Welcome to our 43rd Annual Production Sale!

We extend our sincere thanks and appreciation to our loyal customers, friends and supporters for 43 years of interest in our program. The challenges and rewards of the past years remind us of the many blessings we enjoy as livestock producers, especially now that we are reaping a positive revenue.

We believe sustaining a positive return for our cattle will require a steady diligence in genetic quality. At Leland Red Angus and Koester Red Angus we are devoted to producing seedstock with genetic advantage so our customers can enjoy a sustainable legacy. Through technology and cowboy logic we strive to achieve this, in spite of circumstances beyond our control like weather and politics.

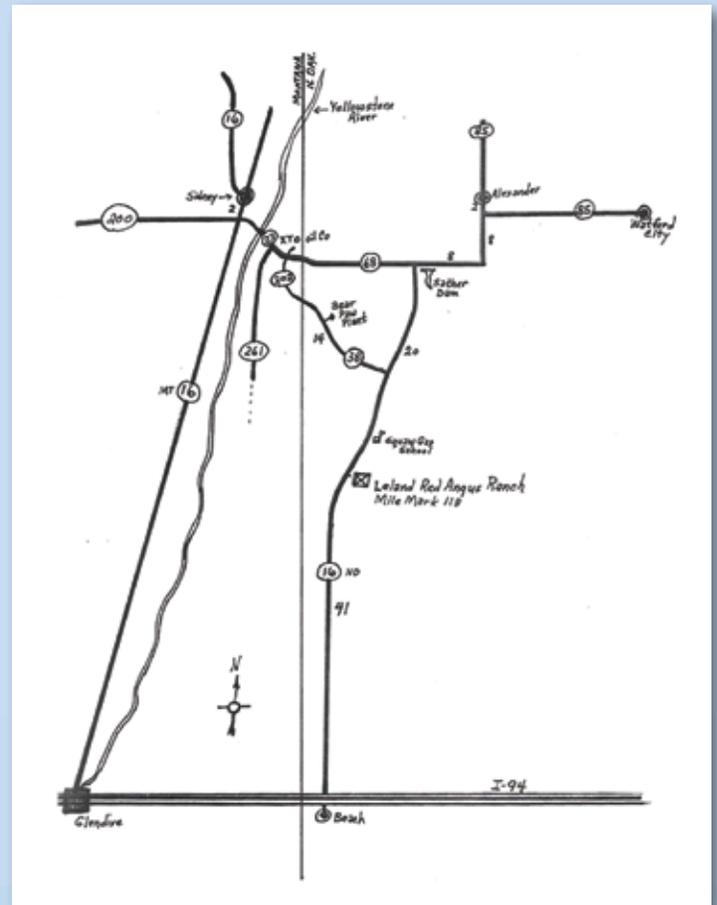

Selecting for the convenience traits is important to sustainable production like fertility, calving ease, foot and udder structure and disposition remain at the forefront.

All the animals in our herds are DNA verified for the genetic traits available to confirm their value and we welcome visual appraisals anytime.

Be sure to view the videos of the sale bulls and heifers on our website at www.lelandredangus.com, www.koesterredangus.com or www.dvauction.com. These videos will be available a couple of weeks prior to the sale.

Our cattle are all guaranteed breeders and bulls will have breeding soundness examinations prior to delivery.

We offer free delivery on bulls to central points up to 500 miles and will make every effort to make it as convenient as possible.

*Best wishes from all of us at
Leland Red Angus &
Koester Red Angus*

DVAuction

Broadcasting Real-Time Auctions

We are pleased to offer the Leland Red Angus Sale broadcast "live" over the Internet through DVAuction Services.

Bull videos can also be viewed on www.dvauction.com.

First Time Users:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab.
- Complete "Registration" and "Applying to Bid" at Leland Red Angus.
- Please view the tutorial available on our home page for bidding instructions.
- Proxy bidding is available before sale day and during the auction.
- You will be assigned a buyer number once you purchase.

