SALE CATTLE DVD ...available late March, call Roger.

DVAuction For more information and to register to
Broadcasting Real-Time Auctions bid, call Tami McIntosh 308/870-3661.

WELCOME TO OUR 49TH ANNUAL PRODUCTION SALE!

You're invited to visit the ranch and view the cattle at any time. We especially would welcome your attendance at our 49th Annual Sale on Saturday, April 15, 2017. For those of you that can't make it, view our website or participate on DV Auctions online.

Our weather pattern has tested our livestock real hard. We had almost no moisture from March to October. Grass was well used and the hay piles were short. Big carry over from previous years on hay, but starting the day after Thanksgiving 'til early March there has not been a break in the weather pattern. Probably had over four feet of snow, so without saying our hay piles are disappearing.

Introducing two new sires, *Stockman* and *Turning Point* and expanded production from last year's new sire, *Billy The Kid*. The Stockman calves are thick, long, moderate and fit a consistent pattern. Turning Point's production is explosive for performance and growth. The Billy the Kid calves are worth the trip to look at if you like big butts, wide pins and thick loins and backs with deep sides. Most fit a similar profile.

We don't push the cattle the first month to give them a time to adjust to their new surroundings. The cattle will be grown out with their future usefulness in mind.

Many cattle are sold on a first impression. We like to produce cattle that will present a good profile, be fault free, wide based, long spined, good muscle shape with strong performance numbers. We have moderated our birth weight and frame size and kept as much performance as possible and improved carcass numbers.

We have developed a cow herd of working females. We pay attention to the unmeasured traits of disposition, structure, solid markings, eye pigment, as disease free as possible and wide based. Emphasis on challenging the environment, fault-free udders, support the upper end of milk production, improve marbling and maintain good fertility. Calving ease is a big requirement for our operation. All heifers have to calve as yearlings or they go to the feedlot.

We have retained ownership on our commercial cattle for 49 years. Our conversion rate over that time has been consistently 20 per cent better than yard average. In feeding cattle that is a big advantage and a place where Herefords excel.

Don't forget the importance of the Hereford cow and Hereford-cross females in America's cowherd. Her disposition is the best, longevity is superb, adaptability for all areas and most important she is identifiable. There's never been a greater opportunity for Hereford genetics to have an influence in your herd and the cattle you produce.

The Certified Hereford Beef program is working, growing, and creating demand for white-faced cattle. Let us know if we can help you in your marketing plans.

Cattle will be ultrasounded, the bulls fertility tested and the heifers are "Bangs" vaccinated and had all of their pre-breeding shots.

It is our pleasure to invite you to the sale. Your interest and support are greatly appreciated. Let us know what we can do to make your selection process easier.

The cattle are for viewing anytime and our cowherd will be close by. We look forward to seeing you sale day or participating online, stop by for lunch and visit with other good cattlemen.

—The Stubers

PS...Join us Friday night at the Bowman Lodge and Saturday night at the Bowman Country Club for hospitality and food.

Nation's #1 calving ease bull ...calves come 5 to 10 days early, have vigor in their nursing ability. His calves have wide and long loins, thick tops, good muscle shape to the quarter, good bone, nice hair coats and "eye appeal." Does give up some frame, but the weight is there with their extra thickness. His daughters and production may be his biggest asset. Good milk flow, level, small teats, good dispositions and calve early. He's truly the "Answer Bull" to many breeding decisions. Owned with Churchill, Upstream, Van Newkirk and leased to Genex. Semen available through Genex.

New sire and we think you'll like his offspring. Moderate framed, he's come out of the pasture the last two years weighing around 2500 lbs. He is extremely long, has terrific muscle shape, stands on big bone, moves free with a long stride and presents a good profile. Progeny fit his pattern and he is consistent in his production. You have to appreciate his fleshing ability, his "look" and disposition. Has some outstanding folks in his background. Reports on females are outstanding. Owned with Ned and Jan Ward, Colyer Hereford, B&C Cattle. Semen available.

The new "KID" on the block, "BILLY" that is. One of the very top bulls in Denver 2014. Huge hip with a deep quarter. Super long and thick down his top line. Good balance in his make up with rib. Short marked with eye pigment. Good milk. Strong performance, large scrotal, sheath up, good bone and a large REA. Certainly the "Rancher's Kind" with look, growth, milk, moderate BW and carcass. His offspring are consistent in their pattern and daughters are broody with good udders. Twenty real top sons sell along with some good daughters. Owned with Baumgarten, Loehr. Semen available.

He is a "stud." Massive in his make-up, high performance production, fully pigmented with a deep rib and flank. Presents a "cowman's look" with his long body and attractive profile. Has good size, strong back, large testicles, ideal markings, good hair coat and the easy doing look. His genetic package is strong and his mother has a good production record. First calves out of heifers calved unassisted with a mid-80 lb. BW average. His in-herd weaning ratio was 109 on 30 calves. Owned with Knippling and Van Newkirk. Semen available.

Low birth weight sire with good muscle shape, strong top, pigment, wide loin with some good numbers. Stout, thick with good growth, super milk and balanced carcass numbers. 0130X was the top selling bull in Cooper's 2011 sale. Dam is one of Mark's most productive cows. Daughters are in production and look very productive with superb udder shape and great disposition. Calves are small at birth with good growth and profile. His data in our herd matches that of Sensation. Owned with Churchill, Cooper and Bowen. Semen available.

Navarro and his offspring "cover all the bases" in the beef cattle business and offspring have been very popular in our sales. Moderate frame, ideal markings, excellent production and carcass numbers. His growth, milk, carcass and scrotal EPD's get higher with his production. Offspring are the "rancher's kind" with eye appeal, great gaining ability, super muscle shape, milk and carcass potential. His sire group in consistent in their appearance, wide based, good pigment, super hair and very sound. Daughters produce excellent performance cattle. Co-owned with Upstream. Semen available.

