•• GENETIC OPPORTUNITY SALE II ••

SATURDAY, SEPT. 8, 2012 — 1 P.M.

Jerry — 507-820-0661 • Pete — 605-351-9847

Sale Terms & Conditions

Terms: Terms of the sale are cash or check payable during or after the sale and before cattle will be released. Cattle will not be transferred until paid in full. Each animal will be at the purchaser's risk immediately after the animal is sold. They will be fed and cared for a reasonable length of time after the sale but at the purchaser's risk.

Guarantee: All cattle are guaranteed under the suggested terms and conditions of the American Hereford Association.

Absentee Bids: If you would like to place a bid on any lot but are unable to attend the sale, please direct your bid to any of the owners or sale staff. The sale will be broadcast live on the Internet at www.dvauction.com. See page 20 for more information.

Herd Health: All cattle will be sold in compliance with the health laws of the state of Minnesota. Health papers will be provided. All bred females have been pregnancy checked.

Trucking: Livestock haulers will be available for hire on sale day. We will be happy to assist you in making the most economical delivery arrangements for your purchases.

Insurance: Insurance will be available at the clerk's desk through Harding and Harding.

Registration Certificates: The animals will be transferred to the buyers at the seller's expense. Each buyer must be sure to give the clerk the proper name and address for making transfers. All calves born after the sale are to be registered by the buyer. Any female that is mated to a sire that is not owned by the seller will not have an AI certificate provided.

EPDs: EPDs listed in the catalog are the most current available at the time of catalog printing.

Air Travel: We have just learned the Sioux Falls Regional Airport will be closed Friday, Sept. 7 — Monday, September 10, 2012. Limited commercial services are available in Brookings, S.D.; Watertown, S.D.; and Marshall, Minn., all within 1 hour of the farm. Both the Minneapolis/St. Paul International Airport and Omaha Airport are within 4 hours; Sioux City Gateway Airport is within 2.5 hours from the farm.

Please note: All persons who attend the sale do so at their own risk. Owners assume no liability legal or otherwise for accidents or loss of property that may occur.

Announcements: Announcements made the day of the sale take precedence over material printed in the sale catalog or any other advertising. We reserve the right to make any additions or withdraw any sale lot not meeting our specifications prior to sale time.

We would like to invite you to our second Genetic Opportunity Sale on Saturday, September 8th, 2012, starting at 1p.m.

2012 has been a great year beginning by exhibiting the reserve champion carload of bulls at the National Western Stock Show in Denver, then holding our second annual bull sale in April, averaging over \$5,000 and now we bring you this opportunity to buy the best of our female genetics!

We are excited about the set of cattle this year. We have dug deep into our cow herds and replacement heifers to bring you this offering. The cows selling have produced some of the top sellers in past sales and members of our Denver pens and carloads. We feel the heifer calves are an exceptional group. They represent the best of the next generation in our breeding program and are out of some of our best proven cows and donor dams. We will not be exhibiting a pen of heifers in Denver this year so that we can offer you this chance to buy our best! The cows and bred heifers carry the service of some of the top bulls in the breed today, including Cracker Jack, Redeem and Perfect Timing.

If you study this catalog, you will see that we've built our programs on powerful, moderate framed females with sound udders. They are proven producers of the type of calves that have made up our successful Denver pens and carloads and have been well accepted in our production sales as well as the Mile High Sale in Denver.

As a special feature, we will be offering a flush from JDH Ms 26U Cracker Jack 9Y who was recently named reserve champion polled heifer in Division X at the JNHE. This popular young female is destined to be a foundation female at Delaney Herefords and here is your opportunity to share in her genetics. Finally, for the first time you will have the opportunity to purchase embryos out of the cornerstone cow at Atkins Herefords, CRR D03 Violet 349 and our newest donor dam, HH Miss Advance 6074S. Violet is the dam of Cracker Jack, AH Yankee 10S and several other sires working in registered herds. Her calves have played a crucial role in the success of our Denver pens and carloads. 6074S was recently purchased from Holden Herefords where she has produced a number of herd bulls for some of the top Hereford herds in the United States. This is a rare opportunity to bring these genetics into your herd!

Visit www.delaneyherefords.com for additional pictures and video of the cattle selling. We hope you will be able to join us in September. Until then, if we can help you in any way, please do not hesitate to call.

Remember to join us Friday, September 7th for viewing of the sale cattle followed by a great dinner of Hereford beef at 7:00 p.m.

Thank you,

- A bull right for the times. Moderate framed and easy fleshing with great muscle expression.
- Clean fronted and tight sheathed with tremendous style and eye appeal.
- His calves are born easily and carry on his style, balance, thickness and rib shape.
- His popularity continues to grow as he sires bulls and females that are in demand.
- His sons were a feature of our 2012 Denver carload and a son was a pick of the carload in the Mile High sale, selling for \$11,000 to Grassy Run Resources of W.Va.
- His dam is a consistent top producer having produced many high selling sons and daughters.
- Homozygous polled
- Semen available

- The new polled leader
- Homozygous polled
- Proven through the National Sire Reference Program
- May be the best EPD package in the breed today!
- Topped the Jensen sale at \$50,000
- His 2-year-old daughters have ideal udders and a 103 average weaning weight ratio on their calves
- Semen available

We are pleased to have had these two breed leaders walking our pastures this summer!