We will be contacting your bank to verify information.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home.

After the sale:

- Contact Leland Red Angus for delivery or pickup and payment arrangements.

Note: You must have high-speed internet access

(DSL, T-1 or Broadband) to be able to bid during the sale. Any questions: Contact Tami with DVAuction at (308)-870-3661, tmcintosh@dvauction.com.

We recommend that you register by March 12, 2026, for on-line bidding. Every attempt will be made to complete your application, even if it is on sale day.

GENERAL INFORMATION

FRIDAY, MARCH 13, 2026

Sale will begin at 1 p.m. MST
Cattle may be viewed any time prior to sale day.

LUNCH

A free lunch will be served on sale day at noon.

TRANSPORTATION

Sidney is served by Cape Air (800) 227-3247. We will meet planes on request. Dickinson and Williston also offer air service.

ACCOMMODATIONS

Sidney:

VIDEOS OF SALE LOTS

Video of sale bulls and heifers will be available to view on our websites, www.lelandredangus.com, www.koesterredangus.com and www.dvauction.com a couple weeks prior to the sale. All cattle will be penned by sale order to view sale day and will sell via video display.

ONLINE CATALOG & SORTABLE DATA

www.lelandredangus.com • www.koesterredangus.com

TELEPHONE BIDS

Bids will be handled in strict confidence by any of the publication representatives or the ranch. Capabilities to bid by phone on sale day are limited. To do so, please make prior arrangements with a livestock press representative or call the ranch directly at 701-565-2347. Bidders may also log on to DVAuction.com to bid online. Please see additional information on page 1.

HEALTH

All the bulls will have a general health and fertility examination prior to delivery and will be cleared for interstate transportation. Scrotal measurements will be available on sale day. All bulls are GGP-uLD DNA tested. All heifers are Bangs vaccinated.

FERTILITY

Yearling and 18-month-old bulls will have a breeding soundness evaluation and semen test prior to delivery. Yearling heifers are guaranteed open and breedable.

GUARANTEE

The bulls and heifers are fully guaranteed. Concerns are handled on a case-by-case scenario. We do encourage you to purchase livestock insurance. For more information on these affordable options, see below. All cattle will be sold according to the terms and conditions recommended by the Red Angus Association of America.

DELIVERY

Free delivery of bulls to central points up to 500 miles. Balance at cost. Heifers are the responsibility of the buyer. We will cooperate in any way to assist in deliveries of greater distance or by private arrangements and volume purchases.

LIABILITY DISCLAIMER

All persons attending the sale, any sale functions or viewing the cattle do so at their own risk. Leland Red Angus, Koester Red Angus, their staff or representatives assume no liability, legal or otherwise, for any accidents or injuries that may occur.

BULL MORTALITY INSURANCE

Purchases are the responsibility of the new owner. We strongly encourage you to insure your bulls. Coverage is affordable and a good business practice.

Ask for specific details at the clerking desk or contact Jeff Thomas.

CARCASS ULTRASOUND

This is the 26th year we have used ultrasound technology to evaluate carcass characteristics. Weather permitting, we will have carcass ultrasound information available on all bulls just prior to the sale that can be accessed on our web site.

This information will be available for our customers upon request and more importantly it will be used for more meaningful genetic evaluations in the future as it contributes to carcass EPDs.

RETAINED INTEREST

One-half semen interest is retained and full possession selling on all bulls. This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he sells him. It does give Leland Red Angus and Koester Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Leland Red Angus or Koester Red Angus and at the purchaser's convenience. Leland Red Angus or Koester Red Angus would assume full liability for the bull's welfare at the purchase value during transportation and collection unless it is a joint venture with the purchaser. In such a case, liability would be proportionately assumed.

BULL & HEIFER DEVELOPMENT

LELAND BULL DEVELOPMENT

Our bulls are developed at our ranch facilities on a total mixed ration formulated for adequate growth, but mild enough to protect their fertility and longevity. Bulls are started on a roughage only diet and gradually transitioned to a TMR for development.

