Welcome to our 40th Annual Production Sale!

A special thank you for the support and loyalty of our friends and customers. We also appreciate any new interest in our program, and pledge to provide any additional information needed.

As Red Angus continues to be a more prominent beef breed, we endorse the challenge of verifying the genetic value of our cattle through collecting and analyzing data with actual measurements, as well as DNA and ultrasound technology. Our herd sires and total cowherd have all been 50K DNA tested for genetic and parent assessment to insure the most accurate numbers possible on all progeny.

USDA now recognizes the Red Angus breed as Angus for inclusion in most Angus branded beef programs. Hopefully this live animal specification, also called G schedule will resolve the black hide bias in the market. However, this also imposes a more stringent demand on selection for carcass qualities in our cattle, especially marbling which translates to more upper 2/3 choice and prime quality grades.

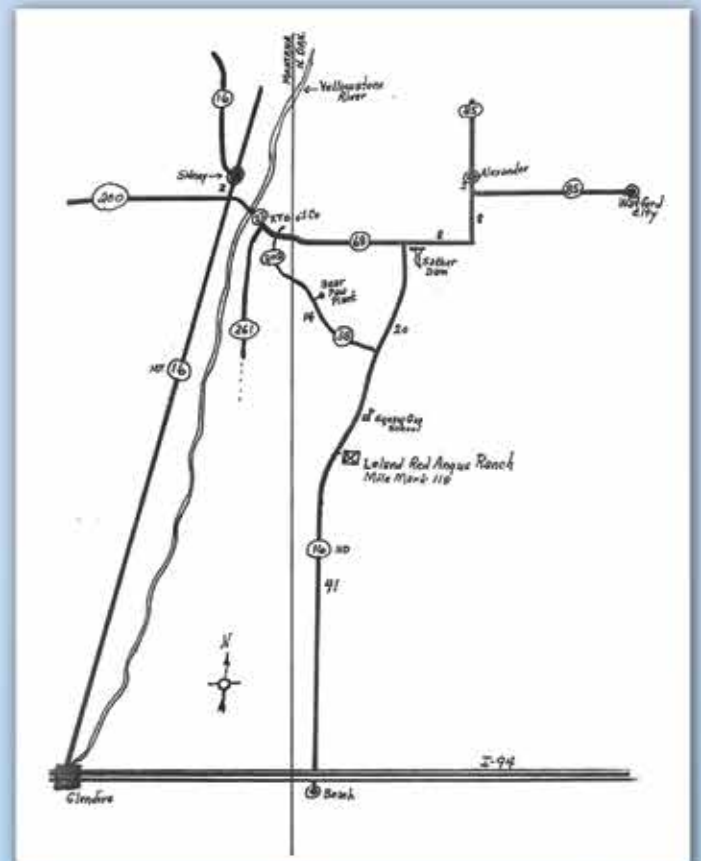

We conduct rigid selection practices to ensure the most accurate information available. These include traits not measured by the computer, but by cowboy logic – traits such as foot and udder structure, disposition, fleshing ability and survivability. Our cattle are guaranteed breeders, with the bulls passing a breeding soundness and semen evaluation. Heifers are guaranteed open and ready to breed.

We do recommend insurance, particularly on yearling bulls when used in multiple breeding groups with older bulls.

As always, we are happy to assist in any specific needs you may have for your program and guarantee confidentiality, as well as lowest bid, on any sight-unseen purchases.

We continue to offer free delivery to central points up to 500 miles. Historically, when possible, we have delivered direct to your yard. However, due to age constraints and labor shortages, we may have to ask customers to accept central points, with every effort to make it as convenient as possible.

*Best wishes from all of us at
Leland Red Angus &
Koester Red Angus*

DVAuction Broadcasting Real-time Auctions

We are pleased to offer the Leland Red Angus Sale broadcast "live" over the Internet through DVAuction Services.

First Time Users:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab.
- Complete "Registration" and "Applying to Bid" at Leland Red Angus.
- Please view the tutorial available on our home page for bidding instructions.
- Proxy bidding is available before sale day and during the auction.
- You will be assigned a buyer number once you purchase.

We will be contacting your bank to verify information.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home.

After the sale:

- Contact Leland Red Angus for delivery or pickup and payment arrangements.

Note: You must have high-speed internet access (DSL, T-1 or Broadband) to be able to bid during the sale. Any questions: Contact Tami with DVAuction at (308)-870-3661, tmcintosh@dvauction.com.

