Annual Bull Sale

Wednesday, February 12, 2020

Worland, Wyoming

80 2-Year-Old, PAP Tested, Range Ready Hereford Bulls
20 18 Month Old, PAP Tested, Range Ready Hereford Bulls
300 F1 Baldy Heifer Calves
Select Ranch Horses

Neighbors and friends,

Once again, we would like to welcome you to the Durbin Creek Program and thank you for the support and trust that you put in us. We feel extremely blessed to make a living off the land and are proud of the product we produce. For many producers and our customers, 2019 offered unique opportunities and challenges. Our goal at Durbin Creek is to produce cattle that thrive in adverse conditions. To keep true to that statement, we have changed the way the sale bulls are developed, and have left them outside in a large pasture until sale time. This has allowed us to sort for fleshing ability and correct feet and legs, along with other commercial relevant traits. This will also be the largest set of high altitude (PAP) and tenderness tested bulls in the entire breed.

Over the years, we have not only retained ownership on our home raised cattle, but also purchased many of our bull customer's calves. This has allowed us the opportunity to collect feedlot and carcass data on large groups of DCR bred calves; and it is reassuring to see the numbers. The cattle harvested in 2019 have been gaining over 4 lbs. a day with finish weights over 1,600 lbs. Coupling that with choice and prime carcasses that hit the high 90 percentile and we feel that we are moving in the right direction with our terminal traits. We are excited to announce the purchase of Washakie Feeders as well; this will allow DCR opportunities on a LARGER scale to work with you, our bull customers.

This is an extremely deep and powerful set of bulls from top to bottom that excel in the traits important to the Inter-mountain cattleman. They should sire calves that generate dollars from birth until they hit the rail. The selection offers proven sire groups like NJW 78P 88X Cowboss 199B and Churchill Manhattan428B that are trait leaders across the board and you have become confident in. But it also offers up and coming sires like DCR 200Z Precedence 518 ET, who topped our 2017 sale and is showing the ability to check all the boxes!

The F1 baldy females are once again a product of our customers programs and are sired by exclusively DCR bulls. Producers that purchase them continue to be impressed with the mother cows that they make. If you are considering using Hereford bulls, I challenge you to come take a look at them. Once again thank you!

In Christ Love,
The Agar Family

Durbin Creek Ranch Annual Bull Sale

NEW DATE

Wednesday, February 12, 2020

Big Horn Basin Livestock

1:00 pm mst

1310 Lane 12, Worland WY (307) 347-9201

We would love it if you
would join us

Tuesday, February 11 for
our Pre-Sale Dinner at the
Eagles, just down the street
from the sale barn

6:00 pm

**Bulls will be
available for viewing
all day Tuesday and
Wednesday.**

For questions about the bulls,
please contact Wyatt Agar
(307) 867-2404 or email at
durbincreekranch@yahoo.com

SALE LOCATION: The sale will be held at Big Horn Basin Livestock, located at 1310 Lane 12.

TERMS & CONDITIONS: Terms of the sale are cash or check. Every animal becomes the property of the buyer directly after the animal has been sold.

BULL DEVELOPMENT: Bulls are run in a commercial environment beside their mothers on native forage until weaning. After weaning, they are developed on hay and light grain ration through the winter, and then returned to forage as yearlings. They have been ran outside in large pastures since.

BULL FEEDING: Arrangements can be made for bulls to be returned to Washakie Feeders and put on feed. Bulls will be kept in the contemporary group they were in here at DCR. The bulls risk will be incurred by the buyer, insurance options will be available sale day.

BULL GUARANTEE: All bulls have passed a semen test and a breeding soundness evaluation by 2 independent vet clinics prior to the sale. To ensure your investment, DCR will guarantee all bulls selling against breeding injury and to be sound breeders for the first breeding season. Breeding season is defined as a 90 day period following the first turn out of the bull. If a problem should arise, contact us prior to the salvage of the bull, options will be discussed and a credit of the bull's purchase value minus salvage value will be given in an upcoming sale. Please notify us as soon as the problem or injury occurs. No claims will be accepted after September 1st. All bulls have been tested and are clean of any known genetic defect.

