31	437	38	57	1815

Fall Calving Pairs

Calves were worked in the fall. Wormed with Synanthic, Blackleg, Enforce, and Revacc'd. Cows were preg-checked and all are safe in calf per catalog breeding information.

Spring Calving Pairs

The calves have all been given a Blackleg vaccination and breeding information is correct as stated in the catalog.

Pick of Replacement Heifers

All the spring yearling heifers have been calthood vaccinated and were given two rounds of vaccinations when weaned. We will give Virashield 6 + VL5 in the spring and boost the blackleg again along with worming and pour.
