Real-time Auctions

Welcome to our 35th Annual Production Sale!

We sincerely appreciate the support and loyalty of our friends and customers.

Like most of the Northern Plains, we experienced another year of challenging, severe drought and are thankful our cattle have the ability to adapt.

Red Angus has been our breed of choice for 52 years, and we are encouraged by its growing popularity. This acceptance is directly related to the Red Angus breed's Core Policies being focused on the success of commercial producers. Our programs endorse that commitment with a dedication to help our customers capitalize on premium market opportunities and do it with cattle that excel at all levels of production.

As marketing evolves, we must provide product identity and source verification to satisfy health and safety concerns of both domestic and international export consumers. Our programs do that and encourage our customers to take advantage of our free FCCP tag offer per bull purchased to age, source and genetic verify.

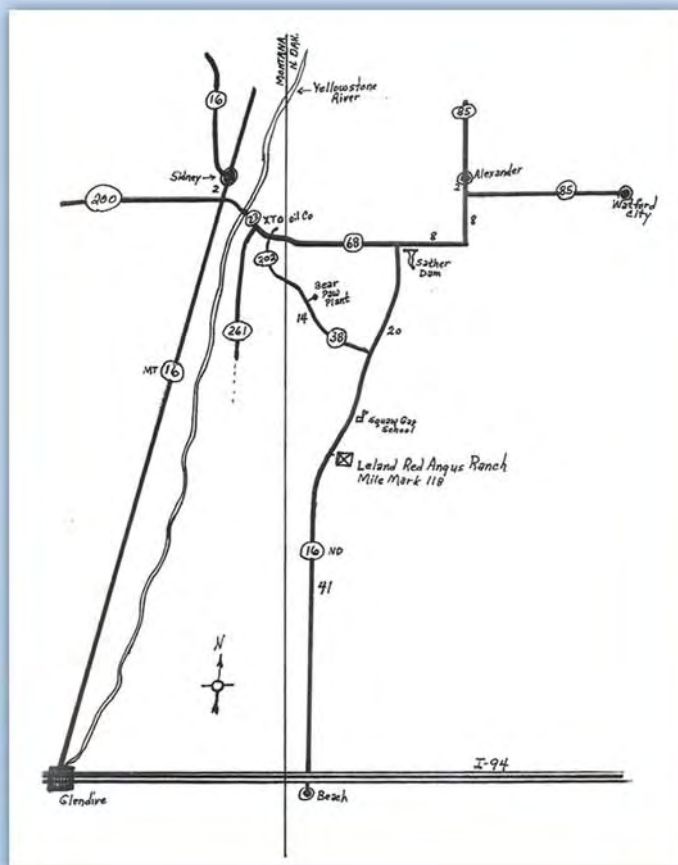

We conduct rigid selection practices to ensure the most accurate information available. These include traits not measured by the computer but by cowboy logic – traits such as foot and udder structure, disposition, fleshing ability and survivability. Our cattle are guaranteed breeders, with the bulls passing a breeding soundness and semen evaluation. Heifers are guaranteed open and ready to breed.

We do recommend insurance, particularly on yearling bulls when used in multiple breeding groups with older bulls.

As always, we're happy to assist in any specific needs you may have for your program and guarantee confidentiality as well as lowest bid on any sight-unseen purchases.

*Best wishes from all of us at
Leland Red Angus & Koester Red Angus*

DVAuction Broadcasting Real-time Auctions

We are pleased to offer the Leland Red Angus Sale broadcast "live" over the Internet through DVAuction Services.

First Time Users:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab.
- Complete "Registration" and "Applying to Bid" at Leland Red Angus.
- Please view the tutorial available on our home page for bidding instructions.
- Proxy bidding is available before sale day and during the auction.
- You will be assigned a buyer number once you purchase.

We will be contacting your bank to verify information.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home.

After the sale:

- Contact Leland Red Angus for delivery or pickup and payment arrangements.

Note: You must have high-speed internet access (DSL, T-1 or Broadband) to be able to bid during the sale. Any questions: Contact Tami with DVAuction at (308)-870-3661, tmcintosh@dvauction.com.

We recommend that you register by March 8, 2018, for on-line bidding. Every attempt will be made to complete your application, even if it is on sale day.

GENERAL INFORMATION

FRIDAY, MARCH 9, 2018

Sale will begin at 1 p.m. MST
Cattle may be viewed any time prior to sale day.

