Welcome to our 32nd Annual Production Sale!

The cattle industry is experiencing the most exciting time in history with every segment of the industry making a profit. Consumer acceptance and preference for beef, a strong export market, breed and market alliances as well as genetic technology all create positive opportunities for Red Angus.

At Leland Red Angus we've enjoyed nearly 50 years of association with Red Angus cattle. The breed has evolved from obscurity to be among the top four in the nation. The acceptance of Red Angus and Red Angus-influenced cattle by commercial producers is greatly appreciated and allows us seedstock producers to devote the time and resources necessary to develop a genetically superior product.

Industry technology and genomic advancements through DNA testing grows daily. Although these measurements may not always insure the accuracies we prefer, at Leland Red Angus we embrace the process in a quest to expedite evaluations.

This year all of our sale bulls have been DNA tested using GeneSeek Genomic Profiler (GGP-LD) equivalent to 50K density. It also marks the 15th year we have utilized ultrasound to identify superior carcass and reproductive traits that enhance the market reputation of our customer's calves. Cattle with a reputation for quality consistently top the markets.

New measurements and programs available include the HerdBuilder and GridMaster indices which are intended to be a composite value of those EPD traits. As with all new programs, we recommend using them with discretion until they have been time tested.

The Tyson Choice+ grid program is available to identify and market premium, quality Red Angus cattle at time of harvest.

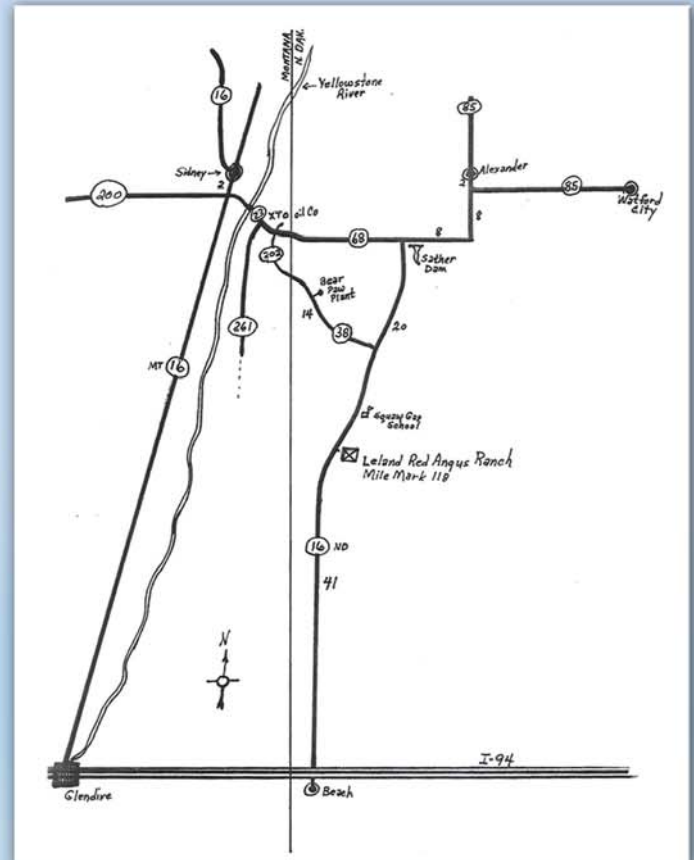

The Herd Navigator is another program that commercial producers can use to identify superior replacement heifers through DNA testing.

Our bull development program continues to use a high-roughage, low-mega cal ration to allow genetic growth and reproductive longevity.

We are again happy to have Koester Red Angus offer a strong group of 18-month-old, virgin bulls for those needing the age advantage. Likewise, we have a few F1 and F2 Red Angus-Simmental hybrids available.

As always, we are happy to assist in any special selection needs and guarantee confidentiality and lowest bid on any sight unseen purchases.

*Best wishes from all of us at
Leland Red Angus & Koester Red Angus*

DVAuction Broadcasting Real-time Auctions

We are pleased to offer the Leland Red Angus Sale broadcast "live" over the Internet through DVAuction Services.

First Time Users:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab.
- Complete "Registration" and "Applying to Bid" at Leland Red Angus.
- Please view the tutorial available on our home page for bidding instructions.
- Proxy bidding is available before sale day and during the auction.
- You will be assigned a buyer number once you purchase.

