Welcome to our 37th Annual Production Sale!

Thank you for your interest in Red Angus and for considering our 2020 offering. We sincerely appreciate the support and loyalty of our friends and customers.

We are confident that these cattle have been produced and developed to compliment the economic values our customers seek. To that end, we have utilized all of the technology available to predict performance, including extensive DNA testing and accurate reporting in the largest possible management groups. For decades, we have also recorded, selected and culled for traits not measured by the computer. These include disposition, fleshing ability and foot and udder structure.

Our cattle are produced on dryland range without creep and developed on a high-roughage ration. Bulls are slowly transitioned onto a low mega-cal TMR that never exceeds 48 meg/cal.

We endorse premium marketing programs for our customers, including Total Herd Reporting, the Feeder Calf Certification Program (FCCP) and Top Dollar Angus. We will pay for the first bag of 25 FCCP tags per bull purchased and, as a Seedstock Partner with Top Dollar Angus, we will endorse the enrollment of our customers' cattle that qualify, which historically yields substantial premiums at market time. FCCP tags provide genetic, age and source verification, a factor of value for both domestic and export markets.

Our bulls are guaranteed breeders with a breeding soundness and semen evaluation prior to delivery. Heifers are guaranteed open and ready to breed.

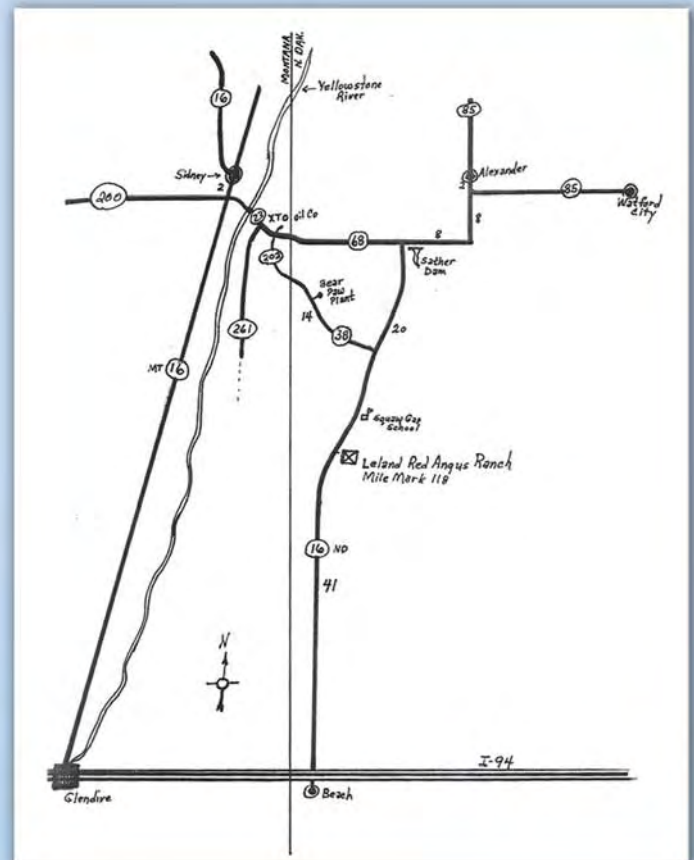

We continue to offer free delivery to central points up to 700 miles. Historically, when possible, we have delivered direct to your yard. However, due to age constraints and labor shortages, we may have to ask customers to accept central points with every effort to make it as convenient as possible.

We do recommend insurance, particularly on young bulls used in multiple breeding groups with older bulls.

As always, we are happy to assist in any specific selection needs and guarantee confidentiality, as well as lowest bid, on any sight-unseen purchases.

*Best wishes from all of us at
Leland Red Angus & Koester Red Angus*

DVAuction Broadcasting Real-time Auctions

We are pleased to offer the Leland Red Angus Sale broadcast "live" over the Internet through DVAuction Services.

