bred cows every year and always get the same question - why? There are several reasons for this decision and the first is cash flow. We run a comprehensive business and have to convert some females to cash. We breed 450 to 500 heifers every year. With 130 bred heifers in the sale, that means we still have roughly 300 that we will calve next year and we aren't able to add acres at will, so some cows have to go. We also sell the 7-year-old cows and those cows that are due toward the end of our calving period to shorten up the calving season. This year that means we are selling all the May/June cows due after June 1, but that can change based on our herd inventory number. Additionally, we have some cows that our children and staff choose to sell because they are limited in the number of cattle they can run.

Unsexed calf due 6/11/2018 sired by GMRA TRINITY 5222.

# BIEBER RED ANGUS BULL DEVELOPMENT

At Bieber Red Angus, we have learned a lot in 49 years of producing the type of bulls customers come back for year after year. Stacking the right genetics to produce efficient and profitable cattle has always been the Bieber way, but the truth is there is a lot more to it than mating the right cows to the right bulls.

Developing bulls is 1/3 skill, 1/3 science and 1/3 art. If you feed too much, the cattle will get fat and will not hold up for our customers. If you feed too little, you can miss out on a bull expressing his full genetic potential. Every year we have customers tell us how our bulls stand up better compared to bulls from other breeders. We are very proud of the longevity these bulls have under reasonable conditions.

Our development program is designed to accomplish three goals: 1) feed at a moderate rate of growth to the point of full genetic expression, 2) develop bulls in a management program we believe is similar to how our customers will manage their calves and 3) use feed-stuffs raised on our ranch that are similar to what we feel our customers will have access to.

The program starts them on a high roughage diet (44-Mcal) for the first 45 days to allow calves a low-stress introduction to bunk feeding and diet change and to establish a pecking order. The performance targets for this receiving phase are expected to be 1.5 to 2 pounds of average daily gain (ADG). We feel that the receiving phase is the most important part of our development program because it prepares the rumen flora to handle diets with increasing amounts of energy.

After the initial receiving phase, the goal of the program is to slowly increase diet energy to properly develop muscle density and marbling deposition while maintaining sound structural and physiological development. At this point, bulls are stepped up to a 48-Mcal diet for three weeks and then a 52-Mcal diet for three weeks with a performance target of 2.25 to 2.7 pounds ADG.

The final stage of the program is to bring bulls to full genetic expression and reach a working level of body condition on a 57-Mcal diet with performance target of 3.2 to 3.5 pounds ADG. This allows us to bring the customer that high-performance, stylish bull that the Bieber brand is known for.

After the collection of carcass scan data, the bulls are moved back down to the 48-Mcal diet and kept in a "holding pattern" through the sale until delivery. When you look through the catalog you will see many bulls gaining between 3 and 4 pounds per day. These bulls are not underfed; yet when you walk through the pens on sale day these bulls are not fat either. With 47 years of experience, we have found that elusive balance that so many others seek to find. We can talk about genetics all day, but if the bulls are overfed they just won't stand up in the long run.

The truth is it just makes sense to buy 49 years worth of experience. If you have questions concerning our bull development program, contact Craig or our consulting nutritionist Eric Mousel of High Plains Ranch Management Services (605)690-4974.

This bull stacks up to some of the very best cattle in our herd. Lot 350 has the great Tilly cowline behind him and his dam, 233U, is also the dam of our herd sire Spartacus A193. Last year, 233U produced 45 calves through embryo transplant, and she was later purchased by Bradbury Land and Cattle in the fall. This bull's sire, Hard Drive, has been doing an outstanding job in our herd. Of his progeny, Lot 350 really gets it done with data in the top 2% for marbling, the top 1% for REA, and the top 5% for growth. If you are looking for profitable feeder cattle, this bull knocks it out of the park. His full brothers sell as lots 359, 401, and 444. Maternal brothers sell as lots 373, 387, 389, and 391.

Lot 352 is a full brother to last year's high seller and his famed cowline, Adelle, is one that continues to impress us. Our cowboss, Craig, took a chance and invested in this dam as a heifer. She has been a great matron and has been flushed for both CL Red Angus (Craig and Lindley Howard) and Bieber Red Angus. This bull's data makes him a calving ease specialist, but his growth and maternal numbers will have you utilizing him long after his useful life as a heifer bull. Lot 352 has full brothers selling as lots 357 and 364.