We will be contacting your bank to verify information.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home.

After the sale:

- Contact Leland Red Angus for delivery or pickup and payment arrangements.

Note: You must have high-speed internet access (DSL, T-1 or Broadband) to be able to bid during the sale. Any questions: Contact Tami with DVAuction at (308)-870-3661, tmcintosh@dvauction.com.

We recommend that you register by March 12, 2015, for on-line bidding. Every attempt will be made to complete your application even if it is on sale day.

GENERAL INFORMATION

FRIDAY, MARCH 13, 2015 Sale will begin at 1:00 PM MT.

LUNCH A free noon lunch will be served on sale day.

TRANSPORTATION Sidney is served by Gulfstream Int'l. Airlines. We will meet planes on request.

ACCOMMODATIONS Sidney: Sunrise Inn, (406)482-3826
Lone Tree Motor Inn, (406)433-4520
Park Plaza Motel, (406)433-1520
Richland Motor Inn, (406)433-6400
Microtel Hotel, (406)482-9011
Golden Prairie Inn, (406)433-4560
Holiday Inn Express, (406)433-3200

Beach: Buckboard Inn, (701)872-4794

Watford City: McKenzie Inn, (701)444-3980
or 1-800-842-3989
Roosevelt Inn, (701)842-3686
or 1-800-887-9170
The Watford Hotel, (701)842-2945

Wibaux: Beaver Creek Inn & Suites,
(406)796-2666

Video of sale bulls and heifers will be available to view on our web site www.lelandredangus.com or on DVAuction one week prior to the sale. All cattle will be available to view sale day and will sell via video display.

TELEPHONE BIDS Bids will be handled in strict confidence by any of the publication representatives or the Ranch. **Capabilities to bid by phone on sale day are limited. To do so, please make prior arrangements with a representative or to participate in person, call the ranch at 701-565-2347 to receive a conference line call-in number.** Bidders may also log on to DVAuction.com to bid online. Please see additional information on Page 1.

HEALTH All the bulls will have a general health and fertility examination by sale day and will be cleared for interstate transportation. Scrotal measurements will be available on sale day. All bulls are 50K DNA tested. All heifers are bangs vaccinated.

FERTILITY Yearling and 18-month-old bulls will have a breeding soundness evaluation and semen test. Yearling heifers are guaranteed open and breedable.

DELIVERY Free delivery of bulls to central points up to 700 miles. Balance at cost. Heifers in load lots or by arrangement. We will cooperate in any way to assist in deliveries of greater distance or by private arrangements and volume purchases.

New Auction Procedure

The cattle will be displayed in sale order for viewing sale day and remain in the pens for viewing during the entire sale.

No animals will be run through the sales ring, but instead every lot will sell via a pre-recorded video and displayed on large video screens in the sale barn. Videos may be viewed in early March at **LelandRedAngus.com**, **KoesterRedAngus.com** or **DVAuction.com**.

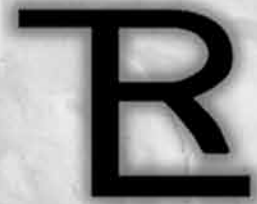

Bidding will be done as normal, with ring men to take your bid, or with the option for absentee bidding through DVAuction or by conference phone line.

As always, all sight-unseen purchases are guaranteed.

CARCASS ULTRASOUND

This is the 15th year we have used ultrasound technology to evaluate carcass characteristics. Weather permitting, we will have carcass ultrasound information available on all bulls just prior to the sale that can be accessed on our web site.

This information will be available for our customers upon request and more importantly it will be used for more meaningful genetic evaluations in the future as it contributes to carcass EPDs.

Red Angus Feeder Calf Certification Program Tag Voucher

Genetic, Age and Source verify your feeder calves free or at minimal cost to increase potential for premiums in the Red Angus Feeder Calf Certification Program (FCCP).

Leland and Koester Red Angus Ranches will help you with this easy process.

