

Sodak Angus Ranch

59th Annual Bull Sale

Monday January 25, 2016
Reva, SD
1:00 PM (MST)

Selling 110 Range Developed Bulls & 65 Open Heifers

Go to SodakAngus.com for an Online Catalog and Viewing of Bulls

Welcome to

Sodak Angus

Welcome Friends and Neighbors

Welcome to the Sodak Angus 59th annual bull sale. This past year most of us were blessed with abundant moisture, good forage crops and above average livestock prices. Recent market fluctuations coupled with the rebuilding of the national livestock herd, documents the importance of quality genetics to successfully be at the top of our industry.

We want to convey a very special thank you to all our customers, friends and neighbors for your support of our breeding program. We truly cherish your friendship and appreciate your thoughts and advice which are helpful in making future decisions here at Sodak.

The 2016 bull offering includes 110 coming two year old bulls from both our Red and Black Angus herds. The bulls are developed on pasture and high roughage growth rations insuring soundness. Fifty-nine years of genetic selection and bulls from the top 40% of their contemporaries are your guarantee of superior performing genetics. The bulls are developed on grass and a high roughage diet with the stamina to cover more cows in your pastures with fewer injuries.

This year the Sodak lineup includes many line bred grandsons of proven sires like SAV Bismarck, HA Program, SAV Final Answer, Sitz Upward and Connealy Sullivan. Red Angus sires include our new red Final Answer line and sons of CBR Rumbler, Foster Sen and CBR Ram Rod, all of which have been siring tremendous performance, maternal and carcass traits. This 2016 offering consists of many half-brothers capable of minimizing genetic variation and maximizing profits.

This year we will have an added feature of 65 fancy open Red Angus heifer calves consigned by the Tarter Ranch of Camp Crook, SD. These hard to find Red Angus heifers are a very uniform group from a top set of Red Angus cows, many of which are sired by Sodak Sires. The heifers have been on a complete vaccination program and are ready to go.

Whether looking for a special herd sire or a truck load of bulls we believe you will find the selection to be second to none. As always our breeding program is founded on actual production measurements rather than anticipated progeny differences. We realize that 50% of a bull's worth is derived from his dam and therefore we provide the dam's nursing ratios for your consideration. In keeping with our commitment to customer service we share the risk of bull injury throughout the first breeding season and continue with care and feeding until Spring delivery.

Again this year's offerings have been videoed and are available for viewing at sodakangus.com. The bulls will be penned for your personal inspection on sale day and will sell via video broadcast in the sale barn. DVAuction will also be available for online bidding assistance.

We thank you for your patronage and interest in our breeding program. We invite you to stop by at your convenience to view the bulls in the feed lot pens or on sale day to view this mature selection of Black Angus and Red Angus bulls. If we can be of any assistance whether sale day, prior to or throughout the coming year please call or stop for a visit.

Wishing you good health, friendship and prosperity,

Vaughn, Lois and Family

Sodak Angus Ranch 59th Annual Bull Sale

Monday, January 25, 2016

11:30 A.M. (MST) - Complimentary Lunch

1:00 P.M. (MST) - Sale Time

At Sodak Angus Ranch, Reva, SD

SELLING:

35 Stout RedAngus Bulls

75 Powerful Black Angus Bulls

65 Open Heifers

SALE DAY PHONES:

(605) 866-4426 (605) 866-4451

EPD's, in this catalog are calculated for registered animals by their respective breed association and non-registered progeny are parental averages.

\$Value Indexes, are multi-trait selection indexes, expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database, if the sires were randomly mated to cows and if calves were exposed to the same environment.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires.

Cow Energy Value (\$EN), expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

Loss of use Guarantee

As bred cows in our customer's herd is of the utmost importance to us at Sodak Angus, we will furnish a replacement bull if available on the event a customer's bull is injured and loss of use occurs prior to Sept. 1st 2015. If a suitable replacement is not available Sodak Angus will credit the customer in future sales for 50% of the purchase price minus the salvage value. All claims of injuries must be reported prior to Sept. 1st and Mortality Insurance will be available on sale day.

Tarter Ranch Heifer Sale

This year Sodak Angus Ranch will have an added feature of 65 fancy open Red Angus heifer calves consigned by the Tarter Ranch of Camp Crook, SD.

These Red Angus heifers are a very uniform group from a top set of Red Angus cows, many of which are sired by Sodak Sires.

For more information regarding these great set of heifers, please contact:

Dean Tarter
Tarter Ranch
11943 N. Camp Crook Road
Camp Crook, SD 57724
(605) 797-4487

FOCUS

On Selection...On Profit!

Today's demand for premium beef transmits a need for better, more predictable commercial Angus cattle on the ranch and in the feedlot. Invest in the most affordable commercial DNA tool to find heifers with the most potential to pass along marbling and gain. Use the test on Angus feeder cattle to sort out those most likely to gain and grade.

GeneMax™ may now be used to match specific sires* to tested animals – at no additional cost

*To provide sire assignment, potential sires must be tested using the Pfizer HD50K genomic test and be registered with the American Angus Association®.
