

GRANZOW & GUSTAFSON HEREFORDS

Inaugural Bull & Female Sale

SATURDAY, MARCH 14, 2026

Gustafson Ranch, Junction City, KS

SELLING:

30 HEREFORD BULLS - HORNED & POLLED

(Spring Yearlings, 18-Month-Olds, 2-Year-Olds)

HEREFORD FEMALES - REGISTERED & COMMERCIAL

(Spring Pairs, Fall 3-in-1 Packages, Replacement Heifers)

BLACK WHITE FACE PAIRS

Welcome

Welcome to our first production sale. For 5 generations our family has been situated in the western Flint Hills of Kansas. We have been raising registered Herefords since 1976 and have been selling private treaty since that time.

We have been friends with the Gustafson family for most of those 50 years and it just seemed like the right thing to do to go together and kick this thing off. Our cattle have always been raised with the commercial producer in mind since that is where we come from. We expect them to perform for us and we think they will do the same for you. For the past several years, we have been feeding out all of the steers and females that don't make replacements. They are marketed through a local locker plant that we have owned an interest in since 1991 and also through Greater Omaha's Hereford 1881 program. It has been a pleasure to meet so many great people through our association with Herefords over the years and we hope to meet many more through this sale venue.

This will be a learning process for us and we look forward to it. Once again, thank you for your interest in our cattle and we hope to serve your needs now and in the future. Feel free to call us any time to talk about the cattle and our operation.

Granzow Family

The Granzow Family. (L to R) son Toby, daughter Toniann Richard, Tom and Mary.

We are proud and excited to invite you to our first production sale at the ranch held in conjunction with our good friends the Granzow's. Nestled in the beautiful Kansas Flint Hills, my Grandfather, Gus Gustafson, began raising registered Herefords on this ranch in 1917 and we have continued to add proven genetics to the herd since 1971.

We have always let our cattle speak for themselves with the understanding they have to perform without pampering in these abrupt hills. We have utilized performance records from the beginning and have consistently been recognized as a Golden Breeder by AHA. We ultrasound every spring and have recently introduced Genomic testing in the herd. In addition, over the years we have participated in numerous AHA feed out programs and have been recognized for top performing steers in the feedlot. We believe the bulls offered in the sale are among our very best and represent our efforts to create uniformity, consistency and predictability in our breeding program. The bulls have been selected for performance traits, thickness, eye pigment, moderate birth weights, carcass data, and maternal strength. The herd is fully managed by our family consisting of myself, wife, daughter and granddaughter, therefore, a breeding priority is a gentle disposition. Our cattle have performed well in the show ring, however, even better in the feedlots and local markets.

Please come look over the cattle at the ranch and join us for lunch. If you are unable to attend in person, we look forward to you joining online.

Gustafson Family

GRANZOW & GUSTAFSON HEREFORDS

Inaugural Bull & Female Sale

SAT., MAR. 14, 2026

Gustafson Ranch, Junction City, KS
7 miles south of I-70 exit 303 (Clark's Creek Rd)

SELLING

30 HEREFORD BULLS - HORNED & POLLED

(Spring Yearlings, 18-Month-Olds, 2-Year-Olds)

HEREFORD FEMALES -

REGISTERED & COMMERCIAL

(Spring Pairs, Fall 3-in-1 Packages, Replacement Heifers)

BLACK WHITE FACE PAIRS

We will be using an online sale format with a Horse Race Style close. This format has been very successful and gives us the chance to best serve our customers. It also allows for people from around the country to bid who may not be able to attend. We know that it will be new to many of you and there is also a learning curve for us. Complete instructions are located on the inside back cover.

The sale is hosted by The Livestock Link and there are three ways to participate:

1. Bid online at www.thelivestocklink.com.
2. By phone with any of our sales representatives.
3. In person at the sale location on March 14, 2026. A representative from The Livestock Link will be present to take bids.

Online bidding will open March 11 at 8:00 CDT and closes Horse Race style at 1:30 pm CDT on March 14, 2026. We will have an Open House on March 14, beginning at 11:00 am with lunch provided. Bulls and females will be on display and on-site bidding will be available.

SALE REPRESENTATIVES

Gus Gustafson: 785-761-6804
Shelbi Gustafson: 785-307-1811
Tom Granzow: 785-466-6790
Tobyn Granzow: 785-466-6438
Marc Hotchkiss: 605-210-1956
Art Handel: 605-391-8233
Oliver Beall, KHA: 785-458-2145

INSURANCE

Markel at Lloyd's, Art Handel, Representative:
605-391-8233

VETERINARIANS

Granzow: Countryside Veterinary Service, Hope, KS
Taylor Green, DVM: 785-366-6587

Gustafson: Town & Country Veterinary, Junction City, KS
Bob Haynes, DVM: 785-762-3901

DELIVERY

Free delivery on purchases of \$5,000 or more within 300 miles. We will cooperate with buyers on any other purchases and will do our best to accommodate you.

GUARANTEE

We offer a first-breeding-season guarantee on all bulls. It will be made with a suitable replacement. Should a problem arise, please notify us right away. All females selling as bred or with calves are assumed to be breeders. The cattle are, to the best of our knowledge, free from any defect or disease. They have all been inspected by a licensed veterinarian.

