Annual Production Sale MARCH 13, 2016

2 p.m. At the Ranch
Mandan, ND

275 Head 153 Yearling Angus Bulls
29 Two-Year-Old Bulls
15 Bred Heifers
80 Open Heifers

Welcome!

Hello and welcome to the 5th Annual Hatzenbuhler's Diamond J Angus Production sale. It has been a year full of transitions for us with the building of our own sale facility and seedstock development lot all located on the ranch. We feel this investment is a huge benefit to the sale offering in that the animals no longer need to be trucked to and from a sale barn. The mothers are here for your inspection and the day in and outs of how we raise and care for our herd are all here for your observations.

We are thankful for your support the last four years. We are striving to improve our genetics through our partnership with Alta Genetics and the acquisition of several new herdsires that lead the breed in quality, function and performance. We have noticed improved performance, function and quality in our calf crop year after year and we truly believe these same traits will be passed along into your herds with the use of our genetics.

With the exception of a few two-year-old lots, all bulls, open heifers and bred heifers were raised at the Diamond J. Our family-run operation strives to produce athletic bulls at a rate of 3.5 lbs. gain per day. We use a ration of hay, silage, corn and distillers. The females are fed the same ration at half rate along with free choice hay for a goal of 1.75 lbs. gain per day.

As in the past, we are also offering May/June calving cows and a set of fall calving cows, calving in late July and August. The two groups include bred heifers, as well as mixed-age cows.

This sale offers something for everyone be it large framed or more moderate, yearlings or older sires, open sister mates to the bulls and bred females. We look forward to visiting with you on sale day!

Join us at the Ranch for our Annual Production Sale!

From Mandan, N.D., head West on I-94. Turn North at Exit 140 and then West at 36th Street.

Sale Day Phone:

Stephanie Hatzenbuehler(701) 391-1626

John Hatzenbuehler(701) 391-5616

Herdsmen:

John Ross Hatzenbuehler(701) 425-7813

Auctioneer:

Seth Weishaar(605) 210-1124

Sale Representatives:

Rod Geppert, American Angus Association(605) 295-3673

Kirby Goettsch, Farm & Ranch Guide(605) 380-3939

Kris Peterson, Cattle Business Weekly(701) 377-2345

Scott Dirk, Tri-State Livestock News(605) 380-6024

Marc Hotchkiss, Livestock Link(605) 490-1513

Justin Dikoff, DVAuction(605) 290-0635

Buyers unable to attend the sale may send their bids to the ranch, filed representatives or auctioneer. The sale will also be available on www.DVAuction.com. Go to www.DVAuction.com for more information.

Cattle viewing: Videos of the sale cattle can be viewed online at www.thelivestocklink.com and www.DVAuction.com. Cattle are available for inspection at any time at Diamond J Angus Ranch. The cattle offered in the sale will be penned the evening of March 11.

Sale Location: Diamond J Angus Ranch, Mandan, N.D., is located off of Interstate 94, exit 140, north two miles to 36th Street, one mile west. Sale facility is located in the main yard, south of the two houses.

Terms & Conditions: Cattle sell under the suggested terms and conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). Cattle will not be released until payment is received. A Supplement sheet will be available sale day with complete and up-to-date information. Announcements from the auction block take precedence over sale book information.

Catalog designed by **Strommen Livestock Services**, Fort Rice, N.D. (701) 445-2020

Injury or death prior to delivery: Injury resulting in death or death of the bull prior to delivery will not be the responsibility of Diamond J Angus Ranch. This is an insurable risk that the purchaser can obtain.

First Breed-Season Guarantee: Bulls selling are guaranteed for 90 days from turnout against breeding injury. If a replacement is available, he will be provided or if the buyer prefers, credit towards another bull will be given in next year's sales. Credit for the amount of purchase minus \$2,500 will be applied towards the purchase of another bull. The buyer keeps all salvage value. Please notify us as soon as possible should an injury occur and prior to the injured bull being sold for salvage. This is not a mortality insurance policy, nor does it cover mismanagement or neglect. We do not cover injuries sustained prior to breeding season.

Herd Health: Dr. Kirk Johnson will be on hand to write interstate health certificates for those cattle requiring them. All cattle are on a complete vaccination and mineral program. All females are officially calf-hood bang's vaccinated.

