**Welcome to the Friedt Herefords Production Sale.**

Our family would like to welcome you to our 18th annual production sale on February 12, 2025 at Stockmen's West in Dickinson.

I started this herd with a group of 6 yearling heifers in 1977. It has been a labor of love that has continued to my children and grandchildren. They are all involved in the operation and are dedicated to the improvement of this herd.

We have always taken a balanced approach to raising cattle, stressing performance and carcass quality, while keeping structural correctness and calving ease a top priority.

We continue to improve the udders and teats on our females. Perfection is a goal, but functionality and milk production are just as important. We do not trim feet on our sale bulls for structural or cosmetic reasons. A bull that we purchase that needs his feet trimmed doesn't stay here very long.

We have calves from some new sires that look very good. We continue to bring in the best genetics we find, either by natural service or AI. We continue to use ET on our elite cows to bolster their genetics.

The cattle market is currently at the highest it has been in history. Make no apologies for it. The hard work you, as producers, do day in and day out is being rewarded. The challenges we face with high prices of machinery, fuel, and other inputs still puts a strain on our operations. We must all continue to be more efficient and bring in the best genetics we can afford.

Our guest consignors will again have an outstanding set of yearling F1 BWF heifers and bred Hereford and F1 baldy heifers. Please contact them if you have any questions. We look forward to seeing you ringside on February 12, 2025 at Stockmen's West in Dickinson, ND.

**Videos are now available for viewing on our website. Supplement sheet with final weights and ultrasound data will be available on sale day and on our website prior to the sale.**

## NATIONAL CATTLE EVALUATION TERMS

### EPD — EXPECTED PROGENY DIFFERENCE:

Estimate of a bull or cow's future progeny performance compared to progeny of a breed average sire or dam. EPDs are expressed in actual pounds, plus or minus, for birth, weaning and yearling weights and maternal performance.

### CED — Calving Ease Direct

### BW — Birth Weight

### WW — Weaning Weight

### YW — Yearling Weight

### MILK

### M&G — Milk & Growth

### CEM — Calving Ease Maternal

### FAT — Rib Fat

### REA — Ribeye Area

### Marb (IMF) — Marbling

### CHBS\$ — Certified Hereford Beef Index

### SCROTAL EVALUATION

Age in Months	12-14	15-20	21-30	30 plus
Acceptable Range (cm)	30-35	31-37	32-39	33-40

### SC — SCROTAL CIRCUMFERENCE:

A measure of fertility. Testicle size indicated by scrotal circumference measured in centimeters is a highly heritable trait very much correlated to reproductive efficiency. A valuable indicator of bull fertility and puberty, and highly related to early puberty in heifers and cow fertility, increased bull scrotal circumference should improve fertility and inherent cow herd productivity.

## 2023 HEREFORD BREED EPD AVERAGE

CED	BW	WW	YW	M	M&G	CEM	FAT	REA	MARB	CHBS\$
+3.5	2.6	56	90	27	55	1.6	0.022	0.46	0.15	122

### Catalog by HEREFORD AMERICA

EPDs current as of 1/13/25.

## TERMS & CONDITIONS

All cattle will be sold to the highest bidder without reserve. The terms of the sale will be cash. The auctioneer will settle any dispute as to bids.

Each animal will become the property of the buyer as soon as sold. Cattle will be cared for a reasonable length of time after the sale, at the buyer's risk.

All bulls of breeding age are guaranteed breeders. If an animal fails to breed after a trial of six months, it may be returned to the seller at buyer's expense. The seller reserves the right to try said animal for six months and if it proves a breeder to return it to the station of buyer at seller's expense. If the animal proves to be a non-breeder an equal animal substituted or credit on the purchase of another animal. No adjustments after 9 months.

Herd Health is excellent. Our herd veterinarian is Dr. Travis Kuhlka, DVM 701-400-2953.

Extreme care has been taken in copying each pedigree to avoid errors. We are not to be held responsible for any error which might appear and which is beyond our control in the printing of the catalog.

Everyone attending this sale does so at his own responsibility and risk, and without liability on the part of the owner or his employees.

**Delivery:** \$100 off sale price if picked up on sale day (bulls only). Free delivery within 300 miles. We will cooperate on all deliveries regardless of number of head or distance.

**Heifers:** The registered heifers will be sold individually. The Friedt commercial Hereford heifers high bidder will have the option to take all or gate cut 5 or more.

**Feeding arrangements: Will feed bull calves for free until April 1st.** Incidents resulting in injury or death of a bull prior to delivery will not be the responsibility of Friedt Herefords. This is an insurable risk with coverage offered at the time of the sale. Animals are being cared for by seller are done so at the purchaser's risk. Insurance representatives Troy Bargmann and Katie Eggen will be on hand to provide insurance.

**GE-EPDs:** All yearling sale bulls and registered heifers will have GE EPDs by sale day. They may be different than the EPDs printed in the sale catalog.

1060, purchased from Stuber Ranch in 2021, continues to be a standout herd sire and proven heifer bull. We have used him with great success on our heifers. He has also done an outstanding job when mated to mature cows. His calves come easy and grow quick. His bull calves were top picks in our 2023 production sale. His daughters milk extremely well with neat udders and teats.

765 is an FH Navarro 242 MD son who sold to Terry Friedt in our 2018 production sale. We purchased him back and used him heavily during the 2022 breeding season. He boasts 5 traits in the 25th percentile. His calves are long bodied, heavy muscled, and short marked. The bulls sired by him are easy to spot. He has several daughters we will be keeping as replacements.

1.5	66	105	30	63	.48	.41	141

This Dominator 619D son was our pick from the 2022 Stuber Ranch production sale. His calves have been standouts since birth. They are square hipped, deep ribbed, and attractive from the side profile. They have performed well in the sale pen and continue to be favorites. We have used him on heifers and cows with great success.

 This young calf has a bright future before him. He is sired by a home raised bull and his dam is an ET daughter of the Stuber 553 cow. Dam is a full sister to the 9110 bull at Kniplings and the 033 bull at Melchers. Both bulls were high sellers and have gone to sire sale toppers at both ranches.

## 2-YEAR-OLD BULLS

We are offering a good selection of virgin 2-year-old bulls that were summered on pasture. They are sound on their feet, correct in their structure and not overfed. We use a late February/early March cutoff date for a bull calf to be sold as a yearling.

## 28 UNREGISTERED YEARLING HEIFERS

These heifers come off our registered cows and a few of the best commercial Hereford cows. These calves are sired by pasture sires. Heifers have been pregnancy checked open and breedable. They are Bangs vaccinated and have received one round of Vista 5 VL5.

# WHOA.

## MORE POUNDS. MORE CALVES. MORE PROFIT.

Herefords are known as the efficiency experts for a reason.

Herefords boost pregnancy rates by 7% and add \$30 per head in feedyard profitability in a crossbreeding system.

And Hereford genetics bring unrivaled hybrid vigor, longevity and disposition.

### COME HOME TO HEREFORD.

# THE BALD-FACED TRUTH ABOUT HEREFORD GENETICS

**7%**

Higher pregnancy  
rates

**\$51**

More per cow,  
per year

Hereford genetics maximize the value of your herd by leveraging traits such as fertility, feed efficiency, docility and feedlot profitability to your advantage.

**\$30**

Advantage in feedlot  
profitability

**\$20**

Advantage in feed  
efficiency
