Welcome to our 42nd Annual Production Sale!

A special thank you for the support and loyalty of our friends and customers. We also appreciate all new interest in our program and pledge to provide any additional information needed.

We have always tried to offer cattle to our customers that are genetically verified by extensive use of all the technology available as well as cowboy logic for traits not measured by the computer. Our sires and cow herd have all been genomically tested for parentage, genetic merit and known defects.

Quality is a major driver for our program. Since Red Angus has now been recognized by USDA as Angus, there is a greater responsibility to verify carcass qualities to meet market demands. Marbling has historically been a major component to qualify for upper two-thirds Choice and Prime grades. Top Dollar Angus is another source to verify quality. Protecting the maternal side of the equation is likewise a priority which includes disposition, foot and udder structure, fleshing ability, fertility, longevity and survivability in range conditions.

Our cattle are all guaranteed breeders with bulls passing breeding soundness and semen evaluation. The heifers are guaranteed open and ready to breed.

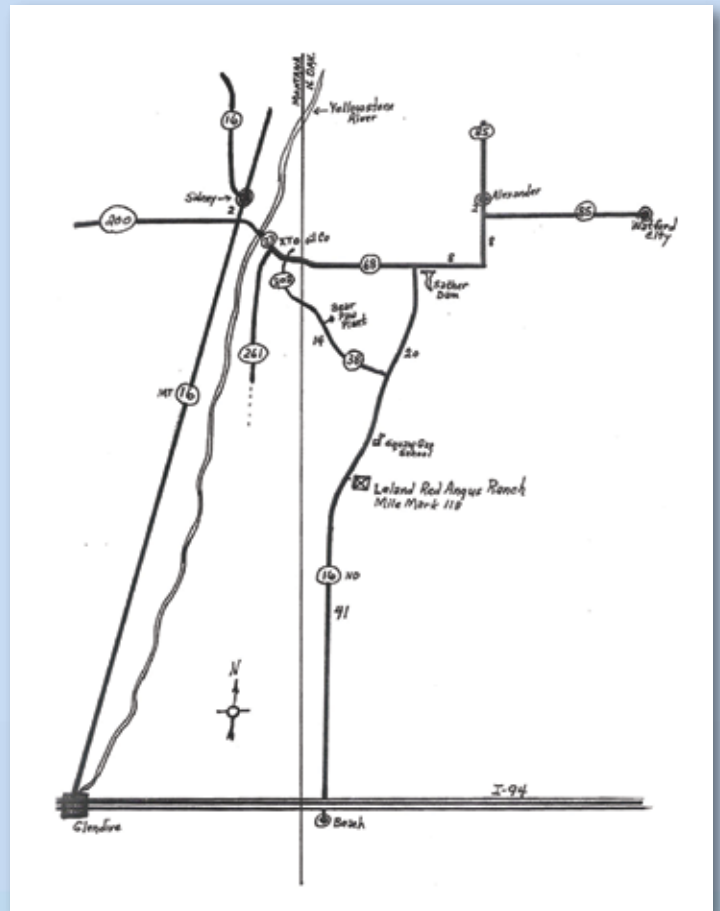

See our Bag-A-Bull and EID tag offer on page 4 and bull mortality insurance on page 2.

Be sure to view the videos of the sale bulls and heifers on our website at www.lelandredangus.com and www.koesterredangus.com. These videos will be available a couple of weeks prior to the sale.

We are happy to assist with any specific needs. For sight-unseen purchases, we guarantee confidentiality and the lowest bid.

We offer free delivery to central points up to 500 miles with every effort to make it as convenient as possible.

*Best wishes from all of us at
Leland Red Angus &
Koester Red Angus*

DVAuction

Broadcasting Real-Time Auctions

We are pleased to offer the Leland Red Angus Sale broadcast "live" over the Internet through DVAuction Services.

