

BOWMAN RANCH

2022 **Angus Bull Sale**

February 10th, 2022

1p.m. MST

*Selling 28 Angus bulls at the
ranch 1 mile south of Rhame*

Eric and Andrea
Dillon, Livia, and Grayson Bowman

8301 158th Ave SW
Rhame, ND 58651

ph 701-279-6795
Eric's cell 701-440-0278
Dillon's cell 701-440-9774

Cattlemen,

Bowman Ranch is happy to announce and invite you to our annual production sale, Thursday, February 10th, 2022 at the ranch 1 mile south of Rhame, ND. The quality runs deep in the 28 bulls selected for this year's sale. These bulls represent the top 35% of the bulls born on our ranch. They are thick, deep sided, and have as good of disposition as you'll find.

As I write this letter, it is cold and snowing. After an extremely hot and dry 2021, the snow is a welcome sight. It gives me optimism for more moisture in 2022. I believe that cattle industry in our region has a lot to be optimistic about the next few years. Cattle numbers are down and demand for beef should explode if we can get over the Covid hump. When the moisture supply is replenished, I feel there will be excellent demand for feeder calves and even more so for high quality females. Our operation continues to focus on producing these high quality females. Going through a year like 2021 emphasizes the value of an easy fleshing cow capable of raising a heavy calf and breeding back on time with extremely limited resources. We do not creep feed and these cows were able to wean off the sale bulls with an average adjusted 205 day weight of 738 lbs. Weaning weights were taken a month earlier than normal on, 9-14-21.

The bulls have once again been DNA tested and parent verified using the HD50K test from Zoetis. Genomic enhanced EPDs increase the accuracy of each EPD to the equivalent of having 10-36 progeny on record. The Livestock Link will offer online bidding if you are unable to attend the sale. Videos of the bulls will be available for viewing before the sale on their website:
<https://www.thelivestocklink.com/>.

We want to thank all of our past customers for your support of our operation and look forward to welcoming new ones. We value the relationships we have developed with each of you. We would love to show you the bulls prior to sale day and would encourage you to do so. We look forward to visiting with each of you.

Please join us for lunch beginning at 11:30 a.m. on sale day Thursday, February 10, 2022 .

Sincerely,
Eric & Andrea Bowman and Family

The **Livestock**
Link

Livestock Videoing • Video Sales
Bid-by-Click Online Sales

Sale Format:

We will once again be hosting a video auction bull sale. Scott Weishaar will serve as our auctioneer. We want everyone to be aware that bulls will not go through a sale ring. A video of each bull will be playing on a screen while he is selling. Bidding will also be available online through The Livestock Link. Sale bulls will be penned nearby our sale facility for easy viewing. Please allow yourself adequate time to inspect the bulls prior to the sale. We will be happy to assist you in any way we can. You are welcome to view the bulls anytime prior to the sale at the ranch.

Sale Location:

At the ranch one mile south of Rhame, ND in the former Trotter's Construction Building.

Auctioneer:

Scott Weishaar 701-872-5299(h)
 701-426-6826(c)

Delivery:

Bowman Ranch will deliver bulls for free within 300 miles of Rhame beginning April 1, 2022.

Breeding Soundness:

Each bull will have passed a breeding soundness exam performed by Fallon County Vet Service prior to delivery.

Liability:

All persons who attend the sale do so at their own risk. Bowman Ranch assumes no liability for accidents or injuries that occur on the sale premises.

Herd Health:

All bulls were vaccinated with InForce 3 and Vision 7 in the spring of 2021. At preconditioning they received BoviShield One Shot and Vision 7 Somnous. Bovishield Gold 5 and Vision 7 Somnous were boosted at weaning. In the feedlot, bulls were given Multi-Min 90, vaccinated with Fusoguard for footrot, wormed with Synantic, and poured for lice with Clean Up II. All bulls selling are free of any known genetic defects.

Bull Development:

Bulls are developed on a high roughage ration right here on the ranch.

The ration consists of chopped grass, alfalfa, and wheat hay, corn, dry distillers, and a vitamin-mineral supplement. We target around 3 pounds of daily gain to ensure a bull ready to go to work breeding cows.

+48	+31	+45	+48	+38	+62	+123

193 should make fantastic daughters. His mother is my favorite cow on the ranch that raises a good one every year.

Bid Online!
If you are unable to attend the sale, you can register to watch or bid online through The Livestock Link by following these instructions:

- Visit our website, www.thelivestocklink.com
- Click the "Auctions" tab
- Enter your e-mail address and password, and fill out all your contact information
- Fill out your Banking Information. If you are only viewing the sale and do not wish to bid, this information can be left blank.
- Check the checkbox at the bottom of the page that says "I'm not a robot" to prove you are a real person
- Click "Register" at the bottom of the page
- You will receive an email with a link to activate your account.
- **Please register to bid at least 24 hours in advance of the sale.**
- Contact Aaron Friedt at (701) 590-9597 for help or with any questions.

You will receive an email when you are approved for bidding. All applications will be reviewed and processed promptly. You will receive a bidder number only after you have made a purchase in the sale, and that number will only be used at that sale. When the sale is completed, please contact the sale owner or manager for instructions of payment and delivery of your purchase.

To use our service, you must have access to High Speed Internet.

WHY WE TEST WITH HD50K™ FROM ZOETIS

Powered by HD50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're confident that customers like you can minimize risk in their investment — and enhance the productivity of your cattle.

The benefits of buying HD50K-tested bulls and heifers goes beyond added accuracy for the complete range of traits for more productive daughters and progeny. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. You can also match the HD50K tested sires you buy from us to replacement heifers — through GeneMax Advantage™ — to make better-informed breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with HD50K.

For more information: Contact your Zoetis representative
Call Zoetis customer service at 877-233-3362