HEIFER DEVELOPMENT: Arrangements can be made to return heifers to Washakie Feeders to be developed and AI'd to the bull of your choice, including any of the DCR calving ease bulls. Costs can be negotiated between the buyer, the lot, and DCR after the sale.

DELIVERY: Free delivery to central locations in the Wyoming area. For buyers from Oregon, Idaho, Washington and Nevada, bulls will be hauled to Huntington, Oregon where buyers can pick them up or make other arrangements. If you pick up your bull sale day you will get a \$50 rebate.

LIABILITY: All persons who attend the sale do so at their own risk. The owners and sale barn assume no liability.

EPD Explanation

CED - Calving Ease Direct
BW - Birth Weight
WW - Weaning Weight
YW - Yearling Weight
SC - Scrotal Circumference
MILK
M&G - Milk & Growth
Fat
REA - Rib Eye Area
Marb - Marbling

Hereford Association Average for 2017

CED 1.9 BW 3.0 WW 50 YW 81 SC 0.9
MILK 23 M&G 48 Fat .009 REA .35 Marb .08

EPD's were current as of December 2, 2019.

Tender Score Explanation

Tenderness score (TS) is based off data from an ecogram that measures the fiber strands in each muscle grouping.

1=Very Tender
2=Slightly Tender
3=Tender
4=Tough

This is a valuable tool for those that retain ownership and are looking to produce a positive eating experience.

Directions to Worland Sale Barn

- From Big Horn Ave., turn South onto 5th Street
- Go two blocks and turn West (right) onto Culbertson Ave.
- Then S.W. (left) onto Railroad Ave.
- Go 7 blocks and turn West (right) onto a dirt road that crosses the railroad tracks, directly across from Washakie Ave.

What is PAP

Pap (Brisket Disease) in cattle is physiologically known as bovine pulmonary hypertension and is problematic in calves raised at altitudes over 6,000 ft. The average pressure within the pulmonary artery is the pulmonary arterial pressure (PAP) value that producers at high altitude should consider when selecting sires for their herd. Since PAP is a moderately to highly heritable trait (~40%), it's an indicator trait that can be used to minimize the risk of brisket disease.

Interpreting PAP

- PAP 35-41: Considered an excellent score for any animal more than 12 months. Ideal for high altitudes.
- PAP 41-45: An acceptable range for animals greater than 16 months. Adequate for high altitudes.
- PAP 45-48: An acceptable range for only older animals that have been in high elevations for an extended period of time. Younger animals may become problematic at high altitudes.
- Pap Greater than 49: Animals scoring in this range must be considered high-risk at altitude, not only for themselves but offspring.

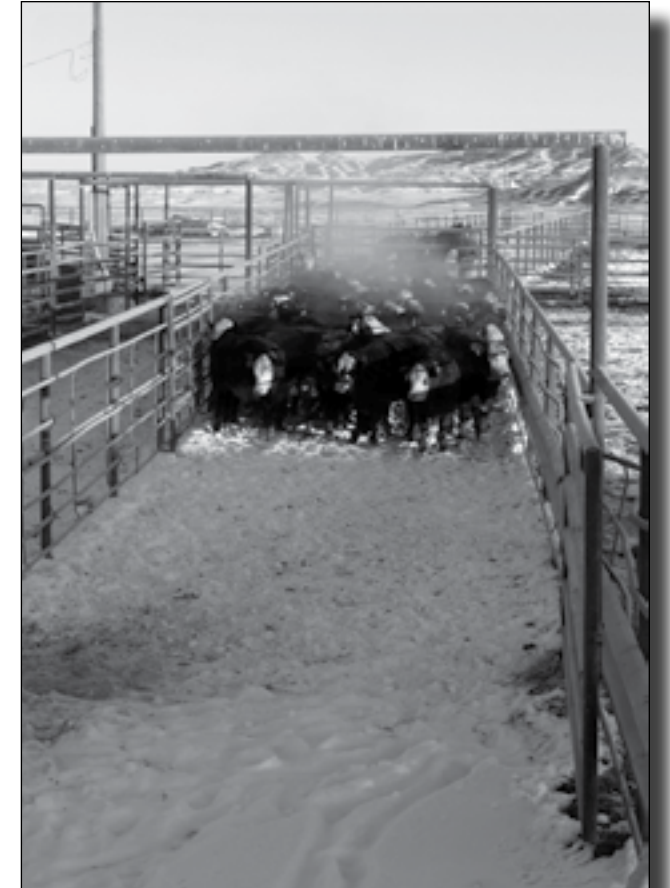

Washakie Feeders

805 Hwy 16
Worland, Wyoming

In the fall of 2019, Durbin Creek and Wahl Land and Livestock purchased the Washakie Feeders feedlot. It's 7,000 head capacity allows us opportunities on a large scale to work alongside our bull customers with:

- Calf marketing- with the ability to get performance data back
- Backgrounding and retained ownership- facilitating finishing options if desired
- Heifer development- with breeding options

For more information stop by or call Bruce, Wyatt or Jake.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding program for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on Dish Network channel 997. Please note that there is a delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at both www.superiorlivestock.com and www.superiorclicktobid.com. The video feed on the homepage of www.superiorlivestock.com looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember you can call in to bid whether watching on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid".

Buyers will be contacted by the ranch after the sale for payment and delivery details. IF YOU NEED ANY ASSISTANCE CALL SUPERIOR AT (800) 422-2117.

Ten Trait Leader!!

The longer we use 199B in our commercial program the more impressive his real world data becomes! His calves come easy, mature early, convert feed and hang up dollar generating carcasses. Sons are stout and economic, daughters are broody and very productive. Sired the Champion Carcass Steer at the Hot Springs County Fair.

Fall Division Winners at NWSS
All Cowboss Daughters

Precedence 518 was the high selling bull in our 2017 sale to Darrell and Vicki Barnum. His first calves have a large growth curve, plenty of performance behind boards and hang up large carcasses. He appears to be a real third phase trait improver. The first group of females to calve are very maternal.

11 Trait Leader!!

Manhattan has proven to be an unparalleled calving ease sire, that passes the ability on to his sons. We have had over 1,000 births from first calf heifers bred to him or sons at DCR and assisted 1%. The same calves weigh in the top 30% of their contemporaries at weaning. Daughters in production are very easy fleshing and tidy uddered. After running outside with the aged cows, 98% bred back for 2nd calvers.

The high selling bull in our 2016 sale, we were lucky enough to retain a piece of him. By 713 and out of the great 7020 cow, he represents the most reliable and proven DCR genetics of the last 20 years. The real world numbers backing him up don't lie. He offers ample early growth and maturity coupled with eye appeal. Steer calves posted impressive rate of gains and the females have a very cowy look to them.

True Cowherd Builder!

A high selling bull at the 2015 sale, we have since bought the walking rights back. His daughters are a picture of productivity with level, tight udders and extremely correct teet placement. Sons are long sided and rugged. They are designed for big country operations. He is the ideal baldy female maker!

We bought 48B from Bar RZ after seeing him along side his powerful dam. He weaned off the cow at over 1000 lbs and posted a 125% weaning ratio. True to form, he sires early performance, coupled with early maturity. Sons offer power and lot of muscle shape; daughters are work horses and wean large calves. 48B is geared towards operations that sell calves off the cow and are looking for pay weight. Calves have excelled in our commercial division sire test.

"The Bulls we got from Durbin Creek get the job done! They get out and travel in our rough country, settling alot of cows. The calves have performed well for us; a high percentage of our replacements are F1 baldy females."

RJ Thompson

Fall Bulls

In 2015 we split the replacement heifers into 2 groups and bred part of them for fall calves. That was the beginning of our fall calving program. Since then we have offered a few fall bulls in each sale, that have been well received. This year in order to give customers the choice of 2 different age groups we are offering the entire fall calf crop. Females are not allowed to move between calving groups, but rather are managed as 2 complete different operations.

300 Head of High Altitude, F1 Baldy Heifer Calves Sired by DCR Bulls

Consigned by RG Ranch

Why the Baldy Advantage

- ◆ A 7% advantage in conception rate
- ◆ 51% more per cow per year
- ◆ Improve disposition & handling ability
- ◆ Increase value of females
- ◆ Data based on the Circle A Ranch Heterosis Project beginning in 2007, conducted by Circle A Angus Ranch.

Selling in groups of 5 with a run on the pen if desired.

For questions about the heifers, please contact Bruce at (307) 867-2402.

