Annual Bull and Female Sale

2 miles West of Geddes, SD

GantHerefords.com

Dear Fellow Cattle Producers,

We are pleased to welcome you to our Annual Bull and Female Sale on Friday, February 28, 2025, at 1pm at 37195 285th Street, just 2 miles West of Geddes, SD, which begins our 111th year of being in the Hereford business.

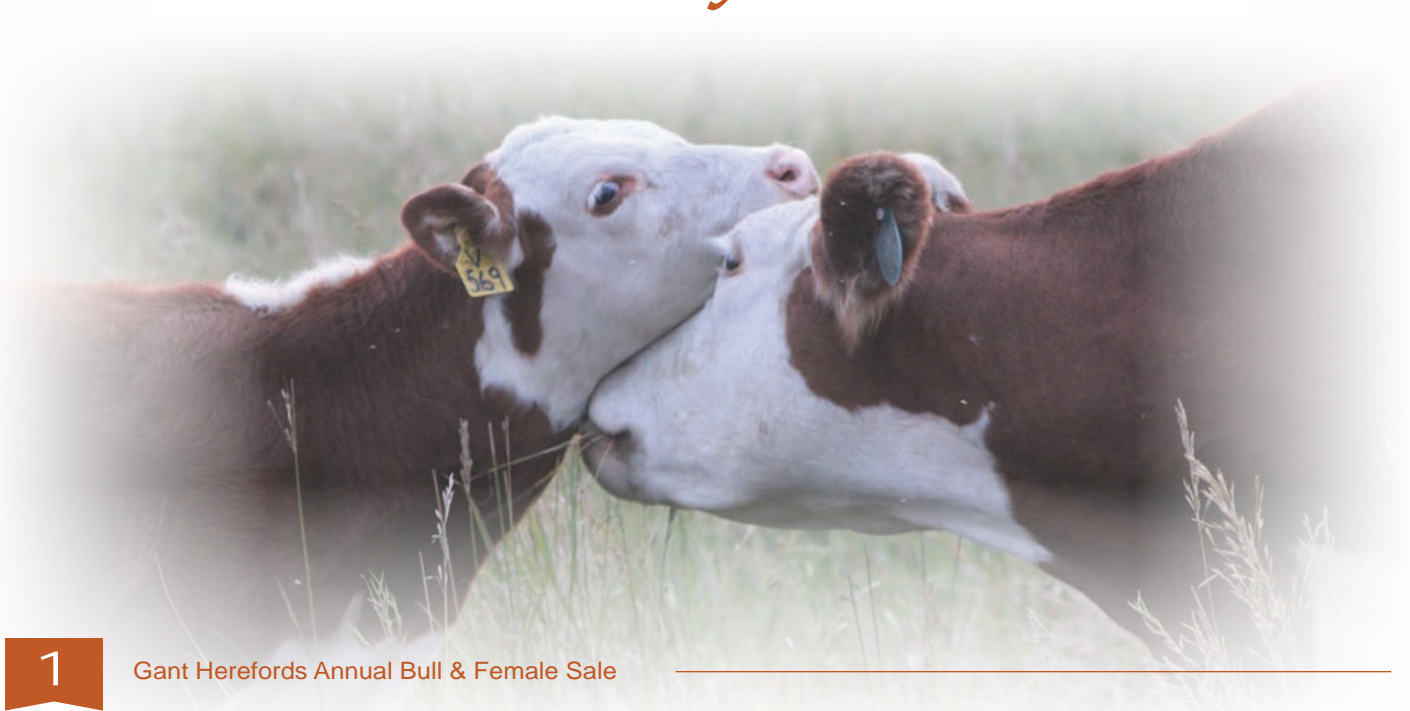

We have sought after and purchased some of the most up to date genetics that the Hereford industry has to offer. Our excitement for what is to come in 2026, 2027, and beyond, is sure to be contagious when you see the next crop of bulls! We strive to raise cattle that are reliable and easy calving, without sacrificing hardiness or weight gain. Our hope is that the quality, affordability, and guarantee will exceed your expectations.

Bulls and bred heifers are available for viewing here at the ranch at any time prior to the sale. Additional information and videos will be available prior to the sale and can be viewed at www.GantHerefords.com.

We hope you can make it on Sale Day Friday, February 28th at 1pm, however if you cannot make it to the sale but would like to purchase a bull or bred heifer, online bidding is available at www.TheLivestockLink.com.

As you may have noticed, we have updated our catalog, website, Facebook, and advertisements, however we will not be altering our desire for outstanding maternal qualities and herd bull sires in the future. We are so grateful for you, our customers, for your continued support along this journey.

The Gant Family

KA-CHING.

MORE POUNDS. MORE CALVES. MORE PROFIT.

Hereford bulls increase net profit by \$51 per cow per year.
 That's \$20,000 in additional revenue for a typical 400-cow outfit, thanks to increased fertility and herd size.
 Herefords are also the efficiency experts, proven to add value to calves in the feedyard — \$30 per head in profitability.
 That's real money and real results.

COME HOME TO HEREFORD.

Hereford Bred Heifers

This fancy group of Bred Hereford Heifers are going to add plenty of value to your herd. They are bred to Gant Enhance 232, a low-birth-weight Angus bull. All heifers were preg checked and are due to calve late March or early April. The heifers were poured last fall and in January they received their two scour shots. We will be selling your choice of one or more of Lots 37-50 which are all Registerable.

Baldy Maternal Index (BMI)

BMI is a maternally focused index that is based on a production system that uses Hereford x Angus cross cows. This index uses sustained Cow Fertility, Weaning Weight, Mature Cow Weight, Milk, Dry Matter Intake, Carcass Weight, Marbling and Rib-eye Area. This index is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial cows.

Certified Hereford Beef Index (CHB)

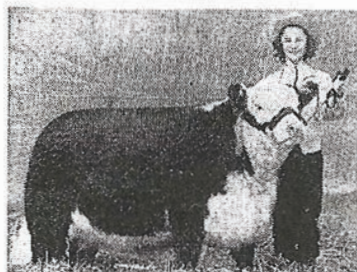

CHB is a terminal sire index that is built on a production system where Hereford bulls are mated to mature commercial Angus cows where all progeny will be targeted for the finishing phase. This index uses Carcass Weight, Marbling, Rib-eye Area, Average Daily Gain, Dry Matter Intake and Backfat.

BATTLE DOMINO 43d

IOWA STATE CHAMPION BULL TO GANT'S

Battle Domino 43d, Grand Champion at Iowa State Polled Hereford Show and Sale, carries very much the same breeding as found in our herd. This fact, plus his thickness and ruggedness in compact championship form, earned him a place on our herd sire battery.