LUNCH

A free noon lunch will be served on sale day.

TRANSPORTATION

Sidney is served by Gulfstream International Airlines. We will meet planes on request. Dickinson and Williston also offer air service.

ACCOMMODATIONS

Sidney:

Sunrise Inn(406) 482-3826

VIDEOS OF SALE LOTS

Video of sale bulls and heifers will be available to view on our websites, www.lelandredangus.com and www.koesterredangus.com, or on DVAuction.com, one week prior to the sale. All cattle will be available to view sale day and will sell via video display.

TELEPHONE BIDS

Bids will be handled in strict confidence by any of the publication representatives or the ranch. Capabilities to bid by phone on sale day are limited. To do so, please make prior arrangements with a representative or to participate in person, call the ranch at 701-565-2347 to receive a conference line call-in number. Bidders may also log on to DVAuction.com to bid online. Please see additional information on page 1.

HEALTH

All the bulls will have a general health and fertility examination by sale day and will be cleared for interstate transportation. Scrotal measurements will be available on sale day. All bulls are 50K DNA tested. All heifers are Bangs vaccinated.

FERTILITY

Yearling and 18-month-old bulls will have a breeding soundness evaluation and semen test. Yearling heifers are guaranteed open and breedable.

GUARANTEE

The bulls and heifers are fully guaranteed. Concerns are handled on a case-by-case scenario. We do encourage you to purchase livestock insurance. For more information on these affordable options, see page 6. All cattle will be sold according to the terms and conditions recommended by the Red Angus Association of America.

DELIVERY

Free delivery of bulls to central points up to 700 miles. Balance at cost. Heifers in load lots or by arrangement. We will cooperate in any way to assist in deliveries of greater distance or by private arrangements and volume purchases.

ONLINE CATALOG & SORTABLE DATA

www.lelandredangus.com • www.koesterredangus.com

Auction Procedure

The cattle will be displayed in sale order for viewing sale day and remain in the pens for viewing during the entire sale.

No animals will be run through the sales ring, but instead every lot will sell via a pre-recorded video and displayed on large video screens in the sale barn. Videos may be viewed in early March at LelandRedAngus.com, KoesterRedAngus.com or DVAuction.com.

Bidding will be done as normal, with ring men to take your bid, or with the option for absentee bidding through DVAuction.com or by conference phone line. As always, all sight-unseen purchases are guaranteed.

Melvin and Luella Leland

Todd, Trey and Carla Leland

In Memory of Ace

"A true friend is a source of strength and he who has found such a friend has found a treasure."

The Koesters: Steve, Tracey, Shaye and Kacey

The Hovdes: Cedar, JJ, Tana, Wacey and Trista

Leo Long and his wife, Brenda Sjostrom, with their pup, Sage.

CARCASS ULTRASOUND

This is the 18th year we have used ultrasound technology to evaluate carcass characteristics. Weather permitting, we will have carcass ultrasound information available on all bulls just prior to the sale that can be accessed on our web site.

This information will be available for our customers upon request and more importantly it will be used for more meaningful genetic evaluations in the future as it contributes to carcass EPDs.

RED ANGUS AVERAGE EPDS AND RANGES

Average EPDs are printed at the bottom of each page and EPD breed ranks are included on the reference sires and each bull lot for easy comparison.

Red Angus Feeder Calf Certification Program Tag Voucher

Genetic, Age and Source verify your feeder calves free or at minimal cost to increase potential for premiums in the Red Angus Feeder Calf Certification Program (FCCP).

Leland and Koester Red Angus Ranches will help you with this easy process.

1. Call Red Angus Association of America (RAAA) at 1-940-387-3502 to answer a few questions to enroll.
2. Calves sired by Leland and Koester bulls qualify for the FCCP. Please tell the tag program coordinator you are a Leland and/or Koester customer and we will pay for one bag of 25 tags per bull purchased in this year's sale.
3. If additional tags are needed, they can be purchased by the bag for 99¢/tag but must be used only in calves that qualify for certification.
4. The FCCP tags are serial numbered at the bottom leaving space on both the front and back for additional ID numbers. This is the lowest-cost system in the industry to USDA genetic, age and source verify your cattle. FCCP-tagged cattle qualify for the Red Angus Choice+ and G.O. Red grids.

