Sale Location

Red River Farms Sale Facility

602 FM 1652

Grand Saline, TX 75140

Red River Farms is located on FM 1652, just off Hwy. 17, 10 miles north of I-20.

Herd Health

Cattle will sell with proper health certificates for immediate interstate shipment.

Herd veterinarians: Jesse & Doug Richardson,
Henderson County Veterinary Hospital, 903-675-5613.

Herd nutrition: Livestock Nutrition Center, 817-232-8161.

Sale Terms & Conditions

Cattle sell under the recommended Sale Terms and Conditions of the American Hereford Assn.

Retained Flushes

Iron Lake Ranch will retain the right to two future flushes on all the open heifers selling.

Each flush will include a minimum of six transferable/freezable embryos and will be performed at the convenience of the buyer. Iron Lake Ranch will be responsible for the expense of these flushes.

Trucking

Livestock transportation will be available sale day.

Please let the sale manager know if you will need assistance with delivery.

Livestock Mortality Insurance

Insurance will be available sale day at the clerk's desk.

Expected Progeny Differences (EPDs)

EPDs are updated weekly by the American Hereford Association. The EPDs in the catalog were from the 10/7/19 report. Current EPDs can be viewed online at www.hereford.org.

Announcements made sale day from the auction block will take precedence over statements printed in the sale catalog or other advertising. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time. All persons who attend the sale do so at their own risk. Neither the owners, the sale manager, Red River Farms nor any other person connected with the sale assumes liability, legal or otherwise, for accidents or loss of property.

Thank you for your interest in our Sixth Annual Sale. We invite you to visit us at Iron Lake Ranch any time!

The sale cattle are available for viewing at the ranch near Athens at your convenience prior to Wednesday, November 6th.

They will then be available for viewing at the Red River Farms Sale Facility near Grand Saline, Texas.

Lunch will be provided sale day, compliments of Livestock Nutrition Center.

Iron Lake Ranch Donor Dams

From the beginning stages of Iron Lake Ranch, Dimitri Mataragas has strived to offer a product that would be in demand for the specific reason that you could not get it anywhere else. In addition, he has always demanded that the Iron Lake product would be sound, functional, well structured cattle with elite udders. In his quest for excellence, he has assembled one of the most unique sets of donors in the Hereford industry.

Following are the principal donors represented in this year's sale.

DJB 46B Beth 1L

with her big volume "maternal" look. We are very fortunate to have had the opportunity to add Beth 1L genetics to the Iron Lake Ranch program through the use of IVF technology.

Beth 1L was one of the foundation females of the famed Grandview CMR herd. 1L is a full sister to P606, whose daughters are still sought after today for their outstanding maternal ability and perfect udders; 1L offers this and more. She passes her perfect pigment to nearly every calf along

KCF Miss Proficient U201

ease, udder quality, carcass weight and REA. To date, she records 56 progeny scanned by ultrasound who have posted an average REA ratio of 105.5. Several descendants are offered in this elite genetic event. U201 is co-owned with Knoll Crest Farms.

U201 is the homozygous polled donor dam of the popular performance sire X51, the highly proven surefire heifer bull ILR Peace of Mind 394A ET, and the all-around performance sire ILR Red Power. U201 has an impeccable record of producing high end seed stock that excel in calving

X328 is a full sister to the dam of Encore Z311 that commanded \$62,000 for 1/2 interest in the 2015 Mile High Night Sale in Denver, CO, to Boyd Beef Cattle. She is homozygous polled and extremely attractive in her design. She propels power with tremendous depth of rib and flank.

KCF Miss Revolution X328 ET

X328 will be a huge breeding piece in the Iron Lake Ranch program for years to come. We feel her ability to produce herd bulls and high end donors to propel this program forward is unprecedented.

4007 was the high selling female in the 2014 Hoffman Ranch Female Sale, commanding \$180,000. She is sired by the ever-popular Ribeye 88X and out of the famed 5139R donor for Sierra Ranches, who herself commanded \$175,000 and to date has produced in excess of \$2,000,000 in progeny sales. 4007 has become

H Ms 5139 Advance 4007 ET

one of the feature donors at Iron Lake Ranch. She combines tremendous rib shape, power, design and impeccable maternal strength.

Quest for EXCELLENCE

IRON LAKE

Ranch

H W4 Mariah 0103 ET

Owned with Alex and McKenzie Cosgray and C.V. Ledbetter and Son.

Mariah 0103 is a highly influential donor sired by Outcross 18U and out of HH Miss Advance 316N, a direct daughter of the renowned CL 1 Dominet 496. She offers exceptional strong growth and rib eye numbers in addition to top ranking udder and teat scores. Six progeny sell in the Iron Clad Genetics VI offering.

3196 was our choice from the 2013 Churchill World Class Female Sale. She fits the mold of the Iron Lake Ranch program by combining pedigree and performance with eye appeal. A Perfect Timing daughter out of a full sister to Redeem, 3196 is one that we think you will agree has an impeccable pedigree along with balance and style blended with depth, muscle and shape. Owned with Churchill Cattle Co.