First Time Users:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab.
- Complete "Registration" and "Applying to Bid" at Leland Red Angus.
- Please view the tutorial available on our home page for bidding instructions.
- Proxy bidding is available before sale day and during the auction.
- You will be assigned a buyer number once you purchase.

We will be contacting your bank to verify information.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home.

After the sale:

- Contact Leland Red Angus for delivery or pickup and payment arrangements.

Note: You must have high-speed internet access (DSL, T-1 or Broadband) to be able to bid during the sale. Any questions: Contact Tami with DVAuction at (308)-870-3661, tmcintosh@dvauction.com.

We recommend that you register by March 12, 2020, for on-line bidding. Every attempt will be made to complete your application, even if it is on sale day.

GENERAL INFORMATION

FRIDAY, MARCH 13, 2020

Sale will begin at 1 p.m. MST
Cattle may be viewed any time prior to sale day.

LUNCH

A free noon lunch will be served on sale day.

TRANSPORTATION

Sidney is served by Gulfstream International Airlines. We will meet planes on request. Dickinson and Williston also offer air service.

ACCOMMODATIONS

---------------------------------	----------------

VIDEOS OF SALE LOTS

Video of sale bulls and heifers will be available to view on our websites, www.lelandredangus.com and www.koesterredangus.com, a couple weeks prior to the sale. All cattle will be available to view sale day and will sell via video display.

TELEPHONE BIDS

Bids will be handled in strict confidence by any of the publication representatives or the ranch. Capabilities to bid by phone on sale day are limited. To do so, please make prior arrangements with a representative or, to participate in person, call the ranch at 701-565-2347 to receive a conference line call-in number. Bidders may also log on to DVAuction.com to bid online. Please see additional information on page 1.

HEALTH

All the bulls will have a general health and fertility examination by sale day and will be cleared for interstate transportation. Scrotal measurements will be available on sale day. All bulls are 50K DNA tested. All heifers are Bangs vaccinated.

FERTILITY

Yearling and 18-month-old bulls will have a breeding soundness evaluation and semen test prior to delivery. Yearling heifers are guaranteed open and breedable.

GUARANTEE

The bulls and heifers are fully guaranteed. Concerns are handled on a case-by-case scenario. We do encourage you to purchase livestock insurance. For more information on these affordable options, see page 6. All cattle will be sold according to the terms and conditions recommended by the Red Angus Association of America.

DELIVERY

Free delivery of bulls to central points up to 700 miles. Balance at cost. Heifers in load lots or by arrangement. We will cooperate in any way to assist in deliveries of greater distance or by private arrangements and volume purchases.

ONLINE CATALOG & SORTABLE DATA

www.lelandredangus.com • www.koesterredangus.com

Auction Procedure

The cattle will be displayed in sale order for viewing sale day and remain in the pens for viewing during the entire sale.

No animals will be run through the sales ring, but instead every lot will sell via a pre-recorded video and displayed on large video screens in the sale barn. Videos may be viewed in early March at LelandRedAngus.com, KoesterRedAngus.com or DVAuction.com.

Bidding will be done as normal, with ring men to take your bid, or with the option for absentee bidding through DVAuction.com or by conference phone line. As always, all sight-unseen purchases are guaranteed.

Our Family

Carla, Trey and Todd Leland

Luella and Melvin Leland

Koester Family: Steve, Tracey, Shaye Koester
Kacey and Jake Jacobson

Congratulations, Jake & Kacey!

Hovde Family: Wacey, Cedar, Tana, JJ and Trista

CARCASS ULTRASOUND

This is the 20th year we have used ultrasound technology to evaluate carcass characteristics. Weather permitting, we will have carcass ultrasound information available on all bulls just prior to the sale that can be accessed on our web site.

This information will be available for our customers upon request and more importantly it will be used for more meaningful genetic evaluations in the future as it contributes to carcass EPDs.

RED ANGUS AVERAGE EPDS AND RANGES

Average EPDs are printed at the bottom of each page and EPD breed ranks are included on the reference sires and each bull lot for easy comparison.

