

BULLS THAT WILL KEEP YOU IN THE COW BUSINESS

37TH ANNUAL PRODUCTION SALE

Sunday, Jan 27th 2019 On the Ranch—2 PM MST

Dear Friends:

Welcome to our annual production sale. We thank you, the customers, supports and all who have been important to us along the way. As always we enjoy seeing you and catching up with each of you.

We don't believe in single trait selection and try hard to combine as many relevant traits into each bull as possible. We concentrate on calving ease, growth, maternal and carcass in a package that has a sound structure.

Classic Angus believes strongly in customer service and has a very good guarantee that is second to none. We've worked hard to build the reputation that we stand behind our cattle and we always do. You can buy bulls at Classic Angus with confidence.

We have added sires that are outcross to past sires used. We feel there are bulls in the group that are better than their sires. If you are looking for calving ease with growth or a bull that will work on cows, we have a bull for your herd.

These bulls are very docile and sound in their feet, something I believe very strongly in. Yes, these bulls could be heavier and fatter but I want you the buyer to go home with a sound and quite bull and not one that will have bad feet at breeding time.

Thank you for your interest in our program.

Bob & Angela Carlson

Auctioneer: Dustin Carter712-898-9972

Terms and Conditions

Cash. – All cattle are to be settled for sale day unless prior arrangements have been made.

Retained Interest

Classic Angus Ranch is retaining a 1/3 semen interest in all bulls sold. The purchaser of the bull will have possession of the bull and all salvage value rights. In the event of any semen sales from the bull, then Classic Angus Ranch is retaining 1/3 interest in the gross revenue from all semen sales. Classic Angus Ranch retains the semen interest if the bull is sold to subsequent purchasers. Classic Angus also reserves the right to collect semen from the bull at the buyer's convenience and our expense. This retained semen interest extends to any clone of the bull.

Supplemental Information

A supplemental sheet will be available sale day with scrotal measurements, and adjusted 365 day weights. Announcements from the auction block take precedence over catalog information.

Lunch

A complimentary lunch will be served by Classic Angus Ranch in the heated sale barn.

Liability

All persons attending this sale do so at their own risk, legal or otherwise for their safety or the behavior of the animals. The owners, auction service or sale staff assume no liability for property loss or any accidents that may occur.

Feed and Wintering

Wintering cost for bulls purchased for less than \$5000 is \$300 per bull in addition to the bid price. **Bulls purchased for \$5000 or more fed free.** This provides our buyers with the feeding of their bulls a good growing ration until delivery in the first week of May to keep them sound and ready to breed. Also included in the wintering cost is a fertility check and a monthly email update if email is provided.

Delivery

Classic Angus offers free delivery with all bull purchases in North Dakota and neighboring states within 300 miles. Deliveries over 300 miles will be taken to a central point at cost. The central point for deliveries will include auction barns, vet clinics and ranches. Prior to delivery, we will be in contact with you to establish a central delivery point.

Repeat Buyer & Referral Discount

Classic Angus values its customers and appreciates their continued business year after year. To show our appreciation to our repeat buyer customers, we offer a \$50 discount per bull to our repeat customers on their bull purchases during our production sale.

First Year Breeding Guarantee

(Breeding season is defined as the 60-day period following the first turnout of the bulls) All bulls selling for \$3000 or more will be given 50% of the value of the injured bull, minus \$1000 for salvage value, in a future sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2019.

EPDs

EPDs current as of 12/17/18. Updated EPDs available at www.Angusonline.org

Please bring this catalog with you sale day!

Also Selling **COMMERCIAL HEIFERS**

These Classic Angus heifers sell as commercial females that have the style and look to be brood cows. They were all born in March 2018-April 2018. We have culled the bottom end of this heifer age group in January 2019. They are all bangs vaccinated and have had their first Preg Guard 10 shot. They are fed a growing ration of mixed hay and barley hay with silage and Bull Challenger grain to ensure longevity and that they mature into sound and good-milking cows.

How to read the information printed with each sale lot

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of the other animals listed in the database. EPDs are expressed in units of measure for the trait.

GROWTH EPDS

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight (BW), Weaning Weight (WW), Yearling Weight (YW) EPDs, expressed in pounds, is a predictor of a sire's ability to transmit birth weight, weaning & yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

MATERNAL EPDS

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

CARCASS EPDS

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

\$VALUE INDEXES

\$Value indexes are multi-trait selection indexes, expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

Buy Bulls on Target

Genetic Recommendation	Value
Marbling EPD (Marb)	0.53
Dollar Grid Carcass Index (\$G)	33.97

The Targeting the Brand logo is designed to highlight registered Angus bulls with greater genetic potential to produce calves meeting the most challenging specifications of the *Certified Angus Beef* brand. Bulls must be at least breed average or better for marbling EPD and \$Grid of non-parent Angus sires to qualify for use of the Targeting the Brand logo. Even if these numbers do not appear on the catalog listing, the logo gives you the confidence that these minimum genetic requirements are met.
