A 2600 pound son of 955 and 921, a 157K daughter who is outstanding in looks and progeny, producing 4 Denver carload sons. We used 34Z two seasons and sold him to Greg Fick. 34Z's females will be the kind you'll want to keep.
34Z sale offering: 6 big Bulls.

Welcome Cattlemen and Women!

We have two new Herd Sires represented in this year's sale - 5184C and 319C. Our 5184C Sire is from Coopers. We had strong bidding competition to get a hold of him. A few minutes later our runner-up bidder partnered with us: Vernie and Shiloh Doehring of Noack Herefords in Texas.

Our 319C Sire comes to us from our friends the Doenz's in Canada. After working with 3 generations of their family, we had confidence when Nelson said he had a bull we would like. He was right. We believe you will like these two new sires and their sons and daughters, too.

The balance of our Reference Sires also offer: thickness, performance, pigment, carcass, correctness, and disposition. We stand behind our sale offering, knowing they can go out and improve cow herds and produce successful sons and daughters.

Two thirds (71 of 107) of the Bulls in this sale have a Heifer rating from 1 to 3, ensuring absolute calving ease. The non-rated sons are made right to give you top confidence in their calves, as well.

Please join us on sale day, Feb. 1st for a noon lunch and our 1 p.m. sale. You can also participate online and over the phone through Superior Livestock's services. Ranch visits and phone calls are always welcome.

Sincerely,

John & Mary and family

Sale Day Ear Tags

As in past years, we have scored every Bull in our production sale for Calving Ease and have placed this score on his ear tag, as well as in this catalog next to each animal's pedigree.

We want this to be a tool to help you in selecting for bulls to use on first service for your heifers.

Also, if the tag remains in, you can easily choose and remember these Bulls at turnout time in subsequent years without referring to your catalog.

Here are examples of the 4 types of tags a Bull may have.

Regarding our sale cattle footnotes:

We are extremely particular in our comments about our cows being designated as **Dams of Distinction**.

SOD = Sire of Distinction
CHB = Certified Hereford Beef
DOD = Dam of Distinction

The long box at the bottom of each Sale Lot shows the Dam's respective progeny records, or ratios, by percentage and by the number of calves they have raised. A 97 index on Yearling means they are below average for Yearling Weight within their contemporary group. A 102 index for Weaning indicates they are above average for Weaning Weight within their contemporary group.

Photos were taken mid-December. They will be mailed to you separately.
