Welcome Cattle Producers,

We would like to invite you to the ranch to view the Hereford bulls and F1 Black Baldy replacement females that we will offer in our 66th Annual Production Sale.

We put up a lot of quality hay this year, but the summer turned hot and very dry. We started feeding the bulls in September, due to the pastures drying up. With the cattle market looking good everybody wants a cut of it. Efficiency is the key to a successful operation, so you need to get the most for your dollar. Hereford sired cattle provide efficiency and longevity as well as carcass merit. Hereford bulls provide so many traits that just don't come through on EPD's, like libido, adaptability, fertility, and docility.

Again, this year we will be offering our home raised F1 Black Baldy replacement heifers. These heifers will be the top end and are extremely fancy. They have been through the working chute several times to be screened for disposition. All the twins have been removed. They will be Bangs vaccinated. They will all make excellent brood cows.

This set of bulls is one of the most consistent we have ever offered. There is always room for improvement, and we strive to find seed stock that will help with that. We feel that every bull offered for sale is good enough that we would use it in our operation. In our program, we put an emphasis on quality, trouble-free females with length, muscle, good disposition, sound feet & legs, good hair, excellent bags, and that will raise a quality calf. These bulls are an extension of that program.

We believe bulls that aren't fed hard but have the opportunity to grow will have longevity. The bulls were never creep fed. We feel that not creep feeding allows the best opportunity for evaluating the cows. They were raised on a high roughage ration then turned out on grass for the summer as yearlings.

Our auction will be the same as last year. There will not be a sale order and we will be using a horse race style format. We know that it may be new to some, but we feel that not being restricted by a sale order will benefit our customers. How often have you said, "Who made this sale order anyway?" The bidding will still occur over a several day time frame, which gives our customers more time to compare the bulls. You can come view the bulls at your convenience. If anyone does not feel comfortable with the bidding format, please let us know and we will have help available.

Thank you, The Jerry Knippling Family

Herd Bulls

R 0141 NORTH STAR 50B - #43495965

CED: +2.9 BW: 2.5 WW: 65 YW: 120 M: 43 MG: 76

50B was the top selling bull in Ridder's 2016 sale, out of one of their top cows. He has it all, great carcass, moderate birth weights, great disposition, longevity, exceptional females, explosive growth, and unmatched depth and thickness. Most of all he knows what his job is, siring 45 calves naturally his first year.

R 4067 NORTH STAR 29D (STAR POWER) - #43704582

CED: -5.4 BW: 6.4 WW: 72 YW: 119 M: 35 MG: 71

29D was our pick in Ridder's 2017 sale. 29D is a true POWERHOUSE, siring unmatched depth and muscle. The females look like they will make top end cows. He is going to be a true foundation sire.

R 330A NORTH STAR 4C - #43601439

CED: +1.1 BW: 6.2 WW: 59 YW: 102 M: 36 MG: 66

The top calf in Ridder's 2016 sale. 4C is a Cooper sired bull with about as much length and hind quarter as one can find. Look for more sons in the future.

ECR 2109 DOMINO 7093 - #43850241

CED: +5.4 BW: 1.2 WW: 52 YW: 85 M: 28 MG: 54

A Line 1 bred bull that we bought for a low birth weight option. He definitely did that, siring heifers in the 60s and bulls in the 70s. He has good length and thickness for a heifer bull.

R 4105 NORTH STAR 11E - #43821412

CED: -4.0 BW: 4.1 WW: 56 YW: 92 M: 37 MG: 64

11E was our pick in Ridder's 2018 sale. He sires low birth weight and explosive growth. He has great length, thickness, and a super disposition.

FH 417 ADVANCE 9110 ET - #44065655

CED: +7.3 BW: 1.4 WW: 53 YW: 93 M: 34 MG: 60

The top selling bull from Friedt Herefords 2020 sale. He sires length, pigment, and muscle at a low birth weight. We have over sixty 9110 sired calves now and really like what we see. He definitely knows what his job is, breeding throughout the whole season.

KR 50B SUPERSTAR 733E (STARLITE) - #43824742

CE: +10.3 BW: 0.1 WW: 50 YW: 88 M: 36 MG: 61

KR 50B SUPERSTAR 755E - #43824771

CE: -0.2 BW: 5.7 WW: 64 YW: 112 M: 32 MG: 64

We had him listed in our 2019 sale with a high start bid knowing we could not find better. He is out of one of our top cows and the 50B. He sires all the depth of 50B with a little more thickness and great hair.

R 319C NORTH STAR 50F - #43932170

CE: +2.7 BW: 5.2 WW: 72 YW: 101 M: 26 MG: 62

A calf we got in Ridder's 2019 sale to bring in some Canadian influence into our herd. I'm not sure if they make them any thicker. He provides moderate birth weight with excellent growth.
