Welcome to our 62nd Annual bull And Female sale

The sale cattle have done remarkably well in this roller coaster year of ups and downs in weather, politics and markets. One only needs to look around and see that everyone is dealing with the same elements. With the large number of heifers and cows that have gone to slaughter this past year, markets should soon be turning stronger.

We are sad to report that Harlan (84) passed away a couple of days after Christmas from a long illness. As a 4H member in 1946, he owned one of the first registered Hereford heifers that started the Rausch Herefords cowherd. We are excited to announce that Shannon and Sue's son Andy and his new bride, Maggie, are joining the operation full time. Their expertise will complement the operation.

As more and more marketing efforts are put in place, demand for Hereford and Baldie beef has been increasing. Demand for Hereford beef at Greater Omaha Beef packing plant increased 30% this past year. We are perpetual optimists about the future of the Hereford breed and look forward to visiting with you about the results you are getting from using our genetics. Feel free to ask any questions of any of the Rausch crew at any time.

Profit Indexes Pay for the Ranch

- Individual EPDs are the best tool to improve an individual trait.
- Profit Indexes combine weighted EPD traits to predict Profit.
- Poultry, Swine and Dairy industries have used Profit indexes for decades.
 - The Beef industry started using Profit Indexes this decade.
 - Profit Indexes are the best tool in selecting breeding stock.
 - Use CEZ when selecting a Heifer Bull!!
- Antagonist traits can cause problems when selecting for one trait at a time.

ODE TO ONE OF OUR Founders

As a 4H member in 1946, Harlan owned one of the first Register Heifers that started the Rausch cow herd. For 73 years he was one of the most inspiring cheerleaders of our breeding program. His greatest joys in life were visiting with the friends he made and the time he would spend in the pastures. His enjoyment was watching the young calf crop grow and admiring his favorite cows.

The last several years he valued his trips through the pastures with his brother Jerry. After putting out salt and mineral with cows around them, Jerry would say it was difficult getting him back into the pasture vehicle so they could move on to check the next pasture.

When grandkids from the cities visited, he enjoyed taking them out to see cows and baby calves. It was a highlight of the year for his grandchildren to go along with Grandpa.

Next to his grandchildren, Harlan especially enjoyed visiting with neighbors and fellow cattlemen. He always looked forward to the next sale and cattlemen's event so that he could reconnect with customers and friends.
