NJWHerefords.com

Welcome to NJW!

Our program and these cattle are the result of a passion and commitment to raising the most predictable, highest quality Herefords possible. We have developed these genetics by using bloodlines that fit our environment, selecting for balanced traits and culling! Buying bulls is a huge investment ...the genetics you choose today having tremendous long-term impact on your herd. Buying the RIGHT bull can transform your calves and their value in just one generation as well as affect your cowherd for the next 10 years. Again this year, in an attempt to offer you the most predictable, accurate EPDs, we have Genetically Enhanced each animal's EPDs. We believe these cattle are a forward moving set of "Genetic Tools" both to look at and on paper. The average EPDs at NJW are...

NJW Yearling Bulls:

CED	BW	WW	YW	MILK	M&G	SC	Udder	Teat	REA	MB	\$CHB
5.7	1.7	58	90	34	63	1.3	1.30	1.40	.54	.08	112

NJW Yearling Heifers:

6.8	1.3	56	88	33	61	1.3	1.40	1.40	.51	.09	110
-----	-----	----	----	----	----	-----	------	------	-----	-----	-----

Hereford Breed averages:

2.9	2.8	54	87	26	53	1.0	1.20	1.20	.42	.12	116
-----	-----	----	----	----	----	-----	------	------	-----	-----	-----

These cattle were raised on Northern Wyoming and Southern Montana Range and their Mother's Milk only ...no creep! The average actual BW on all sale bulls is 86 lbs. The average actual BW on all sale heifers is 81 lbs. We develop our bulls to improve longevity and winter them here at the ranch on a limited amount of 12.8% grower and free choice grass hay.

Our goal is to produce easy doing, big bodied, thick and sound cattle with added performance that still maintain enough calving ease and high maternal traits. Our herd is very maternal and we demand our cows have good udders, are great mothers and calves be vigorous at birth! We expect our two yr. olds to raise bull calves to sell in the sale.

We make a special effort to get pictures of all sale bull dams, but keep in mind that most pictures were taken at Summer's end, a few days prior to weaning.

If you have questions or can't attend the sale, Ned and I are happy to help with selecting bulls to fit your program. The cow herd is located at our North Ranch and Bulls and Sale Heifers are at the South Ranch. Ranches are about 20 miles apart so allow extra time if you want to see both. If you are coming in on the 21st, please plan to join us for Supper at the South Ranch sale location!

Many Thanks! Ned & Jan Ward

BID LIVE VIA THE INTERNET...

Please register prior to sale day. For questions or assistance, contact Katie Colyer 208/599-2962.

AHA GE-EPD

The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

**All NJW Sale Cattle
Are Tested!**

GENERAL INFORMATION

New Sale Location: NJW South Ranch, 888 Lower Prairie Dog Rd., Sheridan, WY ...off I-90 at Sheridan, WY take Exit 23, go East on Hwy. 336 for 3.5 miles, turn left on to Lower Prairie Dog Rd., drive 9 miles to sale barn on your left. **It is best to set your GPS when you turn on Hwy. 336 as it will take you on best route!**

Airports: Sheridan, WY for private planes and served by United Airlines or Billings, MT...145 miles from the ranch.

Motels: Sheridan, WY

Comfort Inn (located on hwy. to Ranch) 307/ 675-1101

...Ask for NJW Bull Sale Rate \$89

Nelson Inn, 307/ 742-7637 (Airbnb, real nice)

...NJW Bull Sale Rate \$125

Hampton, 307/ 673-2734

Terms: Cash or check. Each animal to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids. All cattle are to be paid for by the purchaser during or immediately after the sale and will not be released until settlement has been made. Each animal becomes the property of the buyer immediately after the animal is sold. Any death or injury thereafter falls upon the buyer. **Announcements concerning the cattle at the sale ring by the owners or the auctioneer will take precedence over statements in this catalog.** All persons attending the sale do so at their own risk. Neither the owners, nor any person associated with the sale, assumes any liability, legal or otherwise.

Guarantee: We guarantee all livestock sold as sound breeders. If an animal fails to breed, it must be reported to NJW or returned in good condition and in compliance with the Wyoming Health Regulations. If an adjustment is required, it will be made with a replacement animal of equal value (or) credit of another animal of equal value in our NEXT sale. No adjustments will be made after nine (9) months.

Health: All sale bulls have passed a Breeding Soundness Exam. Please note that breeding soundness examinations are an indication of semen quality and reproductive health of the bull at the time of examination, not of their future fertility. Many factors including health, weather and nutrition will impact semen quality. We recommend that another breeding soundness exam be performed prior to use. All sale animals have been BVD ear notched and tested negative. **Health certificates will be furnished for shipment anywhere in the U.S. Since each State has different regulations on bulls coming from Wyoming, not all bulls will be able to get a Health Permit to go to every State on sale day!**

All NJW sale cattle have received a pre-breeding booster of Triangle 5 and Citadel VL5 and poured with Ivomec.

