68TH ANNUAL

Bull and Female Sale

200 BULLS AND 170 FEMALES SELL

Monday, February 16, 2026 • President's Day

12:30 p.m. CST at the ranch • Hoven, South Dakota

Left to right: Jacob, Christine, Benedict and Gianna; Shannon and Sue; Michael, Kaitlyn, Levi, Luke and Gemma; Peter, Melinda and James

Fellow Cattlemen,

We invite you and your family to our 68th Annual Bull and Female Sale held at the ranch near Hoven.

This year marks 80 years in the Hereford business for our family. As we were sorting through old photos and counting up the number of bulls sold off the ranch, we were humbled to recall the cattlemen and family ranches that we have been blessed to work with. We are grateful to our customers and friends that have supported our family over the years.

What a rewarding time to be in the cattle business. We all know the risk and hard work that goes into raising cattle and there is no need to apologize for the strong market. As the old adage goes, we need to "make hay while the sun shines." The fundamentals look to continue driving this market and red meat demand continues to stay very strong. It shows how much consumers value high quality protein in their diet.

We work hard to offer bulls that are rugged and practical so they can go to work anywhere and hold up well. Our balanced, no-nonsense approach has created a genetic base with fertility, longevity, consistency and performance at its core. Our offering is backed by females with a track record that speaks for itself. We strive to run our cow herd like any good commercial operation - limited inputs, high expectations. We remain committed to developing Dams of Distinction because efficient, fertile and productive females are the foundation of any successful cow herd.

Thank you for your interest in our program. You're welcome to come view the bulls anytime before sale day. Please let us know what questions you have about the cattle. We'd be happy to help you select bulls and heifers to fit your program. If you can't attend the sale, we can line up one of our representatives to handle your order. We appreciate your consideration and hope to see you on sale day!

Sincerely,

The Rausch Family

SCHEDULE OF EVENTS

Sunday, February 15th

Cattle available for viewing in the afternoon.

6:00 p.m. Steak supper & social at Dakota Haus

Monday, February 16th

8:00 a.m. Cattle available for viewing.

Coffee and donuts served.

11:00 a.m. Smoked Brisket Lunch

12:30 p.m. CST Rausch Herefords Bull & Female Sale

The Rausch Advantage

80 YEARS IN THE HEREFORD BUSINESS

TRUSTED SOURCE OF HEREFORD BULLS

Nearly 9,000 Rausch bulls have gone to work for cattlemen across America. Our philosophy has not changed, we treat customers like family and work hard to create a reliable, consistent product that you can count on. Our family has been a generational partner with many families over the years. Your investment in our genetics means a lot to our family and we truly care about the success of your operation.

PROVEN GENETICS, REAL PERFORMANCE

We spend significant time studying pedigrees, analyzing phenotypes and utilizing rock solid data to produce the best and most proven offering possible. All the bulls and most of their dams are carcass ultrasounded, genomically enhanced and performance tested. The majority of the bulls are long bodied, marked well, and competitive in growth and carcass traits, all while keeping birthweight in check.

EXCEPTIONAL MATERNAL VALUE

Our cowherd is the backbone of our bull program. Decades of refinement has created a strong foundation of practical females that are maternally productive - fertile, raise a big calf, and do it problem free year over year. The baldie females you will get out of our bulls will turn around and make some of the best females in commercial production.

What our customers receive:

EXCELLENT GUARANTEE

All the bulls have an unconditional first breeding season guarantee. Your satisfaction is very important to us. Please let us know right away if an injury occurs. When a replacement bull is needed, we will work with you to get a suitable replacement as soon as possible. We will offer credit towards a future purchase if a replacement bull isn't needed to finish the breeding season.

DELIVERY & WINTERING

We offer free delivery within the continental US to central locations on bulls and females over \$5000. Cattle selling for less will be delivered at cost. We will work with you to arrange transportation of commercial heifers. If you haul your own bulls within 5 days of the sale day, receive a \$100 discount per bull. If desired, Rausch Herefords will keep your cattle at cost until they are picked up or delivered.

MARKETING ASSISTANCE

The day you sell your cattle is one of the most important days out of the year. It is our priority to help add value to your cattle at sale time. We connect with a network of cattle buyers and feedlots interested in Rausch-influenced cattle to help place your cattle. Let us know when you plan to sell by giving us a call or filling out the form on our website.

VOLUME DISCOUNTS

5% discount for 5-9 bulls; 10% off for 10+ bulls purchased.

the Number One **DAMS of DISTINCTION** *Herd*

EXCEPTIONAL MATERNAL VALUE

**Over the last 40 years, we have produced the most
Dams of Distinction in the Hereford breed.**

The Dams of Distinction program honors cows that meet the highest standards of commercial production.

