Where performance counts

THE BALD-FACED TRUTH

ABOUT HEREFORD GENETICS

It's obvious – Hereford-sired calves deliver a \$51 increase in net profit per cow, per year.* Hereford genetics bring legendary hybrid vigor, improved fertility, feed efficiency and easy-handling docility to your program. Read the research, and see why Hereford heterosis pays off, at **[Hereford.org/genetics](https://hereford.org/genetics)**

*Compared to Angus-sired calves. Source: Daley, David A. and Earley, Sean P. Impacts of Crossbreeding on Profitability in Vertically Coordinated Beef Industry Marketing Systems. American Hereford Association. Retrieved from <https://hereford.org/wp-content/uploads/2017/02/HarrisHeterosisReport.pdf>

Welcome to the Friedt Herefords Production Sale.

2019 has proven to be a challenge for all of the agricultural community. From excessive cold and rain during the calving and planting season, to excessive cold and snow during the harvest season, it has been a year we will never forget. Yet, we have called upon some customers who have endured drought conditions with poor hay and crop yields.

We were able to get our hay put up with very little rain on it. We also planted extra oats and barley for hay and had a good silage crop.

The bull calves have developed really well since weaning and we believe we may have the deepest and most uniform set of calves we have ever raised. We will be GE testing a hand full of the top bull calves.

We try to AI half of the cow herd with the top AI sires that fit our program. We have also had great success using bulls from our own program that we have sold in previous sales and bought back to use in our herd. This is especially true with the two Navarro sons we are using, 242 and 227. Though 242 has been used for many years and has sired numerous sale toppers, his progeny always perform well. This is the first set of calves for the 227 bull that we bought back from Barry Steffan. His calves have really impressed us. We are really excited about the replacement heifers we are keeping. His bull calves have extra depth and rear quarter. We are also offering a good polled two year old bull sired by KCF Bennett Encore Z311 ET from the Bayers Hereford Ranch.

We are offering a good cross section of yearling heifers from our cow-herd. These heifers were selected out of our replacement pen.

We added some AI sires and pasture sires and feel they will give our customers options that will fit their breeding programs.

We have videos of top pairs that were taken in September to give you a snapshot of our program. The bull calves have really changed and we are excited to get videos of the sale cattle on January 10.

We welcome all the consignors of the F1 BWF yearling heifers that are sired by our bulls. They are high quality, replacement type females. Feel free to contact our F1 baldy consignors.

We look forward to seeing you on sale day.

0.4	52	87	28	54	.25	.22	\$96

The top selling bull in the 2014 Stuber Ranch sale. 53A was purchased because of his low birth weight pedigree and outstanding carcass performance. His calves come easy and are very vigorous at birth. He was used as the main bull on our yearling heifers and used on a number of cows to utilize his low birth weight genetics. Owned with Boehnke Herefords.

This is a home raised bull we are very proud of. He showcases all the traits we've been working hard to develop. He is below average in birth weight, yet has the power to pass on extra performance to his offspring. We calved a large number of 242 daughters this past spring and they milk very well.

This correct, thick made calf has the herd bull look. His mother has weaned 6 calves with a 107.8% weaning ratio and 4 calves with a 105.8% yearling weight ratio.

2-YEAR-OLD BULLS

We are offering a good selection of 2 year old bulls that were summered on pasture. They are sound on their feet, correct in their structure and not overfed. We use a late February/early March cutoff date for a bull calf to be sold as a yearling. These bulls have not been offered for sale at public auction prior to the sale.

NATIONAL CATTLE EVALUATION TERMS

EPD — EXPECTED PROGENY DIFFERENCE:

Estimate of a bull or cow's future progeny performance compared to progeny of a breed average sire or dam. EPDs are expressed in actual pounds, plus or minus, for birth, weaning and yearling weights and maternal performance.

CED — Calving Ease Direct

BW — Birth Weight

WW — Weaning Weight

YW — Yearling Weight

MILK

M&G — Milk & Growth

CEM — Calving Ease Maternal

FAT — Rib Fat

REA — Ribeye Area

Marb (IMF) — Marbling

CHBS — Certified Hereford Beef Index

SCROTAL EVALUATION

Age in Months	12-14	15-20	21-30	30 plus
Acceptable Range (cm)	30-35	31-37	32-39	33-40

SC — SCROTAL CIRCUMFERENCE:

A measure of fertility. Testicle size indicated by scrotal circumference measured in centimeters is a highly heritable trait very much correlated to reproductive efficiency. A valuable indicator of bull fertility and puberty, and highly related to early puberty in heifers and cow fertility, increased bull scrotal circumference should improve fertility and inherent cow herd productivity.

2018 HEREFORD BREED EPD AVERAGE

CED	BW	WW	YW	M	M&G	CEM	FAT	REA	MARB	CHBS
2.3	3.0	51	83	23	49	1.8	0.011	0.36	0.08	99

TERMS & CONDITIONS

All cattle will be sold to the highest bidder without reserve. The terms of the sale will be cash. The auctioneer will settle any dispute as to bids.

Each animal will become the property of the buyer as soon as sold. Cattle will be cared for a reasonable length of time after the sale, at the buyer's risk.

All bulls of breeding age are guaranteed breeders. If an animal fails to breed after a trial of six months, it may be returned to the seller at buyer's expense. The seller reserves the right to try said animal for six months and if it proves a breeder to return it to the station of buyer at seller's expense. If the animal proves to be a non-breeder an equal animal substituted or credit on the purchase of another animal. No adjustments after 9 months.

Herd Health is excellent. Our herd veterinarian is Dr. Travis Kuhlka, DVM 701-400-2953.

Extreme care has been taken in copying each pedigree to avoid errors. We are not to be held responsible for any error which might appear and which is beyond our control in the printing of the catalog.

Everyone attending this sale does so at his own responsibility and risk, and without liability on the part of the owner or his employees.

Delivery: \$50 off sale price if picked up on sale day (bulls only). We will cooperate on delivery on purchases of groups of 5 or more to central locations or on purchases of \$5,000 or more and up to 500 miles. We will cooperate on all deliveries regardless of number of head or distance.

Heifers: The registered heifers will be sold in groups of three with the bidder getting the option of choice or all three heifers. The remaining heifers will be sold as commercial heifers with the option to buy the papers for \$100.

Feeding arrangements: We will offer to feed the yearling bulls until April 1st at a cost of \$150 per head. This will also include 1 semen evaluation. The charge will be made at the time of settlement on sale day. We would appreciate that the animal be insured before delivery back to the seller, as injury or death is an insurable risk. Animals that are being cared for by seller are done so at the purchaser's risk. Insurance representatives Art Handel and Troy Bargmann will be on hand to provide insurance.