Red Angus Feeder Calf Certification Program Tag Voucher

Genetic, Age and Source verify your feeder calves free or at minimal cost to increase potential for premiums in the Red Angus Feeder Calf Certification Program (FCCP).

Leland and Koester Red Angus Ranches will help you with this easy process.

1. Call Red Angus Association of America (RAAA) at 1-940-387-3502 to answer a few questions to enroll.
2. Calves sired by Leland and Koester bulls qualify for the FCCP. Please tell the tag program coordinator you are a Leland and/or Koester customer and we will pay for one bag of 25 tags per bull purchased in this year's sale.
3. If additional tags are needed, they can be purchased by the bag for 99¢/tag but must be used only in calves that qualify for certification.
4. The FCCP tags are serial numbered at the bottom leaving space on both the front and back for additional ID numbers. This is the lowest-cost system in the industry to USDA genetic, age and source verify your cattle. FCCP-tagged cattle qualify for the Red Angus Choice+ and G.O. Red grids.

RETAINED INTEREST

One-half semen interest is retained and full possession selling on all bulls. This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he sells him. It does give Leland Red Angus and Koester Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Leland Red Angus or Koester Red Angus and at the purchaser's convenience. Leland Red Angus or Koester Red Angus would assume full liability for the bull's welfare at the purchase value during transportation and collection unless it is a joint venture with the purchaser. In such a case, liability would be proportionately assumed.

SCROTAL CIRCUMFERENCE MEASUREMENTS and FERTILITY

All bulls will have a breeding soundness evaluation and semen test before delivery.

Scrotal measurements are taken at 10½ to 11 months of age and adjusted to 365 days of age. Scrotal measurements will be available sale day.

Top Dollar Angus Feeder Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its "branding" in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

RED ANGUS GUIDE TO EPDS

For more information, visit RedAngus.org.

HB – HerdBuilder is a maternally focused selection index that predicts the probability of developing profitable cowherd traits while maximizing the value of marketed progeny. Expressed as dollars per cow exposure, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained, and all remaining progeny are marketed on a quality-based carcass grid. (Index/High Value)

GM – GridMaster is a terminally focused selection index that predicts the probability to increase the value of marketed calves. GM places selection pressure on growth, feedyard performance and carcass quality, predicting differences in profit as expressed per cow exposure. GM is calculated based on the scenario that bulls are mated to cows only, and all progeny are marketed on a quality-based carcass grid. (Index/High Value)

CED – Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW – Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW – Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW – Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG – Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI – Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK – Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

HPG – Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM – Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY – Stayability predicts differences in the ability of an animal's retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB – Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG – Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW – Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA – Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT – Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

BULL & HEIFER DEVELOPMENT

LELAND BULL DEVELOPMENT

The bulls are weaned in early October and placed on a roughage-only ration until bunk broke. The following two months they are fed a low, 42 mega-cal ration of chopped hay, haybet silage, cracked corn, mineral supplement and Mix 30 vegetable fat. From mid-December until weigh-off, they are increased to a 48 mega-cal ration by simply increasing the corn and Mix 30. This ration is significantly lower energy than the 50-55 mega-cal ration most bulls are developed on. Our intent is to allow them to exhibit their potential for growth without developing excessive fat deposits which are negative to fertility.

LELAND HEIFER DEVELOPMENT

The heifers are wintered on a roughage-only ration to restrict the ADG to no more than 1.5 lbs per day which is optimal for breeding performance.

KOESTER BULL DEVELOPMENT

The fall-born bulls are weaned in March and put on a high-roughage ration until we have green grass – hopefully in late May. The bulls summer on grass and protein blocks to encourage slow but steady growth for optimum longevity and fertility.

In September, we bring the bulls into the lot and put them on a 48 mega-cal ration consisting of chopped hay, sorghum-sudan haylage, cracked corn and DDGs. The bulls stay on this ration until sale time.

We strive to promote steady growth, sound foot development and healthy, active potency so they are prolific breeders and maintain their body condition throughout breeding season.

BULL MORTALITY INSURANCE

Purchases are the responsibility of the new owner. We strongly encourage you to insure your bulls. Coverage is affordable and a good business practice.

