Durbin Creek Ranch Annual Bull Sale

Wednesday, February 4, 2026

1:00 pm MST

1310 Lane 12, Worland WY (307) 347-9201

Valued Customers & friends,

We hope each of you had a blessed fall and are enjoying these unique times in the cow-calf business. Some days feel like a roller coaster ride and only the good Lord knows what the future holds, but we can certainly be thankful for the current demand. I encourage each of you to use this opportunity to invest in your cowherd and take the next step in designing the kind of cattle that work for you. As I write this letter it is the week before Christmas and close to 60 degrees! While it is sure nice now it could make for a long summer next year, but if not easy fleshing cattle never go out of style!

This last year has been an exciting one here at Durbin Creek. Joey and I had the opportunity to buy the seed-stock cow herd from the family and move back to the ranch. While we still enjoy a close working relationship with the rest of the family, for the first time in close to 10 years, we are over-seeing the day to day management of the program. We would like to thank dad and mom for their years of vision, hard work and dedication to the DCR prefix. It has been a blessing to be surrounded by so many family members as we raised our kids. There is no better way to raise a family.

While our time at the Washakie Feeders lot taught us a great deal about how our cattle performed in the 2nd and 3rd phase of beef production, Joey and I are excited to get back to our true passion. Raising functional, productive and eye appealing cattle has been our goal since we married 20 years ago. We look forward to getting to spend more time with you, our customers and learning how we can better serve you. We hope to see you at the pre-sale dinner the night of Feb. 3rd, we plan on providing a night of fellowship and education with our friends from Anipro. Until then!

In Christ Love,

The Agar Family

What is PAP

PAP (Brisket Disease) in cattle is physiologically known as bovine pulmonary hypertension and is problematic in calves raised at altitudes over 6,000 ft. The average pressure within the pulmonary artery is the pulmonary arterial pressure (PAP) value that producers at high altitude should consider when selecting sires for their herd. Since PAP is a moderately to highly heritable trait (~40%), it's an indicator trait that can be used to minimize the risk of brisket disease.

EPD Explanation

CED - Calving Ease Direct
BW - Birth Weight
WW - Weaning Weight
YW - Yearling Weight
SC - Scrotal Circumference
MM - Milk
M&G - Milk & Growth
Fat
REA - Rib Eye Area
Marb - Marbling

Hereford Association Average for 2025
CED 3.5 BW 2.6 WW 56 YW 89 SC 1.0
MILK 26 M&G 54 Fat .021 REA .46 Marb .14

EPD's were current as of December 5, 2025.

Interpreting PAP

- **Up to 41:** Considered an excellent score for any animal more than 12 months. Ideal for high altitudes.
- **PAP 41-45:** An acceptable range for animals greater than 16 months. Adequate for high altitudes.
- **PAP 45-48:** An acceptable range for only older animals that have been in high elevations for an extended period of time. Younger animals may become problematic at high altitudes.
- **Pap Greater than 49:** Animals scoring in this range must be considered high-risk at altitude, not only for themselves but offspring.

DCR not only retains ownership in our home-raised cattle, but also purchase many of our bull customers' calves. The acquisition of Washakie Feeders has allowed us the opportunity to collect feedlot and carcass data on larger groups of DCR-bred calves. Few other operations offer a direct link to value added markets. We want to work with you!

Feed data on 525 head of DCR-sired steers on 2/20/2022.

- 203 days on feed
- 4.28 lb./day gained
- 5.86 dry matter conversion
- 98% Choice or better
- Cattle fed for \$1.025/lb. gained when the average cost nationally was around \$1.25.

F1 Baldy Females

- At DCR/Washakie Feeders we develop, AI and market large groups of F1 females sired by DCR bulls as well as solid black heifers for operations looking to produce solid F1 calves. Give us a call to see how we can help you.

PAP Testing

- Those of us that operate at high altitudes understand the impact Altitude Sickness can have on our bottom line. We also understand the downward genetic pressure we can put on it through selection. The 110 head of bulls in the sale average 38 on their PAP test. There were only two at 42. Consistency is key! We offer the largest selection of PAP tested cattle in the breed.

TERMS & CONDITIONS: Terms of the sale are cash or check. Every animal becomes the property of the buyer directly after the animal has been sold.

BULL DEVELOPMENT: Bulls are run in a commercial environment beside their mothers on native forage until weaning. After weaning, they are developed on hay and light grain ration through the winter, and then returned to forage as yearlings. They have been ran outside in large pastures since.

