THE POWER OF **BLACK.**
ONLY BETTER.

HEREFORDS—THE EFFICIENCY EXPERTS

Adding Hereford genetics to your herd makes perfect business sense in a cost-driven economy. Excellent conversion, hardiness, fertility, longevity and even disposition can help reduce input costs. These Hereford efficiencies are ideal for your herd, your business and your plans for the future. Low-maintenance cattle, long-term profit. Now that's power.

American Hereford Association • P.O. Box 014059, Kansas City, MO 64101 • (816) 842-3757 • www.hereford.org

A Common Sense Approach to Genetic Excellence

Fellow Cattlemen,

With great pleasure we invite you to our 15th annual production sale. Since we held our first sale 15 years ago we have learned a lot about what matters most to you and your operations. The information we have gathered from our customers has made us a more valuable partner for you. We have moderated birth weights, maintained weaning weights, improved carcass traits and fine-tuned maternal characteristics. All of your feedback is what designs our product and we thank you for helping us understand what you need to be profitable.

It is good to see the demand for Hereford-influenced genetics continuing to spread. As evident in sales across the country, whether replacement females, bred females or feeder cattle, Hereford-influenced cattle are being sought out. Practicality and maximum profitability have finally surfaced to the top of the list and the new generation of Hereford genetics fits the bill.

In addition to a real-world product that delivers results, what has become clear is the need for sustainable marketing systems. Several years ago the Alliance with SB&B of Casselton, N.D., was established to purchase feeder cattle direct from our clients. Today the practice of forward contracting to lock in a profit, insulating your operation against market volatility, is routine for many. In 2013, Topp Herefords formed an Alliance with the Jim Lerwick family and Y6 Feeders of Meriden, Wyo., to purchase and develop TH-sired replacement-quality females. The success of this program for both the buyer and seller has also been very rewarding. Topp Herefords bull customers have sent exceptional quality heifers from their programs, increasing the demand for LT Premium females. The LT Premium heifer development program is fast becoming a popular place to source known, quality genetics and will continue to evolve. We look forward to working with each Topp Herefords customer in this exciting new venture.

If you are interested in learning more about the Alliance programs available through Topp Herefords, please plan to attend our annual Cattlemen's Banquet on Sunday, February 1st, at the Quality Inn in Jamestown. Starting at 4:30 p.m. we will hold an important informational meeting about the LT Premium heifer marketing program. This is a good time to ask questions, meet the Alliance partners and if you are a TH customer or would like to become one, this is the perfect opportunity to learn more about how you can utilize this unique marketing program to benefit your bottom line.

Note that in addition to 138 lots of exciting bull calves, we will be selling an elite group of commercial bred heifers

and 50+ head of registered Hereford females at the sale February 2nd. Representative groups of the commercial females will be at the ranch and the full lots will be available for touring at Pipestem Feeders in Carrington, N.D. The bulls, their dams, replacement females in production and all the heifers and donors selling on sale day will be available to tour as well. So please feel welcome to come early, tour the cattle at your leisure and then join us for the Cattlemen's Banquet Sunday night. If you have any additional questions, feel free to contact us at the Topp Herefords office prior to the sale. We look forward to seeing you.

Regards,

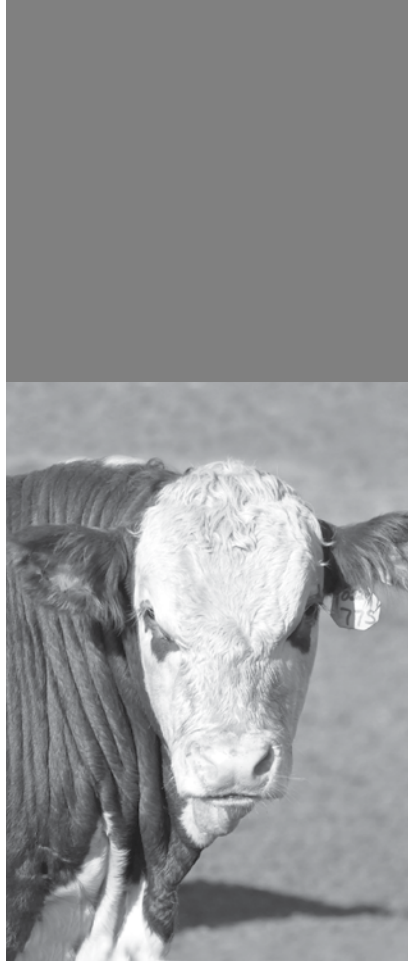

A handwritten signature in cursive script that reads "Ryan Topp".