Genetic testing on recessives: All lots with genomic-enhanced EPDs are accompanied by the i50K logo. All lots are genetic defect free, unless otherwise noted.

Insurance: To properly insure your investment, James Bessler will be available to assist you with mortality insurance (815) 762-2641.

Semen Interest: Diamond J Angus will be retaining 1/3 semen revenue sharing interest in all bulls. Full possession and salvage value belongs to the buyer unless otherwise stated.

Delivery: Free delivery within a 250-mile radius on bulls. Beyond that point at cost. Bulls will have passed a breeding soundness exam prior to delivery. We will begin bull deliveries in late March. Delivery on females is the responsibility of the buyer and must be completed within a week of sale day.

Liability: All persons who attend this sale do so at their own risk and Diamond J Angus Ranch assumes no liability, legal or otherwise, for any accidents which may occur.

- Performance Sire
- Muscle sire who posted an actual WW of 820 lbs.
- His dam is a young, very feminine cow with a bit finer bone that is also displayed in her maternal sister. This trait along with the calving ease sire Incentive 9J17 on the maternal side could be a factor in the bull becoming more calving ease. Combined with his muscle from Resource this should make for some real desirable progeny.

- Calving ease resource son posting an actual WW of 860 lbs.
- Dam is very capacious and has earned a nursing ratio of 110. The only reason she has not attained Pathfinder status is because her first calf was a fall born and we turned her into a spring calving cow so her calving interval is too big at 423 days.
- Maternal sister retained in the herd.
- Maternal brother sold last ear to Jim Viogt of Halliday.

- Maternal sister retained in the herd.
- Maternal brother sold to Bert Hauge of New Town.

Diamond J Dakota Gold 3106 • A maternal brother to Lot 40.

COMMITMENT.

Raising quality registered Angus cattle takes commitment. As your genetic supplier, we take that seriously.

That's why we participate in MaternalPlus®. Through MaternalPlus, we devote extra time to tracking maternal traits beyond those normally required, ultimately targeting greater performance and predictability.

The data we choose to gather through this inventory-based program today sets the stage for reproductive and lifetime productivity tools tomorrow — tools to pioneer new ways of selecting the most profitable animals.

Herd improvement starts with smart decisions. A commitment to the female starts with MaternalPlus.

Contact AGI at 816-383-5100 or agi@angus.org for more information.

ANGUS MEANS BUSINESS.

- Calving Ease
- Low BW Active Duty son hitting the scales at 742 lbs at 205 days.
- EPD combination and 50K result complimenting each other with many traits at the top of the breed.
- Active Duty sons are moderate, thick, easy fleshing, cowboy type of bulls. The calving ease ones are a real bonus because they seem to be styled and muscled similar to their heavier BW brothers.

- Performance Sire
- Identity son that has displayed a tremendous amount of muscle since birth. He posted a 205 day weight of 836 lbs being his dam's first calf.
- His dam is from our ET program and is producing the same easy fleshing, superior disposition type that she and her flush mother, cow 5165, have always been.
- A full sister to the dam produced a heifer calf from the same mating to Identity that is one of our top rationing heifers for 2015.

- Calving Ease
- BW of 71 lbs and weaned off his mother at an actual 715 lbs.
- CED of +12 and BW EPD of +.2 make him real heifer friendly.
- Reputations sons are real muscle sires being easy keepers with lots of depth and width while being born small. They are a heifers dream come true and really pack on the growth after birth.
- Reputations are foot improvers also being high heeled and short toed.

- Calving Ease
- Reputation sons are really proving to be the cowman's type. Moderation with muscle and calving ease are highlights of his sons.
- Granddam has attained Pathfinder status.
- Above average EPD's and an outstanding 50K profile back 5229's traits.

READ THIS MANUAL

Before he goes to pasture

On the surface, a bull isn't as complicated as the latest electronic gadget, but every year you expect Angus bulls to improve your calves.

Unpack the genetic potential in those bulls with an "owner's manual" of management and marketing tools that will help you get the most out of your new investment.

Updated with EPD recommendations for 2009, the manual is available online at www.CABpartners.com. For free copies by mail, call 800-225-2333, ext. 298.