Ask for specific details at the clerking desk or contact Jeff Thomas.

**Jeff Thomas • 406-581-8859
jeffthomas138@gmail.com**

Jeff Thomas

GENOMICALLY ENHANCED EPDS

All sale bulls have been DNA profiled through GeneSeek's GGP-LD test.

This ensures our customers have the most accurate

information available to make their purchasing decisions. With the GGP-LD profile, the bulls' EPDs now have the same accuracy as they would with their first calf crop reported and registered through the Red Angus Association of America.

The GGP-LD test also verifies parentage so you are assured of the bloodlines you are buying.

We trust in the science behind the genomics and are committed to ensure more value in your purchases, increasing the profitability of your calf crop.

For those who would like to gain even more genetic knowledge of your cowherd, consider testing

your replacement heifers with RAAA's Red Navigator test, specifically designed for high-percentage Red Angus females.

- EPD percentile rankings for all traits
- Sire verification (if sire is DNA profiled)
- Follow-up from RAAA Marketing Team Member
- Potential qualification tool into Top Dollar Angus

Identify your top replacements before breeding!

After using Merlin in our program for 6 years, both natural and AI, his progeny continue to elevate his multi-trait values. Leased to Genex, he is, to date, their highest selling semen bull over all beef breeds. Merlin is no longer a secret to cattlemen using him to capitalize on his calving ease, growth, carcass, longevity, easy fleshing, quiet disposition, structural soundness and great udders. Co-owned with Wedel Red Angus, KS.

Domain's extreme breed popularity is well deserved. After being used all over the country, his EPD proof has impressed us even more. He has extremely high maternal values with above average growth and exceptional carcass values. His daughters in production are phenomenal. Domain is also improving feet and udder structure. He was the #1 Red Angus bull for sales at Genex last year, surpassed only this year by WFL Merlin 018A. Owned by Sonstegard Red Angus, MN, Koester Red Angus, ND, & Genex.

REFERENCE SIRE C

Reference Sire C, LELAND ROLLIN DEEP 6421

We retained possession of Rollin Deep 6421 in 2017 because he was the best replacement for Bieber Rollin Deep Y118 we could find with a powerful maternal pedigree. He sires smooth muscle pattern with extra length and thickness. His dam and grandam have consistent performance history. His progeny seem to rise to the top and visitors are quick to admire his attractive appearance. Semen available.

REFERENCE SIRE E

Reference Sire E, VGW LOTTO 722

Lotto is an exciting young herd sire that we purchased from the Westphal program where he topped their sale. He has proven to be a super calving ease sire and readily stamps his progeny with an attractive type and dark, cherry red hair coat. We anticipate he may be a leading sire in the future. His MGS is VGW Megatron 141, who is also the sire of reference sire O, VGW Megatron 403P. Co-owned with Westphal Red Angus, MT. Semen available.

- Merlin 018A consistently sires bulls that qualify for the top spots in our sale.
- Produced by an old cow with a history of consistent low BW and heavy WW on 8 head.
- Merlin 018A influence makes this dark-hided bull very useful with heifer bull calving ease and the depth and thickness to work anywhere.
- Excellent trait scores on foot and udder structure dominate his pedigree.

- A 3/4 brother sold to Diamond H, KS for \$19,000 in 2018.
- This bull hits the target at every measurement for use on cows, ranking very high throughout.
- MGD produced high demand bulls going to Bickel Ranch, SD and Leiseth, ND.
- His 106 MPPA dam is one of our favorite cows.

- You can be confident this Confidence C810 bull earned his spot early in the sale.
- He ranks in the top third of the breed for growth and carcass values with a quiet, easy disposition.
- He has a small calving ease head and deep rib with guts and volume.

Lot 5, LELAND LOTTO 722-9094

- Tremendous growth and carcass potential from a calving ease sire who has a 76 BW average on 16 bulls.
- Genetics can be unpredictable, as his dam has a moderate BW average on 5 previous progeny.
- This deep made, high volume bull should work well on mature cows.
- Lot 5 is truly a power bull that has a pedigree structured with two generations of calving ease sires.