SIRE OF LOTS 1-25

- 145Y was brought to TH to add another low birth, short gestation calving ease bull to the lineup. 145Y progeny were born easy, but the exciting piece to the puzzle was the amazing growth of his progeny. The 145Y progeny are most definitely as potent as any outside sire ever brought into the TH program. 145Y records lifetime ratios of 98.5 BW and 102 WW. His dam, 7227, records lifetime ratios of 99.8 BW, 102 WW and 102 YW.

- BW 78 lb.; 205-day wt. 791 lb.
- 19B has been a standout of the 145Y sire group. 19B displays an amazing phenotype with an abundance of muscle and rib shape. His dam is backed by a long history of beautiful udder type and longevity. 19B has an impressive set of proven EPDs as well as an actual BW of 78 lb. to ratio 92 and a notable 205-day weight of 791 lb. to ratio 105. Recommended for use on heifers.

- BW 97 lb.; 205-day wt. 866 lb.
- A powerhouse performance bull of the 145Y offering. 20B had an adjusted 205-day weight of 866 lb. off of a first calf heifer. His dam is an excellent uddered first calf heifer that traces back to the popular Primrose cow family. Lot 2 is from the same cow family as TH SHR 605 57G Bismarck 243R ET.

1.2	60	100	23	53	1.1	0.018	0.29	0.17	P	4

- Lots 3-13 combine the time tested Dominette cow family with the new and exciting 145Y pedigree. Their dam, 512X, is not only a full sister to the popular 719T but is also the dam of TH Playmaker 14Z. These full brothers are a combination of low birth and performance. Their type and kind will be very influential wherever they are used. We believe they are calving ease bulls, however, do note that their actual BW is a bit higher. Lots 3-13 were all raised on recips that were dry while they were in fetus. We feel this greatly influenced the BW.

- TH 512X 719T Playmaker 14Z has undoubtedly carved his path into being a major part of the future of TH. His progeny excel from birth to weaning and appear to be continuing that pattern right into yearling. They are eye appealing cattle that should be as predictable as one can find. His dam, 512X, has proven herself as one of the all-time most prominent producers at TH.

- 17Y has established himself as the low-birth, short-gestation star at TH. His progeny are born with ease and are exceptionally aggressive to get up and go. 17Y progeny are, in our estimation, the right kind for today. They are unbelievable in terms of efficiency, without question the easiest feeding cattle we have ever raised. The rib shape and capacity of his progeny are second to none. We will calve his first progeny this spring, but his daughters display excellent teat placement and udder shape at this stage of the game. 17Y records a lifetime progeny BW ratio of 95.9.

- BW 106 lb.; 205-day wt. 802 lb.
- 63B is a bull that we have had our eye on since day one. Lot 56 is extremely short marked with very heavy pigment. He is massive in his structure. His rib shape and muscle are explosive from every angle. 63B ratioed 106 on weaning. His powerful dam has struck big with whomever she has been mated to. 67W records lifetime ratios of 108 WW and 104.3 YW.
- Dam sells as Lot 144.

- BW 95 lb.; 205-day wt. 714 lb.
- 53B is a very well balanced calf of the Popular Lot 142 donor, 113W. 53B is a maternal brother to TH Hi-Tech 17A, the very popular 11X son that sold to Mohican, ANL and Medonte in 2014. Lot 57 is bred to be maternal in every aspect of the game. Look for 53B to be a prominent player down the road.

