88 top breeding two-year-old Bulls

23 impressive yearling Bulls - all bulls are
scored for Calving Ease and Carcass traits

56 feminine Heifers - ready to produce
outstanding calves in your herd

AUCTIONEER:

Joel Birdwell, Kingfisher, OK405/368-1058

AMERICAN HEREFORD ASSOCIATION:

Alex Acheson, Elk Point, SD785/366-1185

LIVESTOCK REPRESENTATIVES:

Jake St. Armant, Tri-State Livestock News...308/568-9084

Jim Gies, Western Livestock Journal970/590-0500

Alan Sears, Western Ag Reporter.....970/396-7521

Art Handel, Handel Marketing.....605/391-8233

Marc Hotchkiss, Hereford America605/210-1956

VETERINARIAN:

Russ Rice, DVM, Rice Vet Service.....308/870-6761

Siera Rush, DVM, Rice Vet Service308/212-0556

ACCOMMODATIONS:

Motel 4, Callaway308/836-2226

Winfield Inn & Suites, Arnold308/848-2462

AIRPORTS:

4,200' paved landing strip at Broken Bow.

Commercial service: North Platte, Kearney & Grand Island

SELECTION ASSISTANCE:

Contact us or any of our Livestock Representatives.

DELIVERY:

Free Bull delivery on purchases of \$5,000 or more to one buyer at one location within a 250 mile radius if Ridders make the delivery. We will cooperate on further distances.

SELF-HAUL REBATE:

\$100 rebate on bull & \$20 on heifer purchase prices if hauled sale day or picked up within one week. Buyers hauling out-of-state – we'll pay your fuel cost above \$100 on your trip home.

INSURANCE:

We will pay half of your insurance premium on any bull purchases you make. You pay 2%, we pay 2% for a six month policy. For a one year policy your share is 4%. We highly recommend this. The self-haul rebate goes a long way toward paying for your insurance.

HEALTH:

All cattle are sold in good health and breeding condition on sale day. Two-year-old bulls: poured with Dectomax, semen tested, and scrotal and pelvic measured. Buyer will receive semen papers after the sale. Yearling bulls: buyers have option to leave their purchases for us to semen test as soon as possible. Heifers: Bangs vaccinated, have not been exposed to a bull, ready to go to any state.

BULL BREEDING GUARANTEE:

We guarantee the first 60-day breeding season. In the event an adjustment is necessary, it will be made with a suitable replacement or credit in the next Ridder sale. No adjustments after 6 months.

Every effort has been made to produce a mistake-free catalog. Announcements from the block will trump catalog notes.

Ridder

Since 1907

Hereford Ranch

John and Mary Ridder Family
79225 Rye Valley Rd., Callaway, NE 68825
308.836.4430 land / 402.450.0431 cell
mailbag@RidderRanch.com
www.RidderRanch.com

RANCH DIRECTIONS:

From Callaway: 6 miles west on Hwy 40 to our red ranch sign, then 2 1/4 miles north.
60 miles northeast of North Platte, 70 miles northwest of Kearney, 30 miles southwest of Broken Bow, 140 miles southeast of Valentine.

Dams of Distinction / GrandDams of Distinction:

Every year the American Hereford Association announces its Dams of Distinction. To be a DOD, a cow must calve as a two-year-old, have produced at least three calves, have superior calving intervals and have progeny with an average 205-day adjusted weaning weight ratio of at least 105. DOD's and GrandDOD's go deep in our cow herd.

We provide:

- ★ Actual BW, Adjusted WW and Adjusted YW Performance.
- ★ Birth, weaning, yearling and milk EPDs.
- ★ Calving Ease ratings (see below left).
- ★ Carcass information including numbers and ratings (see below).
- ★ Dam's MPPA.
- ★ EPDs current as of 12-20-2021.

Supplement sheet on Sale Day will include:

- ★ Sale Day weights on all cattle.
- ★ Scrotal & Pelvic measurements on all bulls.

