Bell's Crew

Welcome to NJW!

We are really looking forward to you seeing this set of bulls and heifers. We strive to make improvements to our program every year and are super pleased with the forward movement this crop has made. Some of this progress can be attributed to New Standard 2912, who we used for his combination of high-level carcass, udder, fertility and his excellent balance of all other traits. He was used heavily and successfully on both heifers and cows with calves coming easy and ready to go, then developing into a top set by fall and throughout the winter. They are an easy doing, strong set of beef bulls and beautiful heifers. We were so pleased with his first crop we bought him so we can use him heavily going forward. We are also pleased with the Harvest H033 calves who brought in added carcass and growth.

Our program and these cattle are the result of a passion and commitment to raising the most predictable, highest quality Herefords possible. We have developed these genetics by using bloodlines that fit our environment, selecting for balanced traits and culling! Buying bulls is a huge investment ... the genetics you use today have a tremendous long-term impact on your herd. Buying the RIGHT bull can transform your calves and their value in just one generation as well as affect your cow herd for the next 10 years. Again this year, in an attempt to offer you the most predictable, accurate EPDs, we have Genetically Enhanced each animal's EPDs. We believe these cattle are forward moving "Genetic Tools" both to look at and on paper.

The average EPDs of all this year's sale bulls are:

CED	BW	WW	YW	MILK	M&G	SC	Udder	Teat	REA	MB	\$CHB
6.1	1.7	60	95	33	64	1.4	1.40	1.40	.69	.14	130

This year's sale heifers:

6.2	1.4	59	93	32	62	1.5	1.50	1.30	.64	.13	129
-----	-----	----	----	----	----	-----	------	------	-----	-----	-----

Breed averages:

3.5	2.6	56	90	27	55	1.1	1.30	1.30	.46	.15	122
-----	-----	----	----	----	----	-----	------	------	-----	-----	-----

These cattle were raised on Northern Wyoming and Southern Montana range and their mother's milk only ... no creep! The average actual BW on all the sale bulls is 85 lbs. The average actual BW on all sale heifers is 78 lbs. We develop our bulls to improve longevity and winter them here at the ranch on a limited amount of 15% grower and free choice grass hay.

Our goal is to produce easy doing, big bodied, thick and sound cattle with added performance that still maintain enough calving ease and high maternal traits. Our herd is very maternal and we demand our cows have good udders, are great mothers and calves be vigorous at birth! We expect our two-year-olds to raise bull calves to sell in the sale.

We make a special effort to get pictures of all sale bull dams, but keep in mind that most pictures were taken at summer's end, a few days prior to weaning.

If you have questions or can't attend the sale, Ned and I are happy to help with selecting bulls to fit your program. The cow herd is located at our North Ranch and Bulls and Sale Heifers are at the South Ranch. Ranches are about 20 miles apart so allow extra time if you want to see both. If you are coming in on the 25th, please plan to join us for supper at the South Ranch sale location!

Many Thanks! Ned & Jan Ward

AHA GE-EPD

The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

**All NJW Sale Cattle
Are Tested!**

GENERAL INFORMATION

Sale Location: NJW South Ranch, 888 Lower Prairie Dog Rd., Sheridan, WY ...off I-90 at Sheridan, WY take Exit 23, go East on Hwy. 336 for 3.5 miles, turn left on to Lower Prairie Dog Rd., drive 9 miles to sale barn on your left. **Set your GPS when you turn on Hwy. 336 as it will take you on best route!**

Airports: Sheridan, WY for private planes and served by United Airlines or Billings, MT...145 miles from the ranch.

Motels: Sheridan, WY

Comfort Inn (located on hwy. to Ranch) 307/ 675-1101

...Ask for NJW Bull Sale Rate \$104

Nelson Inn, 307/ 763-7007 (Airbnb, real nice)

...NJW Bull Sale Rate \$125

Hampton, 307/ 673-2734

Terms: Cash or check. Each animal to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids. All cattle are to be paid for by the purchaser during or immediately after the sale and will not be released until settlement has been made. Each animal becomes the property of the buyer immediately after the animal is sold. Any death or injury thereafter falls upon the buyer. **Announcements concerning the cattle at the sale ring by the owners or the auctioneer take precedence over statements in this catalog.** All persons attending the sale do so at their own risk. Neither the owners, nor any person associated with the sale, assumes any liability, legal or otherwise.

Guarantee: We guarantee all livestock sold as sound breeders. If an animal fails to breed, it must be reported to NJW or returned in good condition and in compliance with the Wyoming Health Regulations. If an adjustment is required, it will be made with a replacement animal of equal value (or) credit of another animal of equal value in our NEXT sale. No adjustments will be made after nine (9) months.