- Lot 84 is a massive-middled, powerful son of the up and coming 455Y female. 455Y, on only her second calf, is proving her ability to raise them big and fat while maintaining a very moderate frame. 60B's maternal pedigree descends from the Dominette family, which is the same cow family as 719T.

KBCR 242 DOMINETTE 302 — SECOND GENERATION DAM OF LOTS 88-89

SINNER BROS. & BRESNAHAN

It wasn't very long ago and I was writing about efficiency because corn was running over \$6/bu., the cost of gain was north of \$1/lb. and the live market was close to the same. The efficiency of Topp Herefords bulls was the place to focus our attention.

Now we have feed costs less than \$0.80/lb. of gain, the live cattle market is over \$1.65/lb. and the market isn't screaming feed efficiency, it is just screaming produce more beef.

Historically, if we tried to feed longer to increase weight, straight Herefords or straight Angus would end up as a yield grade 4 and create excessive discounts. But with crossbreeding and the new age genetics of Topp Herefords, we aren't having that problem. The Prime and Choice premiums are offsetting the yield grade 4s and adding additional value to continue feeding the cattle. Throughout the fall, we've been harvesting steers over 1,500 lb. and heifers over 1,350 lb. and exceeding the average five state market price per pound. It doesn't take a mathematician to figure out that if you can put an extra 100 lb. on an animal with an \$0.85 improvement (from your cost of gain vs. the selling price), you just might add something to your bottom line.

The luxury of having multiple options (efficiency in high feed cost years, size in high price years and grading in all years) stems from genetics and crossbreeding. Over the last 10 years seeing the quality improvement has been awesome. The ability to have enough quality in the herd to achieve success in periods of extreme market variability adds value to feedlots which adds value to you.

Today's environment creates a great opportunity to improve your herd and add value to your overall operation.

Tom Bresnahan

- Lots 90-93 are full brothers to the popular Genex-CRI sire, TH 71U 719T Mr Hereford 11X. All three of these calves are a mirror image of one another. They are long-sided, deep-ribbed and stout. They are short-marked and dark red, without doubt an attribute they get from their Dam, 71U, who also sells as Lot 147. Their full brother, 11X, produced a set of first calf heifers that were as good-uddered a set of first calvers as we have ever had from any other sire in the history of TH. With the early passing of 11X, these three full brothers create a major buying opportunity.

- BW 98 lb.; 205-day wt. 721 lb.
- Lot 93 brings an exciting pedigree to the table. His dam, 33N, has produced significant financial totals for DeLHawk in Illinois, as they purchased her several years ago. The Burgundy line of females is noted for their ability to increase milk flow and improve udder type. The Burgundys are also phenotypically correct and attractive.

TH/SB&B FEEDLOT ALLIANCE

Offers off-the-farm pricing of your feeder cattle to ultimately improve your bottom line.

The sale is just the beginning...

Purchase a Topp Herefords bull and you become part of the Alliance.

Ask us about the benefits of marketing your feeder cattle direct.

TH/SB&B Alliance Will Provide:

Off the farm appraisals • Forward contracting

Deferred payment options • Delivery options

Carcass data & conversion results

Carcass data evaluation & consultation (if desired)

"Our ultimate goal is to improve uniformity, productivity and quality."

Off Farm Feeder Calf Pricing FAQ

Where will my calves be weighed?

- We have a certified scale at our feedlot; however we can weigh anywhere both parties agree on.

How does the slide work?

- We set a base weight (estimate of expected average weight) and a base price slide (to adjust for the difference in the actual average weight). Example: 800 lb. base weight and a \$.05 slide. So if the cattle end up weighing 790 lb., then the price of the cattle increases by \$.05/cwt. (800-790 = 10 lb. difference x \$.50). If the cattle are heavier, then the price would decrease. Most slides only work to the buyers' advantage; therefore we like to use the slide both ways so each party is treated fairly.

Who pays the trucking?

- Trucking is negotiable and should be decided prior to placing a bid. We work with qualified truckers, but realize that some producers do their own hauling or have relationships with other truckers.

