## Hereford Ranch

**Annual Sale - at the ranch**  
**THURSDAY, JAN. 30, 2025**  
**1:00 PM (CST) — CALLAWAY, NE**

from Callaway: 6 miles west on Hwy 40  
to red ranch sign, then 2 1/4 miles north

Register to bid online through:

**The Livestock Link**  
Livestock Videoing • Video Sales  
• Bid-by-Click Online Sales  
To view events go to: [www.TheLivestockLink.com](http://www.TheLivestockLink.com)

### Selling:

- **100 Bulls** - two-year-olds and yearlings. All bulls noted for high Carcass Traits and Calving Ease.
- **60 Heifers** - All heifers noted for high Carcass Traits.

### AUCTIONEER:

Lander Nicodemus .....307/421-8141

### LIVESTOCK REPRESENTATIVES:

Aaron Friedt, American Hereford Assn .....701/590-9597  
Cody Nye, Tri-State Livestock News .....308/760-8588  
Ty Groshans, Western Livestock Journal .....970/818-6016  
Alan Sears, Western Ag Reporter.....970/396-7521  
Art Handel, Handel Marketing.....605/391-8233  
Marc Hotchkiss, Hereford America.....605/210-1956

### VETERINARIAN:

Russ Rice, DVM, Rice Vet Service.....308/870-6761  
Siera Rush, DVM, Rice Vet Service .....308/212-0556

### ACCOMMODATIONS:

Motel 4, Callaway .....308/836-2226  
Winsome Inn & Suites, Arnold.....308/848-2462

### AIRPORTS:

4,200' paved landing strip at Broken Bow.  
Commercial service: North Platte, Kearney & Grand Island

### QUESTIONS or help with choosing bulls or heifers:

Contact us or any of our sale representatives.

### BULL BREEDING GUARANTEE:

We guarantee the first 60-day breeding season. In the event an adjustment is necessary, it will be made with a suitable replacement or credit in the next Ridder sale. No adjustments after 6 months.

### SELF-HAUL REBATE:

\$100 rebate on bull & \$20 on heifer purchase prices if hauled sale day or picked up within one week. Buyers hauling out-of-state – we'll pay your fuel cost above \$100 on your trip home.

### DELIVERY:

Free Bull delivery on purchases of \$5,000 or more to one buyer at one location within a 250 mile radius if Ridders make the delivery. We will cooperate on further distances.

### INSURANCE:

We offer to pay 1/2 of your insurance premium on any Bull purchases you make. You pay 2%, we pay 2% for a 6 month policy. For a 1 year policy, your share is 4%. We highly recommend this. The self-haul rebate goes a long way to paying for your insurance.

### HEALTH:

All cattle are sold in good health and breeding condition on sale day. 2-yr-old Bulls: poured with Dectomax, semen tested, and scrotal and pelvic measured. Buyer will receive semen papers after the sale. Yearling Bulls: buyers have option to leave your purchases for us to semen test and tip horns as soon as possible. Heifers: bangs vaccinated, have not been exposed to a bull, and ready to go to any state.

EPDs current as of 12/16/2024

*Every effort has been made to produce a mistake-free catalog. Announcements from the block will trump catalog notes.*

 308.836.4430 office / 402.450.0431 cell  
 mailbag@RidderRanch.com  
 www.RidderRanch.com

### ***RANCH DIRECTIONS:***

From Callaway: 6 miles west on Hwy 40 to our red ranch sign, then 2 1/4 miles north.  
 60 miles northeast of North Platte, 70 miles northwest of Kearney, 30 miles southwest of Broken Bow, 140 miles southeast of Valentine.

### ***GALVING EASE***

We've ranked our bulls as follows:

- ★★★ Foolproof
- ★★ Extremely desirable
- ★ Recommended

This year all of our 14 yearling bulls are ease of birth specialists,  
 And all of our 75 older bulls have calving ease plus - for mature cows and 1st calf service!

These rankings are based on the actual birth weight of the animal, his dam's overall birth weights on her calves and other physical and data driven information. We feel confident in making these recommendations and in your knowledge of your cows and heifers

The averages of our Actual BW for:

- 3 ★ is 74.4 pounds
  - 2 ★ is 79.8 pounds
  - 1 ★ is 84.3 pounds
- Very good to compare to any breed!

### **Dams of Distinction / GrandDams of Distinction:**

Every year the American Hereford Association announces its Dams of Distinction. To be a DOD, a cow must calve as a two-year-old, have produced at least three calves, have superior calving intervals and have progeny with an average 205-day adjusted weaning weight ratio of at least 105. DOD's and GrandDOD's go deep in our cow herd. This year we were ranked #10 on the U.S. list with 23 DOD cows.