All NJW sale bulls and heifers have been DNA tested through the American Hereford Association and have been parentage verified and GE-EPD evaluated. All potential MD Carriers have been tested and results noted under their names. Otherwise, all sale cattle are free of other known defects recognized by the AHA as of March 22, 2023.

Delivery: Free delivery on Bulls and Heifers within 400 miles; balance at cost. Receive a \$50 discount per Bull or Registered Heifer you pick up on sale day. We'll assist you with long distance delivery to be done as soon as possible after the sale.

Mandibulofacial Dysostosis (MD): The American Hereford Assn. identified a new genetic defect marker called Mandibulofacial Dysostosis (MD). This genetic defect can cause deformation of the lower jaw. This is a simple recessive gene so the only way it can be a problem is if two carriers are mated to one another. This genetic marker does NOT have any negative affect for customers using carriers on cows of other breeds. We have tested our whole herd in an effort to identify any carriers and aid you in your selections and matings. Any sale animal that tested positive are noted with **MDCarrier** under their names. **The following lots tested positive as carriers of the gene:** (Bulls) 18K / 22K / 47K / 206K and (Heifer) 205K.

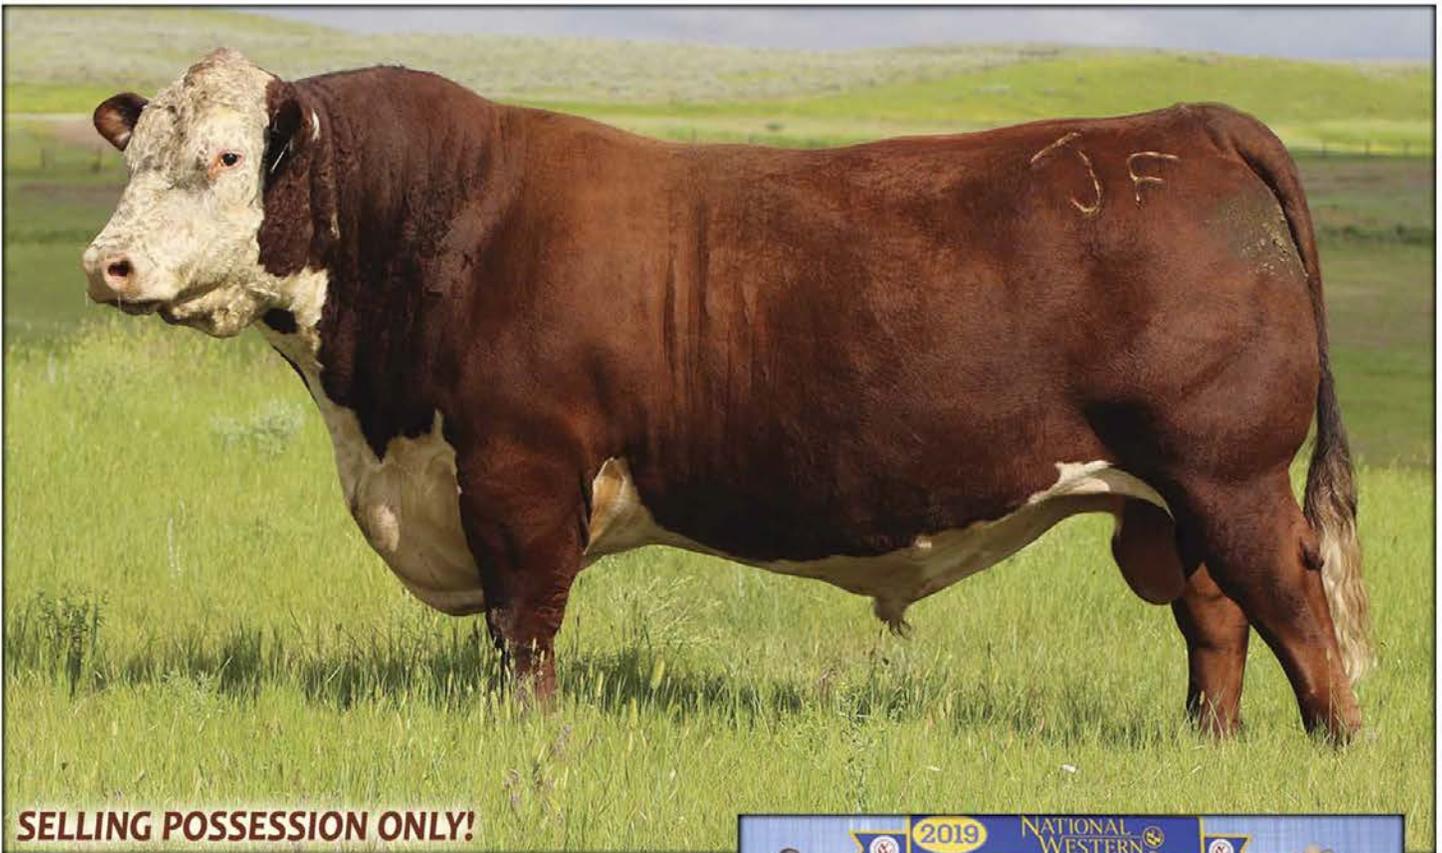

Sale Cattle Videos: Videos are available at www.NJWHerefords.com or www.TheLivestockLink.com.