BULL FEEDING: Arrangements can be made for bulls to be returned to Washakie Feeders.

BULL GUARANTEE: All bulls have passed a semen test and a breeding soundness evaluation by 2 independent vet clinics prior to the sale. To ensure your investment, DCR will guarantee all bulls selling against breeding injury and to be sound breeders for the first breeding season. Breeding season is defined as a 90 day period following the first turn out of the bull. If a problem should arise, contact us prior to the salvage of the bull, options will be discussed and a credit of the bull's purchase value minus salvage value will be given in an upcoming sale. Please notify us as soon as the problem or injury occurs. No claims will be accepted after September 1st.

HEIFER DEVELOPMENT: Arrangements can be made to return heifers to Washakie Feeders to be developed and AI'ed to the bull of your choice, including any of the DCR calving ease bulls. Costs can be negotiated between the buyer, the lot, and DCR after the sale.

DELIVERY: Free delivery to central locations in the Wyoming area. Delivery arrangements can be made to other states after the sale. If you pick up your bull sale day you will get a \$50 rebate.

LIABILITY: All persons who attend the sale do so at their own risk. The owners and sale barn assume no liability.

Buying a DCR bull is just the beginning!

Let us help you with your marketing options through Washakie Feeders and our buyer base.

- Calf marketing with the ability to get performance data back.
- Back grounding and retained ownership — facilitating finishing options if desired.
- Heifer development with breeding options

Come join us at our second Cattlemen's Summit

February 3
6:00

Green Hills Restaurant & Bar
1455 Airport Rd.

Durbin Creek Ranch and Anipro Supplements are teaming up to offer cattlemen an opportunity to learn more about the Agriculture business we love. Held in conjunction with our pre-sale dinner.

The Following Speakers will be Speaking:

Colton Oney - Anipro Supplements

Madi Shults - MERCK

Drew Nielsen - Durbin Creek Herefords

Dinner Starts at 6:00

Speakers will follow the dinner.

Amy Landrus
Contract Sales Representative
Powell, WY
Mobile: (307) 254 - 1454

- Liquid Supplements
- Low Moisture Cooked Tubs
- Weatherized Mineral
- Confined Feed Balancers

We would like to thank Anipro for sponsoring the pre-sale dinner.

BID FROM ANYWHERE

with **LiveAg**
PUREBRED

- 1. VISIT LIVE-AG.COM**
Navigate to the "Purebred" tab, located in the main menu. Select the auction of choice.
 - 2. LOG IN / CREATE AN ACCOUNT**
Select the "Login or Create an Account" button. Fill out the required fields to bid online. Agree to the terms of service, and finish with the "Register" button." An account is not necessary to watch an auction.
 - 3. REGISTER TO BID**
Once logged in, find your sale of choice and click "Register to Bid". Agree to the terms and conditions, and click the "Register" button. Your request will be approved in a timely manner.
- * **CALL OUR TEAM WITH ANY QUESTIONS**
We're dedicated to ensuring you have a positive bidding experience. Please call 817-533-6699 with any questions.

WW: 700
YW: 1200

Aptly named, "Old School", this bull sure has an old school look to him with his rugged bone conformation and masculine features. His power and performance is obvious to the eye from a phenotype standpoint, and he proved that look with his actual data when he mashed the scales down weaning at 700 lbs, and 1200 lbs YW weight after starting at 73 lbs at birth. His EPD numbers will back all that up with WW & YW percentages near the top 15% of the breed. Modern performance meets old school style in this bull.

Studies show Baldy cows return \$90 more per head per year and post a 3.5 percent higher return on assets.

This is a cool bull! Moderate frame but powerful in how he is constructed. Loads of muscle, long in his rib, moves extremely well, and colored up on both eyes in a big way. You can expect lots of growth, marbling, and maternal from this bull.

No doubt everyone will find 4026! An exciting new stud line this year is showcased in this herd bull prospect. Out of an outstanding 1st calf Hfr, this stud has been a star since day one and continued to perform at every benchmark with a huge 735 lbs WW and 1235 YW. This follows right along with what his expected data says, posting a WW in the top 2% and YW in the top 10%. Look at how this bull is put together, powerfully moderate with massive rib and hind quarters, yet athletically fluid in how he moves. We thought enough of this bull to him in our own program covering cows over the summer and we are confident in his ability to go to work in your program, seedstock or commercial.

