2Th
ANNIVERSARY

Welcome

to the 25th Anniversary Millar Angus Bull Sale! It seems like yesterday...we were fresh out of college just a few months away from our wedding day. Jon grew up selling bulls by private treaty, but wanted to see what it was like marketing them the auction way. Not sure if we were young and naive or just overly ambitious, maybe a little of both. We loaded up our favorite 16 bulls and headed to Philip Livestock. The bulls were well received and the fire to raise good seed stock was lit!

Fast forward to current day, we find ourselves blessed with two wonderful kids who appreciate the country life as much as we do. Our son Ryle recently graduated from school and is excited to be able to pursue ranching full-time. He knows the herd as good as anyone and often finds himself showing visitors around the ranch. Our daughter Kobi is great help and has recently expanded her own cow herd. She loves her rodeo, is involved in FFA and 4H and has recently taken up wrestling. When it comes to us...chasing cows and kids pretty much sums up our "free time" but wouldn't trade these days for anything!

Looking toward the ranch side of things, 2025 proved to be one to remember for our area. Not too often do strong cattle markets and ample moisture meet up in the same year, but when it does we sure don't take it for granted and appreciate it while it lasts. Aside from the markets and weather though, we all know this industry holds its own set of challenges. We always try to focus on what we can control, that being said...quality typically sells. It excites us when we visit past customers who have seen an increase in weaning weights off the cow and in the feedlot. Expenses never seem to go down, so our goal is to produce cattle that will help your herd be as economical and profitable as possible. All of our bulls have been raised with the rancher in mind: natural growth bred in, not fed on. If you're needing a bull to cover a little more country one of our two-year-olds should fit the bill. They're from our 2024 calf crop and have never before been offered for sale.

As always, we'll keep the bulls until April and deliver them to surrounding states, free of charge. Bulls will be semen tested in March with scrotal measurements available sale day. All bulls sell FULLY GUARANTEED for the first breeding season with your satisfaction being our #1 priority. You're always invited to stop by to view the bulls and the cowherd that produced them. Whether you're considering Millar Angus genetics for the first time or are a repeat customer, neighbor or friend...we look forward to working with you!

Jon, Breazy, Ryle & Kobi

Herd Health:

We pasture weaned the bulls on September 9th. The bulls were transitioned over to a mixed ration of sorghum silage, ground hay, earlage and protein supplement where we targeted a 3 lb/day gain. We like to keep the bulls on a high roughage diet and grow them out to ensure sound feet, legs and longevity of the bulls.

Terms: The terms of the sale are cash or check payable at the sale facility unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released. **Bids:** Every animal is to be sold and will be sold. No by-bidding is permitted. The highest bidder is the buyer. **Disputes:** In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters is final. **Announcements:** Errors discovered in the catalog will be corrected by announcements from the auction stand at sale time and will take precedence over the printed material in the catalog. **Accidents & Liabilities:** All persons attend the sale at their own risk and the seller and sales management assume no liability, legal or otherwise, for any accidents occurring in, on, or about the premises. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

WE PUT A *Strong Emphasis* ON THE MAMA COW

We may be in the bull business, but we know it starts with the mama cow...you've got to have a good factory! For a cow to stay in our herd she must be efficient and functional, raising a big calf with consistent breed back year after year.

Here is a look at the 56 cows that are working in our herd today that have earned Pathfinder status.

The **PATHFINDER ANGUS PROGRAM** was started in 1978 in an effort to identify superior cows in the breed based on their records of performance from Angus Herd Improvement Records (AHIR). In identifying these superior cows, emphasis was placed on early puberty, breeding and early calving, followed by regularity of calving and above-average performance of the offspring.

The Pathfinder Report requires a minimum of three calves from a cow to determine her regularity of calving and ability to produce superior calves for weaning weight. In addition, an important part of the report is the list of bulls that have sired five or more qualifying females.

The Angus Pathfinder Report identifies cows that have excelled in production based on AHIR records of performance. To qualify for the report, a cow must have produced a calf measured through AHIR in the past 18 months. Pathfinder status is designated by a # symbol.

What a ride it has been! We simply cannot thank you enough for supporting us over the years. We were just a couple newly engaged kids, fresh out of college when we held our first sale. The people we've met and the friendships we've formed over the years are priceless. We love what we do and are humbled that you have joined us on our journey. You are not just customers, you are friends!

She said yes!

Bull picture day had a little twist to it this year. Ryle's favorite bull in this year's lineup is Millars Double Nickel 55. So, when he came in for his picture Ryle thought it'd be the perfect time to pop the question! So excited to welcome Lexie to the family.
