300 F1 Baldy Heifer Calves  
6 Registered Hereford Heifer Calves

# Durbin Creek Ranch Annual Bull Sale

Wednesday, February 5, 2025  
1:00 pm mst

1310 Lane 12, Worland WY (307) 347-9201

Neighbors and friends,

Welcome back to the Durbin Creek program and thank you for your continued interest. As a family we feel incredibly blessed to make a living off the land and working side by side. Without you, our customers, it would not be possible. Our goal at DCR is to produce cattle that thrive in the adverse conditions of the Inter-Mountain Region with few extra inputs. It is always the optimums versus the maximums that keep us in business. In the last 10 months we have seen calf prices that are exciting to say the least. However, every input that the cowherd takes has significantly increased as well. Balance is the key!

Over the years, we have not only retained ownership on our home raised cattle, but also purchased many of our bull customer's calves. This has allowed us the opportunity to collect feedlot and carcass data on large groups of DCR bred calves; and it is reassuring to see the numbers. The cattle harvested in 2022 gained well over 4 lbs. a day with finish weights over 1,600 lbs. Couple that with choice and prime carcasses that hit the high 90 percentile, we feel that we are moving in the right direction with our third phase traits. For the first time we are finishing a large set of DCR bred cattle here at Washakie Feeders. The process has been a learning experience. I can guarantee you no other operation works harder to give you more marketing options, or to put you closer to value added programs. Visit with one of the crew about how we can help you, whether it is marketing calves, developing heifers or finishing fats.

This is an extremely deep and powerful set of bulls from top to bottom that excel in the traits important to the Inter-Mountain cattleman. They should sire calves that generate dollars from birth until they hit the rail. This is your opportunity to get into the largest set of PAP tested 2 year old bulls in the breed, out of a cowherd that works every day at higher elevations and in tough conditions. It's not a gimmick to us; it's a way of life!

The F1 baldy females are once again a product of our customer's programs and are sired exclusively by DCR bulls. Producers that purchase them continue to be impressed with the mother cows that they make. If you are considering using Hereford bulls, I challenge you to come take a look at them. Once again thank you and we would love to see you at the sale!

In Christ Love,  
The Agar Family

For questions about the bulls,  
please contact Wyatt Agar  
(307) 921-8825 or email at

Bulls will be  
available for viewing  
all day Tuesday and  
Wednesday.

## What is PAP

PAP (Brisket Disease) in cattle is physiologically known as bovine pulmonary hypertension and is problematic in calves raised at altitudes over 6,000 ft. The average pressure within the pulmonary artery is the pulmonary arterial pressure (PAP) value that producers at high altitude should consider when selecting sires for their herd. Since PAP is a moderately to highly heritable trait (~40%), it's an indicator trait that can be used to minimize the risk of brisket disease.

## EPD Explanation

CED - Calving Ease Direct

BW - Birth Weight

WW - Weaning Weight

YW - Yearling Weight

SC - Scrotal Circumference

MILK

M&G - Milk & Growth

Fat

REA - Rib Eye Area

Marb - Marbling

**Hereford Association Average for 2017**  
CED 3.2 BW 2.7 WW 55 YW 88 SC 1.0  
MILK 26 M&G 54 Fat .053 REA .6 Marb .14

**EPD's were current as of December 5, 2024.**

**TERMS & CONDITIONS:** Terms of the sale are cash or check. Every animal becomes the property of the buyer directly after the animal has been sold.

**BULL DEVELOPMENT:** Bulls are run in a commercial environment beside their mothers on native forage until weaning. After weaning, they are developed on hay and light grain ration through the winter, and then returned to forage as yearlings. They have been ran outside in large pastures since.

**BULL FEEDING:** Arrangements can be made for bulls to be returned to Washakie Feeders and put on feed. Bulls will be kept in the contemporary group they were in here at DCR. The bulls risk will be incurred by the buyer, insurance options will be available sale day.