Another standout 5K Devotion that we think very highly of! This stud is full of dark pigment and power. His dam is a phenomenal 1st calf Hfr that has some tried and true names in her pedigree. Walk through the pens and you can't help but notice how deep the middle is on this bull, powerful in his brisket and hind quarter, and can flat get out and travel for as moderate as he his. If you're looking for a bull to cross on some powerful Angus cows to wean some heavy calves that'll grow, check out his top 10-15% WW & YW. Look at the balance he has in his index numbers with top 20% for BMI & CHB, so he will make some rock star baldy hfr calves and steers that'll perform!

What a tank of a bull! Huge rib and hind quarters yet travels out and goes somewhere. Need to fix some carcass in your cattle? This is a great bull to add to your battery for that. Top 2% CW, top 3% REA, top 8% CHB!

A big, stout bull that is powerful in how he moves that will really catch your eye. His numbers tell the story of the 8128's, calving ease, growth, and 3rd phase performance. Check out this bull if you want to and some carcass quality while still making great baldy females without having to sacrifice any calving issues.

A massive middled bull that is easy to find in the pen! Out of a really good cow that goes back to a 247 daughter that has worked here at DCH for years. What is hard to find is an EPD sheet like his! Top 10% in five different categories and top 20% in 10 categories! This bull checks a lot of boxes.

This 8128 son is a cool dude and really brings a lot to the party. Hits it out of the park when it comes to the antagonism between calving ease and growth, top 20% for CE, BW, WW & YW! Look down the rest of the EPD sheet and you'll see balance between maternal and carcass traits. Add that to his strong muscle shape, wrapped in a dark pigmented package and you have yourself a bull that'll be on everyone's list.

A very attractive bull that will catch your attention! This is a great representation of what you can expect from the Resolute 128D cattle, ample rib and hip shape that are very easy fleshing and out of a proven cow family. Deep middle, wide top, tons of bone and foot with really balanced growth, performance, and maternal. We liked him so much he was walked on cows last season here at the ranch.

Package this bull with the lot before him and you'll have a powerhouse set of bulls started! Out of another great cow family that is proven to produce, and this stud follows right along with what the pedigree says he should be. Powerfully built with loads of muscle and shape and style. Very clean sheath and walks out free and easy. YW, REA, MARB & CHB all in the top 15%!

What an individual! The Resolute cattle have a certain style and look to them, and this bull really captures that. Out of a trusted cow family, rest assured you are buying the Durbin Creek program when considering this stud. Look at his growth at a year, top 10%! Top 15% in REA and CHB!

Pure Power!

9248 Was a standout from the 2021 Bull Sale. We were lucky enough to negotiate a collection on the bull and some walking rights after the sale. This set of bulls shows why we are using him heavy.

This Reset son is one that is easy to find! Big rib and hip shape to this bull. Loaded with muscle and covered in dark pigment! A top performer when it came time to get the measuring stick out with an actual WW of 840lbs and YW of 1340lbs! This stud is sure to add some top end growth and performance into a cowherd!

Like growth and 3rd phase performance? This Houston H086 son absolutely knocks it out of the park! Top 2% for WW & YW and top 15 % for 8 total categories! Even more impressive is what he actually accomplished, weaning at 885lbs at reached 1385lbs at a year!! Ad that to dark pigment and stylish shape and you have yourself a herd bull!

We are in the middle of the sale and this bull may be the best yet! This is a unique bull that we are proud of. A little more frame, yet really easy fleshing and stylish! This bull is out of a really good 1st calf Hfr and has performed well at every stage and his EPD's say those numbers are no mistake. We will be keeping a semen interest in this bull and plan to use him heavily in our program in years to come.

What a burly meat wagon! This True Grit son is built like a truck and

has good performance, especially at a year with a top 20% YW.

Efficiency Matters!
An easy fleshing, economic driven sire. Possesses the unique ability to produce females that thrive and steers that excel in the 3rd phase.

Research shows a \$28 per head reduction in feed costs and a \$51 finishing advantage of a baldy steer compared to an Angus.

The Cowmans Bull!

“Joker” hits all the corners. Phenotypically hard to fault, a big spread bull with solid carcass trails and will make some of the most attractive females you can find. Live data says calves will avg. 75 lbs at birth, wean 20 lbs heavier than their contemporaries, and daughters are being highly sought after across the country in registered and commercial settings.
(Owned with Armstrong Ranch).

Powerful Payweight, Guaranteed Maternal!