CALVING EASE

We've ranked our bulls as follows:

- ★★★ Foolproof
- ★★ Extremely desirable
- ★ Recommended

20 of our 23 yearling bulls are ease of birth specialists.
56 of our 88 two-year-old bulls are calving ease bulls.

The averages of our Actual BW for:

3 ★ is 70.2 pounds

2 ★ is 75 pounds

1 ★ is 81.4 pounds

No ★ is 86.2 pounds

Our average Actual BW for all 92 bulls is 80 lbs.

CARCASS RATING

- ★★★★★ Top of the Breed (top 20%)
Most genetic improvement attainable.
- ★★★★ Breed Leader (second 20%)
Provide excellent genetic improvement.
- ★★★ Excellent (third 20%)
Good genetic improvement.
- ★★ Good (fourth 20%)
Average for all ultrasound Hereford cattle, thus upper part of the breed.
- ★ Acceptable
Herefords that still rank above U.S. beef population for carcass value.

WELCOME!

Hello, and welcome to our Annual Bull and Heifer sale!

This is a special year for us. It's both our ranch's 115th birthday, and John's 50th year running the ranch. It causes us to look back and see where we came from, and to look forward and confirm what we've known all along. These cattle get the job done right.

We're here because you trust us as breeders to raise solid performing cattle while paying attention to the details to best serve you and your family. We truly appreciate your business, your friendship, your support.

Thank You!

John & Mary Ridder and Family

MPPA - Most Probable Producing Ability

Measures individual performance, plus the Dam's and Grandam's progeny. A good predictor of how an animal will produce. A 100 MPPA means she is on average for this herd only. It does not take in DOD gestation intervals.

Calving Ease - CE

After pelvic measuring our Heifers for 40 years, we learned you can have a good-sized, vigorous calf and NO calving problems by paying attention to the shape of the Sire, particularly his head and shoulder shape. You do not have to downsize your cattle to achieve CE. That's why many of our customers trust our C.E. and BW's to best aid them.

We recommend our 1, 2 and 3 Star Bulls for first service based on several factors including their sire, their dam and their own BW plus their BW ratios on their many progeny. ANY of these Bulls can be used on average sized cows.

\$\$ Indexes -

\$\$ Baldy Maternal Index (BMI) is a maternally-focused index based on using Hereford bulls on Hereford x Angus cows with offspring going into the branded Certified Hereford Beef (CHB). Emphasizes fertility, CE, WW, IMF and REA with slight negative pressure on yearling weight to keep the mature size of cattle manageable.

\$\$ Certified Hereford Beef (CHB) is a sire index based on using Hereford Bulls to sire calves for the CHB market. Some emphasis is applied to CE with positive pressure on WW, YW, IMF, REA. No emphasis on fertility.

A note on other numbers we provide: actual BW, adjusted WW and YW. EPD's for BW, WW, YW, Milk, REA/Rib Eye Area and IMF/Marbling. It can be challenging to consider all these along with the Bull or Heifer in front of your eyes. Using our Calving Ease and carcass EPD scores, and the MPPA # - all together these are truly useful along with categorizing carcass by 5 ranges for REA & IMF, not just predicted EPD numbers.

Ear Tags

Each year we score every Bull in our sale catalog for Calving Ease and place this score on his ear tag, as well as in this catalog next to each animal's pedigree.

This is a tool to assist you in selecting for Bulls to use on first service for your Heifers. Bulls with no star simply means he is recommended for use on cows only.

And you can easily choose and remember these Bulls at turnout time in subsequent years without referring to your catalog.

*Here are examples of the 4 types of tags a Bull may have.
Page 2 also has our First Service bull explanation.*

3 Stars =
Foolproof,
use for first
service &
cows.

J38

2 Stars =
Extremely
desirable
for first
service use
& cows.

J30

1 Star =
Recommended
use for first ser-
vice & cows.

88H

No stars =

cows only.

