Hello,

On behalf of Teresa, Lindy and myself, I would like to invite you to attend our bull sale on Friday April 5th.

Our program continues to be driven by the basic belief that trouble-free cattle that perform are the most profitable. Trouble-free covers a long list of items that affect you right up until someone says sold.

You can be certain that a Roster Charolais bull and our program will give you every advantage from the time we deliver him, until you market his offspring. Whether it be as feeder, background cattle or at the packer, on the rail.

It's a tough business, and we do everything possible to be the kind of partner you can depend on.

Farming and livestock is our livelihood. We face the same challenges every day that our neighbors and customers face, and we have the same kinds of scars to prove it. Your perseverance and dedication is what motivates us to continue to improve and develop the highest quality product possible.

Our own commercial herd would be about the same size as our average customer's herd. When we use our genetics there, we live with the results, just like you do. It has to work for us, so we know it will work for you. Also, let me say how thankful we are to be working with people who I always describe accurately as the best in the world. I truly mean this and can't express how fortunate our family, our program and myself are, to have this opportunity. You make us look good., and motivate us to be the best. Thank you.

As always, if I or Teresa can be of assistance to answer questions or come and look at the bulls, give us a call.

Mike

Directions to the Farm

The Roster Feedlot: From Exit 350 on I-90, North on South Dakota Highway 25 to 249th St. 1/2 mile E on 249th.

What will you see when you look at a

Roster Charolais Bull?

Our Herd bulls will be long made, deep bodied, and well muscled. Good headed with structural correctness and an emphasis on sound feet and legs. Fertility and libido are, of course, what makes the whole process work. They are equally important. Quiet disposition translates into less headaches and more potential profit, so every herd bull we have is easy to handle and quiet.

Helios heavily influences our program from the own sons in the offering to the many daughters who have produced bulls also. He is gentle, long made and easy calving. While not a show bull, he sires calves that are eye appealing with explosive growth.

He has 33 sons in the sale

WCR Sanford was selected for his moderate birth weight EPD & strong growth. We like the way he calves and how his sons grow and gain. He works very well as the next step on our Helios, Warrior, Headliner and Pro Assert bloodlines.

BUY BACK PROGRAM

Our Buy Back Program is very simple. Contact us, in advance, about when and where you decide to market your calves. We will be there to bid on them. While we may not get all the calves bought, we help insure our customers, that their calves will bring full market value, for their weight, on sale day. This program can and has added significant value to our customers' calves, making our bulls an even better value to you.

This system has really developed well for us and our customers. It is important to note that we aren't acting as order buyers. We are committing our own resources for the advancement of our program and the benefit of our customers.

The bulls are available for viewing at the farm
There are also many photos and videos on our
webpage

www.rostercharolais.com

All the bulls in this sale were on test in the same group for 150 days. They were fed a medium megacal developer ration. The feed program is not designed for maximum gain in a short period but for the long term welfare and longevity of the bull. We have received many positive comments over the years about how well the bulls hold up for our customers. We are convinced this is a better way to develop our bulls instead of trying to see how big or heavy we can make them. Our philosophy is to offer bulls with adequate growth in a crossbreeding situation. We feel that **every** bull in the sale meets this criteria.

All the bulls in this sale have been tested negative for persistent infection (PI) of BVD.

Many of our customers have us take the bulls back to our place after the sale for later delivery. They are returned to the same pens and are put on the same ration. This helps in their continued development for breeding season especially on some of the younger bulls. At delivery time, we almost always hear the same comment "Boy, he sure got bigger."
