Annual Production Sale
JAN. 25, 2019
1 p.m. Central Time
At The Ranch, Mandan, ND

Welcome!

Welcome to the Diamond J Angus production sale! If you have been following us the past few years, you'll know we are a fast-paced operation and when things need to take a different course, we are on top and in action.

First, we will no longer be offering any two-year-old bulls in our production sale. We feel the demand was not there, so we will concentrate on selling just yearling bulls. Also, we will not be offering any females in this year's sale because we are expanding our numbers and all females are being retained. We will have females available again in the future. We also feel there are just too many bulls available for breeding, so we chose to offer our top 40% by weaning weight criteria of our 2018 bull calves as the offering in this sale. The rest of the bulls were banded and sold as feeder steers in mid-December.

We want to keep the sale at a manageable number of bulls to not overload our offering. With our cowherd expansion, the bulls being offered will be even more upfront of our bull calf crop in the future. Be assured these are the best and with our partnership from Alta Genetics, the sires used for AI and natural breeding are among the top offerings from top producers from across the country. Note also, we are studying our sale bulls and the bulls we use for breeding for longevity. Even if you don't keep your herd sires for more than a few years, we know you want your cows to last and be productive. To help our bulls develop more natural, they only received one fill of creep feed all summer. We feel feet are one of the areas we all need to be improving, so even though our weaning weights are down some, overall the offering is one of the best we have ever produced. Structure and bone size come into play as bulls and cows age, so we are addressing those concerns through breeding. We are also adding a direct fed microbial or probiotic to our feed ration, ensuring that the bulls guts are healthy and to promote them to eat more frequent, smaller meals, thus eliminating the bulls from suffering from small incidences of acidosis in the gut, which will, if present, cause issues with semen testing and blood flow to extremities, thus, foot issues later in life. Will this work? We don't know, but we are willing to do all we can to ensure healthy, athletic, long-lasting cattle.

All bulls have received four rounds of health vaccines and two modes of deworming. They are on a full mineral program through Stockmen's Supply and Vigertone Feeds. Also, we will winter the bulls free until mid-March or weather permits we can start delivering them for free for a 300-mile radius of the ranch. One year breeding guarantee.

Diamond J Angus would like to thank all of you for your support in the past. We are listening to input and evolving to better fulfill your needs. We take great pride in our cattle and your success as a rancher. Our goals always have you in mind. We know your struggles because we raise feeder calves, too. Our ranch and cattle are available for a tour anytime.

-Stephanie Hatzenbuhler.

Cattle viewing: Videos of the sale cattle can be viewed online at www.thelivestocklink.com and www.DVAuction.com. Cattle are available for inspection at any time at Diamond J Angus Ranch.

Sale Location: Diamond J Angus Ranch, Mandan, N.D., is located off of Interstate 94, exit 140, north two miles to 36th Street, one mile west. Sale facility is located in the main yard, south of the two houses.

Terms & Conditions: Cattle sell under the suggested terms and conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). Cattle will not be released until payment is received. A Supplement sheet will be available sale day with complete and up-to-date information. Announcements from the auction block take precedence over sale book information.

Liability: All persons who attend this sale do so at their own risk and Diamond J Angus Ranch assumes no liability, legal or otherwise, for any accidents which may occur.

Lunch: A complimentary lunch will be served beginning at 11:30 a.m.

Injury or death prior to delivery: Injury resulting in death or death of the bull prior to delivery will not be the responsibility of Diamond J Angus Ranch. This is an insurable risk that the purchaser can obtain.

First Breed-Season Guarantee: Bulls selling are guaranteed for 90 days from turnout against breeding injury. If a replacement is available, he will be provided or if the buyer prefers, credit towards another bull will be given in next year's sales. Credit for the amount of purchase minus \$2,500 will be applied towards the purchase of another bull. The buyer keeps all salvage value. Please notify us as soon as possible should an injury occur and prior to the injured bull being sold for salvage. This is not a mortality insurance policy, nor does it cover mismanagement or neglect. We do not cover injuries sustained prior to breeding season.

Herd Health: Dr. Kirk Johnson will be on hand to write interstate health certificates for those cattle requiring them. All cattle are on a complete vaccination and mineral program. All females are officially calf-hood bang's vaccinated.

Genetic testing on recessives: All lots with genomic-enhanced EPDs are accompanied by the AngusGS logo. All lots are genetic defect free, unless otherwise noted.

Insurance: To properly insure your investment, Jared Mohen will be available to assist you with mortality insurance.
Dakota AG Insurance Office: 605-990-5355

- Performance sire, stud bull quality
- Top 1% of the breed for WW, YW, SC, CW and \$F EPD's
- Deep, thick and wide with an actual WW of 870 lbs.
- Dam's WWR is 111 on 2 calves.
- Lot 2's sire was our high-selling bull in 2017, selling to Alta Genetics for \$23,500. He was used in our AI group that same year and his first calf crop has given him a WWR of 108. Performance with genomics that are strongly passed on to his calves is evident in Lot 2. All of Lot 2's paternal sisters are being retained as replacements in our herd.
- We would like to use Lot 2 back in our program and will work with the buyer to accommodate breeding seasons. All options are open for consideration from a split-use season, where the bull is shared every season to an every-other-year share option. This bull is exactly what the industry requires for volume of muscle with the EPD's and genomics to back him up.

- Dam's WWR is 105 on 2 calves
- Super deep-bodied and thick with an actual WW of 805 lbs.
- His sire, SAV Real Performance 4876, is the top 205-day weight bull in the history of Schaff Angus Valley. We have been waiting for a top-notch son and Lot 3 fits the order. Real Performance is also fathering the broodiest, thickest-butted daughters we have ever laid eyes on.
- We would like to use this bull back in our program and will work with the buyer to accommodate breeding seasons. All options are open to consideration from a split-use season where the bull is shared every season to an every-other-year share option. This bull has the muscle, EPD's and genomics that are in high-demand to produce superior, breed-leading calves.

- Selling 1/2 semen interest and 1/2 possession

- Calving ease.
- Huge spread from CED to YW EPD, which is hard to find in a calving-ease sire. Stud quality!
- Lot 6 has the genomics and performance weights to back the claim of being a true calving ease sire with huge potential for growth through weaning and up to yearling.
- Lot 6 is in the top 10% of the breed for his ability to be calving ease on heifers and the top 1% of the breed for weaning weight, yearling weight and \$W EPD's.
- Actual WW of 830 lbs.
- Dam's WWR is 101 on 5 calves.
- We would like to use Lot 6 back in the herd and feel he has the potential to be one of the breed's premiere calving ease sires that can produce a small enough calf for a heifer to birth yet provide an abundance of growth through weaning. We would like to use Lot 6 from May 20th to around June 20th. The buyer would get possession of the bull after or before that time. We are open to all options, depending on your calving season.
