Welcome to the 2014 edition of Mohican West. We are again delighted to have Fred and Doreen McMurry and Mark and Della Ehlke and their families join us in this outstanding offering of Hereford cattle.

Again this year the cattle are young and just entering their prime productive years. The EPD's just continue to get better. The pedigrees are as popular and predictable as any offered anywhere.

Several sale features this year....Lot 1, TH 223 71I Dominette 404X ET. Her first calf, an ET bull calf, sold to Dayle Devening, Tru-La-Da Farms, in Fieldon IL. for \$15,000 in our 2013 sale. She is a full sister to the famed TH 223 71I Victor 755T. Another Lot that is exciting is Lot 40, SR TDP Joint Venture 2206 ET, a full brother to the \$62,500 NJW 78P Twenty Twelve 190Z that sold in the Ned and Jan Ward sale to Southern Cattle Company. His dam is the popular \$90,00 donor, NJW BW Ladysport Dew 78P ET.

Each year we offer one of our proven herd sires. This year we chose Boyd Powerhouse 2028, a bull that we have used extensively in our program. We are offering one-half interest and full possession. He is a stout young bull that will make a very positive contribution to any program.

We work hard each year to continue to bring you the best that Mohican has to offer. This year is no exception. We thank all of the buyers from our past sales for their confidence and support of our program.

We welcome any questions you might have; just give us a call. We will be looking forward to seeing you sale day.

- Terms available sale day. Donor permit.
- Sells open, ready to flush. She consistently flushes well. She is a full sister to the famed herd sire, TH 223 71I Victor 755T. As near an ideal cow as one can find.
- We are retaining three daughters. Her two year old is one of our very best. Her ET bull calf sold for \$15,000 in our 2013 sale.
- This is a rare investment opportunity.

 • This U832 daughter is from the top of our producing herd. Her first calf, was a polled son of UPS 3027 and was selected by the Carl Israel family of Iowa. This young herd sire has developed very well and we were pleased to be able to use him via AI this year. The 1132 three year old milks very well, as her calf demonstrates. Udder quality on the 1132 cow is one target of our program. Safe by ultrasound to pasture exposure to NJW 51U 156T BRICK 110A, due on or after March 6.

• An important goal of the McMurry Cattle operation is production of deep set, added dimension beef cattle of quality. We are thrilled to acquire pasture service to a bull destined to enhance these qualities in our program. Our young herd sire, RVP STAR 45S ZACK 27Z, is out of a two year old River Valley female of great quality. His BW was low. There is a lot of substance within the moderate stature of this bull. He has continued to grow, develop and maintain remarkable condition while in the breeding pasture. His disposition is excellent. He is sound and free moving. His daughters selling are the first we've offered for sale.

• Our selection from the 2014 NJW Bull sale. Ned and Jan described him as a well made bull with style and thickness. We are super pleased with his growth and condition after running out all summer.

Lots 50-74

We are blessed to once again be consignors to this premier event. Thank you, Conard, Nancy and Terry for allowing our participation. Dale selected this group of heifers out of our entire set of replacements. All but a few partnership cattle were made available to him for selection. He picked these 18 out of an offering of 60 head. The heifers being offered here represent the very core of our program. Rather than write individual footnotes, we would like to just let these heifers tell their own "stories".

Terms: Cash or check unless prior arrangements are made with the owners.

Registration Certificates: Certificates of registration are all in order and will be transferred to the new owner according to instructions given the clerks.

AI Certificates: Any female that is mated to an AI sire that is not owned by the seller will not have an AI certificate furnished.

Genetic Defects: All cattle selling are guaranteed free of all known genetic defects recognized by the American Hereford Association as of September 25, 2014.

Insurance: Insurance will be available through Harding and Harding. Please see the sale cashier for your insurance needs.

EPD'S: EPDs are updated regularly by the AHA, so we cannot guarantee the EPDs listed in the catalog. The EPDs are from the Fall 2014 Evaluation of the American Hereford Association.

Health: Proper health papers will be available.

Lunch: Lunch will be available sale day.

Trucking: Trucking will be at cost.

Bids: The auctioneer in charge will have final say in regard to all final bids. We hope everyone can attend, but those who cannot may mail or call bids to either of the sale managers or any of the representatives.

Catalog: Statements made from the auction box take precedence over printed material in this catalog.