20H

Straight from our customers...

Denny Pounds, General Manager
Spike Box Land & Cattle Co.
Benjamin, TX

We've been buying from Ridders for 8 years now. Our calves are grading 90% Choice out of Ridder Bulls. Before, they graded 40-45% Choice. We definitely are maximizing hybrid vigor, and really recognize the conformation differences in our calves. Spike Box is one of the the Engler Family ranches.

Brad & Hunter Stuart
B Bar Herefords
Roby & McCaulley, TX

We started buying Heifers from Ridders (as well as some Bulls) in 2009. The Heifers and Bulls adapt to our region very well. We are in the rolling plains part of west Texas with only 20" normal rainfall a year. The Heifers are easy fleshing, growthy, very good uddered, and very gentle.

The Bulls are very good breeders, big and stout, and moderate birth weights. They adapt out here very well.

Landon Rohde
Ansley, NE

I'm a young producer located in eastern Custer County, NE. We operate on hills, flat bottoms to canyons and open meadows. We have a cow-calf operation where we wean and feed to 900# and then sell, while finishing 200 head a year.

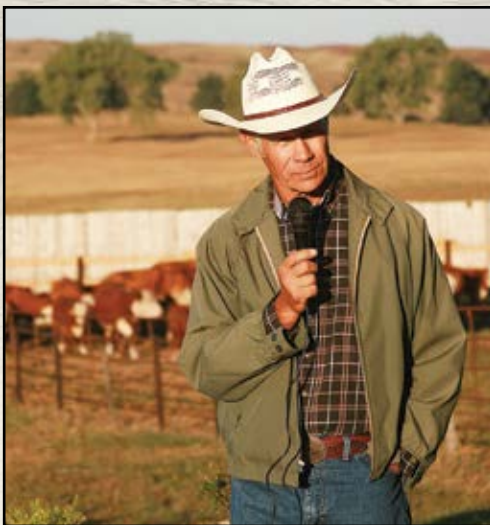

I have increased my weaning weights by an average of a couple hundred pounds since using Ridder bulls while selling 2 months earlier! My Baldy calves out of Ridder Bulls came off feed an average of 250# heavier than straight black calves that were bred the same time, calved the same time, and fed similarly to mine.

Bruce, Deb & Ammie Murray
20 Mile Creek Ranch
Lost Springs, WY

We found the Ridders on a Stockshow Confidential episode, filmed when they were showing their 2015 Carload of Spring Bulls at the National Western Stock Show in Denver. I decided we had to see those cattle. We've been buying Bulls from them ever since.

We are 5th generation commercial Hereford breeders. We're experiencing severe drought in eastern Wyoming. But we love Ridder Herefords because they get the job done.

115 years & 50 years

Ridders have been ranching west of Callaway since 1907, the year Theodore and Elizabeth Ridder moved their family and livestock from northeastern Nebraska.

The following year, 1908, Grandpa Ridder purchased his first Hereford Herd Sire - Rector. According to former American Hereford Association executive Bud Snidow, Rector was a dominant Sire line at the time.

John's dad Paul took over the ranch in the 1940's, becoming the second generation to exhibit carload Bulls at the National Western in Denver. John graduated from Colorado State University in 1971, and one year later took over running the ranch upon the death of his dad.

Fifty years is a long time, and yet it passes ever so swiftly. John continued taking Carload Bulls to Denver, winning Grand Champion Bull with his home-raised Metric in 1982, built a sale barn and started an annual sale at the ranch, hosted numerous ranch tours, introduced Canadian genetics in 1989 to the Line 1 genetics he had already introduced in 1973, and kept on improving his herd in order to best serve our customers.

We now take a moment to look back at all the changes over the last 50 years, and to express our thanks to all who have walked with us. Hats off to Herefords and the people who utilize their great traits!