RETAINED INTEREST

One-half semen interest is retained and full possession selling on all bulls. This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he sells him. It does give Leland Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Leland Red Angus and at the purchaser's convenience. Leland Red Angus would assume full liability for the bull's welfare at the purchase value during transportation and collection unless it is a joint venture with the purchaser. In such a case, liability would be proportionately assumed.

SCROTAL CIRCUMFERENCE MEASUREMENTS and FERTILITY

All bulls will have a breeding soundness evaluation and semen test. Yearling bulls will have a full semen test prior to delivery. Scrotal measurements are taken at 10½ to 11 months of age and adjusted to 365 days of age. Scrotal measurements will be available sale day.

Top Dollar Angus Feeder Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its "branding" in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

Kenny Stauffer, general manager • 308-641-0429
kenny@topdollarangus.com • www.topdollarangus.com

Red Angus Guide to EPDs

HB HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

GM GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

CED Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

BW Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

WW Weaning Weight and **YW** Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious as to what the bull's other EPDs are.

Milk Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

ME Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

HPG Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

CEM Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

STAY Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

MARB .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

YG Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

CW Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

REA Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

FAT Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

Ranch Tested. Rancher Trusted.

Red Angus

940-387-3502 | redangus.org

BULL & HEIFER DEVELOPMENT

LELAND BULL DEVELOPMENT

The bulls are weaned in early October and placed on a roughage-only ration until bunk broke. The following two months they are fed a low, 42 mega-cal ration of chopped hay, haybet silage, cracked corn, mineral supplement and Mix 30 vegetable fat. From mid-December until weigh-off, they are increased to a 46 mega-cal ration by simply increasing the corn and Mix 30. This ration is significantly lower energy than the 50-55 mega-cal ration most bulls are developed on. Our intent is to allow them to exhibit their potential for growth without developing excessive fat deposits which are negative to fertility.

LELAND HEIFER DEVELOPMENT

The heifers are wintered on a roughage-only ration to restrict the ADG to no more than 1.5 lbs per day which is optimal for breeding performance.

KOESTER BULL DEVELOPMENT

The fall-born bulls are weaned in March and put on a high-roughage ration until we have green grass – hopefully in late May. The bulls summer on grass and protein blocks to encourage slow but steady growth for optimum longevity and fertility.

In September, we bring the bulls into the lot and put them on a 46 mega-cal ration consisting of chopped hay, alfalfa haylage, sorghum-sudan haylage, cracked corn and DDGs. The bulls stay on this ration until sale time.

We strive to promote steady growth, sound foot development and healthy, active potency so they are prolific breeders and maintain their body condition throughout breeding season.

BULL MORTALITY & ASD INFERTILITY INSURANCE

Purchases are the responsibility of the new owner. We strongly encourage you to insure your bulls. Coverage for mortality and accident, sickness and disease (ASD) infertility is affordable and a good business practice. Ask for specific details at the clerking desk or contact:

**Jerry L. Gliko • 406-860-3181
jlgliko@3rivers.net**

Option A – Mortality Only

Annual – 5.8% • 6 months – 3.5%
Claims paid at 100% of insured value

Option B – Mortality + Accident, Sickness Disease Infertility

Annual – 10.3% (11.3% in ND, SD & NE)
Claims paid at 100% of insured value, 80% for ASD loss

Option C – 6 months – 6.75% all states

Option D – Mortality + Accident, Sickness Disease Infertility

Annual – 12.3% (12.8% in ND, SD & NE)
Claims paid at 100% for either mortality loss or ASD loss

Option E – 6 months – 8.5% all states

*All claim payments are less salvage value, if any. Minimum policy premium is \$200.

GENOMICALLY ENHANCED EPDS

All sale bulls have been DNA profiled through GeneSeek's GGP-LD test.

This ensures our customers have the most accurate

information available to make their purchasing decisions. With the GGP-LD profile, the bulls' EPDs now have the same accuracy as they would with their first calf crop reported and registered through the Red Angus Association of America.

The GGP-LD test also verifies parentage so you are assured of the bloodlines you are buying.

We trust in the science behind the genomics and are committed to ensure more value in your purchases, increasing the profitability of your calf crop.

For those who would like to gain even more genetic knowledge of your cowherd, consider testing

your replacement heifers with RAAA's Red Navigator test, specifically designed for high-percentage Red Angus females.