"Top End" home-raised breeding bull that is one of Navarro's top sons. A growth bull with good thickness, muscle shape in the quarter and correct structure, he exhibits extra rib shape, stands wide, marked right with pigment, large testicles. Dam, maybe our best cow when you consider profile, production, ideal udder and longevity, has a sound udder at age 13, raised four sons used in our herd, plus produced the 2009 top seller SR Saga 1137 to Upstream and Loehr. She is now in an ET program with Bill Breeding. 450X produces the Rancher's Kind! We plan on getting him collected. He will see heavy use this breeding season.

Polled. This bull has it all and is out of 78P, one of the breed's "Power Cows!" Terrific at birth with his balance, thickness, correct, wide based and muscle pattern. Has a growth pattern similar to "Right On." He exhibits good profile with super rib depth. Athletic, easy to look at, shows pigment and good hair character. *Semen available.*

Top selling bull in 2012 to Churchill and Van Newkirk. Big hiped, wide based, deep sided, marked right, bone, wide based and real gentle. Was the high gaining bull at right at 4.5 lbs. per day. Milk and big scrotal. His Script momma is a good one! Check his carcass numbers. Take a look at his EPD profile. His offspring have explosive growth, good muscle shape, great performance numbers and give you the look of productive cattle. *Semen available.*

Used on heifers the last two years with success. Good balance. Same dam as herd sire 450X. 1302 has developed into a bull with good size, ample muscle and is correct made. Calves come moderate with no calving problem and grow fast. Several maternal brothers sell. Dam is a power cow with a good udder and longevity. She is in an ET program at B&C Cattle Company, Texas.

186

Stuber Registered Heifers...

Great offering of productive females that fit with their profile, performance numbers and carcass. Their EPD profile is similar to ones we keep. There will be top-end heifers offered from each sire group. You'll find females that are easy to look at, have some exceptional EPD's, extra milk and, in most cases, good carcass data. They are "Bangs" vaccinated and have had all of their preconditioning and pre-breeding shots. Heifers are in good condition and ready to breed to your bull of choice or, **if you A.I., we will offer two straws of semen on any herd bull we own to use on the heifers. If you don't pick up semen at the ranch, you will pay shipping costs. Certificates will be based on cost or the price of certificates we have on our partnership bulls.**

Stuber Ranch Commercial Heifers...

The commercial heifers selling are all home raised from our commercial cowherd. Most of the black baldy heifers come from our first calf heifers. A fancy set of broody females with milk, muscle and enough growth, they have been wintered on a growing ration with their future use in mind and will be in just the right condition. They should weigh in the 825 to 900 lb. range. All are Bangs vaccinated and have had all of their preconditioning procedures. They will also have all of their breeding shots by sale day.

The Dave Burke commercial heifers are similar to the Stuber Ranch heifers and have been developed in a similar manner. Same terms and conditions apply.

NO DELIVERY is provided on the commercial heifers, but we will be happy to help you make arrangements.

What's one more calf worth?

VITAFERM®

WITH THE AMAFERM® ADVANTAGE

- Improved Conception Rates
- Better Body Condition Score
- Greater A.I. Success
- Fewer Nonproductive Cow Days
- More Eggs Per Flush

TERMS AND CONDITIONS

TERMS — Terms of the sale are cash. Every animal will be sold to the highest bidder with the auctioneer settling disputes as to bids. Announced changes in catalog information sale day take precedence over printed material in this catalog. All cattle are the buyer's property as soon as sold and will be cared for a reasonable length of time at the buyer's risk. Neither Stuber Ranch nor any person connected with this sale assumes any liability, legal or otherwise.

GUARANTEE — Every animal in this sale is, to the best of our knowledge, free from any disease or defect. Any known defect will be called at sale time. All animals are guaranteed breeders. If an animal fails to breed after a trial of six months, it may be returned to the seller if in good condition and in compliance with North Dakota Health Regulations. The seller reserves the right to try said animal for six months, and if it proves a breeder, return it to the buyer at the buyer's expense. If the animal proves to be a non-breeder, either an animal of comparable rank will be substituted or credit given in a future sale on an animal for animal basis. We assume no liability, legal or otherwise, to make any further compensation to the buyer. No other warranty of any nature is expressed or implied.

DELIVERY — Delivery will be made in groups of five registered animals or on purchases of \$5000 or more to central points up to 300 miles. We will cooperate with buyers on delivery of all cattle regardless of number or distance. **No delivery provided on commercial cattle.**

ABSENTEE BIDS — Anyone wishing to bid who cannot attend the sale may place phone or mail bids by contacting Roger or Duane Stuber, or any listed sale representative. Sight-unseen purchases are at the buyer's approval upon receiving the animals.

HEALTH — Stuber herd health is excellent. North Dakota is Bovine Brucellosis-Free and accredited Bovine Tuberculosis-Free. Females are officially calfhood Bangs vaccinated. Individual health papers will be furnished for shipment anywhere. All cattle are on a complete preconditioning program.

PERFORMANCE — Cattle are on a complete performance evaluation program with records kept on about every thing that can be measured. We will provide any extra information you may need. We are recognized by the American Hereford Association as a **GOLD STAR BREEDER.**

ULTRASOUND — Sale cattle will be ultrasounded and data provided on a supplement sheet. There is a strong correlation between ultrasound measurement of yearling breeding cattle and the actual carcass measurement of their progeny. We have years of ultrasound data and all sale cattle have carcass EPDs. If you desire, that information can be provided.
