LOTS 34-38

Welcome to Mohican West and Guests 2022 Production Sale!

Montana experienced record drought conditions in 2021. Accordingly, we retained cattle most capable of maintaining good body condition on dryland pastures and the forages that have been available during winter months. We have continued to select for udder quality, fertility, and added end product value.

Belt tightening can be a good thing. McMurry Cattle's 2022 consignments are females that have earned a place in our program and we are proud to share them. They are offered after a rigorous selection process.

Your interest in our cattle is appreciated. Contact us with any questions.

Sincerely,
Fred and Doreen McMurry

- Co-owned with Mohican West
- We really liked William 514C and wanted a son to use in our program. We were impressed with this guy as a calf in our 2020 sale and loved his dam, so we partnered on him. Really happy with his development and are anxious to see his contribution to our program.
- He is stout made, heavy muscled and good on his feet and legs.

- When we purchased the Bar Pipe cowherd it was with the intent of mating the old Standard and Ribstone bred cows to Manhattan 428B. The cross left us a real nice set of 2-year-olds. We are excited to share a few. I think you will really like this one.
- Pasture exposed from June 1 to July 1, 2022, to SR Mace's Expedition 671J, then pasture exposed from July 5 to August 2, 2022, to DCR 8128 Endure 1198. Safe in calf.

- Trust 320 was one of the high selling bulls in our 2015 sale. When we saw his daughter's, we bought the bull back. He works amazingly well on the Cowboss 199B daughters to produce economic, productive females that are marked and colored right. 0085 fits the type and kind, goggle eyed, red to the ground, easy fleshing and good uddered.