Many of our bulls are raised by Dams of Distinction or have multiple Dams of Distinction in their pedigree. They are noted with “DOD” in the bull’s pedigree. Whether you’re retaining replacement heifers or selling baldies, your Rausch sired females will display their genetic value through their fertility, longevity and performance.

To qualify, a cow must have:

- Produced at least three calves.
- Initially calved at 30 months of age or less.
- 370 day calving intervals (400 day as a heifer)
- Average progeny weaning weight ratio of 105 or higher.

FERTILITY. LONGEVITY. CONSISTENCY. PERFORMANCE.

Additional Details:

VACCINATION PROGRAM

6 weeks of age: Inforce 3, OneShot BVD, Ultrachoice 7 & Dectomax pour on
Weaning : Bovi-Shield Gold One Shot, Ultrabac, 7/Somubac, poured Dectomax
Booster post weaning: Resvac 4/Somubac, Dectomax injectable
Pre-sale: Heifers poured with Clean Up II insecticide. Bulls given Long Range injectable.
All sale heifers have received Bovi Gold VL5 Pre-Breeding vaccination and EID tag.

LOT INFORMATION

BW: Birth weight - Actual birth weight (lbs).
WW Ratio: Weaning Weight Ratio - How an animal compares to his contemporaries on weaning weight (percentage).
YW Ratio: Yearling Weight Ratio - How an animal compares to his contemporaries on yearling weight (percentage).
Dam's WW Ratio: Dam's Weaning Weight Ratio - This shows the number of calves their dam weaned and how those calves ratioed compared to their contemporaries (percentage).
REA Ratio: Ribeye Ratio - How an animal compares to his contemporaries on his yearling carcass ultrasound measurement for ribeye (percentage).
IMF Ratio: Marbling Ratio - How an animal compares to his contemporaries on his yearling carcass ultrasound measurement for marbling (percentage).
BMI\$: Baldy Maternal Index - Use this index heavily if you are creating Angus X Hereford replacement females.
CHB\$: Certified Hereford Beef Index - Use this index heavily if you want to increase the value of your feeder cattle through retaining ownership or finishing.

EPDs

Catalog EPDs were current as of 1/5/2026. EPD abbreviations are listed below.

CED: Calving Ease Direct
BW: Birth Weight
WW: Weaning Weight
YW: Yearling Weight
SC: Scrotal Circumference

FERT: Cow Fertility
MILK: Maternal Milk
CEM: Calving Ease Maternal
TEAT: Teat Score
UDDR: Udder Score

CARC WT: Carcass Weight
REA: Ribeye Area
MARB: Marbling

AHA GE_EPD Logo:

All animals displaying this logo have been genomically enhanced with the American Hereford Association.

Online Bidding:

ORDER BUYING & 100% SIGHT UNSEEN GUARANTEE

If you'd like to place an order before the sale, please give us a call. We'll handle your order with the utmost integrity and ensure you get the best fit for your budget. 100% satisfaction guaranteed on all orders handled by a Rausch representative.

HOW TO BID ONLINE WITH DV AUCTION

1. Visit DVAuction.com and create a new account. You will receive an email with a link to activate your account.
2. High speed internet is required to bid online successfully during the sale.
3. Please contact our DVAuction Representative, Tami McIntosh at 308-870-3661 with questions.

HOW TO BID ONLINE WITH LIVE AG

1. Visit LIVE-AG.COM. Navigate to the "Purebred" tab, located in the main menu. Select our auction.
2. **Log In/Create an Account.** Select the "Login or Create an Account" button. Fill out the required fields to bid online. Agree to the terms of service, and finish with the "Register" button. An account is not necessary to watch an auction.
3. **Register to Bid.** Once logged in, find our sale and click "Register to Bid". Agree to the terms and conditions, and click the "Register" button. Your request will be approved in a timely manner.
4. Please contact our LiveAg Representative, Blake Tucker at 308-660-3963 with questions.

Developing our Bulls

All our bulls are **born and developed here at the ranch**. We study these cattle from the day they are born to the day we deliver them. We work hard to offer bulls that are rugged and practical so they can go to work anywhere and hold up well. These bulls run in large contemporary groups and have all been performance tested since birth to ensure accurate EPDs - Birth, weaning, yearling weight, scrotal measurement and carcass ultrasound. Sale day weights and scrotal measurements will be provided on the sale day supplement sheets. The yearling bulls will have carcass scan data available prior to sale day on the supplement sheet.

We offer **multiple age groups** with the intent to create flexibility and versatility for our customers. Additionally, it enables us to spread out our calving and breeding windows. Here is how we grow and develop each age group:

SPRING TWO-YEAR-OLD BULLS

The spring two-year-old bulls are primarily born in the late calving group in late March through May on big pasture. They are weaned in early October and slowly grown on a high roughage diet through the first winter and graze on pasture the following summer to help them develop as rugged, athletic breeding bulls. In October, we get them back to the bull runs and feed them on a 44 NEG silage/hay based ration with a good vitamin/mineral package to get them ready for heavy service in the spring. They will pass a breeding soundness exam prior to sale day.

