2022 Private Treaty Bull Sale

Videos and More Info at
BehmPolledHerefords.com

Welcome to our 2022 private treaty bull sale

As everyone in the cattle business knows 2021 was a trying year to say the least. A lot of cattle were sold earlier than usual and many producers' cow herds have shrunk. We are hopeful 2022 will be a better year with ample moisture. We were fortunate to make it through with early weaning and were able to access area farmers' failed crops to put up feed and have extra fall grazing options. We are very thankful for our great neighbors. All our calves are raised on their mother's milk and grass with no creep. The bulls were weaned the 14th of September with the weaning weights lighter than normal due to the drought. They have been gaining well, with the group averaging 2.85lbs/day of gain. They haven't been pushed for maximum gain as we want them to remain sound and in good shape to go out and work for you come breeding season.

This is a balanced set of bulls that are very uniform in their kind. They have the ability to sire heavy steers and a maternal set of females. All bulls will pass a breeding soundness exam before they leave the ranch. We will feed the bulls for free until April and will deliver them at no charge.

You are welcome to the ranch anytime to look over the bulls. The bulls are for sale on a first come first serve basis. Videos will be on our website behmpolledherefords.com and thelivestocklink.com. If you have any questions on the bulls please reach out as we will get you all the info we can to help make your bull selection as easy as possible. We always like to visit with customers new and old and enjoy talking cattle.

*Thank you,
Larry and Logan Behm*

Guarantee

All bulls will be guaranteed fertile and sound breeders before we deliver them. Should an injury or fertility problem arise in the first 60 days after turnout we will get you a bull to replace him until his long term soundness can be determined. If the bull is deemed unsuitable to return to breeding service by a veterinarian, we will offer credit towards purchase of a new bull. The calculation for credit is as follows (purchase price - salvage value = credit). This is only available on bulls selling for \$3,000 or more. Death will not be covered as that is insurable.

Bred Heifers For Sale

Fall of 2022

F1 Black Baldy Bred Heifers for sale the fall of 2022. We will have around 70 F1 heifers for sale starting the first of November.

They will be AI'd to S Architect 9501 from Genex and Spickler Ranch North for a March 8th calving date and will be cleaned up with Angus bulls for 45 days. All heifers will be ultrasounded to determine calving dates.

Call Logan for more info:
