Welcome Cattlemen:

Welcome to our 2017 bull sale at Moke Angus. We have been in the Angus business using A.I. from some of the top performance sires for the last 18 years. We enjoy working in the cattle business as a family. Together we are constantly improving our cows through sire selection that will have an end result of well-balanced cattle that will perform in the feedlot and materially. We are very proud of our cows. They have great disposition, good uddered, and they maintain themselves in the winter and raise a good calf or they are gone.

If we can be of any assistance in your selection process regarding our sale offering feel free to stop in to visit us or give us a call. All up-to-date data including scrotal measurements, performance information, and ultrasound information will be available sale day.

Our sale will be at the farm so come early to view the bulls and have a hot lunch. The bulls do not run through the sale ring. We will have videos of each bull and will display the video during the auction. This is easier on the bulls and saves you time at the auction. We hope to see you there!

Be sure to check out videos of the bulls by going to <http://www.thelivestocklink.com/moke/2017>

- This bull has been one of our favorites all year long. He really has it all with a light calving EPD with the performance on the back end. The mother of this bull has been doing it for years. She has been in our herd for 12 years and we have a lot of daughters from her in our herd. She is one of those cows that is calm and does it every year and it shows up in the calves. You will find this bull pretty easily on sale day.