- EPD percentile rankings for all traits
- Sire verification (if sire is DNA profiled)
- Follow-up from RAAA Marketing Team Member
- Potential qualification tool into Top Dollar Angus

Identify your top replacements before breeding!

- There is good reason the first three bulls in the sale are Merlin 018A sons; the cream always comes to the top!
- This deep, thick bull is strong in all traits and deserves the #1 spot in this sale.
- Calving ease, growth, fertility, carcass, phenotype and structure — a complete package.
- This bull is a definite stud prospect!
- We will want semen.

Lot 2, LELAND FRANKLY 018-7665

- It's no accident that this bull rose to the top. He's bred to be extra good, plus he is a ¾ brother to Lot 3.
- A big stout, growth bull from a high performance Fire Brand T22 daughter.
- Cowmen who sell by the pound need to look this bull over with his top 1% WW and YW rank in the breed.
- Expect him to produce top replacement females with a pedigree loaded with great udders.

Lot 3, LELAND FRANKLY 018-7559

- The third Merlin 018 bull in a row to start the sale and a ¾ brother to Lot 2.
- Merlin 018 on a T22 Firebrand daughter yields significant goodness in this deep ribbed, high volume bull.
- Here's growth, carcass and moderate BW in a maternal package.
- Notice his dams 103 MPPA and top udder structure score.

Lot 4, LELAND EXCELL 223-7621

- His dam is among our favorite cows with a 107 MPPA and solid scores.
- His maternal sister Y342 is a super cow that produced a ¾ brother to this bull, also sired by Excell 223, selling for \$25,000. Plus, she raised the popular herd bull, Rollin Deep 6421, that we sold semen packages on last year.
- High-performance paternal brothers have sold to Saunders Land & Livestock, WY, and Keith Ham, SD.

LELAND MAJORETTE 7178T, dam of Lot 22 as a 3-year-old.

- His 109 MPPA dam is a heavy producer whose progeny include a \$21,000 Leland Right Gun 292S son selling to Otto Red Angus, ND.
- Sired by Dictate, this bull should demand attention.
- He's a big volume bull with lots of rib shape and muscle expression.

3SCC DICTATE C74, sire of Lot 23 as a yearling.

- A fast gaining, growth bull with strong indexes and a big REA.
- Milk, fertility and stayability
- This bull is a stud that really follows the deep, thick phenotype of his sire.

Lot 24, LELAND STAKEHOLDER 5457-7483

- Born unassisted from a 111MPPA, 2-year-old heifer who had a 115WR and 113YR herself.
- MGD produced a Dictate C74 heifer with 114WR this year.
- Top 1% of the breed for weaning, yearling, CW and REA!
- Plus his 2-year-old dam bred back for an early 2018 bull calf.
- He is a wide-based, thick-topped bull with extra depth. Don't overlook him; He is good!

The Koesters:
 Steve, Tracey, Shaye & Kacey

Our vision for the future . . .

We look beyond the current season and market, seeking fresh genetics that will add value to our customers' calves and cowherd for generations into the future. We know – and accept the responsibility – that our decisions today impact the livelihood of the cattlemen that trust our genetics.

The second set
 of fall-born bulls
 begins on page 50
 with Lot 113.

Rooted in heritage and stewardship while envisioning tomorrow.

Our Fall-Calving Program

We designed our fall-calving program in order to offer our customers the option of bulls with an age advantage. Those few extra months of maturity don't necessarily mean the bulls will cover more cows, but they will maintain their body condition and come in after breeding season in good rig.

We summer the fall bulls on pasture with protein blocks, diligently culling for performance, foot structure and disposition.

We calve the cows and first-calf heifers in the pasture starting in mid-August. Each calf is tagged and weighed shortly after birth, and we score the cows on udder and foot structure as well as disposition. We synchronize and AI in mid-November, and pull bulls on New Year's Day.

The winter of 2016-2017 posed extra challenges for our fall herd. The first blizzard struck as our cows were entering the second cycle of their breeding season, and two more blizzards followed shortly after. They persevered, bred up and raised the bulls that are offered in this year's sale.

3SCC Domain A163 and one of his ladies during this winter's breeding season.

This 2-year-old Domain daughter calved in the pasture a mile from headquarters.

Jacobson Razzberry 8014, dam of Lot 28 and Koester Chivas 005, pictured at 9 years of age.

Koester Ms Yield 116, maternal sister to Lot 34 and dam of Koester Unmistakeabull 330.