Sometimes numbers don't tell the whole story. Whenever you walk through the pens of bulls and start sorting rugged, stout, cowboy type bulls you will end up with more 7237 sons in your pen than not. Yet when you study the females in his pedigree every one stayed in production past 10. These are cattle designed for the rancher that still has to pay the bills.

7220 was a high seller in the 2019 Durbin Creek sale going to Three Bar Ranch in Montana. He has since established himself as a phenomenal sire of baldy females. After talking with Josh about what he was doing for them, we decided to go back and use him. He is doing everything we hoped.

F1 Baldy Heifer Calves Sired by DCR Bulls

Why the Baldy Advantage

- ◆ A 7% advantage in conception rate
- ◆ 51% more per cow per year
- ◆ Improve disposition & handling ability
- ◆ Increase value of females
- ◆ Data based on the Circle A Ranch Heterosis Project beginning in 2007, conducted by Circle A Angus Ranch.

Certified data shows Hereford Influence steers consume 191 lbs less corn during feedlot period. That efficiency reduced total feed use by more than 31 million lbs and saved 1.7 billion gallons of water.

Impacts of Crossbreeding
Harris Heterosis Report

Heifers will be penned in groups of 25
Selling in groups of 5 with a run on the pen if desired.

Russel and Sheila Kilts, with their daughter Sierra, from 2K Cattle Company have been buying bulls from Durbin Creek since 2021. They also have been selling heifers in our sale since then. Russ and Sheila choose deep ribbed, thick topped bulls to go on their black cows. It shows in their heifer calves. They are the kind that will be great cows in any desert or meadows.

Their cattle run outside year round on the Southern end of the Big Horn Mountains. They are the using kind that you can take home and build a program with.

Selling 150 head

The McNeel heifers come from the family's ranch which is on Cottonwood Creek, 15 miles north of Big Piney, Wyoming. The ranch and range land sit just above 7,000 feet. Roby McNeel and his wife Kaylee took over the McNeel family ranch in 2011. They have four children under the age of nine, all of which stay busy homeschooling and learning the family business.

The cattle are a moderate set of Black Angus cattle that calve for 45 days starting April 1st. They run on sagebrush rangeland for the first half of the summer then are rotated on a mix of dry, sub-irrigated, and irrigated pasture for the remainder of the year until hay is fed during the winter months when pasture is gone or snowed under. The bull battery is +/- 60% Black Angus and 40% polled Hereford with the Hereford sires from Durbin Creek Ranch. Some of the Durbin Creek bloodlines that have been used are Manhattan 428B, Trust, Domino, Endure, Cowboss and Grit. The Angus influence has been from the Diamond Peak, Lucky 7 &, Teichert Angus and Micheli bulls. The goal has been a moderated black Angus cow that will perform in harsh conditions and raise fleshy steer calves along with maternal, replacement quality, heifer calves, both Angus and baldy.

Selling 25 head

The promise behind every DCR cow-

NO FRILLS – Cattle run on native grasses in commercial setting on the high desert.

NO GIMMICKS – Cows calve in large pastures (3,000 acres) and do it by themselves or they are eliminated by nature or management.

NO EXCUSES – Entire cow families have been eliminated for prolapse, eye, udder, feet and leg or fleshing ability problems for 40 years.

NO SECOND CHANCES – Every cow raises a calf, every year, period.

It's Not a Saying, Its a Way of Life!

“Tina” is a dark, attractive female out of a power house producer of a cow and the Trust 1168 bull. She is a long, level hipped female who has got all the looks and pieces to thrive in the show ring or as a producer. Her extremely docile demeanor would make her an excellent choice for a youth project.

“Shaniqua” is a beautiful, heavy pigmented heifer sired by the Manhattan 0018 bull, who is one of our favorite heifer bulls. She is out of a daughter of International 8175 who led our pen of bulls in Denver in 2019. She couples a tremendous amount of length and extension with a huge foot and bone structure. We are positive her functional and powerful qualities will fit anyones program.

“Regina” is a dark, cherry colored Dependable daughter who has got all the look and style to catch anyones eye. Her look and style from the side, paired with her square, stout hip makes her an elite show heifer prospect. The Dependable daughters have proven to be freaks in terms of there maternal abilities as production cows.

“Dolly” is stacked with some of the most impactful genetics in our program. She is bold ripped, ultra powerful heifer who has a bright future whether it’s in the show ring or the donor pen. This absolute powerhouse is sired by the popular Deluxe bull and is out of one of our very best Cowboss daughters.