Take Note:

- Each animal's Lot # is same as his ID #.
- **EPDs are current as of Feb. 20, 2023.**
- All cattle photos are untouched.
- In case of bad weather, please call or refer to website for any sale changes.

■ One of the deepest, biggest bodied, thickest Herd Bulls we've ever raised and used. He is super easy fleshing, super sound and free moving. A bull that always looks good no matter the pasture conditions or if at end of breeding season.

■ Daughters are beautiful, productive brood cows and sons are high weaning, big yearling performers. Dam 76S was one of our best and known for her great udder. She is in a high percentage of our cowherd pedigrees and is dam to herd bulls Beef 38W and Salute 201C with numerous other sons working around the country.

■ 203D is super gentle and easy going. We halter broke him as a two year old and showed him twice. He was 2018 NILE Supreme Champion Bull and 2019 NWSS Reserve Champion Senior Bull.

■ **Sells with 100 Semen Units ...in-herd use only. Located at World West Sires.**

■ **SELLING FULL POSSESSION ONLY!**

Granddam 80L

Dam 247C & 173K

■ **2023 STANDOUT with OUTSTANDING HERD BULL POTENTIAL!**
 An all-around, easy doing, big volume man backed by a timeless proven heritage. A "Cowman's Bull" ...soggy and soft with a big hip and stifle, plus is super sound moving on excellent feet. Granddam 80L was born 22 years ago, but would still be a top cow in our program. He has a "Herd Bull Head" and an easy going attitude. We are super happy with our Hoss progeny and will be using this son heavily. **Selling one-half semen interest ONLY.**

Sire 41E as a yearling

Granddam 45C

■ **2023 STANDOUT!** I really like this Hoss son! He puts it all together...low birth, perfect markings, length, muscle, big testicles, good back leg and plenty of stifle while being sound and free moving. He was a standout all summer and fall. I was unable to find a picture of his dam so used one of granddam.

THE NJW HEIFERS

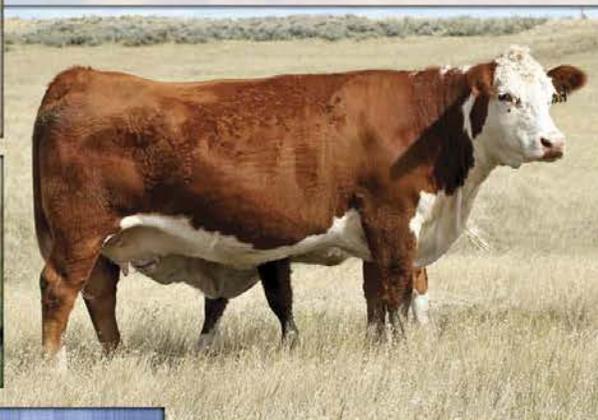

We believe the cowherd is where it all begins! Our herd is a cumulation of cows and cow families that are based on stacking genetics that will, in turn, produce consistent, efficient, high income producing offspring.

We are again offering a sampling of our genetics with a group of NJW registered replacement Yearlings. We tried to share a heifer from each of our ET matings and from a number of cow families.

■ Low birth weight, upstanding, meaty, extra stylish, clean made with a "Premium Udder" packed pedigree! Excellent calving ease. Used heavily on both heifers and cows the last two years. Dam is a full sister to Historic 81E! Watch for 10H's impressive first crop of calves in our 2023 Bull Sale. Avg. BW on 1st NJW crop 84 lbs. (out of both cows and heifers). First crop of these low birth bulls had an avg. WW 704 lbs.

■ **Semen: \$25/Unit • Certificate: \$75**

■ **Elite Breeding Herd Builder** with the phenotype, numbers and data we are demanding. First daughters in production looking like we had hoped! Sons share his signature look and are sale features! Extra long, wide, big topped, big, deep hipped, super sound moving and balanced end to end! Marked right with extra pigment, big, well made testicles and has a super kind, quiet disposition! No matter your breeding focus or what part of the country you are in, 87G should add value to your program! From same Maternally Superior cow family as Beef 38W and Long Range 203D! *High selling bull in 2021 Sale to Chapman Land & Cattle, TN.*