We recommend that you register by March 9, 2023, for on-line bidding. Every attempt will be made to complete your application, even if it is on sale day.

GENERAL INFORMATION

FRIDAY, MARCH 10, 2023

Sale will begin at 1 p.m. MST
Cattle may be viewed any time prior to sale day.

LUNCH

A free noon lunch will be served on sale day.

TRANSPORTATION

Sidney is served by Cape Air (800) 227-3247. We will meet planes on request. Dickinson and Williston also offer air service.

ACCOMMODATIONS

Sidney:

Wyndham	(406) 433-3100
Lone Tree Motor Inn	(406) 433-4520
Park Plaza Motel	(406) 433-1520

---------------------------------	----------------

VIDEOS OF SALE LOTS

Video of sale bulls and heifers will be available to view on our websites, www.lelandredangus.com and www.koesterredangus.com, a couple weeks prior to the sale. All cattle will be available to view sale day and will sell via video display.

ONLINE CATALOG & SORTABLE DATA

www.lelandredangus.com • www.koesterredangus.com

TELEPHONE BIDS

Bids will be handled in strict confidence by any of the publication representatives or the ranch. Capabilities to bid by phone on sale day are limited. To do so, please make prior arrangements with a livestock press representative or call the ranch directly at 701-565-2347. Bidders may also log on to DVAuction.com to bid online. Please see additional information on page 1.

HEALTH

All the bulls will have a general health and fertility examination by sale day and will be cleared for interstate transportation. Scrotal measurements will be available on sale day. All bulls are 50K DNA tested. All heifers are Bangs vaccinated.

FERTILITY

Yearling and 18-month-old bulls will have a breeding soundness evaluation and semen test prior to delivery. Yearling heifers are guaranteed open and breedable.

GUARANTEE

The bulls and heifers are fully guaranteed. Concerns are handled on a case-by-case scenario. We do encourage you to purchase livestock insurance. For more information on these affordable options, see page 6. All cattle will be sold according to the terms and conditions recommended by the Red Angus Association of America.

DELIVERY

Free delivery of bulls to central points up to 500 miles. Balance at cost. Heifers in load lots or by arrangement. We will cooperate in any way to assist in deliveries of greater distance or by private arrangements and volume purchases.

LIABILITY DISCLAIMER

All persons attending the sale, any sale functions or viewing the cattle do so at their own risk. Leland Red Angus, Koester Red Angus, their staff or representatives assume no liability, legal or otherwise, for any accidents or injuries that may occur.

Auction Procedure

The cattle will be displayed in sale order for viewing sale day and remain in the pens for viewing during the entire sale. No animals will be run through the sales ring, but instead every lot will sell via a pre-recorded video and displayed on large video screens in the sale barn. Videos may be viewed in early March at LelandRedAngus.com, KoesterRedAngus.com or DVAuction.com. Bidding will be done as normal, with ring men to take your bid, or with the option for absentee bidding through DVAuction.com or by contacting someone from the ranch or a Press Representative prior to the sale. As always, all sight-unseen purchases are guaranteed.

Our Family

Trey, Todd, Tripp and Carla Leland

Luella, Melvin, Tripp and Trey Leland

Koester Family: Phillip Wanner & Shaye Koester,
Jake & Kacey Jacobson, Tracey & Steve Koester

Hovde Family: Wacey, Tana, JJ, Cedar and Trista Hovde

EmmyLou, Jessica, Everett, Imogene and Sam Orpin

SCROTAL CIRCUMFERENCES MEASUREMENTS & FERTILITY

All bulls will have a breeding soundness evaluation and semen test before delivery.

Scrotal measurements are taken at 10½ to 11 months of age and adjusted to 365 days of age. Scrotal measurements will be available sale day.

RED ANGUS AVERAGE EPDS AND RANGES

Average EPDs are printed at the bottom of each page and EPD breed ranks are included on the reference sires and each bull lot for easy comparison.

A-BAG-A-BULL

If you purchase a bull from us, we will provide you with credit equal to the value of one bag of Feeder Calf Certification Program or Allied Access tags for each bull you purchase. To redeem your credit, bring your receipt for the tags to next year's sale and we will apply it to your bull purchase.

The FCCP provides age, source and genetic verification for calves sired by registered Red Angus bulls. Cattle enrolled in the FCCP are accepted into the exclusive Choice+ and G.O. Red grids. The FCCP 'yellow tags' are recognized by buyers nationwide and return a premium for Red Angus calves enrolled in the program.