- Calving Ease/Performance Sire
- This bull can be used on larger heifers or cows. He has a modest BW and good CED +6 for use on heifers and a bit more power with the BW EPD of +2.4.
- Outstanding 50K for growth potential.
- The Ultimate Answer 2012 sons are very impressive and similar at the Diamond J and the Martin Schaff Ranch where his service has been used the past three seasons.

- Performance Sire
- These are the last sons of the 0041 Final Answer sire, known to inject massive doses of performance. He is the highest performing bull used at the Diamond J with ratios of 101 for weaning and 104 for yearling.
- Powerful EPD's and 50K profile
- Dam's nursing ratio is 104.
- Granddam is in our ET program and is the mother to bull 5379.
- Granddam is also the second dam to bull 5010.

Ellingson Final Answer 0041 • Sire of Lots 123, 124 and 125.

- Calving Ease/Performance
- Although this Birthstone son packs a bit more punch we believe he will work on larger heifers or cows.
- His dam carries a larger BW so that is where the performance advantage is coming from.
- His 205 day weight of 813 lbs being his dam's first calf is really impressive.

- Performance Sire
- A most impressive individual with huge credentials to become a top notch herd sire.
- Late April bull that posted a 205 day weight of 814 lbs.
- EPD's at the top 1% and 2% of the breed with a 50K result backing these traits up.
- Dam's nursing ratio 105.
- Maternal brother selling in the 2 yr old pen, bull 4093
- He made the cut before he was even registered or had 50K results after weaning. We think he has loads of potential and he keeps proving us right.

- Calving Ease/Performance Sire
- This bull could be used on larger heifers or cows. His BW of 76 lbs and CED of +5 make him calving ease while the BW EPD of +2.4 packs a bit more growth.
- Maternal brother to our high performing and high selling lot last year, Diamond J Legacy 4016, selling to Lane Jackson of Bokchito, OK for \$21,000.
- It is rare to find a calving ease Plateau son and this one has the EPD combination and 50K result to make him a highly sought after individual with herd bull qualities and a maternal brother all backing his potential.

- Performance Sire
- A real beef bull out of Golden Era 2279 that injects loads of performance and style.
- 5298 has the performance and the herdsire profile being moderate thick and just plain stout.
- 5298 does not have a 50K profile because the sample failed at the lab and we did not turn in another sample on him.
- Dam's nursing ratio is 101.
- A maternal sister is retained in the herd.
- Maternal brothers have sold to Gary Beckman of New Salem, and Dan Schonert of Bismarck.

- Performance Sire
- Powerhouse muscle bull
- His sire was born and raised at the Diamond J and sold at this sale in 2013 to Martin Schaff where he fulfilled duties for one year. We purchased the sire back and used natural service until Buzz 2059 suffered a premature death. These are his last sons.
- Buzz sons will not disappoint, they are all about performance.
- Buzz 2059 was a favorite of the Diamond J and His temperament was unmatched. He loved a good scratch no matter where he was.

- Performance Sire
- Low BW of 70 lbs, being a twin, and weaning off his dam at 205 days at 749 lbs.
- His dam raised both calves; the other brother ended up being smaller so did not make the cut for this sale.
- Very good EPD's
- His sire is a close 7 frame bull born and raised at the Diamond J.

SAV Rangemaster 2874

SAV 707 Rito 9969 • Sire of SAV Rangemaster 2874

- The productive pathfinder dam of this bull is one of the top income-producing cows in the SAV program with a progeny birth ratio of 97 balanced with a progeny weaning ratio of 106 on six natural calves along with a progeny ribeye ratio of 103 on 98 head evaluated by ultrasound and her many other successful progeny are highlighted by the Genex/CRI sire SAV Angus Valley 1867, the ABS Global Sire SAV Brave 8320 and the legendary SAV Blackcap May 4137 who has produced a multitude of top-sellers and herd sires as the all-time top income-producing cow in the SAV program to date.

- This massive Diamond J high-performance herd sire was selected as a favorite from a powerful embryo flush highlighted in the 2013 SAV sale, by the \$147,500 Accelerated Genetics sire, SAV 707 Rito 9969.