### **We provide:**

- ★ BW, WW and YW performance weights.
- ★ BW, WW, YW, Milk, REA and IMF EPDs.
- ★ Calving Ease ratings (see below left).
- ★ Carcass information including numbers and ratings (see below).
- ★ Dam's MPPA.

### **Supplement sheet on Sale Day will include:**

- ★ Sale Day weights on all cattle.
- ★ Scrotal & Pelvic measurements on all bulls.

### ***CARCASS RATING***

- ★★★★★ Top of the Breed (top 20%)  
Most genetic improvement attainable.
- ★★★★ Breed Leader (second 20%)  
Provide excellent genetic improvement.
- ★★★ Excellent (third 20%)  
Good genetic improvement.
- ★★ Good (fourth 20%)  
Average for all ultrasound Hereford cattle, thus upper part of the breed.
- ★ Acceptable  
Herefords that still rank above U.S. beef population for carcass value.

## **HELLO GATTELEMEN AND WOMEN-**

What a great time to be in the cattle business! Calf prices are excellent which means it is an opportunity to replace herd sires and get young females into your herd.

Here's our 2025 message to our customers and potential customers about our philosophy of raising cattle:

- **Fertility** - Herefords have always been known for it. Your cattle need to breed, get bred, and stay bred all the way through calving and on to weaning a healthy calf. That is critical to us and we know it is critical to you. So we select for what makes those things happen.

- **Calving ease** - this is not the same as light birth weight. Lots of people talk about heifer bulls and light BW calves. Who wants a little calf and a cowherd whose pelvic size keeps getting smaller and smaller? When you select for light birth weight, you can decrease pelvic size. We want a reasonable sized calf that can be calved through the dam's pelvic space, and that means paying attention to the shape of the sire and the history of the dam. We provide Calving Ease/CE ratings on our sale Bulls to assist you in making choices that are right for your herd.

- **Carcass traits** - IMF/marbling AND REA/ribeye area have been a focus of ours for some time. Our sale catalog rates these. All of our cattle are above breed average. We'll keep working on them but we are pleased with how our cattle are doing. So much of what appears in our catalog are numbers. Performance numbers which are actual or adjusted weights. EPD/expected progeny difference numbers which are guesses based on guesses of sire and dam, etc. There is something to them but don't bet the farm, or ranch, on them. The bullet points above (fertility, CE) and below (disposition, growth, stayability) are incredibly important and potentially more dependable and profitable.

- **Temperament/disposition** - Herefords are also known for this, and I would add blessed with this. The more years we all work on our ranches, we know that temperament is important not just to those doing the work, but to the financial outcome of those animals. We've been spoiled with being able to raise our kids, and now grandkids, around our Hereford cattle.

- **Growth/pounds** - ultimately we're selling pounds of beef. So weaning weights or yearling weights are important in your operation. We pay attention to this and select Herd Sires with this in mind.

- **Travelability/Stayability** - not spoken about enough. Red Angus were the first breed I believe to create a stayability EPD. Turnover of sires and cows too soon is expensive. We have a lot of double digit aged cows in our herd and it's not just for sentimental or comparison reasons, although there may be some of that, too. How your cattle move and how long they stay is important for both of us.

You're always welcome at our ranch, and we look forward to working with you January 30th!

Sincerely,

*John & Mary Ridder and Family*

### **MPPA - Most Probable Producing Ability**

Measures individual performance, plus the Dam's and Grandam's progeny. A good predictor of how an animal will produce. A 100 MPPA means she is on average for this herd only - she is above average for the breed. These numbers will always be above and below 100 - even in very high performance herds.

### **Calving Ease - CE**

After pelvic measuring our Heifers for a few decades, we learned you can have a good-sized, vigorous calf and NO calving problems by paying attention to the shape of the Sire, particularly his head and shoulder shape. You do not have to downsize your cattle to achieve CE. That's why many of our customers trust our Calving Ease and actual birth weights.

We recommend our 1-, 2- and 3-Star Bulls for first service based on several factors including their sire, their dam and their own BW plus their BW ratios on their progeny. ANY of these Bulls can be used all sizes of cows.

**Other numbers we provide you:** actual Birth Weights, Weaning Weights and Yearling Weights. It can be a challenge to consider all of these along with the Bull or Heifer standing in front of you. Using our Calving Ease and carcass ratings, and the MPPA # is useful along with how we categorize carcass by 5 ranges for REA & IMF, not just predictive EPD #'s.