As we continue to plan for the future, one of our goals has always been to bring some of the best bulls to our customers through the use of technology. Embryo transplant technology was one that was easily adopted and increases the quality of every animal we bring forward. Lot 356 is a perfect example of the consistency that ET technology offers. Adelle 311Y has an excellent group of progeny coming the next few years. We should also repeat that his sire has done an excellent job, but it's starting to sound like a broken record. This bull combines data just like his sire making it pretty tough to go wrong. Full brothers sell as lots 360 and 419.

This bull comes from an excellent dam, 150Y, that we utilize in our ET program. He is the first ET son to sell, but her progeny are regularly at the front end of the order. Her first son sold to one of our long-time customers, Larry Harrison. Larry passed away in August, and throughout his life he put together a great cowherd and a reputation for outstanding calves. Lot 358 is exactly the kind of bull that fits in at Harrison Ranch!

Lot 363 is a natural calf that comes from a dam produced through the ET program. This lot leads the depth chart on Herdbuilder and for good reason. The Hughes daughters are good and with over 40 of them in our herd, we know this data is no accident. If you are looking for well tested, profitable genetics, the Bieber program is one that will put you ahead.

# The Rancher's Guide to 50K

**Bull selection is one of the most significant decisions ranchers make in terms of influencing the overall profitability of their operations; therefore, Red Angus strives to deliver reliable genetic predictions to stakeholders to ensure producers are making the most informed decisions possible in pursuit of production goals.**

For years, ranchers utilizing Red Angus EPDs (Expected Progeny Differences) in their selection decisions have enjoyed the built-in reliability and risk reduction provided through the breed's early adoption of Total Herd Reporting (THR) data. To further advance EPD accuracy and reliability, Red Angus can now incorporate 50K genomic data.

For generations, animal breeders have relied on phenotypic measurements to determine what the animal possesses at the gene level. Now, with the inclusion of 50K genomic data, we can actually measure the impact of identified gene effects before the weight or measurement is ever recorded.

## **Red Angus' new 50K test proves to be a game changer.**

- **Ensure your yearling heifer bulls are "calving-ease specialists."**
- **Confirm your cowherd-building bulls have optimal genes for maternal traits.**
- **Make certain your carcass bulls are superior grid producers.**

Information gained from 50K genomic data and Total Herd Reporting data provides Red Angus stakeholders' EPDs with unsurpassed reliability.

Rollin Deep Y118 is a powerful sire that does cowman things right. His pedigree is well known for producing power cattle with exceptional feet, udders, and fleshing ability. His sire, Bieber Roosevelt, has become popular with our commercial customers for producing thick cattle with great dispositions. Rollin Deep Y118 is the kind of bull that can leave a positive impact on the breed for years to come. This past year we bred over 150 daughters to this sire, as he produces progeny that are balanced with the ability to flesh, breed back, stay sound and be productive for the long haul. We have always believed that through focused selection you can breed cattle that have it all and every year we feel we are getting closer. This bull has been widely used with over 1000 progeny registered with the RAA. Breeders report outstanding results with great success. Semen availability is very limited.

Lets Roll is one of the leading sons of Rollin Deep and Basin Primrose 2043, one of our favorite donors. Primrose 2043 has over 100 progeny to her credit and countless daughters that have been flushed as well. She has produced nine sons that are used in registered herds with 20 or more progeny, and she has twice as many daughters that are donors. This son is one we have identified to use in our program and we have been extremely impressed with the results. We are selling his service, and he has been used extensively this year. The progeny he has produced are turning heads and we have no doubt that this is just the front end of what he can do. Semen is available through Bieber Red Angus.

Mitigator has seen good use the past couple years and has progeny that we have been impressed with. We sold several cows bred to him last year, and before we could even get excited about the calves, customers started calling about semen availability. Mitigator's calves are thick topped and even easier to find. We generally wait for the first run of the National Cattle Evaluation(NCE) before we promote a bull, but Mitigator is easy to like after evaluating his progeny.

Hard Drive Y120 has been a fundamental sire for us the past several years. The replacement heifers we bred this past spring had a large representation of daughters sired by Hard Drive. Visitors to our ranch have all noticed our Hard Drive daughters and the comments have been outstanding. We weaned calves off around 60 daughters and they are averaging 98 BW ratio and 101 WW ratio. The daughters we have calved to this point are spot on with great udders and we expect their progeny's growth will push to the top. Hard Drive is no longer producing freezable semen, so we have been sampling sons to take his place and move our program forward. We would be amiss if we didn't mention that the disposition on these Hard Drive progeny is excellent. The data is hard to match. Semen is rare at this point, so if you locate any you need to get it in your females.

This is one of the first Hard Drive sons we have sampled. Driven C540 was purchased by Sam Twedt in 2016. Both of our programs have used this sire and we agree that we like what we see. High Noon daughters have done an outstanding job. We flushed Joan 309Y and have several siblings to Driven that are very impressive. We look forward to seeing more progeny in the future.

Spartacus was a crowd favorite in our 2014 spring production sale, selling to Accelerated Genetics and Jefferies Land and Cattle. He is a great disposition bull stacked for profit. Powerfully made and very stout boned, Spartacus was heavily used in our program and is a complete bull with outstanding data that leaves a breeding program in a very good position going forward. Semen is available through Accelerated Genetics and Select Sires.

Atomic is a sire with explosive growth potential. He combines calving ease, performance, and carcass and is an outcross to most Red Angus pedigrees. We used him on a limited basis in 2016 and heavily in 2017. Semen Available through Accelerated Genetics.

We found Proud at Ludvigson's Herdbuilder sale in 2016 and used him as cleanup the past two years. Proud is easy fleshing and came through breeding season in great shape. Proud offers a changeup in pedigree for us and with data like his, it's easy to like what he has produced.

We purchased Rock in 2017 to cleanup on heifers. We have been very happy with the calving ease. The Rock is a high libido bull and covered females well in 2016 and 2017.

Forefront B281 originally sold to Wagonhound Livestock. We really liked his dam and decided we wanted to use him, so we called Cory at Wagonhound and found out that Tate Pieper bought him after the first breeding season. We have both had calves in 2017 and with the carcass data he has posted, we expect that his sons will be in high demand in our 2018 spring sale.

%Rank		1%	%Rank	1%								

Lot 1 has been a standout since he was born. His dam is one of Gene Brouse's, very best cows, posting average progeny ratios of WW 110 and IMR 137. Lot 1 is in the top 1% for both of the new indexes and posts some data that is really hard to match. His sire has been making us take notice and we like what we see in his calves. Overload is going to turn some heads on sale day.

1. **Lot Number** - This is the lot number of the animal. Cattle will have a white tag that will correspond to that number. Generally cattle will sell in lot number order.

2. **Name** - This is the registered name of the animal. Generally we name bulls after the sire and females after the dam.

3. **Born** - This is the birth date of the animal.

4. **Reg** - This is the Registration number of the animal. All Red Angus animals can be looked up on the Red Angus website at [www.redangus.org](http://www.redangus.org) by going to the animal search page and using this registration number.

5. **Breed** - This area has the breed composition and category as determined by the Red Angus Association of America. Breed Codes are AR=Red Angus SM=Simmental XX=Unknown. The Unknown cattle are largely cattle where we couldn't prove percentages of parents on the Durheim herd. That unknown breed is either Simmental or Red Angus in the Durheim foundation cattle.

- AR = RED ANGUS
- SM = SIMMENTAL
- UKN = UNKNOWN

6. **Category**

- 1A=100% Red Angus with no disqualifying features
- 1B=87% to 99.9% Red Angus with no disqualifying features
- II = Equal to or greater than 87% up to and including 100% Angus blood content having one or more disqualifying characteristics. Disqualifying Features include scurs or horns, ineligible white, black pigment, progeny of multiple sire groups, and missing birth date, or weaning weight and date
- III=Less than 87% Angus blood content

7. **Sire** - Sire of the animal

8. **Paternal Grand Sire** - Sire of the Sire

9. **Paternal Grand Dam** - Dam of the Sire

10. **Dam** - Dam of the animal

11. **Maternal Grand Sire** - Sire of the Dam

12. **Maternal Grand Dam** - Dam of the Dam

13. **MPPA** - Most Probable Producing Ability -- An estimate of a cow's future productivity for a trait (such as progeny weaning weight ratio) based on her past productivity. For example, a cow's MPPA for weaning ratio is calculated from the cow's average progeny weaning ratio, the number of her progeny with weaning record, and the repeatability of weaning weight.

14. **AoD** - Age of Dam at the time of weaning the progeny.

15. **ADG** - Average Daily Gain -- Measurement of daily body weight change over a specified period of time of an animal on a feed test.