DIAMOND J SIRE DIRECTORY

SAV Influence 4043

- An impressive member of the powerful and popular first calf crop by the \$400,000 record-selling SAV International 2020.
- This \$37,500 selection from the 2015 Schaff Angus Valley Sale combines a modest individual birth ratio of 98 with individual weaning and yearling ratios of 106 and 107, respectively, and an individual RE ratio of 105.
- The heavy-milking and productive dam of this bull has progeny weaning and yearling ratios of 108 on three calves as one of the top-producing daughters of the legendary SAV Madame Pride 0075 who ranks as the second highest income-producing cow in the history of the SAV program to date.
- This bull features an elite blending of the time-tested Madame Pride and Emblynette families.

- The heaviest 205-day weight bull of the entire 2014 SAV calf crop, selected with the Alta Genetics AI Stud as a \$100,000 feature of the record-setting 2015 SAV sale.
- This massive beef bull earned individual weaning and yearling ratios of 116 and 106, respectively, combined with individual IMF and RE ratios of 138 and 112, respectively, from a productive and prolific donor dam who combines a progeny birth ratio of 99 with a progeny weaning ratio of 107 on four natural calves and a progeny yearling ratio of 115 on two head along with progeny IMF and RE ratios of 114 and 102, respectively, on 27 head.
- The grandson is a legendary fourth-generation Pathfinder Dam from the herd-sire producing Emblynette family.

SAV Real Performance 4876

DIAMOND J SIRE DIRECTORY

SAV Real Complete 4728

- This promising herd sire prospect was selected along with his \$100,000 flush brother by Diamond J Angus and the Alta Genetics AI Stud from the record-setting 2015 SAV Sale where they were headliners of an impressive embryo flush by the popular and proven Genex/CRI sire, SAV Resource 1441, from a productive donor dam by the Genex/CRI Pathfinder sire, SAV Net Worth 4200.
- This bull combines a modest individual birth ratio of 82 with individual weaning and yearling ratios of 101 and 100, respectively, and an individual IMF ratio of 124, to offer a unique EPD balance backed by a solid genetic heritage that combines the best of the herd sire producing Emblynette and Blackcap May families.

- Recommended for heifers. SAV Tenacity 5211 shatters the performance and EPD barriers and excels in all traits that drive profit. He earned a 205-day weight of 1017 lbs. for a weaning ratio of 110 and records EPDs for weaning and yearling weight in the breed's top 1%. His pedigree, cow family backing and superior carcass merit, complete his perfect resume.
- His hard-working, nice-uddered, 2-year-old dam by Priority comes from seven consecutive generations of SAV embryo donors, descending from the first Schaff cow to be enrolled in embryo transplant.

- A super complete Resource bull who puts it all together – phenotype, performance, EPDs and cow family strength. He earned a 205-day weight of 951 lbs. for a weaning ratio of 103 and records EPDs for weaning and yearling weight in the breed's top 1%.
- His productive dam by Harvester is a flush sister to the \$155,000 SAV Fieldmaster 2181, who is a featured reference sire on page 110. Her first replacement daughter earned an IMF ratio of 146 and REA ratio of 116.
- His beautiful grandam, SAV Abigale 5650, is the record-selling cow in SAV history.

DIAMOND J SIRE DIRECTORY

SAV Geographic 5318

- SAV Geographic 5318 is a performance powerhouse with tremendous length, thickness, volume and muscle – built right from the ground up with worlds of substance and bone. He earned a 205-day weight of 1027 lbs. for a weaning ratio of 111, ranking him among the five top-indexing bulls of his calfcrop. He records EPDs for weaning and yearling weight in the breed's top 1%. A full sister is working in the SAV embryo program.
- His productive Final Answer dam records a weaning ratio of 109 on 3 calves and should qualify as a Pathfinder.

Ellingson Enterprise 3190

*Connealy Earnan 076E
Sire of Ellingson Enterprise 3190*

- The \$35,000 co-third top-selling bull of the 2014 Ellingson Angus sale who has all the credentials to be a superior performance sire.
- He records individual weaning and yearling ratios of 116 and 109, respectively, along with individual IMF and RE ratios of 146 and 107, respectively, from a dam with a progeny weaning ratio of 111 on her first two calves ad backed by the Emblynette family.
- This second-generation Alta Genetics sire is by the \$235,000 Connealy Earnan 076E.