Churchill Lady 3196A ET

PCR Ida Goldie 40X

very excited about the potential of this donor and what she can bring to our program. Her donor flush sells as Lot 20.

40X is the dam of Bentley, the No. 1 CHB bull among active sires that Iron Lake purchased in February 2019. This dark red, stout made female has a gorgeous udder when in production. We feel she offers a totally different gene pool to cross with our elite herd sires. We are

HHQ 454B Dora 11E

A two-year-old daughter of Bentley, the No. 1 CHB bull among all active Hereford sires. **11E** has a gorgeous udder and possesses the power and style we want to transmit to our cattle. This Bentley daughter really steps up our game in the donor pen with her exceptional, unique pedigree and phenotype.

1162Y is a full sister to 0230X, the 2012 Denver Champion Female. An Outcross x Patti 4266, she is very impressive to see, having massive bone and rib combined with plenty of muscle and volume, yet she maintains a very feminine front end with a smooth shoulder that is set at a perfect angle. Owned with Churchill Cattle Co. and Stuber Ranch.

Churchill Lady 1162Y ET

DBLL DCC 8006 Pearl 5059 ET

Pearl 5059 is a mainstay in our donor battery and is said to be the best cow out of the old MSU Pearl 67G cow, who generated over \$500,000 in direct progeny sales. Pearl's sire is Embracer 8006, whose daughters speak volumes about maternal ability. Owned with Hoffman Ranch.

The No. 1 Hereford female for CED, BW, WW, YW, Udder, Teat, REA & Marbling combined!

ILR CCC SR 88X
Lady 430B ET
Dam of Lot 1

To kick off the Iron Clad Genetics Volume VI offering, we are starting with the No. 1 female in the breed when you take into consideration her minimum EPDs for CED, BW, WW, YW, Udder, Teat, REA and Marbling.

Her dam is a full sister to the \$100,000 female that sold as the donation lot in the 2015 Denver Mile High Night Sale. Her maternal granddam, 1162Y, has produced several donors and herd bulls that reside in some of the most prominent Hereford programs. Her sire is the ever-popular Mighty 49C, who has made a name for himself by siring bulls and female that are big ribbed, easy fleshing and wrap it all together in a calving-ease, stylish package.

894 is a rare breeding piece that will allow you to produce sons and daughters that the market is currently demanding in both the commercial and purebred sector. Big time future donor!!

Ranks in the top 1% for CED and Udder; top 2% for Teat; top 3% for Marb; top 5% for BW; top 15% for Milk; top 20% for REA.

If you like power with phenotype, you will love 007! You have to appreciate the bone, hip, length, body and overall presence she displays. Her dam has a gorgeous udder and stems from a highly maternal line of genetics. This female has tremendous upside, as she has the ability to produce herd bulls and high end donors. **POWER COW!**

Ranks in the top 10% for WW; top 15% for YW and Teat; top 20% for Milk. Owned with Langley Farms, LLC.

One of the first daughters of the former Burns Farms \$60,000 sale topping Rocket Man to be offered. Check out her EPD profile, as she checks almost every economically important trait in the Hereford breed. She may not have taken the best picture due to being extremely docile, but when you analyze her in person, you will say "Wow!" Big ribbed, super correct in her lines, sound in structure and extremely feminine in her front 1/3. Her dam is a direct daughter of Sooner and Beth 1L, the full sister to P606. You cannot write a better pedigree!

Ranks in the top 5% for Milk; top 10% for REA; top 15% for WW, Udder, Teat and Marb; top 20% for YW and CHB.

If you like to visually appraise cattle, you will love this big-time heifer sired by Aventus and out of 3196A, the former \$40,000 1/2 interest female. A full sister was the Lot 1 female in the Churchill Cattle Co. 2017 Female Sale to the Krebs family in Gordon, NE.

892 is so cool in her design with a big sweep to her belly, stout hiped, huge boned and so true in her structural correctness. A little different age to show, but she can handle the heat. Her most valuable contribution I believe will be as a donor cow, as she will mate well to many of the AI bulls used today and with her excellent EPD profile offers unlimited mating options. Don't overlook this female—she is special!

Ranks in the top 15% for WW, YW, Udder, Teat and REA. Maternal sister sells as Lot 24.

Pay attention here, as Dimitri has stacked the deck by offering two maternal sisters to Gerber Anodyne 001A, the proven performance bull who is an AHA Trait Leader in 14 different traits. Anodyne is one of the highly proven AI sires that just does so many things right. He is a calving-ease bull, his daughters have gorgeous udders in production, and he has marbling, REA and heavy carcass weights. He is what the BEEF business is about!

These two flush sisters out of Holly 096Y will be genetic tools to improve calving ease without sacrificing performance and will bring value-added carcass merit while improving udder quality in any herd.

The first offspring to be offered by Iron Lake Ranch sired by Bentley, a new herd sire Dimitri acquired this past February. When you search the Hereford database, Bentley is the No. 1 \$CHB bull among all active sires. This April heifer has exploded since picture day and is one you will want to look up sale day. A moderate birth female with excellent carcass merit and udder quality, smooth in her design with added bone and power. Her donor dam is the famed 8090, who has left a lasting impact on the Iron Lake Ranch breeding program. Get in on the ground floor of this explosive genetic package.