**BULL GUARANTEE:** All bulls have passed a semen test and a breeding soundness evaluation by 2 independent vet clinics prior to the sale. To ensure your investment, DCR will guarantee all bulls selling against breeding injury and to be sound breeders for the first breeding season. Breeding season is defined as a 90 day period following the first turn out of the bull. If a problem should arise, contact us prior to the salvage of the bull, options will be discussed and a credit of the bull's purchase value minus salvage value will be given in an upcoming sale. Please notify us as soon as the problem or injury occurs. No claims will be accepted after September 1st.

**HEIFER DEVELOPMENT:** Arrangements can be made to return heifers to Washakie Feeders to be developed and AI'd to the bull of your choice, including any of the DCR calving ease bulls. Costs can be negotiated between the buyer, the lot, and DCR after the sale.

**DELIVERY:** Free delivery to central locations in the Wyoming area. Delivery arrangements can be made to other states after the sale. If you pick up your bull sale day you will get a \$50 rebate.

**LIABILITY:** All persons who attend the sale do so at their own risk. The owners and sale barn assume no liability.

## Interpreting PAP

- **Up to 41:** Considered an excellent score for any animal more than 12 months. Ideal for high altitudes.
- **PAP 41-45:** An acceptable range for animals greater than 16 months. Adequate for high altitudes.
- **PAP 45-48:** An acceptable range for only older animals that have been in high elevations for an extended period of time. Younger animals may become problematic at high altitudes.
- **Pap Greater than 49:** Animals scoring in this range must be considered high-risk at altitude, not only for themselves but offspring.

**DCR not only retains ownership in our home-raised cattle, but also purchase many of our bull customers' calves. The aquisition of Washakie Feeders has allowed us the opportunity to collect feedlot and carcass data on larger groups of DCR-bred calves. Few other operations offer a direct link to value added markets. We want to work with you!**

**Feed data on 525 head of DCR-sired steers on 2/20/2022.**

- 203 days on feed
- 4.28 lb./day gained
- 5.86 dry matter conversion
- 98% Choice or better
- Cattle fed for \$1.025/lb. gained when the average cost nationally was around \$1.25.

### F1 Baldy Females

- At DCR/Washakie Feeders we develop, AI and market large groups of F1 females sired by DCR bulls as well as solid black heifers for operations looking to produce solid F1 calves. Give us a call to see how we can help you.