DIAMOND J SIRE DIRECTORY

Ellingson Reputation 3023

- The \$35,000 co-third top-selling bull of the 2014 Ellingson Angus sale, selected with the Alta Genetics AI Stud.
- This popular young bull has individual weaning and yearling ratios of 106 and 112, respectively, combined with an individual RE ratio of 110.
- This bull combines the calving-ease of the Genex/CRI sires, Ellingson Identity 9104 and SAV Final Answer 0035, from a dam who records a progeny weaning ratio of 106 on her first two calves.

Ellingson Identity 5062

- Ellingson Identity 5062 excels in the muscle and stoutness categories, making him especially unique with his low birth-weight and ability to be used on virgin heifers. He has an extraordinary amount of base width and is very expressive in his muscle pattern.
- The structural integrity that Lot 149 exhibits and the soundness that is imbedded into the line of cows that back him up are noteworthy. This bull may be the most complete and most powerful Identity son we have raised.
- He is the real deal! He combines Identity, EXT 6106, Cowboy, Territory, Bushwacker and EXT 473 in his lineage. We have had much success with each of those sires in our program, especially through the daughters we have kept. Lot 149's dam and granddam are two of the broodiest females that reside at Ellingson Angus. They are true forage converters and, hopefully, the same traits can be passed on to their granddaughters. All four daughters of his grandmother have been retained as replacements at Ellingson Angus.

DIAMOND J SIRE DIRECTORY

Ellingson Resource 5030

- Ellingson Resource 5030 combines two of the most popular performance sires to come along in recent time, Resource and Upward. He dominates his peers in overall power and performance. He posted a moderate birth ratio of 94 and a commanding weaning ratio of 115. His dam has consistently produced progeny that excel in performance and power. Lot 43 has the ability to sire scale-pounding feeder calves that feedlots pay a premium for.
- This bull has potential beyond the breeding pasture.

- P125 has a lot of rear quarter and muscle. He is eye-appealing, and a very classic Hawkeye son.
- Dam L168 is better known as "Sassy" around Hoover Angus. She got this name as a baby, as she thought she owned the world at just a week old! She has quite the personality and a good disposition. This is telling of her Docility EPD above the top 1% of the breed. She is an extremely laid back cow.
- Recommended for use on heifers or cows. With Hawkeye, Reward, and Excitement in his pedigree, we expect him to be an easy calving bull.

- Big-framed, solid and stout describes this guy well! He is growing a mile ahead of the rest of the pack. P16 is one of the most complete, thickest big framed bulls to be found anywhere this spring. From the same cow family that produced Hoover Dam, this guy has a lot of potential. Because of his amount of muscle and growth, we recommend P16 for use on cows.
- P16 has the 5th highest Docility EPD of any non-parent Angus bull in America at +39! To further put this into perspective, breed average Docility EPD is +13. Combine P16's superior Docility EPD with his above the top 1% WW EPD, and no other non-parent bull in America can outshine this EPD combination!

American Angus Association \$Value Indexes

\$Values are multi-trait selection indexes expressed in dollars per head, to assist commercial beef producers by adding simplicity to genetic selection decisions. A \$Value has meaning only when used in comparison to the \$Value of another animal. For example, just as with EPDs, variation in \$Values between animals indicates average expected differences in the relative value of progeny if random mating is assumed and the calves are exposed to the same environment.

How do I use them?

\$Values should be used to complement the criteria that producers already use when selecting bulls.

The \$Values are not designed to be driven by a single trait, as an index is multi-trait by design. These selection tools are the result of the application of industry-relevant market values to Angus genetics for preweaning, feedlot, and carcass merit.

The \$W, \$F, \$G and \$B values on individual animals and the Sire Evaluation Report may be viewed at www.angus.org.

American Angus Association
3201 Frederick Avenue ■ St. Joseph, MO 64506
816-383-5100
ahir@angus.org ■ www.angus.org

\$Values			
\$W	\$F	\$G	\$B
+21.28	+13.60	+12.53	+25.32

Weaned Calf Value (\$W): an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

Grid Value (\$G): an index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B value combines the contributions of \$F and \$G.