16. **ADG Ratio** - Average Daily Gain Ratio - The ratio of the animal within its contemporary group. ET and Twins will be marked with a TW and ET. These

animals have no contemporary group.

17. **WDA** - Weight Per Day of Age -- Weight of an individual divided by days of age

18. **WDA Ratio** - Weight Per Day of Age Ratio -- Weight of an individual divided by days of age, ET and Twins will be marked with a TW and ET. These animals have no contemporary group.

19. **AScr.** - Adjusted Scrotal Circumference--A measure of testes size obtained by measuring the distance around the testicles in the scrotum with a circular tape. Related to semen-producing capacity and is adjusted to Yearling age. Actual Scrotal Measurement are provided on a supplement sheet one week prior to the sale and at the sale.

20. **CE** - Calving Ease Score -- This is our recommendation for CE based upon the data and the pedigree. \*\*\* = Use on heifers. Expect less calving difficulty. \*\* = Use on growing heifers and cows. Expect moderate calving difficulty on heifers and very little difficulty on cows. \* = Use on cows. Expect difficulty on heifers and some to very little calving difficulty on cows.

21. **Grw. Sc.** - Growth Score -- This is our recommendation for growth based upon the data and the pedigree. G 6 = maximum growth rating, G 5 = high growth rating, G 4 = moderately high growth rating, G 3 = average growth rating, G 2 = below average growth rating, G 1 = low growth rating.

22. **DNA** - Test ran on this animal.

23. **EPD** - Expected Progeny Difference -- The difference in expected performance of future progeny of an individual, compared with expected performance of future progeny of an individual of average genetic merit in the base time frame for the genetic evaluation. EPDs are estimated from phenotypic merit of an individual and all of its relatives and are estimates of one-half the breeding values. EPDs are generally reported in units of measurement for the trait (e.g., lb., in., etc.).

acc - Accuracy -- A measure of the reliability of an EPD. Accuracy values are reported as decimal numbers between zero and one. Values closer to one indicate larger amounts of available information and greater certainty that a bull's EPDs will not change significantly as more progeny information becomes available. Bieber Red Angus reports the accuracy values for sires since they have high accuracies. EPDs are a more reliable estimate of performance than weight, ratios or other measurements. Understanding ACCURACY. Red Angus EPDs are often presented with a corresponding accuracy value, which measures the strength of the relationship between the genetic prediction (EPD) and true genetic value. As accuracy value approaches 1.0, the EPD is "accurately" or closely estimating the true genetic merit of an animal for a given trait. Although low-accuracy EPDs are less reliable when compared to those of proven sires, independent research demonstrates EPDs to be the most meaningful indicator of animals' true genetic merit. While "perfect" accuracies of 1.0, are never achieved, many heavily used Red Angus sires have accuracies greater than 0.9 (some as high as .99).

24. **%Rank** - This is the percentage rank of the EPD within the type of animal. Rank groups are Proven and Opportunity Sires, Active Dams, and Non Proven under Two Years of Age.

25. **Wts** - Weight--The weight for that trait in that column adjusted to a constant days of age by Red Angus Association and Beef Improvement standards.

26. **Ratio** - Ratio--The ratio for that trait in that column within its contemporary group. ET and Twins will be marked with a TW and ET and have no contemporary group.

27. **CED** - Calving Ease Direct - predicts the probability of calves being born unassisted out of 2-year-old heifers. Producers want live calves - born unassisted. Selecting on actual birth weight is flawed; it is influenced by non-genetic factors such as nutrition and weather (ambient temperature). While BW EPD removes these non-genetic factors, Red Angus' CED EPD is the best predictor of calving ease. The CED EPD includes variation in BW plus other influential genetic factors such as gestation length, calf shape, etc.

28. **Birth Weight EPD** - predicts the difference, in pounds, for birth weight, and is also used in the calculation of Red Angus' Calving Ease Direct (CED) EPD.

**BW** - Birth Weight (BW) -- The actual weight in pounds at birth.

29. **Weaning Weight EPD** - predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age). This is an indicator of growth from birth to weaning.

**WW** - Weaning Weight-- The 205 adjusted weight. This is an indicator of growth up to weaning.

30. **Yearling Weight EPD** - predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This is an indicator of growth from birth to yearling.

**YW** - Yearling Weight --The 365 adjusted weight. This is a measure of growth from birth to yearling.

31. **Milk EPD** - (MILK) predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.

