Wicks Cattle Sale Offering

Welcome to the Wicks cattle 14th annual sale. We would like to thank you for your past support and continued interest in our program. We are honored to be in the cattle business and meeting your seed stock needs. As we are writing this, we are realizing it has been quite a year in regard to the market and the weather. Who would have thought that an over-abundance of rain would cause so many challenges for all of us. The calves weaned off exceptionally heavy and we are grateful for fresh water and green grass.

As the ag industry holds many challenges for the cattle people, it is our goal as seed stock producers to make the best product available for your consideration. As the market reports show they are wanting heavier calves, the power of heterosis and cross breeding can help you achieve that by adding SimAngus™ to your program or supplementing your current SimAngus™ herd. In this years' offering there will be 50 black bulls and 10 red bulls for your appraisal. There will also be approximately 40 SimAngus™ open heifers that are sister mates to the bull offering. These heifers have been bangs vaccinated, preg checked and given PregGaurd.

For your convenience we will sell on video, on our big screen TV's in our heated WIX barn. Prior to the sale you can visit www.wickscattle.com for videos and information on each bull. Again, we will incorporate online bidding using The Livestock Link to make online bidding possible. If you have any questions on the offering please feel to call myself, Zane, or any of the other sale consultants and we will be happy to help. Please see the next page for phone numbers and more information on The livestock link.

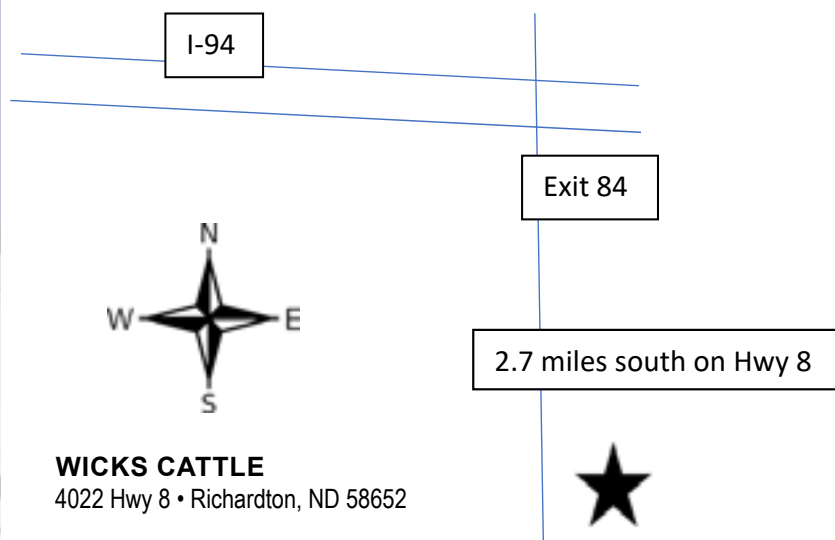

Stay connected with us on Facebook under Wicks Cattle, or visit our website www.wickscattle.com.

We hope to see you Monday February 3, 2020 for our 14th annual bull sale.

God Bless,

Zane, Mary Jo, Josie, and Mya Wicks

See you at the Sale!

40 HEAD OF OPEN SIMANGUS™ HEIFERS

These heifers are sister mates to the bull sale offering. The heifers were worked on 12-23-19. They were preg. checked and bangs vaccinated. They also had their preg. guard shot. These heifers are ready to breed when the time comes. All the work is done. The average weight on the heifers was 724 pounds on 12-23-19. The heifers were running out on cover crop and millet fields with no grain. They aren't pampered or pushed. They have been penned up in the feedlot since 12-24-19 being fed hay and eight pounds of grain daily. Don't miss out on this opportunity to buy a great set of females right out of the heart of the herd. Heifers will be sired by United, 6 Shooter, Tradition, Classic, Western Cut, and Bemer. **They will be sorted into two weight groups**