FALL 18M BULLS

The fall bulls are calved on late summer grass and graze cornstalks through the winter with their dams. They receive supplemental creep feed to help them endure the harsh Dakota winters. After weaning in early March, they are slowly developed on summer grass to help promote longevity. In October, we get them back to the bull runs and feed them on a 44 NEG silage/hay based ration with a good vitamin/mineral package to get them ready for heavy service in the spring. They will pass a breeding soundness exam prior to sale day.

YEARLING BULLS

Our yearling bulls represent some of our latest and freshest genetics - many coming from first calf heifers and our early bred AI cows. We do not creep feed them in order to showcase the true merit of the dam's milk and the bull's natural growth curve. After weaning in early October, they are grown out well on a 48 NEG hay/silage/earlage based ration, but not pushed for maximum gain. By late spring, they will be semen tested and ready to go to work.

RUGGED. HIGH PERFORMING. MATERNAL.

A calving ease bull with an extra shot of quality. He is very sound and thick ended. Dam is a stout, productive cow and granddam is a DOD. Used for natural service.

HOW DO HEREFORDS PERFORM ON THE RAIL?

96% of our 180 head of home-raised Hereford steers graded choice & prime. That's the bottom half of the bulls with no bottom taken off. One steer nearly maxed out the marbling scale. Take advantage of Hereford heterosis and efficiency without sacrificing carcass value.

A double bred calving ease bull with good length of body and stifle shape. Out of a first calf heifer. Can be used on heifers.

MORE POUNDS. MORE CALVES. MORE PROFIT.

Herefords are known as the efficiency experts for a reason.

Herefords boost pregnancy rates by 7% and add \$30 per head in feedyard profitability in a crossbreeding system.

Hereford genetics bring unrivaled hybrid vigor, longevity and disposition.

COME HOME TO HEREFORD.

CHB CERTIFIED HEREFORD BEEF INDEX

Certified Hereford Beef Index is a terminal sire index that is built on a production system where Hereford bulls are mated to mature commercial Angus cows where all progeny will be targeted for the finishing phase. This index uses Carcass Weight, Marbling, Ribeye Area, Average Daily Gain, Dry Matter Intake and BackFat.

Homozygous polled.

Born as a twin - full brother to lot 182. A dark red Sherman son that is very correct in his build and progressive in his carcass traits. Three year old dam was a nice uddered, heavy milking 637F daughter that we lost in an accident this spring. Raised on a moderate milking draft cow and still weaned at 600 lbs.

BMI Indexes Explained BALDY MATERNAL INDEX

Baldy Maternal Index is a maternally focused index that is based on a production system that uses Hereford x Angus cross cows. This index uses Sustained Cow Fertility, Weaning Weight, Mature Cow Weight, Milk, Dry Matter Intake, Carcass Weight, Marbling and Rib-eye Area. This index is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows. *Photo © American Hereford Association*

A photograph of four registered Hereford cattle standing in a row in a field. Each cow has a white face and chest with brown bodies. They are wearing blue identification tags with white numbers. From left to right, the tags read 554, 1299, 394, and 235. The background is a blurred green field.

A younger heifer with loads of eye appeal and brood cow look. She's neat fronted, deep and good flanked and has great flex and set to her hind leg. Dam is a highly productive Dam of Distinction.

**239***You're Invited!***PRE-SALE STEAK SUPPER AND SOCIAL**

Join us at 6 p.m. the evening before the sale, Sunday, February 15, for a steak supper and social at Dakota Haus in Hoven. Please let us know if you plan to join. Text Jacob at 605-769-0552.

150 HEREFORD HEIFERS

FROM THE #1 DAMS OF DISTINCTION HERD

At the end of the bull sale, 150 open Hereford heifers will sell from straight off our replacements. This is an outstanding set of heifer calves that will make some excellent mother cows. You'll find them easy fleshing, well-pigmented and consistent throughout. They are bred to be maternal while still carrying the same carcass potential as their bull mates.

They have had all their health vaccinations, including a Bangs and pre-breeding shot. They have been dewormed and recently poured for lice. Any heifers in the sale can be registered, if desired. Just let us know at the time of settlement and we will get them registered and transferred to you at cost for \$40/hd.

How these Heifers Sell

The Top Cut

The top cut will be sold first with the option to pick one or more. These premium heifers will have EPDs and actual information available before sale day. You can find this information prior to sale day at rauschherefords.com on the 2025 Bull Sale page.

Remaining Heifers

The bulk of these heifers will be sorted into load lots based on weight and sold in groups of 5 or more — gate cut.

Contact Jacob Rausch at 605-769-0552 with any questions about how these heifers sell.

FERTILITY. LONGEVITY. CONSISTENCY. PERFORMANCE.