Lot 6, LELAND LOTTO 722-9031

- This stylish Lotto 722 son will be easy to appreciate.
- His dam has produced 4 bulls in a row, including a Fusion 5202 son that sold to Green Mountain Red Angus, MT, that she had as a first calf heifer.
- Should be a super calving ease heifer bull with extra growth.
- His pedigree is graced with well-known sires like Chateau, Epic and Bourne.

Lot 13, LELAND STAKEHOLDER 5457-9098

- Weaning at nearly 900 pounds, this bull has growth, fertility and carcass values in abundance.
- This is a cowboy's bull that should adapt to big country if needed.

Lot 14, LELAND MERLOT 9085

- A calving ease hybrid bull with excellent breed rankings.
- Maternal brothers have sold to Prewitt & Co, MT, Leiseth, ND and Hanson Ranch, ND.
- These Frankly 018A-6602 sons often portray a dark red hide.

14 LELAND MERLOT 9085

Lot 28, LELAND CONFIDENCE 9121

- Here is a heifer bull that can run with the growth bulls!
- He ranks high in the breed for calving ease, growth, fertility and marbling. He does it all!
- Use him as a heifer bull, and in a couple of years, he qualifies for the cow herd.

Our vision for the future . . .

We look beyond the current season and market, seeking fresh genetics that will add value to our customers' calves and cowherd for generations into the future. We know – and accept the responsibility – that our decisions today impact the livelihood of the cattlemen that trust our genetics.

The second set of age-advantaged bulls begins on page 50 with Lot 111.

Rooted in heritage and stewardship while envisioning tomorrow.

Our Fall-Calving Program

We designed our fall-calving program in order to offer our customers the option of bulls with an age advantage. Those few extra months of maturity don't necessarily mean the bulls will cover more cows, but they will maintain their body condition and come in after breeding season in good rig.

We summer the fall bulls on pasture with minimal supplementation, diligently culling for performance, foot structure and disposition.

We calve the cows and first-calf heifers in the pasture starting in mid-August. Each calf is tagged and weighed shortly after birth, and we score the cows on udder and foot structure as well as disposition. We synchronize and AI in mid-November, and pull bulls on New Year's Day.

Winter breeding poses extra challenges for our fall herd. Our cows must breed during blizzards, long frigid spells and naturally shorter daylight hours. Likewise, the calves must grow during these conditions and wean in March. We have a zero-tolerance policy and sell open cows in the spring.

A 2-year-old Domain daughter taking care of business. All heifers calve in the pasture without preferential treatment.

LELAND RED DIRECTION 823, dam of Lot 29.

KOESTER PISTOL ANNIE 5103, dam of Lot 38.

- Heavy weaning growth bull with a high carcass rank in the breed.
- His dam has perfect foot and udder scores.
- A maternal sister produced Lot 139 this year.
- Many of the high-performance bulls in our sale this year are produced by Leland Stakeholder 5457.

Lot 60, LELAND MERLOT 9086

- His dam has a low BW history on three progeny.
- Expect excellent foot and udder structure.

- A solid, strong topped bull that displays the depth and muscle needed to yield top carcass values.
- All beef cattle eventually terminate on the rail, and that is where growth and carcass quality become the value standard.

LELAND HIGH ROLLER 8458, maternal brother to MGD. He sold as Lot 1 in our 2019 sale.

- Not many first calf heifers wean a 763 lb calf off grass with no creep!
- His Merlin 018A sired dam comes from another productive cow family.
- His mother is a maternal sister to Leland High Roller 8458, our Lot 1 bull in the sale last year.
- He is deep and thick with plenty of volume.

Lot 77, LELAND LOTTO 722-9114

- His pedigree is loaded with top females for 3 generations.
- Calving ease deluxe, and yet ranks in top 1/3 of the breed in nearly every trait.
- Not only does he cover every base, he does it with exceptional foot and udder scores throughout his entire pedigree.
- MGD produced Lot 100. We will likely need to collect semen on this bull prior to delivery.

