

Sodak Angus Ranch

58th Annual Bull Sale

Monday January 26, 2015
Reva, SD
1:00 PM (MST)

Selling 91 Range Developed Bulls & 50 Open Heifers

Go to SodakAngus.com for an Online Catalog and Viewing of Bulls

Welcome to

Sodak Angus

Welcome Friends and Neighbors

Welcome to Sodak Angus's 58th annual bull sale. 2014 saw most of us in the upper Great Plains blessed with abundant moisture, good forage crops and continued record high livestock prices. Strong markets coupled with diminishing livestock numbers further documented the importance of quality genetics within our cow herds.

We especially want to thank all of our customers, friends and neighbors for their support of our breeding program. We truly cherish all your friendship and appreciate your thoughts and advice which guide future decisions here at Sodak.

This 2015 bull offering will include 90 coming two year old bulls from both our Red and Black Angus herds. The bulls are developed on pasture and high roughage growth rations insuring soundness. Only the top one-half of the bulls complete the 18 month ranch bull test and are ready to cover more cows in your pastures with fewer injuries.

This year the Sodak lineup includes sons of proven sires like Connealy Confidence, Mogck Sure Shot, AAR Ten X, Cole Creek Cedar Ridge, Tombstone and many Sodak proven sires. Red Angus sires include our new Red Final Answer line and sons of CBR Rumbler, 5L Summit and CBR Ram Rod all of which have been siring tremendous performance, maternal and carcass traits. The 2015 offering consists of many half-brothers capable of minimizing genetic variation and maximizing profit within your operations.

This year we will have an added feature of 50 fancy open Red Angus heifer calves consigned by the Tarter Ranch of Camp Crook, SD. These hard to find Red Angus heifers are a very uniform group from a top set of Red Angus cows, many of which are sired by Sodak sires.

Whether looking for a special herd sire or a truck load of bulls we believe you will find the selection to be second to none. As always our breeding program is founded on actual production measurements rather than anticipated progeny differences. We realize that 50% of a bull's worth is derived from his dam and therefore we provide the dam's nursing ratios for your consideration. In keeping with our commitment to customer service we share the risk of bull injury throughout the first breeding season and continue with care and feeding until spring delivery.

Again this year's offerings have been videoed and are available for viewing at sodakangus.com. The bulls will be penned for your personal inspection on sale day and will sell via video broadcast in the sale barn. DVAuction will also be available for online bidding assistance.

We thank you for your patronage and interest in the Sodak Program. We invite you to stop by on Sunday afternoon, Jan. 25th to view the bulls in the feed lot pens or sale day to view this mature selection of Black Angus and Red Angus bulls. If we can be of any assistance whether sale day, prior to or throughout the coming year please call or stop for a visit.

Wishing you good health, friendship and prosperity,

Vaughn, Lois and Family

Sodak Angus Ranch 58th Annual Bull Sale

Monday, January 26, 2015

11:30 A.M. (MST) - Complimentary Lunch
1:00 P.M. (MST) - Sale Time
At Sodak Angus Ranch, Reva, SD

SELLING:

53 Stout Black Angus Bulls
33 Powerful Red Angus Bulls
5 Range Ready Black/Red Angus Bulls
50 Open Heifers

PRE-SALE VIEWING OF BULLS AT

sodakangus.com

SALE LOCATION: At the Ranch, Reva, SD

From Prairie City, SD:
4 Miles West on HWY 20, then 6 miles South and 2 miles West on Sorum Road

From Jct. 79 & 20 (East of Reva, SD)
6 miles South, 2 miles East on Sorum Road

From Newell, SD:
HWY 79 Go North to mile marker 193, then 8 miles East on Sorum Road

ACCOMMODATIONS

Country Inn Motel, Bison, SD - (605) 244-5234
Tipperary Lodge, Buffalo, SD - (888) 917-5758

TERMS AND CONDITIONS

The cattle will sell under the standard terms and conditions as recommended by the American Angus Association.

HERD HEALTH

All bulls have been in a complete veterinary supervised health program and will be accompanied by health certificates for interstate shipment. All bulls will be semen tested in March prior to April delivery. All cattle are from a Johnes tested herd.

FEEDING AND DELIVERY

Sodak Angus will put the utmost care into each animal and deliver free 350 miles and cost in trailer loads. Sodak Angus will feed the bulls free until April 1, 2015 and deliver there after.

SEMEN INTEREST

Sodak Angus will retain one-third semen interest in all sale bulls.

EPD's, in this catalog are calculated for registered animals by their respective breed association and non-registered progeny are parental averages.

\$Value Indexes, are multi-trait selection indexes, expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database, if the sires were randomly mated to cows and if calves were exposed to the same environment.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires.

Cow Energy Value (\$EN), expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

Loss of use Guarantee

As bred cows in our customer's herd is of the utmost importance to us at Sodak Angus, we will furnish a replacement bull if available on the event a customer's bull is injured and loss of use occurs prior to Sept. 1st 2015. If a suitable replacement is not available Sodak Angus will credit the customer in future sales for 50% of the purchase price minus the salvage value. All claims of injuries must be reported prior to Sept. 1st and Mortality Insurance will be available on sale day.

Tarter Ranch Heifer Sale

This year Sodak Angus Ranch will have an added feature of 50 fancy open Red Angus heifer calves consigned by the Tarter Ranch of Camp Crook, SD.

These Red Angus heifers are a very uniform group from a top set of Red Angus cows, many of which are sired by Sodak Sires.

For more information regarding these great set of heifers, please contact:

Dean Tarter
Tarter Ranch
11943 N. Camp Crook Road
Camp Crook, SD 57724
(605) 797-4487

FOCUS

On Selection...On Profit!

Today's demand for premium beef transmits a need for better, more predictable commercial Angus cattle on the ranch and in the feedlot. Invest in the most affordable commercial DNA tool to find heifers with the most potential to pass along marbling and gain. Use the test on Angus feeder cattle to sort out those most likely to gain and grade.

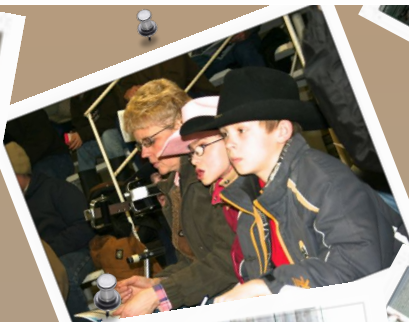

GeneMax™ may now be used to match specific sires* to tested animals – at no additional cost

*To provide sire assignment, potential sires must be tested using the Pfizer HD50K genomic test and be registered with the American Angus Association®.