LELAND HEIFER DEVELOPMENT

The heifers are wintered on a high roughage ration that targets an ADG of 1.5 lbs. per day, which is optimal for breeding performance.

KOESTER BULL DEVELOPMENT

The fall-born bulls are weaned in March and put on a high-roughage ration until we have green grass – hopefully in late May. The bulls summer on grass and limited supplement to encourage slow but steady growth for optimum longevity and fertility.

In September, we bring the bulls into the lot and start them on a ration consisting of chopped hay, silage and cracked corn. The bulls stay on this ration until sale time.

We strive to promote steady growth, sound foot development and healthy, active potency so they are prolific breeders and maintain their body condition throughout breeding season.

TOP THE MARKET.

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB.... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib.(Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

GENOMICALLY ENHANCED EPDS

All sale bulls have been DNA profiled through GeneSeek's GGP-uLD test.

This ensures our customers have the most accurate information available to make their purchasing decisions. With the GGP-uLD profile, the bulls' EPDs now have the same accuracy as they would with their first calf crop reported and registered through the Red Angus Association of America.

The GGP-uLD test also verifies parentage so you are assured of the bloodlines you are buying.

We trust in the science behind the genomics and are committed to ensure more value in your purchases, increasing the profitability of your calf crop.

For those who would like to gain even more genetic knowledge of your cowherd, consider testing your replacement heifers with Igenity Beef®. Please contact RAAA for more information.

- EPD percentile rankings for all traits
- Sire verification (if sire is DNA profiled)
- Follow-up from RAAA Marketing Team Member
- Potential qualification tool into Top Dollar Angus

Identify your top replacements before breeding!

UDDER SCORES

Udder scores have been used to cull and select cattle at Leland Red Angus and Koester Red Angus for many years.

Scores are taken within 12 hours of calving by the same person to insure consistency. Scores less than 5 are considered unacceptable, and those individuals are not kept in our herds.

We include the dam's udder scores for Suspension and Teat Size following her MPPA in each bull's data block.

Udder Suspension			Teat Size		
Score	Description	Example	Score	Description	Example
9	Very Tight		9	Very small	
7	Tight		7	Small	
5	Intermediate/moderate		5	Intermediate/moderate	
3	Pendulous		3	Large	
1	Very pendulous, broken floor		1	Very large, balloon-shaped	

FOOT SCORES

Our cow herds are all individually scored for foot quality.

Any cow that fails to meet a desired score is disposed of with one exception: Occasionally, a good producer who falls out on foot or udder quality can be utilized as a recip cow for ET.

Foot and Leg Scoring Reference

CLAW SHAPE Reference: Shape (primarily curl) and unevenness of the claw set.

FOOT ANGLE Reference: Strength of pastern, depth of heel and length of foot.

REAR LEG SIDE VIEW Reference: Angle measured at the front of the hock.

REFERENCE SIRES

A **LORENZEN INSIGHT 9917**
#4114758 • 1/16/19 • 100% 1A

Insight 9917 offers incredible breed ranking in every index. Acceptable calving ease, extra growth, maternal, attractive carcass and stands on a sound structure. He is a paternal brother to Ref Sire B, LSF SRR Patent 1083J and Ref Sire I, Lorenzen Charter 0906. Insight's sons have an 83 lb BW avg and a 719 lb WW avg (105 WR).

ProS	HB	GM	CED	BW	WW	YW	ADG	M	HPG	CEM	ST	MARB	YG	CW	REA

Lot 12, LELAND COMMANDO 5641

- Big framed bull with extra length, depth and thickness; plus he's wrapped in a dark cherry red hide!
- Visitors find this bull rapidly and admire his stature and design.

Lot 13, LELAND LONG HAUL 5544

- Long Haul hit it big on this Lotto 722 daughter – loads of growth and milk.
- His dam has excellent foot and udder scores; and take a look at his Marb and CW rankings.
- A sister produced Lot 7, a heavy weaning Insight 9917 son.