1. Call Red Angus Association of America (RAAA) at 1-940-387-3502 to answer a few questions to enroll.
2. Calves sired by Leland and Koester bulls qualify for the FCCP, and the RAAA will invoice the cost of the tags to us at the rate of one bag of 25 tags per bull purchased in this year's sale.
3. If additional tags are needed, they can be purchased by the bag for 99¢/tag but must be used only in calves that qualify for certification.
4. The FCCP tags are serial numbered at the bottom leaving space on both the front and back for additional ID numbers. This is the lowest-cost system in the industry to USDA genetic, age and source verify your cattle. FCCP-tagged cattle qualify for the Red Angus Choice+ grid.

INTEREST RETAINED

1/3 semen interest is retained and full possession selling on all bulls. This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he sells him. It does give Leland Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Leland Red Angus and at the purchaser's convenience. Leland Red Angus would assume full liability for the bull's welfare at the purchase value during transportation and collection unless it is a joint venture with the purchaser. In such a case, liability would be proportionately assumed.

SCROTAL CIRCUMFERENCE MEASUREMENTS and FERTILITY

All bulls will have a breeding soundness evaluation and semen test. Scrotal measurements are taken at 10½ to 11 months of age and adjusted to 365 days of age. Scrotal measurements and frame score will be available sale day.

Redemption is an AI sire at Genex that we selected to use as a low BW, calving ease bull. Although a smaller framed sire, he has exceptional thickness and phenotype to complement his strong HerdBuilder, GridMaster, CE, Stay and carcass traits. We bred to him again this year to produce heifer bulls. His sons avg. 77BW, 693WW and daughters are 76BW, 668WW(102).

Iron Ore E27 is an Australian bull that offers some unique outcross opportunities. He is extremely strong in carcass being in top 3% MB AND 8% REA, and poses great calving ease. We find his progeny to be long bodied and his daughters show excellent femininity. We plan to continue his use, especially on heifers. His sons avg. 80BW, 719WW(100) and daughters 83BW, 577WW(95).

Y50 sold in our 2012 sale to Randy Meyer in MO. We recognize him as one of Fire Brand T22's best sons and plan to continue his influence. Customers report that his sons continue to grow and maintain flesh and thickness as breeding yearlings. Notice his top breed rank for GridMaster, WW, YW, maternal and carcass traits. His dam has a 107 MPPA. His sons have an avg. of 93BW, 773WW(107) and daughters have 75BW, 656WW (99).

Long Load is well named because his pedigree and performance include a long list of merits. His dam is easy fleshing and has produced four high-selling herd bulls. She has a remarkably light 68-lb. BW average on 8 head, two being full brothers to Long Load. She has near perfect udder scores and always conceived first cycle. Perhaps that's why Long Load's bulls avg. 81BW, 729WW(100) and heifers avg. 68BW, 609WW(97).

Focus is a moderate-framed bull with exceptional thickness, masculinity and fleshing ability. He is a son of the powerful Right Direction 8242 and from a high MPPA, maternal pedigree. We unfortunately lost 61X to an injury after breeding season last year. The thick, complete phenotype of his easy-fleshing progeny is easy to appreciate. His bulls avg. 82BW, 695WW(97) with heifers avg. 74BW, 632WW(96). His dam has a 101.8 MPPA. **Semen available.**

Red Direction sires long, thick-patterned progeny with moderate frames. He ranks strong for calving ease, milk, heifer pregnancy, stayability and carcass value. We've used him successfully on first-calf heifers and his daughters in production are easy fleshing with correct foot and udder structure. Red Direction continues to exhibit easy-fleshing, nice muscle expression and a very mild, docile disposition. His dam has a 105.8 MPPA. Bulls avg. 95BW, 710WW(99). Heifers avg. 87BW, 673WW(101). Co-owned with 5L Red Angus, MT. **Semen available.**

We purchased this bull on the strength of his exceptional birth-to-yearling-weight spread for breeding heifers. He has had exceptional calving ease, ranking in the top 5% CED of the breed and is our strongest recommendation for breeding heifers. He is linebred to Beckton Lana on his sire side with the popular Nebula P707 as grandsire and Beckton Justice on the bottom with Epic on top and bottom. Notice his top 2% GridMaster and 5% HerdBuilder to complement his calving ease. His sons av. 80BW, 739WW(101) and his daughters av. 85BW, 681WW(102).