Health: All sale bulls have passed a Breeding Soundness Exam. Please note that breeding soundness examinations are an indication of semen quality and reproductive health of the bull at the time of examination, not of their future fertility. Many factors including health, weather and nutrition will impact semen quality. We recommend that another breeding soundness exam be performed prior to use. All sale animals have been BVD ear notched and tested negative. **Health certificates will be furnished for shipment anywhere in the U.S. Since each State has different regulations on bulls coming from Wyoming, not all bulls will be able to get a Health Permit to go to every State on sale day!**

All NJW Sale Bulls have received a pre-breeding booster of Express 5 VL5 HB, a Pinkeye / Footrot vaccine and poured with Cylence.

All NJW Sale Heifers have received a pre-breeding booster of Express FP5 VL5, Pinkeye/Footrot vaccine and poured with Cylence.

All NJW sale bulls and heifers have been DNA tested through the American Hereford Association and have been parentage verified and GE-EPD evaluated. All potential MD and DB carriers have been tested and results noted in the sale catalog under their names or if noted as DBP tests were not complete at catalog press time and results will be noted on the sale day supplement sheet.

Delivery: Free delivery on Bulls and Heifers within 400 miles; balance at cost. Receive a \$100 discount per Bull or Registered Heifer you haul on sale day. We'll assist you with long distance delivery to be done as soon as possible after the sale.

GENETIC DEFECTS: If any 2025 sale animal is a carrier of a known genetic defect as of sale day (3-26-2025), it will be noted in the catalog footnotes below the animal's name. Potential carriers will be noted as well. The sale supplement sheet will verify any changes to the catalog.

• EPDs are current as of Feb. 15, 2025.

Take Note:

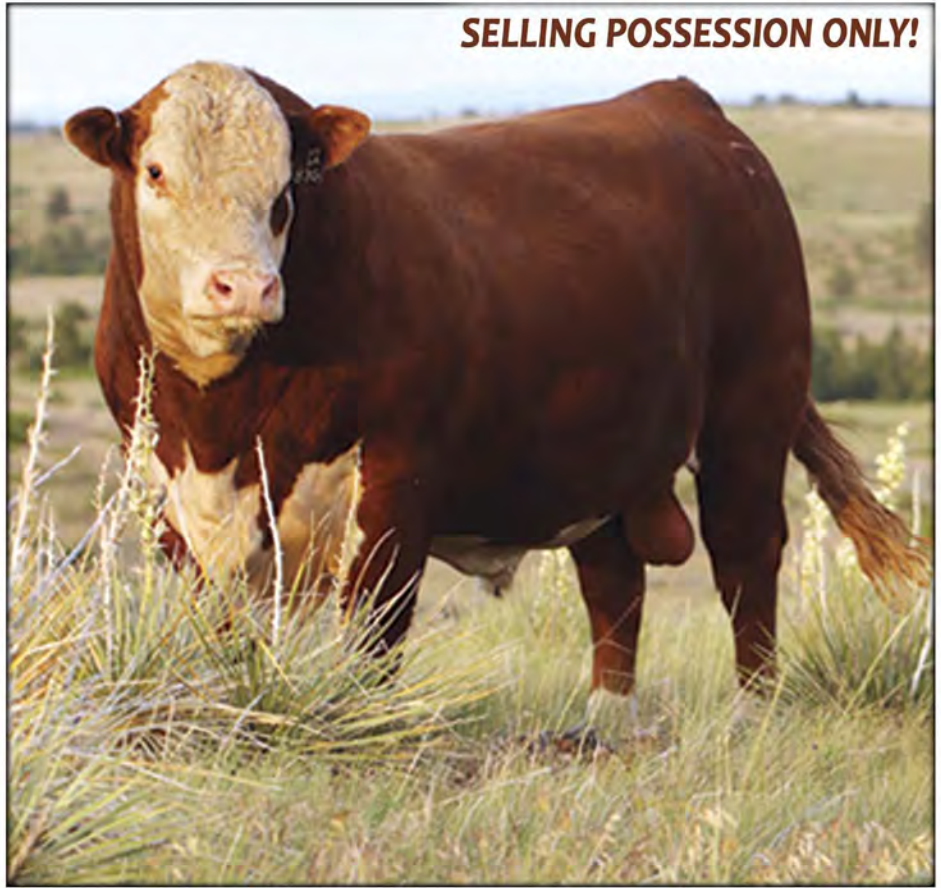

- Each animal's Lot # is same as his ID #.
- All cattle photos are untouched.
- In case of bad weather, please call or refer to website for any sale changes.

■ A Hereford 11-Trait Leader!

■ After five calf crops for NJW and three for Chapmans, we have decided to offer Possession on this **Powerful Breeding Tool**. He has left us with lovely daughters and high-end sons that look like him. He is super sound and agile and always looks the part!

■ Elite Breeding Herd Builder with the phenotype, numbers and data we are demanding! He is extra long, wide, big topped, square and deep hipped, super sound moving and balanced end to end.