Isn't bidding and competition going to get me more \$\$?

- If the question is "Aren't I better off going to a sale barn and getting the best bid for the day?" my answer would be, "At times." We've purchased and sold cattle in sale barns. I've had good experiences and bad experiences. The difficult part is in the question, "... best bid for the day?" You end up being put in a position that you take what you get, on the day. I'd personally rather be in a situation where I know what I'm going to get and can adjust my risk management on my timeline rather than rolling the dice for that given day. Obviously, some of the other consideration would be additional shrink, additional trucking, commission, extra stress and will you get any additional closeout information or carcass data.

How do sale barn shrink and direct marketing shrink compare?

- Every sale barn is different, every day is different. If there are 250-head being sold vs. 4,000 head being sold, I assume there would be a difference or if it's raining or 95 degrees and humid. And if the cattle are being sold at 2 p.m. or 12 hours later at 2 a.m. I'd think every day would be different. Most of our customers like to have cattle weighed right off of the truck, so that is usually the way we do it.

If I take pay weight at the delivery point, how much shrink is there?

- Shrink varies. It can depend upon distance, the condition of the cattle, time of day and weather conditions. Each delivery point may be different and each transaction may be different. Discussing this prior to making a deal would be appropriate.

Will my calves be co-mingled?

- This is a difficult question: we don't like to co-mingle cattle. However, it all depends upon the number of head in a group, how much range in size of the group and how much feedlot capacity we have. We like to keep cattle separate as much as we can so we can do closeouts and determine how valuable each group of cattle are. But oftentimes, yard capacity does become an issue.

Is it a problem to split my calf check with more than one owner?

- This is not a problem. We've had cattle deals that split checks 10 ways.

Can I defer payment into the next year? (Calves delivered in Dec. with check cut in Jan.)

- We do this quite often.

If my cattle convert above average and have high carcass quality, will I be paid more next year?

- There are many factors that dictate what we bid for cattle. Cattle futures price, projected basis, projected cost of gain, interest rates, lot space and very importantly, proven history. Obviously the better the proven history, the more valuable your cattle are, the more we are willing to pay.

In the Alliance program, what is really being assessed when you look at my calves?

- The market is continuing to ask for quality. The demand for branded products keeps growing. We are trying to identify uniformity, predictability and quality. Consistent genetics will help us get there. We look for producers whose direction is similar.
- Other assessments are proven history (if we have any) along with positive changes. Those assessments are conversions, average daily gain, death loss percentage, vaccination history, vet bills, carcass data as a group, and the determining factor as to whether cattle are profitable or not. As an example, we had a bunch of straight Angus cattle that graded 60% Certified Angus Beef (CAB). You'd think that would be fantastic. But what if at the time of slaughter, the CAB premium was zero. Sort of changes the picture.
- If we don't have any proven history, the assessment becomes visual, genetic history, vaccination history, uniformity and many of the other factors listed above.
- It is important to remember what the Alliance is for. We have tried to help all players improve their operation from vaccination practices, marketing awareness, risk management, nutrition, culling procedures and herd quality. The goal is long-term improvement of everyone's bottom line.

DONORS

The following donors are the top nine females that TH selected for transplant in 2014. All the females selected have been top producing mother cows for TH. They will all be preg-checked prior to sale day and would be an ideal time for IVF flushing if so desired.

- 400U is another result of the consistent Primrose family. 400U is moderate framed, feminine fronted and can flat out raise a calf. Her dam, 605F, is also the dam of TH Bismarck 243R who has bred so well for Storey Hereford Ranch, Mont., and Colyer Herefords, Idaho. 400U's proof of production is clearly stated with lifetime ratios of 108.7 WW and 102 REA. Her dam, 605F, records lifetime ratios of 112 WW, 104 YW, 104.9 REA and 108.2 IMF. 400U also produced a herd bull for DaKitch Hereford Farms, Minn., and has done an excellent job for their elite ranch.
- Due Sept. 12, 2015, to FTF Prospector 145Y.

