WELCOME...

The Jamison Family welcomes our rancher customers and friends to our annual spring bull sale. You're the heart and soul of our lifelong Hereford seedstock business.

Our program goal continues ...breeding problem-free, performance Hereford genetics. Maternal traits are our #1 priority and we feel the JA cowherd demonstrates that plan. As we strive to produce breeding bulls that are sound, fertile and balanced, our selection stresses calving ease with optimal growth plus fleshing ability and structural soundness. And, we are getting closer to our quest for 100 percent red pigment on every JA bull.

The Line 1 Herefords founded at the Miles City, MT Range Station in 1934 are true, total performance cattle known for maternal excellence and the right balance of calving ease and growth. Basing our program on Line 1 genetics since 1970, ranchers will reap full benefit of heterosis using our linebred bulls with the industry's most proven cross ... Hereford bulls on Black and Red Angus cows. That cow genetically takes the horns off ...and the Hereford-sired Baldie progeny add calf vigor and pay-weight, mother cow fertility and longevity and cowherd and feedlot efficiency that trademark the Whiteface brand.

The bulls are carcass ultrasounded, fertility and BVD-PI tested. Delivery is offered on volume purchases to central points.

Call with your questions ...we like to talk Hereford cattle. And, we'll look forward to seeing you Feb. 23rd.

Gordon Jamison and Family