32. **ME** - Maintenance Energy - predicts differences in daughters' maintenance energy requirements and is expressed in Meal/Month. Recognizing that 70% of cow herd feed costs are burned up in maintaining weight and condition, Red Angus' ME EPD allows for the selection of bulls whose daughters will require less feed; thus, reducing cowherd expenses. Include selection pressure for ME EPD to ensure feed costs don't get out of line when selection is made for greater performance and production. At Bieber Red Angus we collect cow weight at weaning time to ensure greater accuracy of this EPD.

33. **HPG** - Heifer Pregnancy - predicts the probability of heifers conceiving to calve at two years of age. Many breeds offer genetic predictions of yearling

bull scrotal circumference as an indicator of age of puberty. While puberty is a prerequisite, many factors influence pregnancy rate. Red Angus' HPG EPD offers a tool which selects for what is economically relevant to ranchers - pregnant heifers. At Bieber Red Angus we submit all heifer breeding data to ensure the accuracy of this EPD.

34. **CEM** - Calving Ease Maternal (CEM) - predicts the probability of a given animal's daughters calving unassisted at two years of age. Replacement heifers should be able to calve on their own. Red Angus' CEM EPD offers the industry's most reliable prediction to address that concern. It includes not only the predisposition for a female to calve unassisted, but also her contribution to her calf's traits (birth weight, calf shape, etc.) that make it more likely to be born unassisted.

35. **STAY** - Stayability (STAY) - predicts the probability of a bull's daughters remaining productive until at least six years of age. Why six? That's how long it takes a female to breakeven given all the expenses of development.

36. **MARB** - Marbling Score - predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

37. **REA** - Rib Eye Area - predicts differences of carcass Rib Eye Area between the 12th and 13th rib. Increased Rib Eye Area has a beneficial effect on Yield Grade which also includes Carcass Weight and Fat Thickness.

38. **FAT** - 12th Rib Fat Thickness - predicts differences for carcass fat depth over the 12th rib, as expressed in inches. Increases in fat thickness have a detrimental effect on Yield Grade. Fat thickness measured in young seedstock may be an indicator of fleshing ability.

39. **HerdBuilder Index**  
As the name indicates, implementation of the HerdBuilder Index will assist producers in building profitable herds. The HerdBuilder Index is built using the following production scenario:  
• Red Angus bulls mated to cows and heifers (resulting progeny ¾ Red Angus, ¼ Simmental)  
• Replacement heifers retained from within the herd  
• All remaining progeny sold on a quality-based carcass grid.

40. **GridMaster Index**  
While Red Angus has traditionally been known as a superior maternal breed, those who have retained ownership in Red Angus calves know of their potential to excel in the feedyard and ultimately hang a premium carcass. The GridMaster Index is built using the following production scenario:  
• Red Angus bulls mated to cows (resulting progeny ¾ Red Angus, ¼ Simmental)  
• All progeny sold on a quality-based carcass grid.

41. **Footnote** - This is information we would like to point out about the lot. It may contain breeding information on bred cattle.

# TERMS AND CONDITIONS

*The Red Angus Assn. Terms and Conditions will apply if the terms and conditions printed here are not applicable.*

**BIDDING DISPUTES:** The auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

**TERMS:** The terms of the sale are cash; the right of property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the ranch.

**RETAINED INTEREST:** We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value on these bulls. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 100% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch interest then becomes in herd use only, but Bieber Red Angus Ranch retains all rights to use the bull within their herd.

**SEMEN RIGHTS:** Buyers receive semen rights proportional to the interest purchased. If you purchase a 1/2 interest, then you are entitled to 1/2 of the semen collections at cost provided that you indicate you want semen prior to collection. We intend to collect some of the bulls in the sale and sample them in our herd. We will cooperate with the buyer in collection of the bull. We prefer to collect most bulls after the first season of use and we will contact the buyer when we intend to collect the bull at a time convenient for the buyer.

**PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be fed, watered and cared for at the purchaser's risk for a reasonable time.

**CERTIFICATE OF REGISTRY:** A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.

**HEALTH:** All cattle will have official health certificates and will sell guaranteed exported to Canada. Canadian health certificates will be charged at cost on animals selling under \$4000.