First Time Users:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab.
- Complete "Registration" and "Applying to Bid" at Leland Red Angus.
- Please view the tutorial available on our home page for bidding instructions.
- Proxy bidding is available before sale day and during the auction.
- You will be assigned a buyer number once you purchase.

We will be contacting your bank to verify information.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home.

After the sale:

- Contact Leland Red Angus for delivery or pickup and payment arrangements.

Note: You must have high-speed internet access (DSL, T-1 or Broadband) to be able to bid during the sale. Any questions: Contact Tami with DVAuction at (308)-870-3661, tmcintosh@dvauction.com.

We recommend that you register by March 13, 2025, for on-line bidding. Every attempt will be made to complete your application, even if it is on sale day.

GENERAL INFORMATION

FRIDAY, MARCH 14, 2025

Sale will begin at 1 p.m. MST
Cattle may be viewed any time prior to sale day.

LUNCH

A free noon lunch will be served on sale day.

TRANSPORTATION

Sidney is served by Cape Air (800) 227-3247. We will meet planes on request. Dickinson and Williston also offer air service.

ACCOMMODATIONS

Sidney:

VIDEOS OF SALE LOTS

Video of sale bulls and heifers will be available to view on our websites, www.lelandredangus.com and www.koesterredangus.com, a couple weeks prior to the sale. All cattle will be penned by sale order to view sale day and will sell via video display.

ONLINE CATALOG & SORTABLE DATA

www.lelandredangus.com • www.koesterredangus.com
Download the BullPEN app on your mobile device to sort for specific criteria.

TELEPHONE BIDS

Bids will be handled in strict confidence by any of the publication representatives or the ranch. Capabilities to bid by phone on sale day are limited. To do so, please make prior arrangements with a livestock press representative or call the ranch directly at 701-565-2347. Bidders may also log on to DVAuction.com to bid online. Please see additional information on page 1.

HEALTH

All the bulls will have a general health and fertility examination prior to delivery and will be cleared for interstate transportation. Scrotal measurements will be available on sale day. All bulls are 50K DNA tested. All heifers are Bangs vaccinated.

FERTILITY

Yearling and 18-month-old bulls will have a breeding soundness evaluation and semen test prior to delivery. Yearling heifers are guaranteed open and breedable.

GUARANTEE

The bulls and heifers are fully guaranteed. Concerns are handled on a case-by-case scenario. We do encourage you to purchase livestock insurance. For more information on these affordable options, see page 6. All cattle will be sold according to the terms and conditions recommended by the Red Angus Association of America.

DELIVERY

Free delivery of bulls to central points up to 500 miles. Balance at cost. Heifers are the responsibility of the buyer. We will cooperate in any way to assist in deliveries of greater distance or by private arrangements and volume purchases.

LIABILITY DISCLAIMER

All persons attending the sale, any sale functions or viewing the cattle do so at their own risk. Leland Red Angus, Koester Red Angus, their staff or representatives assume no liability, legal or otherwise, for any accidents or injuries that may occur.

BULL MORTALITY INSURANCE

Purchases are the responsibility of the new owner. We strongly encourage you to insure your bulls. Coverage is affordable and a good business practice.

Ask for specific details at the clerking desk or contact Jeff Thomas.

A-BAG-A-BULL

If you purchase a bull from us, we will provide a credit of one bag of FCCP or AA tag, OR \$25 towards EID tags per bull purchased. To redeem your credit, bring your receipt for the tags to next year's sale and we will apply it to your bull purchase.

The FCCP provides age, source and genetic verification for calves sired by registered Red Angus bulls. The FCCP 'yellow tags' are recognized by buyers nationwide and return a premium for Red Angus calves enrolled in the program.

The Allied Access program provides age and source verification for commercial cattlemen whose bull battery does not exclusively contain registered Red Angus bulls. Whether you are utilizing multiple sire breeds or halfblood bulls, enrolling in Allied Access demonstrates to buyers that you are taking an extra step in marketing your calves and adding value throughout the production chain.