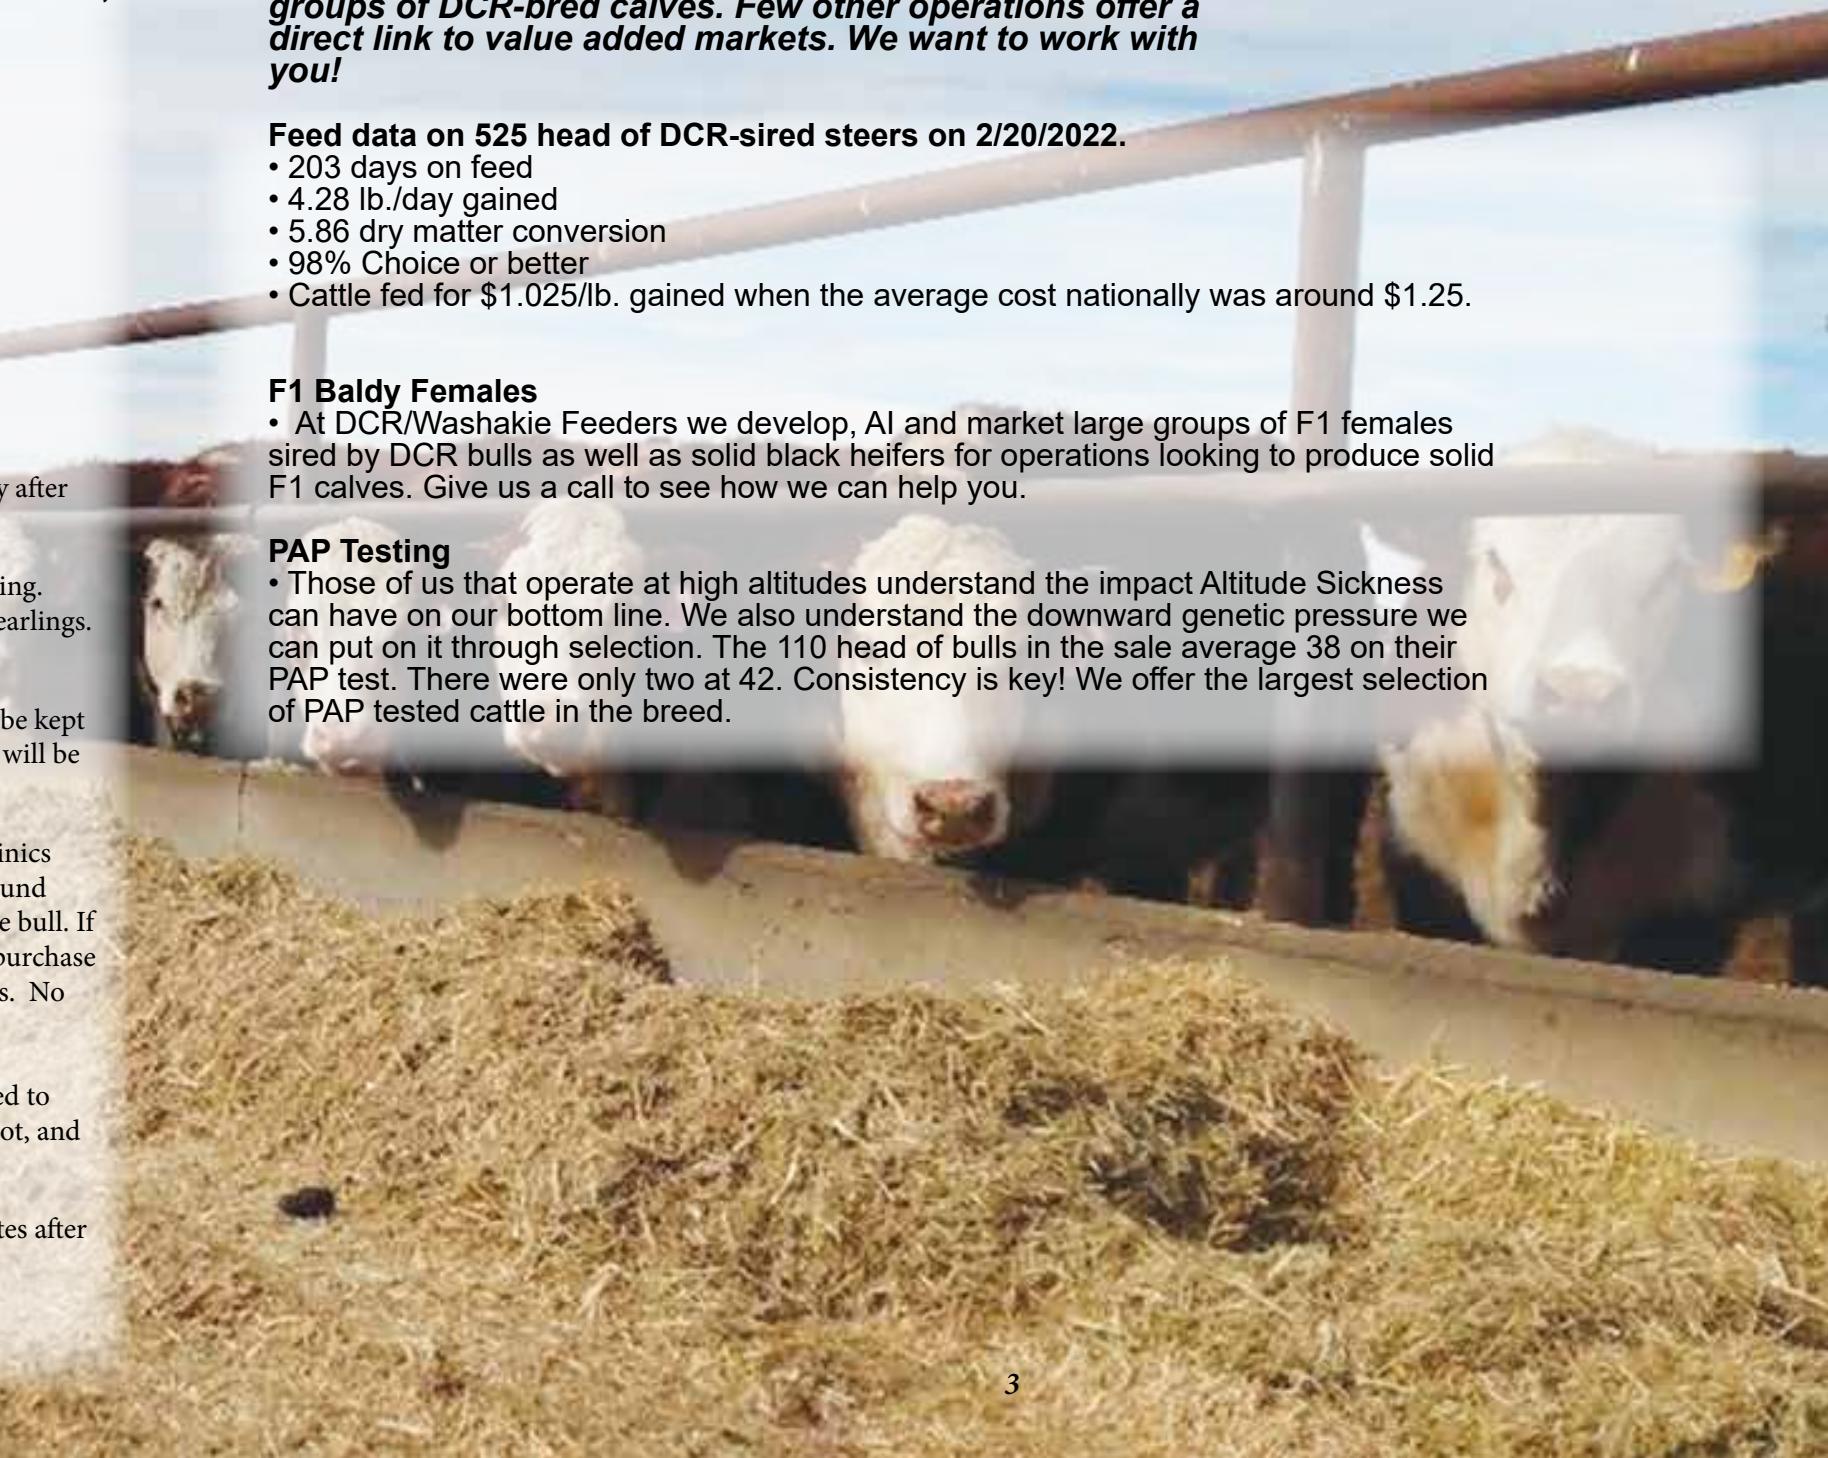

### PAP Testing

- Those of us that operate at high altitudes understand the impact Altitude Sickness can have on our bottom line. We also understand the downward genetic pressure we can put on it through selection. The 110 head of bulls in the sale average 38 on their PAP test. There were only two at 42. Consistency is key! We offer the largest selection of PAP tested cattle in the breed.

## Buying a DCR bull is just the beginning!

Let us help you with your marketing options through Washakie Feeders and our buyer base.

- Calf marketing with the ability to get performance data back.
- Back grounding and retained ownership — facilitating finishing options if desired.
- Heifer development with breeding options

Come join us at our second  
**Cattlemans Summit**

**February 4**

**6:00**

**Green Hills Restaurant & Bar**  
**1455 Airport Rd.**

**Durbin Creek Ranch and Anipro Supplements** are teaming up to offer cattleman an opportunity to learn more about the Agriculture business we love. Held in conjunction with our pre-sale dinner.