Ranks in the top 1% for Udder and CHB; top 2% for Teat; top 15% for YW; top 20% for Marb. Maternal sister sells as Lot 39.

The sire of this heifer was purchased in 2017 by our good friend Mark Rubes at 6 Mile Creek Ranch in Oklahoma. He is a Sooner out of U201, the dam of X51, and we are really excited about his future. He is a calving-ease bull with performance and udder quality and is loaded with REA and Marb.

515 is stout hipped and loaded with muscle yet maintains a very feminine look and design. Super correct in her lines and on her feet and legs. Excellent EPD profile that touches many of the boxes that we as breeders are looking for. Owned with Langley Farms, LLC.

Ranks in the top 3% for Udder; top 5% for Teat; top 15% for BW, REA, Marb and CHB; top 20% for WW and YW.

What an opportunity to flush the dam of Bentley, the No. 1 \$CHB bull among active sires in the Hereford breed and now a member of the Iron Lake Ranch bull battery! 40X is powerful in her design, short marked, dark cherry red, stout boned, big hiped and has an excellent udder when in production. Homozygous polled.

40X progeny post average ratios of 7@98 for BW, 3@104 for REA and 3@101.7 for IMF. She herself posted individual ratios of 137 for IMF, 109 for REA and 103 for YW.

- 40X is open and ready to flush.

PCR X51 Bentley 454B

Son of Lot 20 flush donor & sire of Lot 21 flush donor

• Terms of Flush:

Selling the right to flush 40X to the bull of the buyer's choice. Buyer is guaranteed a minimum of six transferable embryos with a guarantee of two pregnancies if put in by a certified embryologist. In the event that more than six embryos are produced, the buyer will receive all embryos. The buyer is responsible for all costs associated with the flush.

If you have been in search of an ultra-complete, perfect uddered, goggle-eyed, calving-ease dark red female with a proven track record, here is KCF Miss 3027 Z44 ET.

Z44 herself dominated her calf crop, posting an IMF ratio of 149 and REA ratio of 118. On her first three bulls that were offered by Knoll Crest Farms, KCF Bennett Summit B261 sold for \$27,000 to Upstream Ranch and Accelerated Genetics; KCF Bennett Addition B262 sold for \$27,000 to White Hawk Ranch, Barnes Herefords, Innisfail Farms and Still River Ranch; and KCF Bennett Z80 B264 sold for \$10,000 to Waggoner Farms. Z44 currently has 10 sons and daughters working in herds across the U.S.

Ranks in the top 1% for Udder; top 2% for Teat; top 3% for Marb; top 4% for CED; top 10% for BW; top 15% for REA.

Owned with Langley Farms, LLC.

• Sells open, ready to flush. Z44 was not bred AI or pasture exposed.

This short-marked direct daughter of Red Bull 200Z is stout in her design with tremendous feet and legs. If you are looking to add power to your herd, this would be a good start. Not only does she display phenotypic power, she also hits a lot of boxes, including excellent performance, maternal strength and carcass merit.

Ranks in the top 10% for Milk, Udder and REA; top 15% for WW and Teat; top 20% for YW and CHB. Owned with Churchill Cattle Co.

You have to love the body type and conformation this female presents. A high-performance female that hits a lot of boxes on her EPD profile and posted impressive individual performance ratios of 111 for YW and 108 for WW. If you like them extra stout and extra deep, this is your kind of female.

Ranks in the top 3% for YW and CHB; top 4% for REA; top 5% for Teat; top 10% for WW, Udder and Marb.

This unique female is a direct daughter of the \$54,000 Express Ranches and Polzin Cattle Co. donor 90W. This female would be a maternal sister to the heifer Lauren May campaigned a few years ago that was highly successful, capturing several banners and then becoming a highly productive donor cow for Aubrey Cattle Co. Powerful genetic package!

Daughter sells as Lot 12.

NJW 79Z 33B Forward 252R was the high selling feature bull in the 2019 NJW Polled Hereford Spring Bull Sale. Forward was admired by many for his rugged design, big rib cage, added performance, power and muscle. He is so good on his feet and legs and strides with authority. His dam is the immortal 79Z that has positioned herself as one of if not the lead donor in the NJW program. This new herd sire will be used extensively in the Iron Lake Ranch program, and we look for him to push our program Forward. No other conventional semen will be offered for sale prior to November 2020.

CSS semen will be available December 1, 2019. Certificates \$65.

A direct descendant of 89T and Pure Gold! 4300 represents a perfect combination of time-tested genetics that have created some of the Hereford breed's most elite herd bulls and donor females. You have to admire the power and design 4300 displays, especially when put into motion. He has been a very consistent breeding bull, and we feel he still has a lot to contribute to any operation.

Owned with Curtis and Jackie Castle. His progeny and service also sell.

- Selling full interest and full possession.