Lot 78, LELAND ROLLIN DEEP 6506-9135

- His dam has a consistent 78 lb BW on 5 calves.
- His sire, Rollin Deep 6506, sold to long-time friends and customers, Northern Lights Red Angus, MT in 2017.
- The maternal pedigree and EPD suggest he should work well on heifers.
- MGD 9064 rang the bell three times, selling bulls for \$6,000, \$15,000 and \$18,000 to repeat customers in WY & ND.

- This bull endured a tough start, being orphaned in July when his dam died from a snake bite. After a brief orientation period on supplement, he was put on a small pasture with other orphans and twins where he was being supplemented daily. He stayed for a week and then disappeared, not showing up until weaning with a distant herd.
- He is a survivor who has caught up to other bulls and is genetically strong. A maternal brother is being used in our herd.

- Trey's first bull calf out of his cow "Floppy", who mysteriously broke the cartilage in both her ears after weaning.
- Growth, fertility and stayability make this bull an attractive choice in a long clean package.
- His HPG and top breed stayability promise longevity.
- Trey just turned 3, but it's never too soon to start that college fund.

- His dam is an attractive Domain A163 daughter and is the maternal sister to Lot 24.
- Look at his solid growth and maternal rank in the breed.
- He follows the long, thick body type of his sire, Bourne E7226.

Trista dragging calves to the fire at branding

- Orphaned in July when his dam was struck by lightning, this bull was pasture raised with access to supplement.
- Double bred calving ease heifer bull.
- Dam has a 65 BW average on 3 bulls, including two selling for \$5,750 and \$7,500.
- Notice his strong indices with growth, maternal and carcass.

- Here is an impressive combination of growth and calving ease, with strong carcass and fertility values!
- This is an opportunity to reap the value of Lotto 722 crossed on a Merlin 018A daughter.
- His pedigree includes great sires of the past such as Make Mimi 7249, Red Direction 6046 and Norseman King 2291.

Trey riding calves in between sets at branding

- A very young bull that really performs for growth and carcass, as well as milk.
- His sire, BB Dakota 7121, has a 104 WR on his bull calves.

LELAND MERLIN T179-5676, MGD

- A good cow bull with top growth and carcass potential.
- Ranks high for HB and GM indices, plus all carcass traits.

- This bull ranks in the top 1/3 for most of his traits. 
- His dam weaned a Merlin 018A son at 868 pounds (115 WR) that was Lot 4 in our 2017 sale.
- Produced by an attractive hybRED dam whose previous sons have averaged 111WR and over \$9,000 sale prices.

			PERF	74	766	113	1252	104	3.03	3.28	105.0					

- Here is a Bonafide E538 on a Merlin 018A daughter that should produce growth and carcass quality.
- Although his CED number doesn't reflect it, his sire, dam, MGS and MGD all suggest low BW and calving ease. Sometimes genomic DNA tests disagree with BW history like it does with this bull for CED. The thousands of dollars we spend on DNA testing may help avoid a calving wreck.
- MGD produced Lot 88 this year.

BIEBER ROLLIN DEEP Y118, MGS of Lot 159

- A calving ease heifer bull by Lotto 722 that also sports top milk, fertility and marbling.
- This bull has strong maternal genetics in his pedigree.
- MGD, Highlight 227X, produced high selling bulls to Burdell Johnson, ND, Harlan Dallman, ND and two to Leiseth Ranch, ND.
- A maternal brother by Fusion 5202 sold to Brady Leiseth, ND last year.

LSF EXPECT ECHO 2252Z, MGS of Lot 160

- Although low BW, and he looks like a heifer bull, the computer says no on CED for heifers.
- DNA and genomic testing probably trump his BW value, so use him on cows.
- He is moderate framed, thick and smooth.

159

- A heifer bull with top calving ease rank in the breed **GGPLD** from a cow who has a 73 BW average on 4 progeny.
- His sire has a moderate 81 BW average on his bull progeny.