**ANNOUNCEMENTS:** Changes of information contained in this catalog relating to the animals offered for the sale will be announced from the auction box and such announcements shall take precedence. Errors discovered in the catalog will be corrected by announcements at sale time, and such corrections will take precedence over the printed matter in this catalog.

**BREEDER'S GUARANTEE:** 1. All animals are guaranteed breeders, with the exception of: a) calves under twelve months of age; b) animals shown by Purchaser after sale (in cases of animals shown after purchase, the breeding guarantee, if any, shall be such as agreed upon between Seller and Buyer) c) Any open heifer that has been flushed for embryo transfer; or d) gross negligence or willful misconduct on the part of the Purchaser. 2. Bulls are guaranteed breeders if not allowed to run with the herd until at least 14 months of age. Any bull which either: a) settles 1/3 or more of the healthy cows he serves; b) is the sire of 20 or more animals; or c) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month period of trial (provided for in paragraph 2 of the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder.

Any guarantee with respect to the ability to freeze semen shall be by separate agreement between Buyer and Seller.

Open females have not been served and are so guaranteed.

If you can't attend the sale and would like to buy cattle, call Craig (605)439-3628 / (605)216-8169 / (605)439-3545) before the sale. Tell us what you are looking for and we will assist in arrangements to help you participate in the offering.

We will call you after the sale and inform you of your purchases.

**We guarantee your purchase will be satisfactory.**

## TELEPHONE BIDDING

We will have available telephone bidding by conference call. **If you wish to bid over the phone, please register before sale day.**

## INTERNET BIDDING

See page 3 for information.

**IDENTIFICATION:** Each animal carries a readable tattoo. Tag numbers on the cattle correspond with lot and tattoo numbers in this catalog. Purchaser agrees to use full name of animal in advertising and on stall cards at shows.

### OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

1. All claims for adjustment or refund must be made in writing either within six months of the sale date or no later than six months after the animal reaches 18 months of age, with the exception of claims involving defects or parentage.

2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the Seller if in good condition and complying with the health requirements of the Seller's state. The Seller shall be entitled to six months' trial following the return of the animal in which to prove the animal is a breeder, the Seller shall, at the option of the Buyer, replace the animal with another of equal value or grant the Buyer a credit for use on any products marketed by the Seller. Such credit of the full purchase price shall in any case be deemed full satisfaction and settlement. Any expense incurred for transporting an animal claimed to be a non-breeder shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess of the distance between the Purchaser's farm and the location where the sale took place. If the Seller proves the animal is a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expense incurred for transportation.

3. If a female sold as "safe in calf" proves not to be in calf, the Purchaser may receive service from the bull previously used, if available, or if the bull is not available, the Seller shall be obligated to make a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe in calf" at time of sale to a certain bull proves to have been bred to a different bull, the Seller shall be obligated to take a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller (adjustments shall not be considered to a breeding fee or an allocation of the purchase price to any unborn calf). Any expenses incurred for transportation shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess to the distance between the Purchaser's farm and the location where the sale took place.

4. If a female sold as "served" proves not to be in calf, or if a female sold as "pasture-bred" proves not to be in calf, the Seller only guarantees such female to the breeder.

5. If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the farm of the Seller prior to calving for a credit of the full purchase price or for another animal of equal value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

**LIABILITY:** Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damages of any kind.

**CONTRACT:** The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

**IMPLIED WARRANTY:** Except for those stated in the terms and conditions, there are no warranties, either expressed or implied, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any part claiming through buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

**We guarantee your purchase will be satisfactory.**

# Top Dollar Angus Feeder Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its “branding” in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today’s market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

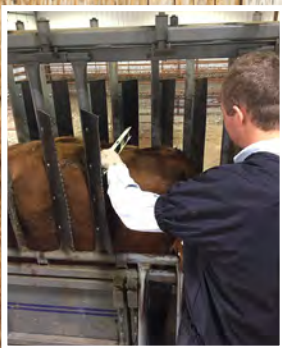

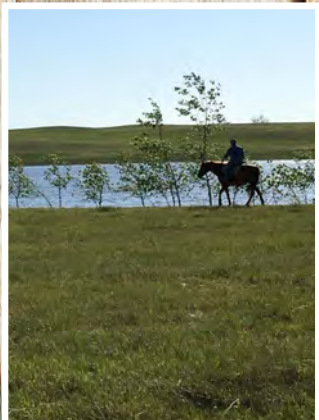

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder’s pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That’s why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that’s what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.