To enroll in the FCCP or Allied Access, contact the Red Angus marketing department. Enrollment is simple and free of charge.

RedAngus.org
940-477-4593

RED ANGUS
RANCH TESTED. RANCHER TRUSTED.

CARCASS ULTRASOUND

This is the 25th year we have used ultrasound technology to evaluate carcass characteristics. Weather permitting, we will have carcass ultrasound information available on all bulls just prior to the sale that can be accessed on our web site.

This information will be available for our customers upon request and more importantly it will be used for more meaningful genetic evaluations in the future as it contributes to carcass EPDs.

RETAINED INTEREST

One-half semen interest is retained and full possession selling on all bulls. This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he sells him. It does give Leland Red Angus and Koester Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Leland Red Angus or Koester Red Angus and at the purchaser's convenience. Leland Red Angus or Koester Red Angus would assume full liability for the bull's welfare at the purchase value during transportation and collection unless it is a joint venture with the purchaser. In such a case, liability would be proportionately assumed.

TOP THE MARKET.

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB.... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib.(Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

BULL & HEIFER DEVELOPMENT

LELAND BULL DEVELOPMENT

Our bulls are developed at our ranch facilities on a total mixed ration formulated for adequate growth, but mild enough to protect their fertility and longevity. Bulls are started on a roughage only diet and gradually transitioned to a TMR for development.

LELAND HEIFER DEVELOPMENT

The heifers are wintered on a high roughage ration that targets an ADG of 1.5 lbs. Per day, which is optimal for breeding performance.

KOESTER BULL DEVELOPMENT

The fall-born bulls are weaned in March and put on a high-roughage ration until we have green grass – hopefully in late May. The bulls summer on grass and limited supplement to encourage slow but steady growth for optimum longevity and fertility.

In September, we bring the bulls into the lot and start them on a ration consisting of chopped hay, silage and cracked corn. The bulls stay on this ration until sale time.

We strive to promote steady growth, sound foot development and healthy, active potency so they are prolific breeders and maintain their body condition throughout breeding season.

UDDER SCORES

Udder scores have been used to cull and select cattle at Leland Red Angus and Koester Red Angus for many years.

Scores are taken within 12 hours of calving by the same person to insure consistency. Scores less than 5 are considered unacceptable, and those individuals are not kept in our herds.

We include the dam's udder scores for Suspension and Teat Size following her MPPA in each bull's data block.

Udder Suspension			Teat Size		
Score	Description	Example	Score	Description	Example
9	Very Tight		9	Very small	
7	Tight		7	Small	
5	Intermediate/moderate		5	Intermediate/moderate	
3	Pendulous		3	Large	
1	Very pendulous, broken floor		1	Very large, balloon-shaped	

GENOMICALLY ENHANCED EPDS

All sale bulls have been DNA profiled through GeneSeek's GGP-uLD test.

This ensures our customers have the most accurate information available to make their purchasing decisions. With the GGP-uLD profile, the bulls' EPDs now have the same accuracy as they would with their first calf crop reported and registered through the Red Angus Association of America.

The GGP-uLD test also verifies parentage so you are assured of the bloodlines you are buying.

We trust in the science behind the genomics and are committed to ensure more value in your purchases, increasing the profitability of your calf crop.

For those who would like to gain even more genetic knowledge of your cowherd, consider testing your replacement heifers with Igenity Beef®. Please contact RAAA for more information.

- EPD percentile rankings for all traits
- Sire verification (if sire is DNA profiled)
- Follow-up from RAAA Marketing Team Member
- Potential qualification tool into Top Dollar Angus

Identify your top replacements before breeding!

A

BB PROPULSION 9096
#4169122 • 3/15/19 • 100% 1A

Propulsion has an attractive phenotype with extra length and style. He has exceptional foot structure and added growth, fertility and marbling. His Pie One of A Kind and Sun King pedigree has stood the test of time. His sons had a 77 lb. BW and daughters a 73 lb. BW average. ABS Sire.