Lot 28, KOESTER DIMENSION 646

- Maternal brother to the \$28,000 Koester Chivas 005 bull
- Dam is perfect footed and uddered, moderate and easy fleshing
- 646 is also excellent footed and exhibiting the same easy-doing phenotype
- Top HerdBuilder prospect – Well-balanced traits across his suite of EPDs, excelling in CED, BW, HPG, CEM, STAY, REA
- Excellent low-birth history on dam. He also has 104 and 105 ultrasound ratios for IMF and REA respectively.

- Moderate, clean-made, easy-doing Domain son
- 619 will sire high-quality feeders and excellent replacements
- Dam has a 104.4 MPPA
- 619 ratioed 111 weaning and 103 yearling

Kacey is a junior at North Dakota State University majoring in Animal Science. She served as assistant manager for the Little International show in February and competes on the collegiate livestock judging team.

Shaye competed on the North Dakota FFA Meats Judging Team in Denver at the Western National Roundup, winning overall high point honors and their team secured the No. 1 spot in the contest. She will graduate in May.

The second set of fall-born bulls begins on page 50.

LELAND MARKSMAN 6629, paternal brother to Lot 52 who sold to Genex and Koester Red Angus in 2017 for \$25,000.

- This moderate BW bull has exceptional weaning and yearling growth, yet has strong carcass and maternal data.
- His 109 MPPA dam has excellent udder scores; his MGD produced \$13,000 bull selling to the Leiseth Ranch, ND, in 2015.
- Bull buyers will find this extra, long bodied bull with nice depth of rib and shape.

LELAND MERL 039-4752, dam of Lot 67.

- One of the best carcass bulls in the sale, ranking high for both REA and Marbling.
- Moderate BW with high indexes, good maternal value and udder quality.
- His dam suffered through the summer with a lump jaw which likely affected his weaning ratio.
- His sire sold to Huber's EY Red Angus in 2016.

- A nice growth bull that ranks high for both indexes, fertility, stayability and carcass values. **GGPLD**
- His MGD has been a good producer of functional females.

WS BEEF MAKER R13, MGS of Lot 86

- His MGD produced a Destination 6215 son that did a great job for Randy Meyer, MO.
- The Jacobson Ranch, ND, purchased a very complete Red Direction 6046 maternal brother.
- Other Maternal brothers have sold to Wagon Hound Ranches, WY, & L7 Ponderosa Pine, MT.
- This top 1% REA bull is a breed leader for muscling and meat yield as well as strong in WW & YW performance.

LELAND EXCELL 223-6676, paternal brother to Lot 87

- This bull was orphaned mid-summer and wasn't detected until weaning, so he survived on dry pasture.
- His dam had high udder scores and a 78 lb. BW Av on seven head, including a bull selling to TF Livestock, WY, in 2014 for \$14,000.
- Notice his high indexes as well as his maternal and carcass ranking. **GGPLD**

- His 104 MPPA dam was lame in the hip all spring and summer, so his performance may have been impacted. 
- MGD has a consistent 74lb BW and 100 WR on nine calves including a bull selling for \$17,500 in 2015.

Lot 141, LELAND FRANKLY 018-7572

- A moderate cow bull who ranks in the top 25% or better in the breed for 75% of his traits.
- Merlin, Right Gun and MGD Julia 8370 are all popular in our herd.

LELAND LONG LOAD 122-4576, dam of Lot 142.

- A maternal sister to this bull's dam produced the high-performing Lot 56 this year.
- His maternal pedigree is loaded with top udder scores.

- His 9-year-old dam has great foot and udder structure and has produced 6 replacement heifers in a row.
- Jerry Zimmerman, ND, purchased a maternal brother by Leland Anvil Too 361Z with 78 BW, 101 WR, 109 YR last year.

LELAND NORSEMAN 9043W, dam of Lot 178.

- This calving ease bull deserves a look because he does much more than calve easy.
- Top 5% milk and HPG and super carcass with a top 1% REA.
- Top selling maternal brothers have sold to Northern Lites Red Angus, MT, Saunders Land & Livestock, WY, Dana Schoenhard, ND.
- His beautiful dam is very functional and complete.

- Raised by a foster dam when his mother died unexpectedly when he was 2 weeks old.
- He should be a heifer bull with solid maternal traits.
- He has a moderate frame which contributes to his calving ease potential.