**The Following Speakers will be Speaking:**

**Colton Oney- Anipro Supplements**

**-The Importance of Heifer Development**

**Dinner Starts at 6:00**

**Speakers will follow the dinner.**

Amy Landrus  
Contract Sales Representative  
Powell, WY  
Mobile: (307) 254 - 1454

- Liquid Supplements
- Low Moisture Cooked Tubs
- Weatherized Mineral
- Confined Feed Balancers

We would like to thank Anipro for sponsoring the pre-sale dinner.

BID FROM  
**ANYWHERE**

with **LiveAg**  
PUREBRED

**1. VISIT LIVE-AG.COM**

Navigate to the "Purebred" tab, located in the main menu. Select the auction of choice.

**2. LOG IN / CREATE AN ACCOUNT**

Select the "Login or Create an Account" button. Fill out the required fields to bid online. Agree to the terms of service, and finish with the "Register" button. An account is not necessary to watch an auction.

**3. REGISTER TO BID**

Once logged in, find your sale of choice and click "Register to Bid". Agree to the terms and conditions, and click the "Register" button. Your request will be approved in a timely manner.

**\* CALL OUR TEAM WITH ANY QUESTIONS**

We're dedicated to ensuring you have a positive bidding experience. Please call 817-533-6699 with any questions.

Checks Every Box!

Welcome to the 13th Annual DCR Bull Sale! Whether you are new to DCR or you are one of our many repeat buyers, we know you'll appreciate what this Endure 8128 son brings to the table. Study him from every angle and you'll like what you see. A powerful moderate frame, smooth stride, deep ribbed with tons of length, wide sprung and desirable pigment. Numbers say he can do it all! A true calving ease spread bull that will sire front end females and steers that will grade with the best of them. Cap that off with a dam that is one of the very best females ever raised at DCR, this bull is the real deal herd bull prospect!

Another great herd bull prospect! In a little bigger package, this bull offers all the same great qualities as the one just before! Consider him if you want to add more substance and early growth without sacrificing any calving ease.

Need more carcass in your steers? This bull ranks near the top of the breed for all the major carcass traits, and being out of one of the cornerstone dams at DCR, rest assured the females he sires will work regardless of the program or environment. Dam is the result of one of the best flushes ever done at DCR!

Pure Power!

9248 Was a standout from the 2021 Bull Sale. We were lucky enough to negotiate a collection on the bull and some walking rights after the sale. This set of bulls shows why we are using him heavy.

No doubt you'll find this stud in the pens! A great representation of what you can expect in the Reset 9248 cattle now and in the future, pure power! An impressive individual that is about as deep and wide topped as you can make a bull. Loads of bone with clean movement of foot. Out of a great 199B Cowboss daughter. We think this guy has loads of potential and we are confident you will too!

Looking through the catalog and going through the bulls you'll likely have a consistent word going through your head in looking at the Reset 9248 sons, power! And this bull might be the most powerful of them all! Out of a proven Bar Pipe cow, feel confident knowing this is a cross that works! Take this herd bull home to some big country and let that powerful frame go to work siring you calves that will produce in any circumstance. Maternal brother to sire 1198!

A new sire group here at DCR and we are confident you'll find lots to like. This bull brings a lot of muscle to an economically powerful frame. Very free moving and strong made with great pigment. He will add lots of early growth to your program and checks all the carcass boxes. Used on heifers at DCR this summer.

A powerful designed young sire that we walked on the yearling heifers this year at DCR. 3002 comes from a great cow family that offer lots of maternal stayability and longevity.

### Powerful Payweight, Guaranteed Maternal!

Sometimes numbers don't tell the whole story. Whenever you walk through the pens of bulls and start sorting rugged, stout, cowboy type bulls you will end up with more 7237 sons in your pen than not. Yet when you study the females in his pedigree every one stayed in production past 10. These are cattle designed for the rancher that still has to pay the bills.