■ Sons share his Signature Look and are sale features! One son is in Select Sires herd sire lineup! Another was 2022 South Eastern Show Bull of the Year! Others were members of the 2024 Denver Reserve Champion Pen of Three!

■ Daughters in production look as we had hoped and work as we expected! Use on heifers or cows. Average BW on all NJW crops, 76 lbs.

■ **SELLING FULL POSSESSION ONLY** with buyer taking possession on sale day.

■ **Sells with 100 units of "In-Herd-Use-Only Semen" which is located at Cottage Farm Genetics, Jackson, TN..**

■ **If buyer is from Canada, 87G comes with 150 units semen located at Alta Genetics and buyer would also assume Canadian Semen Rights.**

■ **Owned with Chapman Land & Cattle, TN.**

Dam 74K

Great Gdam 79Z

■ **A 2025 Standout!** The product of a beautiful, hardworking 10H two-year-old and a 79Z daughter. He is **Homozygous Polled**, dark with extra pigment, super complete and balanced with well laid in shoulders. Sire New Standard has given him exceptional carcass value and locked-in high udder and maternal traits. A bull we would use on heifers, then cows. ■ Top 1% REA; Top 5% MARB, CHB & Teat; Top 10% Udder ■ **Retaining a one-quarter semen interest.**

Great Gdam 73S

Gdam 160Z

Dam 233K

■ **2025 Sale Standout** that just puts it all together for me. Born small, he has excelled through every stage of life so far. He's stout, masculine, ultra-long with a big, square hip and a strong back leg that's anchored in with a big stifle. He is backed by the most elite uddered cows in our herd and in the breed ...73S, 160Z, 7098 along with his two-year-old dam who has a small, tight udder and rich milk. Sire 2912 excels in all traits and has helped create 44M's excellent EPD line. We will use him on heifers and cows. ■ Top 1% REA, Udder & Teat; Top 10% SC & CHB; Top 15% MARB, CE & WW; Top 20% M&G; Top 25% BW ■ **Terms to be announced.**

■ **Homozygous Polled and 2025 Standout!** He has the power, the presence, the pedigree and the credentials to add value to many programs. He is such a "wide body" with extra muscle, depth, rib shape and top. He reminds me of Homegrown 8Y who did such a great job adding all of the above to cows that needed more of it. Dam 202C is at the top here, right with her dam 160Z and granddam 73S. When you add in 7098, you will have unmatched cow power and herd bull producing quality. ■ Top 1% REA, Udder & Teat; Top 5% CHB; Top 10% MARB & SC; Top 30% Milk & M&G ■ **Terms to be announced.**

- **Homozygous Polled.** The natural calf out of one of our best cows. I really like this guy. He is not a tall bull, but is big bodied and easy doing, plus is wide based and thick from behind. He is a half-brother to Steadfast and backed by some of the best cattle in our program. The first 148J daughters calving are tremendous.

THE NJW HEIFERS

We believe the cowherd is where it all begins! Our herd is a cumulation of cows and cow families that are based on stacking genetics that will, in turn, produce consistent, efficient, high income producing offspring.

We are again offering a sampling of our genetics with a group of NJW registered replacement Yearlings. We tried to share a heifer from each of our ET matings and from a number of cow families.

NJW FALL BRED HEIFERS

These Fall Bred Heifers are the product of a very small group of embryos we planted. They are out of Herd Matriarchs 73S, dam of Trust, Homegrown and Hometown, as well as out of 79Z, dam of Endure, Mighty, Heavy Duty and Bourban and several of 304F, dam of Commitment. They are either bred to Tuff 10H or Deluxe K016 (see information to the right).

■ **Homozygous Polled!** Used to improve milk, udders, weaning and yearling weights. He is dark with extra pigment. Dam is also mother to top herd matron 202C and herd sire Whit 33B. Sire 254G is being used heavily here on both heifers and cows. A double-bred 88X that is homozygous polled!

■ First daughters are calving now with udders to match his udder and teat EPDs!

■ Owned with Jimmy & Claudia Atlas, Texas.

■ Semen: \$25/Unit • Certificate: \$75

■ One of the deepest, biggest bodied, thickest Herd Bulls we've ever raised and used. He is super easy fleshing, super sound and free moving. A bull that always looks good no matter the pasture conditions or if at end of breeding season. Daughters are beautiful, productive brood cows and sons are high weaning, big yearling performers. Dam 76S was one of our best and known for her great udder. She is in a high percentage of our cowherd pedigrees and is dam to herd bulls Beef 38W and Salute 201C with numerous other sons working around the country.

■ An outstanding herd builder and Hereford 10-Trait Leader! Used successfully on heifers and cows. Average BW 85 lbs. on four NJW crops. 81E has left us tremendous young cows with nice udders and plenty of milk ...the kind to anchor your program! Sons are equally as good with three NJW crops averaging \$9909 in our sales.

■ Semen available from NJW: \$25/unit; Certificates sold by Select Sires.