Messmer Revelation W016

An ET son of the popular Pandora M186 cow of Messmer's and Beckton Julian B571. This bull has had limited use due to injuries as a yearling. Although not a fool-proof calving-ease bull, we did use him exclusively on heifers as a 2-year-old with no significant problems. He is a full brother to the sire of Ref. Sire D, VGW Excell 223. His sons avg. 96BW, 744WW(102) and daughters 84BW, 689WW(102). Co-owned with Messmer Red Angus, ND. Deceased with a limited amount of semen available.

We purchased Wagonboss for his calving-ease traits, excellent female-making pedigree, great growth and excellent carcass potential. He scanned a 15.8" REA with very respectable cow making EPDs with top ranking HPG, CEM and Stay. His calves are born easy. His sons avg. 74WW, 563WW and his daughters avg. 77BW, 607WW. **Semen available.**

Rushmore is a purebred Simmental sire used to produce some hybrid progeny. As expected, his progeny have added growth exhibited in his hybrid sons in this sale that avg. 806 lbs. at weaning with a 98lb. BW, daughters avg. 80BW, 694WW(103).

WHAT ABOUT BIRTH WEIGHT and CALVING EASE?

University studies in Wyoming and data from Montana and Colorado lend credence to the following conclusions:

1. The birth weight itself influences calving ease by 65%.
2. The female has 60-70% influence on the birth weight of her calf.
3. The bull has 30-40% influence on the birth weight of his progeny.
4. Pelvic measurement and angle as well as the shape of the calf has 35-40% influence on calving ease.
5. Length of gestation greatly affects birth weight.

A fetus can gain over 1 pound per day in the last days of gestation.

6. Weather and temperature the last 30 days affect the length of gestation.
7. Size and maturity of the heifer influences calving ease.

At Leland Red Angus we would also include the following observations:

Most commercial producers do not take birth weights. Guessing is as inaccurate as driving with a broken speedometer - what's thought to be 55 mph may in fact be 65 or 70 mph, and what's thought to be 70-80 lbs. may actually be 80-90 lbs.

Birth weights are taken with two people on all of the calves born at Leland Red Angus to maximize accuracy. We believe in accurate measurements and accurate reporting. At no time are weights ever estimated.

Remember, everything is relevant. Increased growth, frame and performance will increase BW. A longer bodied calf will likely weigh more. If a calf is expected to have genetics for growth, it will display this prior to birth as well as after.

As a rule of thumb, it takes a calf weighing 85 lbs. at birth to finish at 1200-1250 lbs. A cow should easily give birth to a calf weighing 8% of her own body weight. Thus, a 1200 lb. cow should give birth to a 96 lb. calf with ease.

Calves weighing 80-90 lbs. have a better storm survival rate than 60-70 lb. calves because of body mass.

Continued selection for light birth weights will ultimately reduce the mature size and performance of your cattle.

As we research effects of BW at Leland Red Angus, we found that after the cold, prolonged winter of 1996, birth weights increased 6 lbs. over 1995 with no ration difference. In addition, 10% of our bulls were from identical matings, yet the birth weights averaged 15 lbs. heavier than their full brothers in 1995.

Lot 1, Leland Pro 0418X-4448

- *He is a big time performance bull with a top breed % for WW, YW, HPG, STAY, MARB, CW, REA, HB and GM.
- *His 10 yr. old dam has produced 6 bulls with an av. 86 BW, 690 WW(101), 1131 YW(101).
- *We didn't have to hunt for reasons to start the sale with this handsome dude!!
- *Bulls with this kind of style and performance with a balance of carcass and rancher value are hard to find.

Lot 2, Leland Merl 039-4656

- *This bull has very good depth and thickness and look at his 852 WW(112) without creep or supplement.
- *His dam has a 106.6 MPPA and excellent udder structure.
- *Three generations of maternal sires have been calving ease heifer bulls.
- *Growth, milk, and a total carcass package.

*His dam and sire both have an av. 81 BW and 806 WW(107) on their progeny.
 *Expect good growth, maternal and carcass value from this deep bodied rascal.

Leland Fire T22-129Z, brother to Lot 13

Lot 14, Leland Excell 223-4655

*A heavy weaning bull with a nice breed rank for many relevant traits.
 *Excell 223 does a nice job of duplicating himself with extra depth of rib and fleshing ability.
 *Look at all of his high breed ranks to complement his stout appearance.