D

LELAND BRUNSWICK 1047
#4474365 • 3/24/21 • 99.8% 1B

Brunswick 1047 continues to sire impressive progeny with many of his sons selling high in the sale order. He has the highest ProS index rank in the breed, meaning he is not only a good carcass sire but also a maternal sire. He combines the Silver Bow with Red Direction/Trend Setter pedigree. Sons average a 79 lb. BW and daughters average 74 lb.

E

LEACHMAN SHULA A113G
#4236102 • 8/22/19 • 100% 1A

Shula 113G has sired some of our top selling bulls in the past with high GM and carcass ranks. His daughters are proving his strong fertility EPD. He combines the popular Spur Franchise of Garton with Paramount/Abigrace pedigree. Shula's sons average an 84 lb. BW and his daughters average a 72 lb BW. Deceased. Co-owned with Leachman Cattle of Colorado.

K

FEDDES TREADSTONE 704-9352
#4116550 • 1/16/19 • 100% 1A

Treadstone stacks many generations of maternal excellence, especially under quality. We've used him extensively on heifers with great calving ease. Expect good growth, ADG, Milk, HPG and excellent carcass quality. Sons post a 77 lb. BW average and daughters a 73 BW average. Co-owned with Feddes Red Angus, MT.

L

WSM QUARTERBACK 2104K
#4627511 • 3/23/22 • 100% 1A

Quarterback 2104 is a long, thick-made son of the popular PIE Quarterback 789 and a full brother to WSM Playmaker 1080 at ABS. He ranks in the top 20% of the breed for CED, Milk, and Marbling. We use him on both cows and heifers with his sons averaging a 74 lb. BW and heifers a 65 lb. BW. Co-owned with Wasem Red Angus, ND.

M LELAND CASH MARKET 2201
#4683017 • 4/14/22 • 99.9% 1B

Cash Market 2201 is an attractive Stockmarket son out of a Full House daughter. This combination promises high indexing progeny with strong maternal values and exceptional carcass quality. Although his EPDs don't show it, we have found him a top choice for calving ease and use on heifers. His sons post a 68 lb. BW average and daughters a 69 BW average.

Lot 10, LELAND BRUNSWICK 1047-4003

- A heavy weaning, fast gaining bull indexing high for HB and GM.
- He is a high volume bull with a deep rib and lots of capacity.
- A maternal sister produced Lot 62 this year with 789 lb. (113) WW and last year she raised a super thick Charter son selling for \$12,500 to the Leiseth Ranch, ND.
- Fertile with strong foot and udder scores, he may be the thickest quartered bull in the sale.

Steve & Tracey Koester, Kacey & Jake Jacobson, Shaye & Phillip Wanner,

The second set
of age-advantaged bulls begins
on page 49 with Lot 109.

The third set begins on
page 64 with Lot 165.

Powered by Genetics...

Koester Red Angus combines over 20 years of genomic DNA testing with practical, hands-on selection to deliver bulls that perform both on paper and in the pasture. While advanced data drives our decisions, we never compromise structure, muscle and phenotype. Our bulls are built to produce efficient, high-performing cattle and long-lasting females – ensuring commercial cattlemen get results that are as reliable as they are profitable.

Proven Genetics. Reliable, Profitable Results.

Winter breeding poses extra challenges for our fall herd. Our cows must breed during blizzards, long frigid spells and naturally shorter daylight hours. Likewise, the calves must grow during these conditions and wean in March. We have a zero-tolerance policy and sell open cows in the spring.

Each calf is tagged and weighed at birth. We also score the dam on her udder suspension and teat size, and record her disposition while processing her calf.

Our Fall-Calving Program

We designed our fall-calving program in order to offer our customers the option of bulls with an age advantage. Those few extra months of maturity don't necessarily mean the bulls will cover more cows, but they will maintain their body condition and come in after breeding season in good rig.