Cattle will be cared for a reasonable amount of time after the sale. A feed bill will be charged. We strongly suggest that you insure your purchases as mentioned above. We will deduct \$100 on cattle picked up on sale day.

9164 has proven to be all that we had ever hoped for. Great females and sons who pass the traits on. He puts a stamp on everything that says functionality. Here is a chance to invest in the progeny of a truly foundational sire. Owned with Meitler Herefords.

Just getting a good start with 3248 and his progeny, but so far they look to be right for us and right for the times. The calves come easily and grow fast. Plenty of depth and thickness. We can't wait to see how these females work as cows. Your chance to buy some of the first progeny as fall calves and a replacement heifer. Owned with Gustafson Herefords.

314 is a CL 1 Domino 386A 1ET son that has worked well here on heifers and doesn't give any ground on muscle and rib shape or performance. His first sons sell and some replacements look pretty darn sharp as well.

605 has done us a nice job. He is homozygous polled and is adding some depth and rib in our polled cattle. The heifers look like they are going to be good producers and help us continue to improve our polled cattle. His first sons sell this year and there are some nice heifers in our replacements you can pick from as well.

GRANZOW FALL YEARLING BULLS (LOTS 14-22)

Our fall yearling bulls are not creep-fed as calves. They are weaned in late April or early May and then summered on grass until fall with some supplement in the late summer/early fall. Brought in usually in October, they are wintered on grass hay and a 14.5% supplement. They will be BSE tested before the sale and their vaccinations will be up to date. They should be ready to go. We are learning about scurs and have noted them in the footnotes. They have all been DNA Genomically Tested. A supplement sheet will be available online before the sale with updates on weights, BSE and other appropriate information.

Out of 8138 and a very productive 407 daughter, this bull should work in a lot of operations. He is very long-sided and thick as well. His dam, 824, has left a mark here and 8138 sure won't hurt any of that. A maternal sister is in our replacement pen, so you would also have a crack at her on sale day.

This guy is one who just grows on you more and more all the time. Dark red with a little black in his tail and pigment galore. With a little shot of Canadian in him, he has really come on since a yearling and will do someone a lot of good. Thickness and length should make a great set of baldies for sure and maybe in a registered herd as well.

GRANZOW REPLACEMENT HEIFERS (LOT 32)

We will offer the pick of our replacement heifers in the sale. NONE are held back. Here are the heifers to pick from and their registration numbers. Look them up and start making your choice for one now. Only one heifer will be picked from this Lot.

410 should be a great producer wherever she goes. A full brother is serving in the Triple R herd in Kansas. Good uddered females all the way back in this pedigree should be a no-fault deal. Black Brockle face heifer calf at side born unassisted 2/20.

-G 9164 DOMINET 410

GRANZOW FALL PAIRS (LOTS 44-47)

These fall calving pairs are also from the heart of the herd. We feel confident that they will go from here and produce the kind of cattle that the industry needs. Good producing females all the way back and from our top sires. Remember that our calves are not creep-fed and these pairs have been running out just like all the others. They will come on strong when grazing season hits.

159 is another really good 9164 daughter that is out of a very high-producing cow out of CO L1 Domino 106Y. And below that, pretty quick, is our old JA L1 Domino 9217 that worked very well here and in many other herds. That results in a very nice maternal pedigree. She follows that up with her CL 1 Domino 3248 1ET heifer calf that could go on and be a top producer in many herds. Her registration number is 44715635. Sells safe in calf to CL 1 Domino 3248L 1ET.

We really hate to see any of these 9164 daughters leave. They are the foundation of our herd, but sometimes you have to let a few of the really good ones get out there. 259 is a good one. She has two full sisters in the herd and we used a full brother as well. So here you go. Good uddered, extremely feminine, long-sided and productive. As an added benefit, there is a really nice CL 1 Domino 3248 1ET bull calf at her side that will work anywhere. This 3248 on 9164 mating looks to be really good. His registration number is 44715646. Sells safe in calf to CL 1 Domino 3248L 1ET.

258 is another 693D daughter and out of a polled OBH Wrangler 3137D daughter. The 3137 bull is a SOD sire and his females have really kick-started our polled program. Nice uddered, good milk, high fertility, and growth. She has a bull calf born 9/3 out of Mohican Company Man 51J that should catch your eye. His reg. # is P44715645. 258 sells safe in calf to SH Masterplan 605K.

-G 693 DOMINET 356

356 is a really nice first calf heifer out of CO L1 Domino 693D 1ET, a bull that did a great job for us. She goes back to Sensation and 0132X on the bottom side to fortify her maternal side as well. She is milking well and has a nice black brockle face heifer at side that will surely have high value as a commercial female these days. She sells safe in calf to CL 1 Domino 9164G 1ET.

COMMERCIAL PAIRS (LOTS 4-50)

48

2-YR-OLD BALDY PAIRS

COMMERCIAL PAIRS • REG: COMMERCIAL

The 2-year-olds will sell together as a package of one Lot. All the 2-year-olds calved in the middle of February and have Angus-sired heifer calves at side.