Lot 14, LELAND SHULA 3031-5473

- A high indexing performance bull with Milk, Fertility, Stay and Carcass Value to go along with his complete phenotype.
- This bull gets his low BW from his dam's pedigree, but we would recommend caution for use on heifers.
- A maternal brother by Peerless 9976 was high performance and among our top sellers selling to Patten Ranch, ND last year.
- MGD produced the high ADG heifer bull, Lot 140, sired by Charter 0906 this year.

Second draft of yearling bulls starts on page 31 with Lot 56.

KOESTER *red angus*

Steve & Tracey Koester
2877 47th St SE • Steele, ND 58482
(701) 400-1611 cell
www.KoesterRedAngus.com
koesterredangus@gmail.com

Steve & Tracey Koester, Kacey & Jake Jacobson, Shaye & Phillip Wanner,

The second set
of age-advantaged bulls begins
on page 48 with Lot 116.

The third set begins on
page 64 with Lot 181.

Powered by Genetics...

Koester Red Angus combines over 20 years of genomic DNA testing with practical, hands-on selection to deliver bulls that perform both on paper and in the pasture. While advanced data drives our decisions, we never compromise structure, muscle and phenotype. Our bulls are built to produce efficient, high-performing cattle and long-lasting females – ensuring commercial cattlemen get results that are as reliable as they are profitable.

Proven Genetics. Reliable, Profitable Results.

Sometimes the best-laid plans go awry ...

In November 2023, we had everything lined out. Sires selected to advance our sale offering, matings planned through RightMate, and our AI crew ready to roll as the sun started to pink the eastern sky.

Then we gathered the cows – all synchronized for time breeding – and our hearts fell (and blood pressure spiked). The sale bulls had torn down 60 feet of fence and were happily “co-mingling” with cows at the peak of estrus.

Tension was high is an understatement. But the plan was the plan, so we moved forward and AI'd as scheduled. As we walked into the AI barn, our son-in-law – and bull customer – Jake Jacobson, cracked a grin and said, “Well, I hope you have confidence in your genetics.”

Fast forward to this crop of bulls (and a little extra sorting through DNA results), and we can assure you those sale bulls were fertile and virile.

You'll notice multiple sires in this offering that trace back to that fateful November day. You'll also notice we're starting the sale with three of those bulls, and nearly half of our first draft is sired by our own genetics.

To us, that's a testament to generations of genetic decisions – and a strong cow herd that anchors our program.

Bid with confidence. You're buying the same quality as always – and yes, we do have confidence in our genetics.

Advantage of Age-Advantaged Bulls

We designed our fall-calving program to give you the option of age-advantaged bulls. Those extra months of maturity don't necessarily mean they'll cover more cows, but they do help them hold body condition and come in after breeding season in good rig. We develop them on pasture with minimal supplementation and we cull hard for performance, foot structure and disposition – because longevity and soundness matter to your bottom line.

A note about performance data: Fall-born calves earn their numbers in tough conditions. Winter breeding and nursing take extra energy, so actual weights can undersell their genetic potential. We place heavy emphasis on EPDs and breed percent ranks backed by more than 20 years of genomic data – tools that remove environmental noise and reveal true performance potential. We're raising bulls that add pounds to steers and sire productive daughters, paying their way year after year.

Winter breeding poses extra challenges for our fall herd. Our cows must breed during blizzards, long frigid spells and naturally shorter daylight hours. Likewise, the calves must grow during these conditions and wean in March. We have a zero-tolerance policy and sell all open cows.

- What a stud! His pedigree is stacked top and bottom with growth, carcass and maternal.
- Insight, Full House, Stockmarket, Marksman and Domain all were exceptional sires.
- Cow power with carcass is not easy to find.
- Thick-made, long-sided, deep-ribbed bull with a super attractive look.
- Great breed rankings in all the right areas – this bull will sire profitable progeny.