We summer the fall bulls on pasture with minimal supplementation, diligently culling for performance, foot structure and disposition. We move them into the lot in September and prepare them for carcass ultrasounding. The bulls are not tested for gain due to the hot summer months, but are developed for longevity and soundness.

We calve the cows and first-calf heifers in the pasture starting in mid-August. We synchronize and AI in mid-November, and pull bulls on New Year's Day. The calves endure the harsh winter conditions and temperatures during their pre-weaning age.

A Note About Performance Data

As many of you are aware that have used our fall-born bulls, they out-perform their actual weaning and yearling performance numbers. Fall-calving weather is great but breeding and nursing in the winter can be very challenging. Brutal snow, wind and frigid temps require a lot of metabolic energy to simply survive. Those environmental conditions affect the calves' actual performance numbers and that is why we place a lot of emphasis on their EPD profile that is backed by over 20 years of genomic data. It is a much truer picture of how the bull will perform.

We believe the best way to measure an animal's true performance is with environmental factors removed. EPDs and breed percent ranking do a very nice job of removing that noise, which reveals an animal's true performance potential. We welcome conversations about our program and genetics to help you find the ideal bull to fit your cow herd and program.

LELAND PROPULSION 2143, Maternal Brother to Lot 54

- This bull ranks in top 12% or better on his indexes, as well as WW, YW, Milk and HPG.
- Notice an excellent balance on carcass data led by Marbling.
- He is soggy, deep and thick with lots of volume and guts.
- This bull does have slight scurs which classify him as Category 2.

- Jump Start, Fusion and Merlin translate to growth, maternal, fertility and carcass values.
- This is the first bull for his dam – 5 daughters have been retained as replacements.
- A longer eared bull that likely will be larger framed.
- A maternal sister raised Lot 61.

Lot 67, LELAND PRIME FACTOR 4194

- This Prime Factor son is bred to be a carcass leader, and his numbers agree with the pedigree!
- Look at his carcass ranks and consider that his beautiful dam has a perfect udder.
- Two early calving maternal sisters remain in our herd.
- His MGD produced Lot 89, whose carcass numbers are good across the board.

Lot 68, LELAND PATENT 4268

- We used the Patent 1083 sire to sustain carcass quality, and he doesn't disappoint!
- Heavy weaning, rapid gaining and indexing near the very top of the breed in all traits.
- Look at his Milk and fertility (HPG), Stay and solid carcass numbers.
- He indexes high for HB and GM.

- This bull puts together an exceptional breed rank for ProS, HB and GM with top Marbling.
- His MGD produced a 3/4 brother by Brunswick 1047 as Lot 96 this year.
- A thick maternal brother by Charter 0906 sold well to the Schettler Ranch, ND in 2022.
- Remember this bull combines the maternal and carcass traits of Brunswick and Fusion.

Trey with his new ride, Ote – perfect match!

- Born a twin, raised by his dam, with superb carcass values.
- His indexes rank him at the very top of the breed across all traits!
- He is #1 HB, GM, and CW and #3 REA, 4% Marbling! No wonder he's Top Dollar!

- Top-indexing bull with very strong maternal
- Insight and Megatron both make great female
- Keep all the daughters – the 143 female is ranch favorite
- Dam makes the grade on udder scores as well

Thanks, Wyatt Lorch, for interning this summer and putting up with Steve!

- Long-profiling, wide-topped, attractive Cronus son
- Hughes A512 daughters are top producers
- Dam has very nice udder scores

- Should add marbling to his offspring along with great uddered daughters

Important Events BEYOND the RANCH

Trey won his first mutton bustin' buckle at the pro rodeo in Baker, MT this fall!

Tripp and Todd had a mustache contest in the tractor this spring!

Cedar graduates in May and is active in speech and drama and rodeo.

Wacey qualified for Nationals in Cutting this year. Way to go Wacey!

