Online Bidding:

Please visit www.TheLivestockLink.com and click the "Online Sales" tab. For questions please call 701/590-9597.

Delivery: We will cooperate on delivery or take \$50.00 off sale price if picked up on sale day (bulls only). Free delivery on purchases of \$5,000 or more.

*No free delivery on heifers.

Heifers: The registered heifers will be sold in groups of three with the bidder getting the option of choice or all three heifers. The remaining heifers will be sold as commercial heifers with the option to buy the papers for \$100.

Feeding arrangements: We will offer to feed only the yearling bulls until April 1st at a cost of \$100 per head. The charge will be made at the time of settlement on sale day. We would appreciate that the animal be insured before delivery back to the seller, as injury or death is an insurable risk. Animals that are being cared for by seller are done so at the purchaser's risk. Insurance representatives Art Handel and Troy Bargmann will be on hand to provide insurance.

Welcome:

We would like to welcome you to the 10th annual Friedt Herefords Production Sale, being held February 8th, 2017 at Stockmen's West in Dickinson. If you are unable to attend, please contact us or view the sale on The Livestock Link's live bidding page. For help with online bidding please call 701/590-9597.

We are selling a great set of 40 yearling bulls and an outstanding group of 12 coming two year olds, as well as 55 head of yearling heifers. There are more two year olds in the sale than usual, as we have made the decision to offer mostly the January and February bull calves of our 2016 calf crop and develop the March and April calves into two year olds for next year's sale.

We had one of our best calving years as far as weather goes, but a dry and cool spring limited our pasture and hay growth. Our weather was hot and dry in June, July, and August which resulted in 3 pastures having bad water. Thankfully we didn't lose any livestock, but performance was compromised until we had wells drilled and tanks installed. We were blessed with a mild fall into early December with late grazing on stubble which helped our cattle regain lost condition, and assisted our bulls development post-weaning. The yearling bulls were weighed August 18th, 2016 without the benefit of creep feed. Since weaning all of the bulls have been fed a ration of cracked corn, distiller's grain, soybean hull pellets, silage, and free choice hay.

Our number one goal is to raise high performing cattle that are functional in the real world, and we feel our bulls reflect that. They come from low maintenance cows selected for udder quality and carcass traits. Longevity is another big factor in our herd and it helps contribute to our bulls' sound structure. We continue to improve our herd by purchasing bulls from top of the line breeding programs that also carry these traits.

Our biggest sire group is from the Navarro 242 bull that we raised and sold to Delvin and Kelley Dukart in our 2013 sale. We sold his first calves in 2015 and they were some of the best calves we had. We only had one heifer by him and she raised a 654 pound heifer calf as a first calf heifer this year. He was used heavily in 2015 after we bought him back from the Dukarts and will continue to see heavy service in our herd. We are offering calves from our other herd sires that have really performed well. We look forward to seeing you on sale day!

Please join us for a Certified Hereford Beef lunch.

View videos on our website.

Supplement sheet with final weights and ultrasound data will be available on sale day and on our website prior to the sale.

We lost this bull this spring before we had a chance to turn him out on cows. He was a special bull here, repeatedly siring sale topping bulls as well as leaving a group of females that continue to raise sale toppers. To date he has 35 daughters that have a 102.5 weaning ratio on 64 head of calves. Owned with Boehnke Herefords.

This is a home raised bull we are very proud of. He showcases all the traits we've been working hard to develop. He is below average in birth weight, yet has the power to pass on extra performance to his offspring. Based on the performance of his only daughter, we are keeping a large group of his females.

NATIONAL CATTLE EVALUATION TERMS

2015 HEREFORD BREED EPD AVERAGE

EPD — EXPECTED PROGENY DIFFERENCE:

Estimate of a bull or cow's future progeny performance compared to progeny of a breed average sire or dam. EPDs are expressed in actual pounds, plus or minus, for birth, weaning and yearling weights and maternal performance.

CED — Calving Ease Direct

BW — Birth Weight

WW — Weaning Weight

YW — Yearling Weight

MILK

M&G — Milk & Growth

CEM — Calving Ease Maternal

SCROTAL EVALUATION

Age in Months	12-14	15-20	21-30	30 plus
Acceptable Range (cm)	30-35	31-37	32-39	33-40

SC — SCROTAL CIRCUMFERENCE:

A measure of fertility. Testicle size indicated by scrotal circumference measured in centimeters is a highly heritable trait very much correlated to reproductive efficiency. A valuable indicator of bull fertility and puberty, and highly related to early puberty in heifers and cow fertility, increased bull scrotal circumference should improve fertility and inherent cow herd productivity.

1.2	3.2	49	79	21	46	1.4	.004	.33	.08

TERMS & CONDITIONS

All cattle will be sold to the highest bidder without reserve. The terms of the sale will be cash. The auctioneer will settle any dispute as to bids.

Each animal will become the property of the buyer as soon as sold. Cattle will be cared for a reasonable length of time after the sale, at the buyer's risk.

All bulls of breeding age are guaranteed breeders. If an animal fails to breed after a trial of six months, it may be returned to the seller at buyer's expense. The seller reserves the right to try said animal for six months and if it proves a breeder to return it to the station of buyer at seller's expense. If the animal proves to be a non-breeder an equal animal substituted or credit on the purchase of another animal. No adjustments after 9 months.

Herd Health is excellent. Our herd veterinarian is Dr. Travis Kuhlka, DVM 701-400-2953.

Extreme care has been taken in copying each pedigree to avoid errors. We are not to be held responsible for any error which might appear and which is beyond our control in the printing of the catalog. Everyone attending this sale does so at his own responsibility and risk, and without liability on the part of the owner or his employees.
