20th  
Annual  
Bull Sale

# Spruce Hill Ranch Presents Combined Advantage

Wednesday, February 12, 2014 • 2:00 pm MT  
Bowman Auction Market • Bowman, North Dakota

## Welcome

## General Information

We would like to thank you for taking the time to look through our 20th annual offering. This year's sale will be at 2 pm MT at Bowman Auction Market.

This is a special group of bulls headlined by a set of calves sire by Great Falls. The sale will also include sons of Connealy Final Product, Rito 954, Template and our new herd sire Spruce Hill Rio. These bulls will help you capitalize in this upswing in the cattle market.

We would like to take a few minutes to explain to you our belief in the difference between buying yearling & two year old bulls. First, two year olds have proven to cover more cows than their yearling counterparts. Our belief is that a yearling will cover one cow for every month of age, while a two year old will cover one cow for every centimeter of scrotal circumference.

Secondly, we believe two year olds are old enough and mature enough to physically handle a 60 plus day breeding season. The demand on a yearling to breed through an entire season will have effects that last through the next year. For this reason, we recommend you wait to turn out your yearlings until part way through the season. This has the additional benefit of stimulating your older bulls late in the season. Now we understand that this may not apply in every situation but is a useful formula to use when buying and sorting bulls for breeding pastures.

Please don't hesitate to call us with any questions. We guarantee our bulls and completely stand behind what we sell because this is our livelihood 24/7. Feel free to stop in anytime. We look forward to seeing you on Wednesday, February 12th.

Thanks for your interest,  
Chad

Kirby Goettsch, Farm & Ranch Guide, 605-380-3939

**Health:** At weaning these bulls received Vista once, SQ and Vision 7 with Spur and were poured. They were boosted a month later. We also vaccinate with Multimix supplement for additional copper. These bulls have been poured with Ivomec several times. Health certificates will be provided, if necessary.

**Terms:** Cattle sell under the standard terms and conditions of the American Angus Association. All cattle will be at the purchaser's risk as soon as sold.

**Brand Inspection:** A brand inspector will be available Sale Day.

**Guarantee:** All bulls are guaranteed against any injury that would keep them from being a breeder for the first breeding season. If a problem occurs, please contact us immediately, a suitable replacement will be furnished or credit minus any salvage will be given toward next year's sale. The buyer will choose the preferred option. The guarantee does not cover the death of the bull. All claims must be made by Sept. 1, 2014. All two year olds have passed a semen evaluation exam. Yearling bulls will be semen tested prior to deliver May 1, 2014 or can be returned for a complimentary spring semen evaluation.

**Delivery:** As in the past, we are offering free delivery on all the bulls in the sale. You are welcome to take your bulls home sale day, however it would be our pleasure to deliver your bull(s). We would enjoy the opportunity to spend some time with you individually and see your operation.

We will keep the yearling bulls free until May 1st. They will be fertility tested and delivered. The two year olds are ready to go to their new home, however, they can be kept free of charge until March 1st. After that we will charge you feed fed. We encourage you to get them home and situated in their new environment as soon as possible.

**Registration:** All bulls can be registered unless otherwise noted. If you would like your purchases registered and transferred in your name, let us know. We would be happy to do this for you. The American Angus Association is developing programs to help you market progeny from registered bulls. In order to qualify for programs, your herd bulls need to be transferred into your name. If you have questions about these programs or transferring papers, please ask, we will be glad to help.

**Announcements:** Announcements made sale day take precedence over any printed material.

**ANY PERSON ATTENDING THE SALE DOES SO AT HIS OWN RISK.** Neither the owners, nor any person connected with this sale assumes any liability, legal or otherwise.

**Host Motels:** Due to the rise in the local oil activity in the area, rooms are difficult to find. If you would like a reservation, please let us know as soon as possible.

We had the opportunity to partner on Great Falls as the \$37,000 second high selling bull at the 2011 Midland Bull Test. We have been pleasantly surprised by the performance he is siring. These are not typical Final Answers - they are a little bigger and thicker than most and still have tremendous breed character. I think his daughters are going to be his real asset. They are tremendously big ribbed, deep chested and have a very functional look. 16 sons sell.

I selected 954 as an outcross calving ease sire to use on my heifers. His sons are moderate in their skeleton, deep in their chest and have a masculine look to them. Look for his sons to be consistent in their calving ease and still sire the performance to hit the scales heavy. 6 sons sell.

Final Product has been a very popular heifer bull in ABS bull stud. I sampled him on a group of cows that I thought would compliment his curve bending EPD profile. His daughters are some of the most feminine bred heifers on the place. 5 sons sell.

*Rio was held out of our 2011 sale due to a leg injury. He has developed into a modest framed, deep ribbed Herd bull. He bred 64 cows this summer and weighed in at 2400 lbs. after all that. His mother is one of my favorites, and his daughters have her feminine look and massive body design. We are especially excited about his future! 8 sons sell.*

## Commercial Replacement Heifers

We are selling 100 head of replacement heifers. This includes a select group of heifers from Glenn and Wayne Wegner and Chad Miller. They are the top cut of heifers from our commercial cow herd and some straight out of our registered herd. They have been Bangs vaccinated and poured with Ivomectrin. We will sort them by size and try to sell them in groups to fit buyer's needs.

I selected "Dakota Wind" as an outcross heifer bull from Leo Baker's sale in 2009. His sons and daughters are modest in their skeleton, easy fleshing and should confirm his birth EPD. 10 sons sell.

SPRUCE HILL JENNA 024, A MERIT DAUGHTER

We selected Net Merit from Janssen's in Iowa in '07 as he was the sale topper at \$13,500. He is the cornerstone in our SimAngus program. He is extremely long spined, deep quartered, moderate and disposition second to none. His progeny are very impressive in all those factors as he stamps them with muscle, big hips, extra rib and power. Expect his sons to carry on the same characteristics as Merit. If you want to add or improve your herd in all those fields; add great carcass data and keep the females because they are extremely functional, fertile and gentle, consider SimAngus. 8 sons sell.
