## "HELLO" FROM THE PELTONS

Hello and welcome to this year's Cattlemen's Choice Bull Sale.

We extend a big thank you to all of our customers for making this sale a success. We are thankful that you have chosen our genetics to help with the success of your program. We continue to make improvements to our program so you can see the benefits at your end.

The great cattle market that we are currently enjoying gives all of us a reason to be thankful. As purebred seed stock producers, it also gives reason to continue to be very critical of our herd to ensure that we are making decisions that benefit our customers. This offering is a result of the hard work and dedication that takes us in that direction. As we continue to make improvements to the sale, this year we made the decision to broadcast our sale on DV Auction. We are looking forward to this new way of sharing our sale offering.

We are excited for our offering this year. This is a set of growthy performance bulls that are very correct. The main new sire group for this year is by CRR Helton 980. We are extremely pleased with the Helton calves. The Helton bulls, along with the other bulls, can be viewed at the Ranch or on our website: [Herefordbullsforsale.com](http://Herefordbullsforsale.com).

Once again we'd like to thank the Wasem family and Shawn Reiss for their partnership in this sale.

We look forward to seeing you February 7th!

**Thanks**

Craig Pelton

## WELCOME FROM THE WASEMS

Welcome the 4th annual Cattlemen's Choice Bull Sale. We are honored to be a part of the sale with Pelton Polled Herefords as well as Shawn Reiss Angus. Wow what a year to be in the cattle industry! The calves looked great this fall and the prices were outstanding.

We are proud of our offering of bulls for you this year. They are pretty even when you look at them across the pen. You may notice some differences on paper. The Red Angus Association of America came out with two new EPD's this year. Implementation of the HerdBuilder index will assist producers in building profitable herds. Use the HerdBuilder Index to increase the sustainability of the cowherd and ultimately the operation. While Red Angus has traditionally been known as a superior maternal breed, those who have retained ownership in Red Angus calves know of their potential to excel in the feedyard and ultimately hang a premium carcass. Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail. Our WSM Redemption bulls are standouts in both of these categories. You will not only be impressed by their numbers, but in the pen as well. We have continued to use BHR Banker 142 in our program; his offspring continue to perform well in our program and their disposition is second to none! Our WSM Money Maker calves have been standouts since day one. If you are looking for calves with growth our WSM Heavy Metal calves have gained 4.5-5.3 lbs per day on feed from weaning to the end of December. There was a lot of interest in the SimAngus bull we had last year, we didn't have any bulls this year, but we do however have a very nice bunch of SimAngus heifers available.

If you have any questions about our cattle, please give us a call or stop out anytime. Thank you for your continued support!

## HELLO FROM THE REISS ANGUS RANCH

On behalf of Reiss Angus Ranch I would like to invite you to the 2015 Cattlemen's Choice Bull Sale.

This year's offering will include more Angus Bulls than have been offered in past years. I feel this is a set of bulls that will work in our harsh environment.

Here at Reiss Angus our Emphasis is based on strong maternal traits, fertility and structurally sound cattle ( not Numbers or the latest Fad ) Our cattle are raised in a commercial cattleman's environment (meaning no creep feed or special treatment).

The bulls are being wintered on a high roughage ration of grass alfalfa mixed hay corn silage and no more than 5 pounds of grain. They were given Pyrmid 5 plus presponce and 8 way with pinkeye and have been boosted. They will be semen tested late March and delivered in April and May. Wintering is free and delivery is free up to 300 miles, beyond that we will work with you.

If you have any questions feel free to call me at 701-590-3422 or stop by and take a look around. Hope to see or hear from you on sale day.