- The dam of TH 71U 719T Mr Hereford 11X and TH 71U 17Y Mountaineer 420A. 71U has generated as many financial totals as any female ever produced at TH. 71U progeny have all been extremely dark and heavily pigmented. 71U in fast order has been written into more pedigrees at TH than any other cow family. A true opportunity to own one of the greatest females ever produced at TH.
- Due Sept. 12, 2015, to FTF Prospector 145Y.
- Selling 2/3 embryo interest, no possession. 71U will remain at TH.
- Owned with Southern Cattle Co.

- A full sister to Boyd Masterpiece 0220. 901 was purchased by TH and Southern Cattle Co., Fla., in the 2013 Boyd Sale. Only because she is an excellent egg producer did we decide to part with her. 901 is short-marked and super productive. Her dam, 803, is one of the more elite P606 daughters produced. It was because of the 901 and 803 females that TH put so much stock in Masterpiece 0220.
- Due Sept. 12, 2015, to FTF Prospector 145Y.
- Owned with Southern Cattle Co., Fla.

- One of the broodiest females in the offering. 5A stems from the Gemini cow family that is responsible for so many of the great individuals that have sold through past TH sales. Her dam, 113W is, in our estimation, the most prolific individual of the entire Gemini family. 113W produced the very popular 11X son, TH 113W 11X Hi-Tech 17A, which sold to Medonte, ANL and Mohican in 2014.
- Exposed Nov. 20 to Dec. 20, 2014, to FTF Prospector 145Y.

LT PREMIUM INFORMATION MEETING

TO BE HELD AT THE CATTLEMEN'S BANQUET AT 4:30 P.M.

Meeting highlights will include:

- How it works: The process of purchasing your TH-sired females
- Positioning your ranch towards profitability
- The purchase of straight bred females through the LT Premium Heifer Program
- What does the future hold for LT Premium and its clients?

OPEN HEIFERS

- 250B is a full sister to the now deceased and very popular TH 71U 719T Mr Hereford 11X. 250B displays the same phenotype and power that her full brother exhibited at a young age. Her powerful dam, who sells as Lot 147, has impressive ratios of 91.5 BW and 106 WW.
- Owned with Southern Cattle Co.

- A very impressive daughter of the maternal master, 755T. 755T daughters are extremely consistent in their udder type and milk flow. They also breed very easy and are the easy feeding kind. 233B's dam, 400U who also sells as Lot 145, is very productive as her 108.7 lifetime WW ratio demonstrates.

TH 34N 755T EXQUISITE 129X — DAM OF LOT 183

- 510B was an easy choice to headline the 0220 offering. 510B's dam, 129X, is beautifully uddered and displays excellent rib shape and femininity. 129X is also the dam of TH Universal 121X, which was the 2013 bull selection for Semex Beef, Canada, and Whispering Pine Farms, Minn. Her second generation dam, 34N, is still active at TH.

LT PREMIUM

HEIFER SOURCING PROGRAM

- 100% of all LT heifers are from the Midwest.
- The vast majority of LT heifers are from Topp Herefords genetics with detailed records of their genetic base.
- The entire group is on a complete vaccination program.
- All heifers sold will be sorted by calving dates and fetal sexing.
- Carcass data available on the majority of the steer mates of the heifers selling.

Lots 196-200 will be sorted into more specific groups as we get closer to sale day. Call TH for an updated sale brochure. All heifers were pregnancy checked in October. They will be pregnancy checked again on December 26th and poured with Dectomax. At that time they will be given their first Scourguard as well as Virashield 6FP5VL5.

There will be a representative group from each lot at the ranch on sale day. The large majority of the heifers will be located at Pipestem Feeders in Carrington, N.D., on sale day.

All female lots, both registered and commercial, will sell on

Instructions are available at www.LiveAuctions.tv to walk you through the account setup process.

CATTLEMEN'S BANQUET

at the Quality Inn & Suites, Jamestown, N.D.

701-252-3611

Social: 4:00 p.m.

