Welcome to the Ponca Valley

This is our 3rd production sale at the ranch and from end-to-end, our best set of cattle yet. We are focused on raising sound, practical cattle that will turn a profit for our customers. If they don't get better each year, we are doing something wrong.

At a time when the show ring seems to be ignoring over-all soundness and shortening legs, we feel our first priority must be functional, long lasting cattle. I have been around long enough to remember when British breed cattle were too short. It is my firm belief that cattle need enough leg and good feet if they are going to work and last for years.

Our two-year-old bulls are summered on hill pasture with no grain until fall. They know how to take care of themselves. This set of two's are big, stout and tough, but at the same time, gentle. They are without a doubt our best set yet.

The four fall bulls are flood survivors and four very special bulls.

We did not fit spring calves for Denver this year, but they have developed very well. They are extremely uniform and have size and quality all the way through.

Our program is still a no creep, no nonsense deal.

One feature at this year's sale will be bulls and heifers from our new heifer bull 7049. All these calves are from two-year-old heifers. Never in my years in the business have I seen two-year-olds raise a set of calves that can stand up to our cows calves. This is calving ease and performance all together.

The heifers that we are offering are the kind you hate to see leave. They should make great cows. We selected these to offer you the highest quality group of females.

We are very pleased that some of the best herds have chosen to use our cattle.

Hope to see you sale day.

Testimonial

A few years back we visited with Lowell and Steve about the possible benefits of using Hereford bulls on our Red Angus cows. Our goal was simple, we were looking to add profits. In 2017, we purchased 3 Fisher bulls and have bought a couple more at their bull sales.

We are very pleased to say that everything that they mentioned to us, as possible benefits, has happened for us as we have used their bulls. We really appreciated the great disposition of these bulls and we have seen that same disposition improve in our calves and cows. The calves have been good doing, big and stout.

The steers have sold very well at the sale barn. We saw the

biggest impact happen as Steve came and looked over our cows and calves starting the summer of 2018. He then came in the fall, after the heifers had been weaned to take pictures and videos. Last Spring in February 2019, Steve marketed these heifers for us. We had a surprising amount of interest in the heifers coming from 6 or 7 different states. The heifers sold and we netted a price that was better than \$350 per heifer over the top market price at the time.

We couldn't be happier with these results and plan to continue to use their bulls and market heifers this way.

- 314 sires beautiful, low birth weight, short marked, pigmented calves that are born extremely easy and then just get up and grow.
- His calves were a feature in Berry's 2015 sale and will dominate the top end of their 2016 sale. A commercial producer that used 100 straws on heifers in 2014 recently purchased 150 straws. The true test!
- Owned with The Berrys, WY, Cooper Hereford Ranch, MT and K7 Herefords, IA.

531 is our best 0145 son to date. We sold the spring calving 1/2 interest in 531 to Doathit Herefords in Kansas and we have used him naturally for fall calves and AI for spring calves. Seven sons sell. 531 is the most consistent sire of pigment and solid markings that we have used.
