THE
NED & JAN WARD QUALITY PROGRAM

Ned, Jan & Bell Ward 307/672-3248
247A Decker Road • Sheridan, WY 82801
njwardherefords@gmail.com

Welcome to NJW!

Our program and these bulls are the result of a passion and commitment to raising the most predictable, highest quality Herefords possible. We have developed these genetics by using bloodlines that fit our environment, selecting for balanced traits and culling! Buying bulls is a huge investment with the genetics you choose today having tremendous long-term impact on your herd. Buying the RIGHT bull can transform your calves and their value in just one generation as well as affect your cowherd for the next 10 years. Again this year, in an attempt to offer you the most predictable, accurate EPDs as possible, we Genetically Enhanced each bull's EPDs (as noted by the GE-EPD symbol next to each pedigree). We believe the bulls in this sale are a forward moving set of "Genetic Tools" both to look at and on paper. The average EPDs of NJW Yearling Bulls are...

BW	WW	YW	MILK	M&G	SC	Udder	Teat	REA	MB	$CHB
1.6	**54**	**84**	**30**	**58**	**1.0**	**1.38**	**1.42**	**.49**	**.16**	**30**
While the Hereford Breed averages are:										
3.1	**50**	**81**	**23**	**48**	**0.9**	**1.18**	**1.19**	**.34**	**.10**	**28**

These bulls were raised on Wyoming Range and their Mother's Milk only ...no creep! They posted an Actual avg. BW 83 lbs. (scale weighed). We develop our bulls to improve longevity and winter them here at the ranch on a limited amount of 15% grower pellet and free choice grass hay.

Our goal is to produce easy doing, big bodied, thick and sound cattle with added performance that still maintain enough calving ease and high maternal traits. Our herd is very maternal and we demand our cows have good udders, are great mothers and calves be vigorous at birth! We expect our two yr. olds to raise bull calves to sell in the sale.

We make a special effort to get pictures of all sale bull dams, but keep in mind that most pictures were taken at Summer's end, a few days prior to weaning.

If you have questions or can not be here for the sale, Ned and I are happy to help with selecting bulls to fit your program. Our bulls and cowherd are here at the Ranch and availalbe to look at anytime. If you are coming in on the 27th, we will have supper (at dark) here at the Ranch and would love to have you join us!

— Ned, Jan, Bell Ward

GENERAL INFORMATION

Sale Location:

Sale located at Ward Ranch ...2.5 miles North of Sheridan, WY ...off I-90 Exit 20, turn right on Hwy. 338 for 2.5 miles to the ranch on the right.

Airports:

Billings, MT ...125 miles from the ranch; Sheridan, WY for private planes and served by Charter Alliance Group, go to: **FlySheridan.com**.

Motels: Sheridan, WY ...ask for NJW Bull Sale Rate

Fairfield • 307-675-1280 ($79 NJW rate)
Hampton • 307-673-2734
Historic Sheridan Inn • 307-674-2178
Best Western Sheridan Center • 307/674-7421

Terms: Cash or check. Each animal to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids. All cattle are to be paid for by the purchaser during or immediately after the sale and will not be released until settlement has been made. Each animal becomes the property of the buyer immediately after the animal is sold. Any death or injury thereafter falls upon the buyer. ***Announcements concerning the cattle at the sale ring by the owners or the auctioneer will take precedence over statements in this catalog.*** All persons attending the sale do so at their own risk. Neither the owners, nor any person associated with the sale, assumes any liability, legal or otherwise.

Guarantee: All animals in the sale are guaranteed breeders. If any adjustment is required, it will be made with a replacement animal of equal value to the animal in question or credit will be given on the purchase of another animal.

Health: All sale bulls have passed a Breeding Soundness Exam. They have been BVD ear notched and tested negative. ***Health certificates will be furnished for shipment anywhere in the U.S. Since each State has different regulations on bulls coming from Wyoming, not all bulls will be able to get a Health Permit to go to every State on sale day!***

All sale bulls have received a pre-breeding booster of Vira Shield 6 VL5 HB, a booster of our Autogenous Pinkeye / Footrot Vaccine as well as poured with Dectomax.