Important Events
BEYOND the RANCH

Melvin and Luella accepted the Top Hand Award, presented by the North Dakota Stockmen's Association at their annual banquet in September. They also enjoyed a trip "Down Under" last fall to Australia and New Zealand.

They keeps everyone on their toes and enjoys his new pony, Dixie. By sale time, he will be a big brother!

Trista qualified for the National High School Rodeo Finals in Girls' Cutting and Barrel Racing

Wacey and his steer, Brent, at the Richland County Fair.

Cedar and her steer, Hank, at the Richland County Fair.

The Hovde family celebrated JJ's dad, John Hovde, Horse Person of the Year, at the Black Hills Stock Show.

Kacey and Jake celebrated their wedding on July 27

Wacey played football this fall for the Sidney Eagles.

Cedar competes in crosscountry.

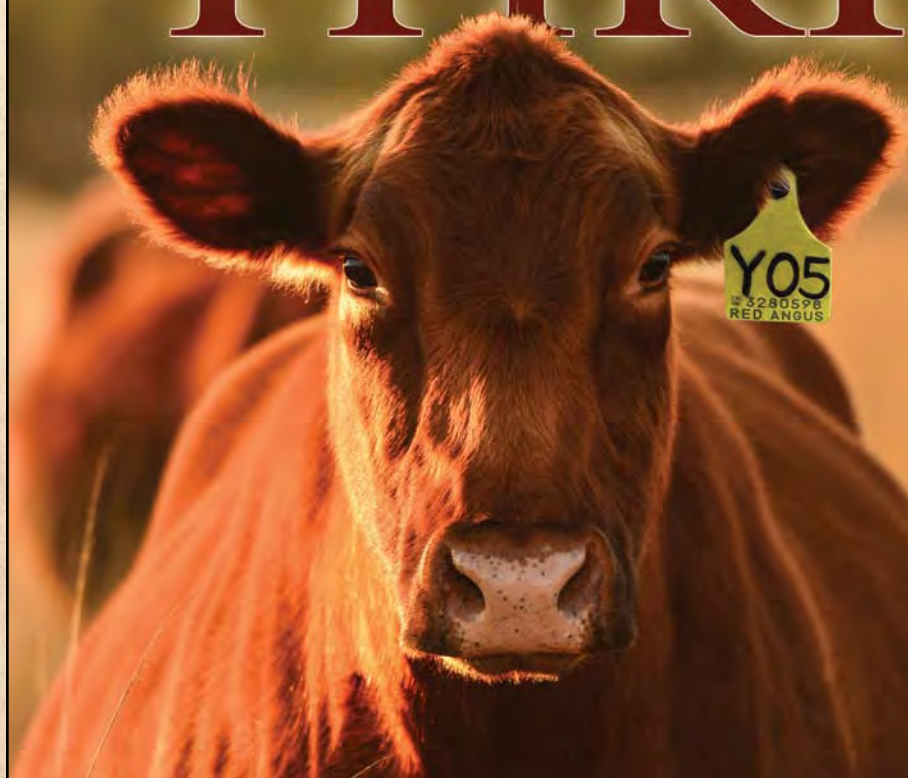

Shaye is president of the National JRA and is a sophomore at UNL.

Carla has had a successful year with her photography. She had several images do very well in the Red Angus Association Photo Contest, won the Badlands Art Show Amateur Photography class in Dickinson, ND, and had images on three magazine covers this fall.

THRIVE

Position your ranch to thrive with the industry's most-favored female.

An independent university study compared eight years of Superior Livestock Auction data, revealing Red Angus-sired heifers commanded up to \$11/cwt more than females of all other breed types.

Ranch Tested. Rancher Trusted.

Red Angus

RedAngus.org

HEIFERS

These heifers were wintered on a high roughage ration. They are penned in comparable groups but will sell individually.

All heifers will sell as registered unless stated otherwise or announced from the block.

They are all bangs vaccinated and guaranteed open.