- When we started working on this sale we knew that we needed to offer our best. It has been a difficult decision but that is why we are letting this female go. Here is "Cherry", full sister to Cracker Jack, flushmate and stall mate to the \$20,000 heifer we sold in the Mile High sale. We could have sold her in the Mile High sale too but we wanted to bring her home and make her into a cow. And what a cow she has become! She has produced the second high selling heifer calf in our 2010 Genetic Opportunity sale, second high selling heifer in the 2011 Fall Preview sale and one of the top sellers in our April 2012 bull sale. She has a Rib Eye heifer at her side that we are retaining and this spring she gave us 30 embryos sired by Redeem that helped us make this decision. She is a power cow with performance, volume and femininity and she is in the prime of her life! She has been a prolific, fertile egg producer and has stuck on her first AI service every time, maintaining a 359-day calving interval while being flushed the last three years. An ET daughter sired by JDH 10S Yankee 39X sells as Lot 25. A natural daughter sired by Legend sells as Lot 9. Bred heifers sired by Tailor Made sell as Lots 42 and 45. Whether you are looking for a cow to build a herd around or to add to your front pasture, then here is a female for you.
- Sells safe in calf to Perfect Timing. Bred May 17, 2012.

JDH AH 7W Tailor 68Y ET —

A son of Lot 1 that was one of the popular bulls in our 2012 Denver carload. He sold in our April 2012 bull sale for \$7,000 to Ken Glanzer of Bridgewater, S.D.

- Here is a good uddered, easy doing female who has been a top producer. Ross Carlson purchased her first daughter in our 2010 sale and Colin Johnson purchased her second daughter in our 2011 Fall Preview sale. She is a low birth weight producer with an average BW ratio of 97 and an average WW ratio of 105 on her first two calves. The 39X daughter at her side will turn a lot of heads and is evidence of her producing ability.
- Safe to Cracker Jack. Pasture exposed May 15 to June 6, 2012.

• Out of a full sister to Cracker Jack, her sire did a great job for us and our partners, Matt and Erin Knock of Starmak Herefords. Here is a big volumed female with a great udder just entering the prime of her life.
 • She is bred to the high selling bull in our 2012 bull sale who is owned with Glaze Herefords, Schock Polled Herefords and Golden Eye Herefords. He is a son of 719T out of Violet. Pasture exposed May 23 to June 11, 2012, to JDH AH 719T 6Y ET.

•• 17A — Actual BW 89 lb.; 17B — Actual BW 85 lb.
 •• Offering you choice of 17A or 17B, flushmate daughters of Cracker Jack. These heifers are two of our best. Their dam is also the dam of JDH 10S Yankee 39X that was the choice of our 2011 Denver carload, selling to Dorbay Herefords, Harvie Ranching and Remital West in the Mile High sale. These heifers have been the pick of many of our visitors this summer. They are dark red and pigmented with loads of volume. The Cracker Jack heifers were very competitive at the 2012 JNHE and these heifers can be competitive anywhere! If we had not committed to offering our best in this sale you would not have this opportunity, so don't miss out!

•• Actual BWs: 18A 92 lb.; 18B 90 lb.; 18C 78 lb.
 •• Offering you choice of these three 719T heifers out of one of our top young donor dams. Their dam is a daughter of AH Yankee 10S that is rapidly becoming one of our top producing cows. These heifers are full sisters to the heifer from our Denver pen of three that sold in the 2012 Mile High sale to Eric Scott of Canton, S.D. Check out the EPDs on these heifers! Low birth, high growth, high milk and a CHBS of 30! Where can you find those kind of numbers in a package that looks like these heifers? These heifers have volume, rib, hip and that brood cow look. Here is your chance to purchase a future donor. AND look for their full brothers in our 2013 Denver carload.

- We had been looking for quite some time to find a donor cow of the caliber to follow Violet. We found her! This year we were fortunate to be able to purchase HH Miss Advance 6074S. 6074S has been described by Jack Holden as a herd bull producer deluxe and top donor cow. She has sons working at Holden Herefords, Cooper Herefords, Whispering Pines Farms, Nunnally Farms, Harrell Herefords, Ottley Herefords and Baker Herefords. We are excited to share her genetics with you!
- Offering three Grade 1 embryos sired by Golden Oak Outcross 18U. The potential of this mating is unbelievable. She has been a prolific embryo producer for us this summer and here is your chance to benefit!

- Right to flush JDH Ms 26U Cracker Jack 9Y ET. 9Y was recently named Reserve Division Champion at the JNHE in Grand Island. She is a moderate framed heifer that exemplifies femininity, volume and that brood cow look and is of the quality to compete at the highest level. She is the daughter of the great P606 daughter, 20R, that has been a prolific egg producer and she will be the daughter to take her place in our breeding program. She was a member of our 2012 Denver pen of three heifers. We believe this is the kind you can build a herd around!
- Terms: Flush to take place at Delaney Herefords in May 2013. Flushing to be done by Scott Josephson of Tri-County Vet in Taunton, Minn. Buyer will be guaranteed six viable embryos suitable for freezing, any less and the purchase price will be prorated. Buyer shall receive all embryos up to the first 10 of the highest quality. Any amount over 10 shall be shared equally by the buyer and Delaney Herefords. The buyer may flush 9Y to the bull of their choice, however, if they choose a sire owned by Delaney Herefords, then we will supply the semen free of charge. Buyer shall be responsible for all costs of flushing and the cost of freezing their embryos. Buyer shall pay 1/2 of the purchase price at the time of the sale and the other 1/2 at completion of the flush.