The Allied Access program provides age and source verification for commercial cattlemen whose bull battery does not exclusively contain registered Red Angus bulls. Whether you are utilizing multiple sire breeds or halfblood bulls, enrolling in Allied Access demonstrates to buyers that you are taking an extra step in marketing your calves and adding value throughout the production chain.

To enroll in the FCCP or Allied Access, contact the Red Angus marketing department. Enrollment is simple and free of charge.

RedAngus.org
940-477-4593

RED ANGUS
RANCH TESTED. RANCHER TRUSTED.

CARCASS ULTRASOUND

This is the 23rd year we have used ultrasound technology to evaluate carcass characteristics. Weather permitting, we will have carcass ultrasound information available on all bulls just prior to the sale that can be accessed on our web site.

This information will be available for our customers upon request and more importantly it will be used for more meaningful genetic evaluations in the future as it contributes to carcass EPDs.

RETAINED INTEREST

One-half semen interest is retained and full possession selling on all bulls. This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he sells him. It does give Leland Red Angus and Koester Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Leland Red Angus or Koester Red Angus and at the purchaser's convenience. Leland Red Angus or Koester Red Angus would assume full liability for the bull's welfare at the purchase value during transportation and collection unless it is a joint venture with the purchaser. In such a case, liability would be proportionately assumed.

PREMIUM CALF VALUE

Easy as 1-2-3

Want MORE for your steers?

THAT'S EASY ...

1. Purchase Top Dollar Angus-qualified bulls.
2. Raise Top Dollar Angus-qualified feeder calves.
3. Pocket MORE per head!

THE RESULTS: Better performance and a documented \$84.26-per-head advantage as fed cattle!

Steers & Heifers	Top Dollar Angus Qualified	Non-Qualified	Difference
Head Count	1,801	4,448	
Percentage of Head Count	29%	71%	
Average Daily Gain	4.28	3.99	0.29
Hot Carcass Weight	935	888	47
Marbling	504	471	33
Ribeye Area	15.4	15.2	0.2
Fat Thickness	0.66	0.61	0.05
Value Per Head	\$1,626.13	\$1,541.86	\$84.26

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

BULL & HEIFER DEVELOPMENT

LELAND BULL DEVELOPMENT

Our bulls are developed at our ranch facilities on a total mixed ration formulated for adequate growth, but mild enough to protect their fertility and longevity. Bulls are started on a roughage-only diet and gradually transitioned to a low mega-cal ration that never exceeds 50 mega-cals.

LELAND HEIFER DEVELOPMENT

The heifers are wintered on a roughage-only ration to restrict the ADG to no more than 1.5 lbs per day which is optimal for breeding performance.

KOESTER BULL DEVELOPMENT

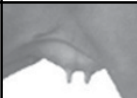

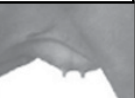

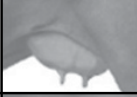

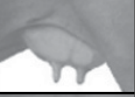

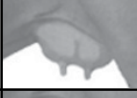

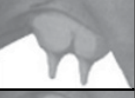

The fall-born bulls are weaned in March and put on a high-roughage ration until we have green grass – hopefully in late May. The bulls summer on grass and limited supplement to encourage slow but steady growth for optimum longevity and fertility.

In September, we bring the bulls into the lot and put them on a 48 mega-cal ration consisting of chopped hay, sorghum-sudan haylage, cracked corn. The bulls stay on this ration until sale time.

We strive to promote steady growth, sound foot development and healthy, active potency so they are prolific breeders and maintain their body condition throughout breeding season.

UDDER SCORES

Udder scores have been used to cull and select cattle at Leland Red Angus and Koester Red Angus for many years. Scores are taken within 12 hours of calving by the same person to insure consistency. Scores less than 5 are considered unacceptable, and those individuals are not kept in our herds. We include the dam's udder scores for Suspension and Teat Size following her MPPA in each bull's data block.

Udder Suspension			Teat Size		
Score	Description	Example	Score	Description	Example
9	Very tight.		9	Very small.	
7	Tight.		7	Small.	
5	Intermediate/moderate.		5	Intermediate/moderate.	
3	Pendulous.		3	Large.	
1	Very pendulous, broken floor.		1	Very large, balloon shaped.	

GENOMICALLY ENHANCED EPDS

All sale bulls have been DNA profiled through GeneSeek's GGP-uLD test.