Lot 77, LELAND PROPEL 5472

- A moderate BW bull with growth, maternal and carcass data in the top 1/3 of the breed.
- His sire, Propel 261, is a moderate framed, easy fleshing bull with natural thickness.

Lot 78, LELAND COMMANDO 5695

- The numbers tell his story with solid performance, maternal and carcass.
- He is the third sale bull in a row for his dam, who sports very good foot and udder scores.

78 LELAND COMMANDO 5695

Koester Red Angus Age-Advantaged Bulls – Lots 116-135

Lot 116, KOESTER CHARTER 425

- What a way to start the second draft of fall bulls – stud heifer bull.
- Sleep-all-night calving ease and super stout with fantastic breed ranks.
- Exceptional breed rankings for birth, growth, milk, fertility, stay, marbling and carcass weight.
- Added bonus, exceptional udder scores on his dam and index rankings that scream profit.

Bull deliveries took Steve and Tracey to Colorado for a visit with Croissant Red Angus and to see Shaw's and Croissant's Koester-sired cattle on feed.

- Super stout-made, attractive-patterned bull that has exceptional breed ranks.
- Growth, gain, longevity and carcass all in one package.
- Index rankings say profitable cattle at all levels, combined with perfect udder scores on his dam.

- Lots of depth and spring of rib in this attractive 2203 son.
- Check out the HPG and Marbling ranks on this bull.
- C810 daughters are calf raisers! Also check out the udder scores.

- Calving ease, fertility and longevity all rolled up into this bull.
- Keep all the daughters from this sire – they will be good.
- Udders scores on his 11-year-old dam are an added bonus.

Important Events **BEYOND the RANCH**

Trey played flag football this year. He was center and got to punt the ball. His team ended up third in their tournament!

Tripp got to start school this year. This was a major achievement for him, as he counted down the days all summer long! He loves his teacher and does very well in school!

Cedar is a freshman at the University of Mary and is a co-host on Ladies of Another View on BekTV.

Trista and Logan were married on a beautiful August day! Logan and Trista train horses and stay busy in the boot shop.

Wacey is a senior this year and will compete in his last year of high school rodeo this spring.

Shaye stays busy with her podcast, Casual Cattle Conversations, working on the ranch and farming with Phillip. Phillip stays very busy farming and running Centre Crop Consulting.

Kacey and Jake ranch with Jake's family, raise and market bred heifers and own a custom fencing business. Kacey also works for Cow Camp Promotions.

- 65 commercial open yearling heifers will sell by auction.
- They will sell in minimum groups of 5, with buyer's option to take as many groups as available, by gate cut.
- Heifer delivery is the responsibility of the buyer.
- We would like to have the heifers picked up the week following the sale.

Join our eNewsletter List!

We want to stay connected all year long through our monthly eNewsletter. Unfortunately, we don't have a lot of your email addresses. Please fill out this catalog request form and we'll check your mailing address and add your email to our eNewsletter. We promise not to blow up your inbox!

Leland-Koester Feeder Connection

The Leland-Koester Feeder Connection is a no-cost, no-obligation service designed to help you connect with more buyers and attract the competitive bids your calves deserve. Whether you sell at your local sale barn, through video auctions or directly to an order buyer, having more bidders at the table means a better bottom line for your operation. We've built strong relationships with feeders and industry professionals who value Red Angus genetics, and we want to put those connections to work for you.

Here's how it works:

Simply fill out the quick online form (link or QR code) with details about your calves. The more information you provide, the better we can help market them.

<https://bit.ly/LelandKoesterFeederList>

We'll share your listing in our Leland-Koester Feeder Connection Facebook group and directly with trusted buyers in our network.

You're also welcome to post your own updates, photos and videos to engage potential buyers and spark interest in your calves.

Scan the QR code or visit
bit.ly/LelandKoesterFeederList

We're proud to stand behind our cattle and behind you.