Buy the program!

A perfect example of what you can expect from the Trust 7237, balanced, powerful, and made to last. Crossed on one of the best Manhattan 428B daughters ever raised here, this bull is made to succeed in the intermountain region. A deep ribbed, soggy made bull that will make phenomenal females that will stay in the herd for years and steers that will grow and hang efficiently.

Like pigment? This bull has as much pigment as any Hereford bull you'll see, cross him on some Angus cows and enjoy the unique baldy faces and solid hided calves he'll give you.

Another really great Trust 7237 son! Moderate and powerful! Tons of fleshing ability with lots of ribs and a big hind quarter, along with a really balanced set of EPD's. This bull will make cattle that will work in almost any environment.

### Efficacy Matters!

An easy fleshing, economic driven sire. Possesses the unique ability to produce females that thrive and steers that excel in the 3rd phase.

Another new sire group for us and another standout individual! These 4013 "Big Sky" are sure impressing us so far and this stud is at the top of that list. His cow is another great Manhattan 428B daughter from the Ella cow family. That certainly gives him a solid foundation. This is a long made bull with a lot of hip and hind quarter and a ton of muscle. Check out his numbers and you'll love the balance this bull offers to make him very versatile in any program. Lots of early growth, efficient maternal numbers, and top tier carcass performance!

**DCR 428B Manhattan 0068** was retained in our program for his big early performance curve. You will search long and hard to find a bull that can sire the type of performance that he does all while maintaining high quality females.

The promise behind every DCR cow-

**NO FRILLS** – Cattle run on native grasses in commercial setting on the high desert.

**NO GIMMICKS** – Cows calve in large pastures (3,000 acres) and do it by themselves or they are eliminated by nature or management.

**NO EXCUSES** – Entire cow families have been eliminated for prolapse, eye, udder, feet and leg or fleshing ability problems for 40 years.

**NO SECOND CHANCES** – Every cow raises a calf, every year, period.

It's Not a Saying, It's a Way of Life!

If you like rugged, strong made bulls with all the muscle you can ask for, then you'll surely love this Manhattan 0068 son! An impressive stud on the ground, but maybe even more impressive is his EPD profile and the early growth he carries on from his sire, ranking in the top 10% of the breed for WW and top 5% for YW!

Scurred

We lost a good cowboy this fall. Clair Pickard (Joey's dad) passed away in his home on November 10. He was always one of Wyatt and Joey's biggest supporters. Not too long after Wyatt and Joey got married,

Clair went to buy some bulls from them. When Wyatt told him the price he said, "you are going to have to start charging more for your bulls you know. You have a family to support."

He and Patti made it to 9 of the 12 past sales. They made it to the very first sale and were so proud of the accomplishments. You would always see him up in the stands with bidder numbers and his catalog, doing what he could to help out. One of his favorite things was to listen to Wyatt and Joey visit about the sale afterwards. He will be greatly missed.

A 199B grandson we used on first calf heifers. Calves came easy and had tons of vigor.  
 Dam is the great 8166 donor cow. Great cow family in a very appealing package!

Last bull in the offering, and we saved one of the best! A Manhattan 0018 son that has herd bull stamped all over him! Phenotypically a very attractive bull, yet made to be economical with loads of performance! Deep ribbed and shaped stylishly from top to bottom! His numbers show the balance he will bring to your program, especially if crossed on a good set of Angus cows, he will make some phenomenal baldy females with that BMI score!

## Washakie Feeders

805 HWY 16 E  
 Worland, Wy 82401

**A division of Durbin Creek Ranch  
 Owned and Operated by the Agar Family**

Washakie Feeders is a family-owned division of Durbin Creek Ranch. The Agar family operate and work daily at the feedlot. We hire the best pen riding and feed crews available in central Wyoming. Come by and meet the crew and see if we can help you with your future needs!