This ensures our customers have the most accurate information available to make their purchasing decisions. With the GGP-uLD profile, the bulls' EPDs now have the same accuracy as they would with their first calf crop reported and registered through the Red Angus Association of America.

The GGP-uLD test also verifies parentage so you are assured of the bloodlines you are buying.

We trust in the science behind the genomics and are committed to ensure more value in your purchases, increasing the profitability of your calf crop.

For those who would like to gain even more genetic knowledge of your cowherd, consider testing your replacement heifers with RAAA's Red Navigator test, specifically designed for high-percentage Red Angus females.

- EPD percentile rankings for all traits
- Sire verification (if sire is DNA profiled)
- Follow-up from RAAA Marketing Team Member
- Potential qualification tool into Top Dollar Angus

Identify your top replacements before breeding!

- Propulsion 9096 on a MLK CRK Fusion 5202 daughter is a great bull to start the sale, as he checks every box from Calving Ease to Marbling. 
- A long hip and strong-topped bull wrapped up in a dark cherry red hide.
- He qualifies for both heifers and cows with a quiet disposition, extra growth and great foot and udder structure.

Paternal Brother to Lot 20.

- An attractive Treadstone son with abundant growth ranking high for Milk and carcass values.
- He is a strong, wide-topped bull with a thick quarter.
- His dam has exceptional udder scores.
- We purchased Treadstone on the strength of his dam and his 104 WR on 24 progeny suggests his value is confirmed.
- Nearly all of our Treadstone progeny are out of first-calf heifers.

Lot 21, LELAND STOCKMARKET 2167

- This bull is from a cow family strong for growth, Milk and Marbling.
- His dam has a 109 WR on 4 calves.

Grandma Lu & Tripp helping at the corrals.

- Lots 2 and 22 would make a nice pair of Shula A113G sons to use together.
- He is heavy weaning, high gaining, super indexing with abundant Milk, Stay, Marbling and REA!
- Carcass traits are so important for quality grade!
- An added bonus is his dam consistently breeds first cycle.
- Appreciate this bull's volume and wide body base.

By Design...

Our fall-calving program is by design. Our cattle are bred, born and raised to excel in conditions opposite of most production seasons. They are tough, resilient and prolific. Sure, calving in August might be easier than March, however maternal and actual performance in the winter are antagonistic to nature and we identify and eliminate those unworthy of staying in our herd.

Conformation, muscle, foot structure, disposition, performance and maternal strengths are backed by breed-leading EPDs for growth and carcass. At the end of the day, our customers need cows that do their job, payweight at weaning and carcass traits that build a reputation with their feeders.

We are raising beef ... by design.

The second set
of age-advantaged bulls begins
on page 48 with Lot 112.

The third set begins on
page 61 with Lot 163.

Our Fall-Calving Program

We designed our fall-calving program in order to offer our customers the option of bulls with an age advantage. Those few extra months of maturity don't necessarily mean the bulls will cover more cows, but they will maintain their body condition and come in after breeding season in good rig.

We summer the fall bulls on pasture with minimal supplementation, diligently culling for performance, foot structure and disposition. We move them into the lot in September and prepare them for carcass ultrasounding. The bulls are not tested for gain due to the hot summer months, but are developed for longevity and soundness.

We calve the cows and first-calf heifers in the pasture starting in mid-August. We synchronize and AI in mid-November, and pull bulls on New Year's Day. The calves endure the harsh winter conditions and temperatures during their pre-weaning age.

Winter breeding poses extra challenges for our fall herd. Our cows must breed during blizzards, long frigid spells and naturally shorter daylight hours. Likewise, the calves must grow during these conditions and wean in March. We have a zero-tolerance policy and sell open cows in the spring.

Each calf is tagged and weighed at birth. We also score the dam on her udder suspension and teat size, and record her disposition while processing her calf.

SCOTT STARLET 802, dam of Koester Ms Yield 116 and herd influencer.

KOESTER MS YIELD 116, grandam of Lots 31 and 33, dam of Koester Unmistakeabull 330 and maternal sister to Lot 50's dam.

KOESTER HEDDIE 579, dam of Lot 31

Lot 53, LELAND FINISHED PRODUCT 2105

- This bull has a unique survival story – Separated from his mother at 2 weeks of age due to the April winter storms, but not detected until 6 weeks later. He survived and flourished until weaning “cafeteria style” - he claimed every cow that allowed him lunch.
- A maternal brother was a top seller in 2021 to Bickel Ranch, SD.
- He has a quiet disposition to complement his deep, thick phenotype.