LT Premium Informational Meeting: 4:30 p.m. • Meal: 6:00 p.m.

Please call the Topp Herefords office at 701-674-3152 with any questions.

Retained Interest

TH will retain the right to utilize semen in herd on any lot in this sale. The interest retained will not affect your use or schedule.

Terms of Sale

Each animal will be sold to the highest bidder.

The auctioneer will settle any disputes.

Phone bids

If you would like to place a bid on any lot but will not be able to attend, we would be happy to assist you. Please feel free to call the office or sales staff to review the bulls.

Internet bidding will only be available for the female sale. If you are unable to attend the bull sale and would like to place a bid, please contact Topp Herefords or any of the authorized marketing agents listed in the catalog.

TH Bull Delivery

Within 300 miles – FREE

300-400 miles: \$75/bull

400-500 miles: \$125/bull

500 and over: \$175/bull

Free delivery on three or more bulls regardless of distance. We will also be offering \$50 per head rebate if you take your bull home on sale day. Topp Herefords will either deliver your bulls personally or we will work with reputable trucking firms. TH will make every effort to deliver bulls within 20 days after the sale. Bulls will be dropped at central delivery points that will be determined shortly after the sale. If you would like to have your bull delivered, please be sure to leave both a home and cell number with the clerking staff to ensure that we can reach you for delivery arrangements.

Guarantee

Bull calves will be guaranteed breeders. If failing to be satisfactory, they must be reported to TH by August 1, 2015. Each animal becomes the responsibility of the purchaser as soon as sold. REPLACEMENT bulls will be located at TH or you can choose to receive 100% credit.

Wintering

We will winter your bull for a fee of \$3.00/head/day to be paid when the bulls are delivered. Please be prepared to choose one of the following delivery dates when arranging to have your bulls wintered: April 15, May 1st and May 15. All bulls wintered must be insured.

Genetic Defects

All bulls have been tested for known genetic defects and results are listed in the catalog. No further claims for any unknown defects are the responsibility of TH as of Dec. 1, 2014. Feel free to contact Topp Herefords or any of the sale staff with questions.

Cattle Viewing

A great benefit to having the sale here at the ranch. Gates will be open to view all the cow families at the ranch. Contact TH personnel to arrange a tour.

Insurance

Insurance will be available at the clerk's desk. We strongly recommend insurance. Any bulls wintered at the TH facility must be insured.

701-652-3131, Fax 701-652-2151

Deadline to reserve: January 20th

LT PREMIUM

HEIFER SOURCING PROGRAM

LT Premium LLC is a company introduced at the 2014 Topp Herefords sale. It is a collaborative effort of the Lerwick family of Southeast Wyoming, Y6 Feeders and the Petsch family of Meridan, Wyoming, and Topp Herefords and their customers.

The synergistic enhancement of returns to all participants captures the benefits of crossbreeding and specialization efficiencies. The genetic advantages developed by Topp Herefords applied to quality herds produces excellent F1 females. The expertise and facilities of Y6 Feeders and the surrounding grasslands accommodate the efficient development of these heifers for sale to terminal cross beef producers and the return of purebred replacement stock to the F1 producers.

The first year of the program enjoyed the tremendous optimism of the beef industry and the accompanying profitability that will allow for growth. Bred heifers were sold to producers from North Carolina through Missouri to Oregon and Texas through Nebraska to the Dakotas .

Quality and integrity will always be the foundation of the program as it grows. It is modeled after 40 years of crossbred beef production in the Lerwick programs and their cooperator herds. We are all appreciative of the relationships being developed and look forward to enhanced thinking, driving the program towards more efficient and profitable U.S. beef production.

Thank you for your interest and help!

"I have been a Rancher for thirty-eight years and I have bought bulls from several cattle producers. I have never had a producer work as hard for me as Topp Herefords has.

Not only selecting the right bulls, but the marketing tools they have built for my cattle, has majorly increased my bottom line."

— RANDY H., NORTH DAKOTA PRODUCER