Important Events BEYOND the RANCH

The Leland Red Angus/High Plains Vet Clinic team was the Neil Hermanson Ranch Rodeo Champions. (L to R): Ned Hermanson, JJ Hovde, Jarvis Klempel, Gary Schieber, Carla, Todd & Trey Leland.

Todd roping his way to the Top Hand award at the Neil Hermanson Ranch Rodeo.

Peppy was also awarded Top Horse honors at the Big Sky Ranch Rodeo Finals.

Trey practicing his wrestling moves.

Carla & Otta at NWBRA Finals

Todd heading one on Sug at the New Town Wrangler Roping

Melvin and Luella celebrated their 50th Anniversary Oct. 14, 2017. We celebrated a little early after last year's sale – but the cake didn't cooperate.

Tana keeps everything and everyone going the right direction with rodeo, sports, 4-H, FFA and everything in between.

Steve was re-elected as Area 5 Director for the Red Angus Association of America.

Tracey was named Farm & Ranch Guide's Country Woman of the Year.

North Dakota Red Angus Association

Leland Red Angus donated the raffle heifer, Leland Return 7532, in December for the North Dakota Red Angus Association. She was sired by 5L Top Return 1430-6884B.

Todd completed his service to the NDRAA as past president, outgoing president, friend and customer. Bryan Huber presented him with a leather briefcase as a token of appreciation for his leadership on the NDRAA board.

The NDRAA pulled the name of Seeger and Rusch Red Angus of New Salem in the annual donation heifer raffle. (L to R) Brandon and Dixie Rusch and Sherill Seeger were present to receive the heifer from Todd Leland.

RED RIGHT. NOW.

The Red Angus female is the rancher favorite for replacements that deliver real profitability.

An independent university study compared six years of Superior Livestock Auction data, revealing Red Angus-sired heifers commanded from \$5 to \$9/cwt. more than females of all other breed types.

Learn more about the value of Red Angus-sired replacement females at
redangus.org.

Ranch Tested. Rancher Trusted.

Red Angus

HEIFERS

These heifers were wintered on a high roughage ration. They are penned in comparable groups but will sell individually.

All heifers will sell as registered unless stated otherwise or announced from the block.

They are all bangs vaccinated and guaranteed open.

Pro-Cow

Capturing the Value in Red Angus-Influenced Replacement Females

The Hovde Kids

Trista and her steer, Arnie, who she purchased from longtime customers Ron & Sharon Whited.

Wacey and his steer, Jim Tom, who was also purchased from Whiteds.

Cedar was a big help watching Trey this summer. (Her 4-H bees wouldn't hold still for a picture.)

Red Angus Association of America Core Tenets

Historical Perspective

"The decision to form an association was based on the feeling among the breeders that there should be a herd book for these animals in order to perpetuate Red Angus as a useful breed of cattle. The members also felt that there was an opportunity with a relatively small group such as this to incorporate into the structure of the association itself, rules and standards for the selection and registration which would accelerate the improvement of the breed by taking advantage of some of the more recent advances in animal breeding research.

In general then, the policy of the [Red Angus] Association is to discourage the more artificial practices in purebred cattle production, and to place its faith instead in objective test, consisting for the most part of comparisons within herds of factors of known economic importance and known heritability. By making it an integral part of the registration system, the Red Angus breeders feel that even faster progress can be made toward the ultimate goal of more efficient beef production."

– Waldo Forbes, founding member and first President, August 1954

1) It is the RAAA's primary role to create an environment that promotes the financial stability of its members.

2) The RAAA supports the development and use of membership-driven strategic planning.

3) The RAAA creates marketing tools for commercial bull customers, creating more demand for Red Angus and Red Angus-influence genetics.

4) The RAAA is committed to objectively describing and recording cattle, utilizing economically sound scientific principles with the least number of prediction values. Furthermore, the RAAA encourages good stockmanship and sound visual appraisal in seedstock selection.

5) Since its establishment the RAAA has understood and accepted economic value of heterosis through planned crossbreeding.

6) The RAAA does not take a role in the marketing of an individual member's cattle therefore the *ARA Magazine* editorial content has a commercial and technical focus. Individual seedstock supplier articles are avoided.

7) It is the duty of the RAAA to proactively communicate with its membership therefore proxy voting is not allowed. This policy was established in the Constitution and Bylaws of the Association at its inception to ensure that voting members are current on all pertinent information.