Lot 56, LELAND CHARTER 2002

- An attractive calving ease bull out of a cow with a low birth weight, heavy weaning history
- His dam has solid foot and udder scores with a pedigree filled with longevity.
- He is a clean-made, free-moving bull that will be easy to find sale day.

Lot 11 in our 2022 Sale, Paternal Brother to Lot 57.

- This bull highlights four areas of economic concern for ranchers – calving ease, maternal power, fertility and udder structure.
- His dam, MGD and MGGD all have low BW history.
- He is a deep, high-volume bull.

Lot 79, LELAND STOCKMARKET 2024

- Super carcass potential from a pedigree loaded with Marbling and REA.
- His MGS, Leland Full House 7465, was our high selling bull in the 2018 sale for \$57,000.
- His dam is a maternal sister to our high-selling bull, Leland Full House 0265, in 2021 who had superb 248 IMF and 119 REA ratios.
- Remember – marbling is critical for top quality grade!

Lot 80, LELAND PEERLESS 2130

- Strong indexing bull with top growth and the Peerless REA.
- Appreciate his long hip and deep quarter.

- A calving ease heifer bull from a high performance cow family.
- MGD has produced 6 bulls that have a \$7,750 sale average, including one with a 944 lb. WW (122 WR).
- He was raised by a foster dam, as his mother got sick and quite likely contributed to his very low BW.

- His 106 MPPA dam has a moderate 72 BW, 730 WW (107 WR) average on 3 calves with attractive udder scores.
- His balanced traits should make him an easy choice, ranking high for growth, Milk, HPG, CEM and carcass.

Thank you to Sam for his hard work and dedication to the ranch!

- Being double bred for calving ease definitely qualifies him for heifers.
- His dam and MGD have a 71 lb. BW average combined.
- 906 and Lotto 722 are both verified calving-ease heifer bulls.
- Although very moderate frame, he is super thick and smooth.

- Born a twin and raised by his own mother.
- His dam comes from a family of perfect udder scores.
- Look at the top indexes and high breed rank from birth to maternal and carcass values.
- There is rapid demand developing for genetically verified carcass quality like this bull has.

- Another smooth-made Megatron son with a balanced EPD profile.
- A bull with a little hybrid vigor and a great Stay EPD.
- HerdBuilder index indicates you should keep all the females.

Lot 129, KOESTER WARRANT 1146

- Excellent length, depth and thickness.
- Growth and carcass rankings indicate profit.
- Warrant daughters appear to be the real deal.

Lot 130, KOESTER INSIGHT 1133

- Exceptional phenotype in this moderate Insight son.
- A young dam that is really working (WWR 116, YWR 103 on 2 head).
- Very nice index and EPD markings.
- This bull is scurred.

- Very nicely patterned, Calving Ease deluxe bull!
- Nice growth combined with outstanding Marbling.
- Shaye's bull and she has wedding supplies to pay for.

Third draft of age-advantaged bulls start on page 61 with Lot 163.

Important Events
BEYOND the RANCH

Trey showing off his Best of Fair Ribbon! He's 2 for 2 at the fair so far!

Trey & Tripp love exploring! Here they are searching for buffalo at TRNP in Medora – one of their favorite places to visit.

Kacey and Jake Jacobson ranch with Jake's family, raise and market bred heifers and own a custom fencing business. Kacey also works for Cow Camp Promotions.

Trey & Tripp ready to gather some cows! They both LOVE to cowboy!

Congratulations to Shaye Koester and Phillip Wanner on their engagement! Shaye stays busy with her podcast, Casual Cattle Conversations and working on the ranch.

Trista on Boogie laying down a GREAT run this summer.

Wacey Hovde showing his steer at the Richland County Fair.

Cedar was third in the State Speech & Drama Competition for her humorous solo piece.

Lot 132, LELAND FUSION 2108

- A maternal sister produced Lot 66, a standout Marksman son.
- MLK CRK Fusion 5202 is a sire we have extra confidence in as a maternal sire.
- This clean, straight-topped bull has the popular dark red hide color.

- A nice profiling bull with calving ease, thickness and depth.
- He would be well suited for heifers.
- Megatron, Marksman and Domain are all great female makers.

- Calving Ease bull backed by the 100 cow.
- His dam has great feet and udder structure.

Lot 175, KOESTER MEGA 1139

- His sire is a bull we used and sold to Croissant Red Angus, Colorado.
- Well-balanced bull as his ProS indicates.
- Every carcass trait is spot on.

176