2020 Horse Sale Information

The horses being offered in our 2020 sale include 3 geldings and 4 mares ranging from 3-5 years old. Each horse in the sale was raised and has been ridden on Durbin Creek. The goal of our program is to raise a versatile horse that is capable of performing ranch work with ease and has the ability to excel in the arena as well. The RDA prefix on some of the sale horses belongs to Bruce's brother Matt and his wife Debbie Agar who raise their horses right along side ours. This group of horses have been enjoyable to ride and we look forward to sharing them with you!

Guarantee

Our horses are guaranteed sound for the first 30 days after purchase. If a horse appears to be unsound in the first 30 days of new ownership the horse can be returned to the seller for 100% of the purchase price, with a vet check stating that the unsoundness is the seller's responsibility.

Mare First Right or Refusal

On the sale of mares, Durbin Creek Ranch wishes to obtain the first right to buy back the mare if the new owner ever wishes to sell them.

Trying Horses Before Sale

If you would like to ride a horse before the sale please call and we will make an appointment with you to do so. Horses will not be available for riding once they have reached the sale location.

To watch a video of each horse visit our website at:

www.durbincreekranch.com

Give us a call anytime to visit about the horses.

Find us on Facebook for more pictures and updates on the sale horses!

Bruce branding on Brownie with grandson Clay.

LZM Brown Conchos
2000 Brown Stallion
Reference Sire

LZM Brown Conchos "Brownie" will be found on 5 of the 7 pedigrees of our sale horses this year. We lost Brownie on June 5, 2019.

"Brownie was a great sire and our good buddy. We are thankful for the many nice colts he produced over the years. He was gentle and loved affection and attention. We are sure going to miss him!"
Matt & Debbie Agar

The legendary sire Sun Frost has been nominated for induction into the AQHA Hall of Fame for the year 2020. He is a multi-million dollar sire who's name can be found on many of the pedigrees of horses competing at the highest level of competition in mutiple events. Versatility is of great imprtance to us and we are proud to own PC Wades Frost, an own son of Sun Frost and Gila Drift, a grandson of Sun Frost to use in our program. Sun Frost influences the pedigrees of 5 of our sale horses this year and has made a tremdous impact on the horses we are raising through the sires we have.

Sun Frost

| | Broadway Jolene Honey Squaw Bar |

"Broadway" has 60 days of riding/ranch work. We have used her outside to gather and trail cattle as well as in the corral for sorting and loading trucks. Her mother is a great ranch horse that anyone can ride and Broadway is the same! If you are looking for a horse that the whole family can enjoy she's the one!

"Autumn" has 60 days of riding/ranch work. She has been used outside for gathering and in the feedlot to sort and ship cattle. She is super athletic and has tons of natural ability. She has amazing "cow sense" and always knows where to be while working cattle. Autumn has two full brothers that are started head horses in Arizona. If you are looking for a horse with moves don't pass her up!

Joey branding on a paternal brother to Broadway & JD.

Bruce branding on a full brother to Grace.

Hannah running barrels on a full brother to Autumn.

Mattie heading on a paternal brother to both Sweet Pea & Grace.

Rylee branding on a full brother to Red and paternal brother to Carmel.

Clay heading on a paternal sister to Autumn.

Clint branding on Broadway’s dam.

We would like to honor the memory of Ed Stuaber. If you were ever able to make it to our presale dinners, he was always the one behind the prime rib. Ed and Edna Stuaber have been providing the meals for our bull sale since our first sale in 2013. They would never take money for their services but would instead ask for a donation to the Shriners Hospital. Ed will truly be missed.

Thank you to all who made last years sale such a wonderful success!

We would like to thank all the people who work behind the scenes to help make this sale happen. The many volunteers and those part of the Durbin Creek team, who are:

- The Abbe Family
- The Dean Family
- Kevin Trent
- Thad and Hailey Wahl
- The Sill Family

DCR Females

No Frills - Cows run out on native grasses in commercial settings on the high desert.

No Excuses - Entire cow families have been eliminated for prolapse, eye, udder, feet and leg or fleshing ability problems for 40 years.

No Gimmicks - Cows calve in large pastures (3,000 acres) and do it themselves or they are eliminated by nature or management.

No Second Chances - Every cow raises a calf every year period!

Excelling in all Enviroments
