We are always searching for a proven herd bull to bring into our program. 9169 was the bull we were looking for. 9169 lowers birth weight and adds maternal strength without sacrificing performance. 7-trait EPD leader. His dam is a full sister to Holden's famous 8050U herd sire and the \$95,000 6155S cow that sold in their 2013 sale. His first sons sell.

Freckles topped our 2011 sale going to Logterman Herefords. We bought Freckles back two years ago to carry on the Ribstone and our top 4008 cow's lineage. When a cowman like Dwight says Freckles sired the best females he had ever raised, we knew we needed him back in our program. His first sons will sell at Carmichael Herefords on Feb. 18. They are impressive. 7-trait EPD leader. Check his video out at carmichaelherefords.com.

- Phenomenal depth of rib and fleshing ability combined with a moderate BW EPD and high maternal and carcass traits. He is well marked and has plenty of eye appeal.
- Cow power deluxe in this 4055P son. 1013Y is a son of the 7003T donor cow that topped Holden's 2013 Female sale at \$70,000 and a grandson of the \$175,00 5139R donor cow that has produced almost \$900,000 in progeny sales. Sons averaged \$33,100 in the Holden sale.
- A full sister is one of Holden's top young cows and is a donor for them.
- 7-trait EPD leader.
- Check out the video on our website, carmichaelherefords.com.
- Owned with Holden Herefords and Evans Herefords.

This is a home raised 5 year old gelding that I really like. Doc is quiet, smooth riding and getting really cowy. He has done all the ranch chores including dragging calves, sorting and anything else you ask him to do. For more information on Doc, call Jed at 605-788-2981.

“Our ranch is located on the Cheyenne River Bluffs, so we need bulls that can cover rough country. Carmichael bulls get the job done and won’t run you out of the corral! I do business with people I know and trust and that is why I do business with the Carmichaels!”

- Mitch Norman

Keith,

I have some calf weights for you. The calves were born between March 15 and May 10. They did not receive any creep feed, just native grass.
On Oct. 28, 2014 I sold one load of steers that averaged 698 lbs.
On Oct. 25, 2015 I sold one load of steers that weighed 687 lbs.
On Oct 6, 2016 I sold one load of steers that averaged 644 lbs. and one load of heifers that averaged 584 lbs.
Most of the heifers are sold later in the spring for replacements. We are very happy with the cross on our black Angus cows. We are very happy with Carmichael bulls.

Thank you,
J.O. McDonald