All bulls have been DNA tested through the American Hereford Association and are free of all known defects recognized by the AHA as of March 28, 2018 and have had parentage verified and been GE-EPD tested.

Delivery: Free delivery within 400 miles. Receive a $50 discount per bull that you haul home on sale day.

Take Note:

- Each bull's Lot # is same as his ID #.
- ***EPDs are current as of March 2, 2018.***
- All sale bull photos are untouched.
- In case of inclement weather, please call or refer to website for any sale changes.

AHA GE·EPD

All cattle listed in our sale catalog have been GE-EPD tested and parentage verified.

The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

AHA GE·EPD Each animal tested is recognized with the AHA GE-EPD logo.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

- One of the most impressive bulls to walk our pastures! It is rare for us to sell a proven sire of this caliber, but with so much of the same bloodline, we're limited to the number of cows he can have.
- 27A is a big volume beef bull with loads of muscle and balance. He is super sound with good bone and a big foot as well as easy doing and solid marked with extra pigment. We love his ability to consistently breed like himself! His dam is a "never miss" cow that adds power and high maternal to all her progeny.

- You couldn't put one together much better than this guy! Made much like his sire 27A, he has a huge stifle that holds that back leg perfectly. He is marked perfectly with a deep eye set, is heavily muscled and deep in the twist. We have admired him since birth and enjoyed watching him develop. You won't find a better udder than his dam has. Purchased in our 2017 sale by Pablo Herrera and collected for his use in Argentina.

- The first of one of the best set of flush brothers we have ever raised. We held off using their sire 028X, but after seeing beautiful females in production and solid sons, we decided to use him on some of our top homozygous polled cows. The results have been amazing! "Big Rig" is very long bodied, smooth shouldered, wide topped, big hipped and eye appealing. He will be a powerful breeding tool!
- Top 1% for BW/ WW/ YW/ MILK/ M&G; Top 5% for CE/ Teat/ REA/ MARB; Top 15% for Udder.

- ***A 2018 NJW standout!*** "Long Haul" and his brothers are the ***most complete "Genetic Packages"*** we have ever raised from both a genetic and phenotypic standpoint! The best part is that their genetics are ***proven*** ...Trust, 028X, 3027, Whitmore, 1353, Rita 79Z, 91H and 11B! Dam 11B, a Whitmore out of 79Z (the dam of Endure, Heavy Duty, Mighty and Wow), is a big, sound and powerful brood cow and is what sets these 028X sons apart from others. Long Haul combines eye appeal with performance, low birth, maternal excellance and strong carcass traits. I'm sure we have never raised a bull that offers this number spread. He is as long as they come with a strong, big top and is balanced and deep from end to end with a big hip and stifle. Plus, you can't mark one any better with excellent eye set and pigment. We'll use him heavily here on cows and heifers!

- **BW 90 / Adj. WW 731 / Adj. YW 1112**
- A ***BIG VOLUME*** beef bull with loads of muscle and balance. Super sound with good bone and a big foot as well as easy doing and solid marked with extra pigment.
- ***The 10Y son we've been waiting for!*** Calves may be one of the best and most consistent sire groups we have seen.
- His dam is a "never miss" cow thaty adds power and high maternal to all her progeny. Four full sisters to 27A are in our herd with three of them being flushed. Full brothers have been high sellers in our bull sales, going to purebred breeders.
- Avg. BW on three NJW calf crops 82 lbs.
- ***Semen: $25/Straw ...$75/Certificate***

POLLED HEREFORDS
Calves Raised on Good Cows and Wyoming Range (no creep)!

HEREFORDS FOR TODAY'S CATTLEMEN

It is our firm belief, when Breeding Cattle, the "Balanced Trait Approach" is the right one! We want as much performance as we can get while maintaining that "Critical Balance" of calving ease, cowherd and feedlot efficiency and proven carcass value. All the while, never forgetting the "Unmeasured Traits" of structural soundness, udder quality and attachment, mothering ability, strong vigor at birth, disposition, fertility and longevity.