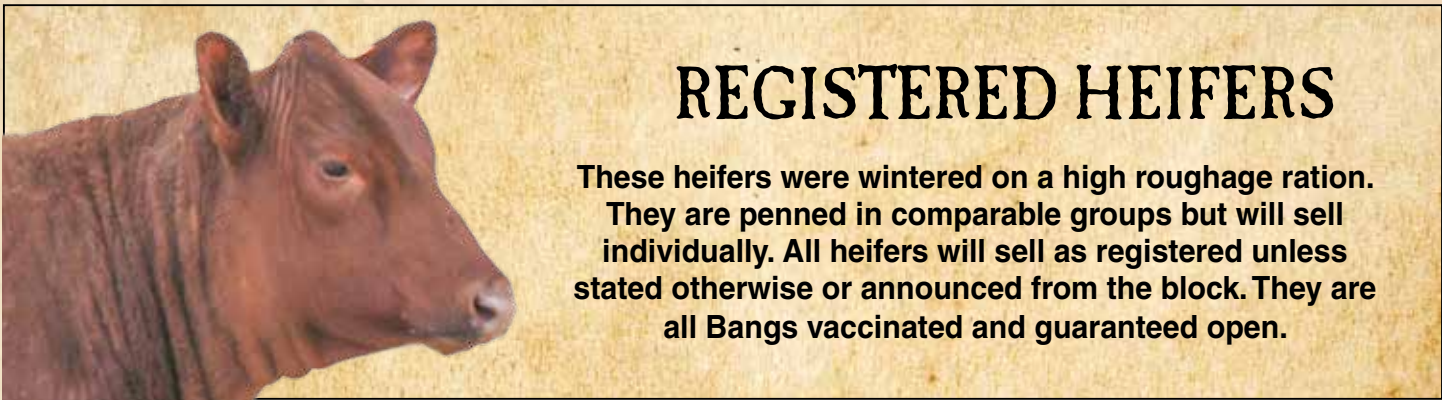

Shaye stays busy with her podcast, Casual Cattle Conversations, working on the ranch and farming with Phillip. Phillip stays very busy farming and running Centre Crop Consulting.

Kacey and Jake Jacobson ranch with Jake's family, raise and market bred heifers and own a custom fencing business. Kacey also works for Cow Camp Promotions.

Trista and Logan are engaged! They will be married in August – congratulations!

REGISTERED HEIFERS

These heifers were wintered on a high roughage ration. They are penned in comparable groups but will sell individually. All heifers will sell as registered unless stated otherwise or announced from the block. They are all Bangs vaccinated and guaranteed open.

- 32 commercial open yearling heifers will sell by auction.
- They will sell in minimum groups of 5, with buyer's option to take as many groups as available, by gate cut.
- Heifer delivery is the responsibility of the buyer.
- We would like to have the heifers picked up the week following the sale.

Join our eNewsletter List!

We want to stay connected all year long so we launched a monthly eNewsletter. Unfortunately, we don't have a lot of your email addresses. Please fill out this catalog request form and we'll check your mailing address and add your email to our eNewsletter. We promise not to blow up your inbox!

<https://bit.ly/Leland-KoesterRequest>

Leland-Koester Feeder Connection

We're excited to introduce the Leland-Koester Feeder Connection, a no-cost, no-obligation service designed to help you connect with more buyers and attract the competitive bids your calves deserve. Whether you sell at your local sale barn, through video auctions or directly to an order buyer, having more bidders at the table means a better bottom line for your operation. We've built strong relationships with feeders and industry professionals who value Red Angus genetics, and we want to put those connections to work for you.

Here's how it works:

Simply fill out the quick online form with details about your calves – the more information you provide, the better we can help market them – <https://bit.ly/LelandKoesterFeederList>

We'll share your listing in our Leland-Koester Feeder Connection Facebook group and directly with trusted buyers in our network.

You're also welcome to post your own updates, photos and videos to engage potential buyers and spark interest in your calves.

Scan the QR code or visit
bit.ly/LelandKoesterFeederList

We're proud to stand behind our cattle and behind you.