- Calf Marketing - Simply let us know when and where your calves are selling, if they are sired by Durbin Creek Ranch bulls, we will be there with our buyers group. If not, let us broker a deal for you.
- Back grounding and retained ownership - Put Washakie Feeders to work for you, by backgrounding your calves. We can put them on our show list to be in front of buyers or help arrange finishing options with the finishing lots we work with.
- Heifer development - Let us develop your high-quality females and either prepare them to return to your ranch to be productive cows or market them in an extremely hot baldy female market.

\* If you are in the area, take advantage of the Washakie Feeders Truck Washout located on the hill above the feedlot.

# F1 Baldy Heifer Calves Sired by DCR Bulls

## Why the Baldy Advantage

- ◆ A 7% advantage in conception rate
- ◆ 51% more per cow per year
- ◆ Improve disposition & handling ability
- ◆ Increase value of females
- ◆ Data based on the Circle A Ranch Heterosis Project beginning in 2007, conducted by Circle A Angus Ranch.

Heifers will be penned in groups of 25  
Selling in groups of 5 with a run on the pen if desired.

Russel and Sheila Kilts, with their daughter Sierra, from 2K Cattle Company have been buying bulls from Durbin Creek since 2021. They also have been selling heifers in our sale since then. Russ and Sheila choose deep ribbed, thick topped bulls to go on their black cows. It shows in their heifer calves. They are the kind that will be great cows in any desert or meadows.

Their cattle run outside year round on the Southern end of the Big Horn Mountains. They are the using kind that you can take home and build a program with.

## Selling 150 head

The McNeel heifers come from the family's ranch which is on Cottonwood Creek, 15 miles north of Big Piney, Wyoming. The ranch and range land sit just above 7,000 feet. Roby McNeel and his wife Kaylee took over the McNeel family ranch in 2011. They have four children under the age of nine, all of which stay busy homeschooling and learning the family business.

The cattle are a moderate set of Black Angus cattle that calve for 45 days starting April 1st. They run on sagebrush rangeland for the first half of the summer then are rotated on a mix of dry, sub-irrigated, and irrigated pasture for the remainder of the year until hay is fed during the winter months when pasture is gone or snowed under. The bull battery is +/- 60% Black Angus and 40% polled Hereford with the Hereford sires from Durbin Creek Ranch. Some of the Durbin Creek bloodlines that have been used are Manhattan 428B, Trust, Domino, Endure, Cowboss and Grit. The Angus influence has been from the Diamond Peak, Lucky 7 &, Teichert Angus and Micheli bulls. The goal has been a moderated black Angus cow that will perform in harsh conditions and raise fleshy steer calves along with maternal, replacement quality, heifer calves, both Angus and baldy.

## Selling 65 head

Jeffery and Cayde Zdziarski, together with their daughter Cedar, are excited to present this impressive group of heifers. These heifers come from commercial black Angus cows known for producing high-quality calves annually. They have been bred to 100% Durbin Creek Bulls (Endure, Cowboss, and Manhattan). Out of a total of 120 cows, these represent all the heifer calves without any sorting. These calves have received pour on all times worked and multiple vaccinations, including Pyramid 5 + Presponse and Bar-Vac 7-way + Somnus in May and September. Additionally, they are all bangs vaccinated, treated with Naselgen and SalidBac in November. Jeffery and Cayde operate their ranch alongside Jeffery's grandparents, continuing a legacy of five generations in their family-owned ranch located near Weston, WY.

A powerhouse Cowboss female out of a cow family we purchased from Brost Land & Cattle in Alberta. A true cow prospect with tons of shape, bone and maternal look.

Born In Wyoming!  
Changing the Breed!

Durbin Creek Ranch  
3292 Grass Creek Rd  
Thermopolis, WY 82443

A photograph showing a large herd of cattle, likely steers, gathered in a fenced enclosure. The cattle are dark-colored with some lighter patches. The background shows a fence line and a cloudy sky.

Thank you for your interest in the  
Durbin Creek Program. We look forward to  
seeing you next year.