Lot 16, Leland Right Gun 4665

- *His dam is a deep, broody, high performance cow that always maintains good condition.
- *Thick from end to end with extra length is what puts pounds on the scale.
- *Great udder structure dominates his pedigree for 3 generations.

Leland Merl 650, paternal brother of Lot 17

- *A cherry red bull that has excellent performance both before and after weaning.
- *Ranking high for milk, HPG, YG and REA, cowmen will like his muscle pattern and volume.
- *His pedigree is stacked with low to moderate BW and positive growth for three generations.

Leland Fire T22-450Z, maternal brother to dam of Lot 19

- *A high performance bull from a 2 yr. old heifer that has a nice tight udder and a 105 MPPA.
- *Appreciate the depth and volume of this bull with super breed rank for growth, milk, carcass traits and GM.
- *His MGD has a 73 BW av. on her progeny.

Sire of Lot 20, Leland Anvil Too 361, in high clover

- *His sire is a maternal brother to the \$30,000 Leland Odyssey Y290 who sold in 2012.
- *His top breed rank for WW, YW, Marb. CW and GM should indicate growth and quality carcass.
- *He likely will be stout like his daddy.

Confidence – in the program, the cattle and the genetics.

Koester Red Angus genetics cover all the profit-driving traits from conception to consumption – a live calf born unassisted, high growth, stayability of females and carcass traits that garner premiums! A fall bull from Koester Red Angus also has the age advantage to hold his flesh better than a yearling while siring just as many calves over his lifetime. We focus our genetics to produce calves that weigh up at weaning and yearling time and on the rail, plus give our customers confidence in structurally correct, maternal and easy-fleshing replacement females.

Confidence you can take to the bank!

The second set of fall-born bulls begin on page 42 with Lot 101.

Lot 27, Koester Sonofagun 349

- * Super well-balanced, very attractive bull with an exceptional muscle pattern.
- * Again, his dam and granddam are top producers with incredible dispositions.
- * His granddam, an own daughter of Glacier Chateau, has an exceptional calf at side at 13 years of age.
- * Being sired by Right Gun, he will sire top-gaining feeder calves with the added reassurance that his daughters will be phenomenal.
- * Great breed rank for high-dollar traits of HPG and CEM.
- * **Retaining a ½ semen interest**

*A stylish, smooth-made heifer bull whose mother had severe lump jaw which likely retarded his early growth.

*MGGD is the dam of Fire Power Y50.

*The females in his maternal pedigree have superb udder structure.

*Notice his high breed rank for maternal traits including HB index.

Livestock Marketeers Induct WEISHAAR and ROBINSON into Hall of Fame

South Dakota cattleman and auctioneer, Lynn Weishaar of Reva, S.D., was inducted into the Livestock Marketeers Hall of Fame. He is pictured above center with his brother, Col. Wayne Weishaar (left) and son Col. Seth Weishaar (right).

Since 1966, Livestock Marketeers Hall of Fame inductees have been honored annually during the National Western Stock Show (NWSS) in Denver, Colo.

This fraternal organization is made up of livestock fieldmen, auctioneers, sale managers and related livestock business leaders.

In 2014, Col. Lynn Weishaar of Reva, S.D., was inducted into the Livestock Marketeers Hall of Fame. Terry Robinson of Bismarck, N.D., was honored posthumously.

LELAND BULL DEVELOPMENT

The bulls are weaned in early October and placed on a roughage only ration until bunk broke. The following two months they are fed a low, 42 Mega-Cal ration of chopped hay, haybet silage, cracked corn, mineral supplement and Mix 30 vegetable fat. From mid December until weight off, they are increased to a 47 mega-cal ration by simply increasing the corn and Mix 30. This ration is significantly lower energy than the 50-55 mega cal ration most bulls are developed on. Our intent is to allow them to exhibit their potential for growth without allowing excessive fat deposits which are negative to fertility.

• • • • •

LELAND HEIFER DEVELOPMENT

The heifers are wintered on a roughage only ration to restrict the ADG to no more than 1.5lbs which is optimal for breeding performance.

Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

“What impact will each potential sire have on my operation's profitability?”

While the process of calculating an index is very complex, the resulting selection tool is very simple to implement.

HerdBuilder and GridMaster are expressed as differences in profitability per exposure.

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

GRIDMASTER

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

For more information, visit RedAngus.org.
